WOOD'S HAIR RESTORATIVE.

PRESERVATION OF THE HAIR.—In all ages and among almost all tribes of men, a beautiful head of hair has been, and still is, regarded as the fairest ornament of the fairest works of the Creator. The patrician dames and damsels of ancient and modern Rome bestowed that attention upon the hair which has added the crowning beauty to the chef d'aeure of the sculptor and the painter, and no lady, and indeed no gentleman of modern times is unmindful of this exquisite shield and lovely ornament of the face. To retain beauty it is the finishing touch; to manhood it is the symbol and warrant of strength and nobility, today as in the days of the patriarchs; indeed such it always had been and always will be.

But unable as we are to withstand the ills of time and life, it often happens that through disease and misfortune we become grey in early life, and bald before we reach the full grace of womanhood or the full stature of manhood.—Then it is that however much we may venerate the grey locks and reverence the wisdom of bald heads among the honored remnants of the generation of three score and ten, we know that our grey hairs are no more venerable than beautiful; while our bald heads are neither the one nor the other, but, on the contrary, are quite the reverse of both and impose upon the many social and sanitary disadvantages and discomforts.

Sold by all Druggists.

WE WISH TO SAY TO EVERY PERSON Who reads this that there is an article known as "Dr Sanford's Invigorator or Liver Remedy," which can be relied on as certain to cure liver complaint in any of its forms, such as Costiveness, Dyspepsia, and numerous other complaints, described in another column, besides which it is one of the greatest preparations or cures for consumption, taken in early stages, that is now known.

We take it for granted, as experiment has proven, that diseases of the lungs are not generally the first cause of consumption, but a debilitate system, caused by the improper action of the liver, reduces the power of the lungs to resist or throw off diseases engendering cold and irritation, leaving the lungs at the mercy of one disease, because the liver has incapacitated them from performing their proper action of throwing off diseased matter caused by cold, thus to prevent consumption, cure the liver, and keep the system strong enough to throw off slight diseases of the lungs.

There is not in the world a better liver remedy or acure for debilitated system, than "Dr. Sanford's Invigorator," for it has been fully tried in a large and extended practice, till its results are fully known and now it is offered as a tried remedy, and one that can be relied on.

MOTHERS! MOTHERS!! MOTHERS!!!

AN OLD NURSE FOR CHILDREN.

DON'T fail to procure MRS. Winslow's Soothing Syrup for Children Teething. It has no equal on Earth. No mother who has ever tried Mrs. Winslow's SOOTHING SYRUP for Children will ever consent to let her child pass through the distressing and critical period of teething without the aid of this invaluable preparation. If life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of Bottles of MRS. WINSLOW'S SOOTHING SYRUP are sold every year in the United States. It is an old and well tried remedy.—None genuine unless the fac simile of "Curtis & Perkins" is on the outside wrapper.

PRICE ONLY 25 CENTS A BOTTLE.

Sold by DAVID KIMBALL, No. 36 Market Street and by Druggists generally. july21d&wly

FUN.—The editor of the Charlestown Advertiser is bound to have some fun, no matter at whose expense. Respecting the late Massachusetts election, in which he went for Gardner, he says:

We were not among Mr. Banks' supporters in this campaign, though we were proud to be in past times: on this occasion the wave of his popularity has rolled onward, and left us high and dry with the *Beach*, and no object in sight save a solitary *Swan*,* with scarcely a feather on his body, an incarnation of truth—*naked.*

However, the old saying is a very true one, that there is no use in crying for spilt milk; it is always best to wear a cheerful countenance, and as Longfellow says,

"——be up and doing,
With a heart for every fate,
Still achieving, still pursuing,
Learn to labor, and to wait."

"Wait for the wagon" the poet probably had in his mind, but the axle of that famous vehicle had become somewhat worn with three great journeys over the commonwealth, and on this fourth and last hitch, unfortunately broke down. That celebrated Berkshire train came in with flying colors, the wounded of 1855 all recovered from their bruises, and smiling as they survey the glorious old wagon overturned beside the railroad track, and the artillery horses dashing off with flying traces, and the pole all smashed to pieces.

DEATHS IN PORTSMOUTH.—The record of mortality in this city for October is rather larger than usual. The total number of deaths was fifteen.

Males three—aged 18, 63, 86.

Females twelve—aged 2 mos., 3 mos., 7 mos., 9 years, 24, 28, 49, 49, 55, 56, 67, 80.

☞ Information is wanted of Michael McCarthy, aged 22 years, of light complexion and hair, who left Portsmouth on the 10th of July last, stopped one night on the farm of Col. J. W. Pierce, of Greenland, and has not been heard of since. Any tidings concerning him will be thankfully received by his mother, Mrs. Mary McCarthy, No. 4 Hancock St., Portsmouth, N. H.

INSURANCE.—Mr. Thomas Neil has received the agency of various sound and reliable Fire & Marine Insurance Cos., (a list of which will be seen in our advertising columns this morning,) and has taken a desk in the Chronicle Counting-room, where he may henceforth be found, ready to transact any business in the Insurance line. Mr. Neil is well known in this community, as an accurate and reliable business man, and worthy the confidence of the public. It is better for the risks in any city to be taken by a number of companies; and we believe those represented by him have few or no policies here.

KNAPP'S PATENT LAMP,—*for Burning Rosin Oil.*—The proprietors of this Lamp take pleasure in announcing to the citizens of Portsmouth, that they can enjoy the pleasure of a beautiful and brilliant light, without the slightest danger from explosion. The Rosin Oil contains no explosive qualities—is in all respects superior to Oil, Camphene or Burning Fluid,—perfectly safe, and at the same time cheaper than other light; costing but one-third of a cent per hour, giving a light equal to a common sized gas-burner.

The above Lamps can be seen in operation at the stores of Charles T. Emery and George N. Carleton.

W. H. Hathorne, general agent for the State, and for the sale of rights, is in this city for a day or two.

WASHINGTON, Nov. 5.—Brigham Young, in a communication to the Indian Bureau, says if he is to have direction of Indian affairs, and expected to maintain friendly relations with the Indians, he would suggest to travellers to omit the infamous practice of shooting them when they happen to see one; hence it is rational that they wreak vengeance. The government should make more liberal presents. He has proven that it is far cheaper to feed and clothe the Indians than to fight them. When the fighting is over, it is always followed by extensive presents, which, if properly distributed in the first place, might have averted the fight. The troops must be kept away.

It is a prevalent fact, that wherever the most of these are, we may expect to find the greatest amount of hostile Indians and the least security of person. If these items are complied with, he has no hesitation in saying that, so far as Utah is concerned, no Indian would molest the property or persons of travellers. He says the department has often manifested its approval of his management of Indian affairs, and never its disapproval, and asks why he should be subjected to such annoyances in regard to the funds for paying his expenses. Why deny his salary, and why should appropriations made for the benefit of Indians of Utah be retained in the Treasury, and individuals left unpaid? He concludes by saying:—"These are questions I leave for you to consider at your leisure, and in the meanwhile I submit to such a course in relation thereto as you shall see fit to direct."

MINNESOTA ELECTION.—All the counties have been heard from on Governor, except Pembina. The returns foot up as follows: Ramsey, Republican, 18,110; Sibley, Democrat, 17,225; Ramsey's majority 885.

The St. Paul Times of Oct. 28 says that Ramsey is certainly elected, and that the Democracy *dare* not forge a majority from Pembina large enough to overcome the Republican majority in the other parts of the territory. The Legislature will be close, and probably Republican. If the palpable frauds in a number of counties, in the way of ballot box stuffing and Indian voting, can be purged from the returns, the Republicans will have the Legislature and the whole State ticket. They have not been beaten at the polls, but simply *swindled* to an outrageous extent, which should not be submitted to. Minnesota is clearly Republican on a fair trial of strength.—*Chicago Tribune.*

ORDERED.—Capt. George N. Hollins, U. S. Navy, has been ordered to succeed Capt. Tattnall in the command of the U. S. Naval Station at Sackett's Harbor, N. Y., where it will be remembered there continues to be on the stocks the U. S. 80-gun ship New Orleans—unfinished—her completion having been arrested by the treaty by which England and the United States stipulated not to place in commission on the lakes any ship of war over a certain size. Capt. Tattnall sailed a few days since from Boston for this new station as flag officer of the East India squadron.—*Washington Star.*

NEW ORLEANS, Nov. 4.—At the election in this State on Monday, the whole Democratic State ticket was elected. The members of Congress elected are 'Miles Taylor, anti-Slidell Dem.; Geo. Eustis, Amer., reelected. In the other two districts, two Slidell democrats are probably elected. The Legislature is Democratic.

There was a large sale to-day of sterling bills at 10 per cent. discount. Smaller amounts were sold at 5 per cent. discount.

The Citizens' Bank has resumed specie payment to-day. Considerable specie came in yesterday, and all its engagements have been met. Business affairs look brighter.

A fire occurred at Brownsville, Texas, on the night of the 16th ult. Nearly five kegs of gunpowder exploded, killing four persons and injuring several others. Loss $280,000.

WISCONSIN ELECTION.—*Milwaukie, Nov. 5.*—The Daily Wisconsin of this evening says the returns come in favorable to Randall, the Republican candidate, who is undoubtedly elected by 5000 majority. The Democratic majority last year in this county is diminished 1000 votes this year. The Republicans have a majority in both branches of the Legislature.

The returns from Wisconsin come in very slowly. Those received indicate the election of Randall, (Rep.) Governor, by from 3000 to 5000 majority.

HURRICANE IN OHIO.—*Cincinnati, Nov. 5.* A terrible hurricane was experienced a mile north of Frankfort, Ohio, on the Marietta and Cincinnati Railroad this morning, destroying houses, barns and fences. A two story dwelling house was completely prostrated, and 8 to 10 persons seriously injured, two of them it is thought cannot recover.

ELECTION IN NEW YORK STATE.—*Albany, Nov. 5.*—The Journal claims eighteen Republican Senators. They consider the Assembly in doubt, but figure out a small majority against the Democrats. They concede the State to the Democrats by 10,000 majority.

A CLERGYMAN STABBED.—*Biddeford, Me., Nov. 5th.*—The Rev. Mr. P. Merril was knocked down and stabbed in four places in one of the principal streets of the village before eight o'clock this evening. The extent of his injuries is not yet ascertained.—The assassins have not yet been arrested.

LARGE ARRIVALS OF WHEAT FROM THE WEST.—*Buffalo, Nov. 5.*—Forty-seven vessels, with about 500,000 bushels of wheat, are now afloat from the upper lake ports for Oswego.

ST. LOUIS, Nov. 5.—The bank relief bill has passed the Senate without amendment by a majority of eleven.

A straight republican friend, looking over the Massachusetts election returns, after coming to the footing up for his candidate, fervidly exclaimed, "*I Swan.*"—*Charlestown Adv.*

The Great English Remedy.
SIR JAMES CLARKE'S
Celebrated Female Pills.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Cold Winter is Coming on.

AND with it will return the usual concomitants, a Cough, Colds, Dyspepsia, Scorbutic Eruptions, Sick Headache, Rheumatism, Tetter, Ring Worm, &c., which the genial warmth of summer and free perspiration has, for a time relieved, but which the return of rigid, cheerless winter, will bring back, unless resisted by some medicamentum.

MYER'S EXTRACT OF ROCK ROSE,

is peculiarly applicable, and if freely used will not fail to protect the constitution against the sudden and extreme changes of our variable climate. It purifies the blood, strengthens the stomach, and invigorates the whole system, thus fortifying against the insidious attacks of unusual frosts and debilitating heats. See Circular.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,
Late Agent of U. S. Patent Office, Washington, under the Act of 1837.

No. 76 State st, opp. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed in the shortest time and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that more MONEY SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved to inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had as much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

August 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the practice and rules of action of the Office, and regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner, for the interests of parties at a distance being as well protected as if they were present. The Managers respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the Legislature of that State, in granting Swan & Co. are authorized by the Legislature of that State. A Lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the business is finished. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2 50; without halves or quarters the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. Schemes of the drawings sent to anyally the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result drawing forwarded to the successful parties.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following newspapers: New Orleans *Delta*, *Picayune*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Dey Book*. Address all orders plainly, and direct to S. SWAN & Co., Augusta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18ly

LOTTERIES.

The well-known and long established Lotteries, of which R. FRANCE & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, to sit and swear to, superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing in the place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100 00. All orders for tickets or for drawings will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawings in the lotteries of the Maryland Literary and Scientific Union, of Washington, D.C. are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, and Union of Washington, D.C.; also, the National Intelligencer, and Baltimore; also, the National Union, of Baltimore; also, the Baltimore Argus, and Baltimore American.

TO THE GREATEST AGE.

AND who that is gray would not have it restored to former color; or bald, but would have the growth restored; or troubled with dandruff and itching but would have it removed, or troubled with scrofula, scald head, or other eruptions or with sick headache, (neuralgia) but would be cured. It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following.

ANN ARBOR, November 5th, 1856.

PROF. O. J. WOOD—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the same category with the one thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months since. When you gave me such assurance as induced the trial of your Restorative in my family—first, by my good wife, whose hair had become very thin, and entirely white; and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continued to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore my skepticism and doubts in reference to its character and value are utterly removed; and I can and do most cordially and confidentially recommend its use by all who would have their hair restored from white or gray, (by reason of sickness or age) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.

Very truly and gratefully yours,
SOLOMON MANN.

FRIEND WOOD: It was a long time after I saw you at Hillsfield before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the worst test of its power. It has done all that you assured me it would do; and others of my family and friends having witnessed its effects, are now using it. They other than the public are not entitled to the highest consideration you claim for it.

Again, very respectfully and truly, yours,
SOLOMON MANN.

CARLYLE, ILL., June 28, 1852.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its effects. My hair was becoming very thin, premature gray, but by the use of his Restorative it has restored its original color, and I have no doubt permanently so.

GEORGIA LOTTERIES.

THE Lotteries of ANDERSON & SON, are chartered by the State of Georgia, and have commissioners appointed by the people, to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawings. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Georgia, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing in the place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100 00. All orders for tickets or for drawings will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawings in the lotteries of the State of Georgia are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, and Union of Augusta, and Baltimore; also, the National Intelligencer, and Baltimore; also, the National Union, of Baltimore; also, the Baltimore Argus, and Baltimore American.

STOVES.

Frank Jones, No. 61 Market St.,

HAVING received his Winter Stock of Stoves, is now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:

IMPROVED EMPIRE STATE,

This celebrated Cooking Stove having been in the market many years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.

THE WHITE MOUNTAIN IMPROVED,

being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.

THE REPUBLIC.

This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.

All sizes on hand, and every Stove warranted.

Also on hand all the different kinds of the most approved patterns; among which are the

BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.

Repairing Pieces of all kinds on hand.

The attention of all those who are about purchasing the Cooking Stoves, is invited, for we are determined not to be under sold.

Our stock of

PARLOR STOVES

is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the

ILION, VILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,

OVEN PARLORS in great variety for wood or coal. SHEET IRON STOVES of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different Patterns.

The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.

Remember the place to buy cheap is at
No. 61 Market Street.
FRANK JONES.

Magee's Patent Ventilating Stove.

FOR WARMING AND VENTILATING

PARLORS, OFFICES, HALLS, STORES, SCHOOL HOUSES, &c.

WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give

Any amount of Heat required,

and unlike all other Anth acite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and as none of the air which comes in contact with the fire put in used for respiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.

These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them.

For Offices and Stores as well as the Parlor.

The Inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to rekindle without the use of charcoal. The cost is small, and no kindlers made, consequently, sifting coal is dispensed with. When this Stove is properly managed,

THE FIRE MAY BE CONTINUED THROUGH THE ENTIRE SEASON,

without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 30 to 50 per cent, in fuel expense.

MARRIAGE GUIDE.

BY DR. WM. YOUNG

YOUNG'S GREAT PHYSIOLOGICAL WORK.—THE POCKET ESCULAPIUS, or *Every One His Own Doctor*, by WM. YOUNG, M. D. It is written in plain language for the general reader, and illustrated with upwards of one hundred Engravings. All young married people, or those contemplating marriage, and having the first impulse of the married life, should read this book. It discloses secrets that every one should be acquainted with. Still it is a book that must be kept locked up, and not lie about the house. It is a book for reflection, and is worth its weight in fine gold. Address Dr WM. YOUNG, No. 152 SPRUCE street, above Fourth, Philadelphia.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience.

THIS celebrated female medicine is one of the best preparations ever offered to the public. It is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from cold, fright, or from any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature, and wherever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affection in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called "the WHITES." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from any thing injurious to the health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

S. D. & H. W. Smith,
—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,
No. 511 Washington St., Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most skillful workmen. In short, we will promise our customers an Instrument equal, if not superior, to any Manufacturer, and guarantee an article of perfect satisfaction.

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,
who have examined our Instruments, and will give their opinion when called upon:
Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

Remedy for Worms.

THE diseases of children are often so complicated that it is difficult to ascertain the true nature of their complaint. In a large majority of instances the cause may be traced to the existence of WORMS—the prominent symptoms of which are, paleness of the countenance, loss of or irregular appetite, starting up and crying out in their sleep, picking at the nose, great thirst, a wasting away of the flesh, &c. These symptoms should be early attended to, as by neglect it often terminates in disease of the brain.

PRESTON'S WORM SYRUP

is the most effectual remedy ever used. It is pleasant to the taste, perfectly harmless, and is warranted in every case to give satisfactory results.

MOSES & DOWNIE.

SOLE Agents for the above Goods, have on hand a large Stock of the same, suitable for shore and sea wear.

These fabrics, since their first introduction to the public, (almost three years since,) have been fully tested, and the result has proved them to possess all the qualities requisite to make a perfect article. They have on hand numerous testimonials from gentlemen in the navy and merchant service, which they would be pleased to show any one who would favor them with a call. They have been supplying some of the officers of the Falmouth, who have tested the Rubber goods, and found them unfit for sea service.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: STARVES INFLAMMATION, wherever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every form of *inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids of the system. Like the vaccine matter, it requires merely what adheres to the point of a pin, will dipped into a solution of it, to affect the entire system.

☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be judge.*

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk Railroad Spikes

ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the common spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

DIFFERENT VIEWS.

The Portland Argus attempts a sneer at the result of the Massachusetts election. It says:

By the strenuous efforts of his friends, therefore, and by the kindness and forbearance of his opponents, Banks has been able to keep the vote of his party up to within 68,000 of its strength at the previous trial. His friends are doubtless glad to come off so. * * * * They can but see that their opponents permit the "party to live" only because they have it entirely in their power, just as the cut [*Que? Cat?*] extends the lease of life to its victim, until it suits her appetite to make fresh meat of him.

This sort of talk will do for the readers of the Argus, 100 miles from Boston. But the Boston Post, on the spot, views the matter differently, and in the following paragraph concedes the victory, and rightly interprets its significance and importance. It says:

Yesterday the free soil element, without coalition with other parties, under its own leaders, and these mainly the very agitators who have labored in this cause since 1848, triumphed in Massachusetts. Heretofore, when this party or element, fought under its own colors, it has commanded but about one-third of the vote of the State; yesterday, it took a plurality, and the governor elect is Nath'l P. Banks.—This result, if we read the signs aright, will have a more important bearing on local politics, and perhaps on national politics, than any election which has occurred in this State for years.

This looks as if Mr. Cushing's crushing machine had not exactly destroyed all love of freedom in the old Bay State.

The Newburyport Herald says, speaking of the Republicans:

There appears to be no doubt that in a fair contest, to-day, they would carry every State they did last year, and by quite as large majorities. If the parties can be reduced to two, with the additional States that will be admitted before 1860, they will be in a position to stoutly contest the next Presidency.

IMPORTANT POLITICAL CONSIDERATION.—It is of first-rate importance to a political party, that it dispense its honors and emoluments strictly *according to merit*, having as much care not to bestow too much, as not to accord too little, but wisely proportioning its favors to the capacity of the recipient to *bear* them. For, if a party does more for a man than his Maker has done for him, his head turns, his stomach sours, and he *spoils*. Scan the list of renegades from the democratic party, and examples of this truth will be found in abundance.—We need not mention the names of such in this State, for they are too numerous and conspicuous not to occur to every one.

We think the present time, when the Democracy is everywhere proudly marching into the ascendancy over the remains of a whipped and decaying opposition, a fitting occasion to suggest this rule to our party, as one to which it will be well to give more attention in the future, than it has done in the past. The vinegar which it has made by this over-sweetening process is now with the opposition. Let it there remain in fitting congeniality; but hereafter let us take good care that the manufacture cease.—*Portland Argus.*

Good reader, don't laugh: but let us look at the figures of speech. Here is a triumphant army—marching over its decaying enemies—but *presto, change*, some of its own soldiers, nay, officers, being too much *sweetened*, have turned, not into corpses, but into *vinegar*, and are now in their acid and liquid form, running down among these decaying enemies, making them, we suppose, dreadfully sour, a stench in the nostrils of the Argus.—Wherefore, quoth he of the hundred eyes, let the vinegar stay there, among the decaying remains. [Well, says Uncle Toby, it is best to let it be.] But says the Argus, "hereafter let us take good care" to make no more such vinegar! [Yes, saith Uncle Toby, this is excellent advice. Verily, if you have any small beer politicians, don't sweeten 'em too much, nor sweeten too many of 'em, for if you do, we may have a dreadful pot of pickles next summer, when this spoilt vinegar gets a-working, down into the opposition.]

A REMARKABLE TESTIMONY.—The Tablet, a Roman Catholic newspaper published in New York, makes a striking confession of the decline of Romanism in the United States. It says:

Few insurance companies, we venture to assert, would take a risk on the national life of a creed which puts five hundred into the grave for one that it wins over to its communion. And yet this is what Catholicity is doing in these States while we write.

Two millions of Catholics have emigrated to the United States since 1850, and the increase of "the church" is thought to be 500,000 less than that number.

☞ The farmers of Canada have almost universally kept back the crops from market, in the hope of better prices. Meantime, in consequence of the scarcity of money, the prices have declined.

ADVANTAGES OF HARD TIMES.

The rapidly declining prices of the necessaries of life are furnishing arguments for the utility of a season of want, which were scarcely hinted at by the ablest economist two months ago. Already has flour fallen to a rate hardly exceeded in times of greater opulence and plenty. Wood, too, is not so high as it was last season; Indian corn is lowering, and every else must experience a like fate. In spite of the dishonest tricks of speculators and the prevailing scarcity of money, those articles which are conducive to ease and comfort, will soon fall within the means of every industrious man. It cannot well be otherwise. For those who have been withholding the usual supplies from the markets, for the purpose of speculation, are now driven by necessity to exchange their own possessions for the medium of trade, and this at a reduced rate, lest exorbitancy give rise to competition and thus deprive them of a fair compensation.

Strange as it may seem upon a superficial view, hard times are productive of a benefit to society, and effect changes which could be brought about by no other agency. Nor will it be a difficult task to show that they are not only the mother of plenty, but the precursor of greater industry and frugality. There are many farmers in the community, who, while they consume the products of the manufacturer, raise from their lands but little more than is needed in their own families. In addition to the impolicy which a course like this evinces in the farmers themselves, it leaves but few competitors in the field; and the less the competition the greater the prices. Now the manufacturer cannot afford to give eight shillings for corn, while he receives but low amends for the fruits of his own industry; and in order to make his business pay, he is obliged to increase the price of his cloths, &c., as the cost of provisions is advanced by the producers. But the evil does not stop here. Such a rivalry between opposite interests demands the circulation of a vast amount of money, and unless the country abounds in rich banking institutions, suspensions of payments and bankruptcy must inevitably be the consequence.

And here the calamity attains its highest pitch. For no sooner do the farmers discover that they are paying more for cloth and beef than it would cost to fabricate the one and raise the other, than they set about the development of those resources which have hitherto lain idle and forgotten. Acres that have remained unbroken from the dawn of creation, are brought into a state of decent cultivation; the pastures are made to abound with flocks and herds, and the spinning-wheel is brought from its retreat and operated with redoubled zeal. Soon the farmer finds himself in circumstances of ease and competence. The sources of his wealth and maintenance are within his own power, and he has established himself upon a basis well calculated to withstand the most severe shocks of adverse fortunes.

If these reasonings be well-grounded, is it not evident that hard times can never be of long duration, and that they are the direct cause of an increase of wealth and power? Though a seeming grievance, they are the very root of prosperity. New fields for labor and exertion are discovered, new marts for trading established, and new means for acquiring a livelihood hit upon. Men are roused from their lethargy as from a fairy dream, and immediately look about for something to do; for to think of living in hard times without working, is a species of insanity of which few of us would be guilty.

Again: a season of scarcity is beneficial as it serves to moderate our indulgence of frivolous amusements, and prompts us to lop off the various expenditures occasioned by vanity and pride of show. There is a class of individuals, who, as long as money is plenty, will labor just enough to keep before the wind, and, regardless of the future, spend the burden of their earnings in foolish and unwholesome pastimes; they exercise no control over their desires, in matters of pleasure, and seem to act upon the principle,—"let us eat, drink, and be merry, for to-morrow we die." The tendency of such a course is obvious; every inventor of diversions for brainless idlers is encouraged, every artifice for inflaming the appetites tolerated, and every vestige of true manhood regarded with contempt. Thus, while a blow is struck at the very root of just and sound regulations in the community, vice is brought into comparative estimation and respect.

The stringency of want changes the scales. When grim necessity threatens the overthrow of ease and comfort, people no longer think of squandering the fruits of industry for the useless gratifications. Few luxuries will be purchased with the dollar that is obtained by hard labor at the blacksmith's forge or the carpenter's bench. It is only when money comes easy that it goes easy. He who is obliged to toil from sun to sun to support himself and family, will be very likely to spend his evenings in the sober study of economy, rather than in the carousals of the bar-room or the gaming-saloon. And, when the people are once guided into the path of prudence by the dictates of reason, they will follow them from sentiments of choice. T. K. A.

COMMENDABLE.—A correspondent of the Boston Post reports Mr. Henry Willis as one of the Representatives elect from Roxbury. In reply to a call upon him on the night of the election, he said his accommodations were not sufficient to entertain so many friends; therefore, as the times were hard, he should propose to put into the hands of the city missionary, for the benefit of the poor, the sum of one hundred dollars. This was received with renewed cheers, and the procession then proceeded to the residence of Hon. Samuel Walker, the other democratic representative elect, who came forward and said he had just learned of the wise course pursued by his colleague, and should gladly follow his example by drawing his check for a like sum, to be given to the poor. These examples, the writer adds, "are worthy of notice, and every citizen will be pleased to see it adopted rather than pursue the old custom of entertaining friends with refreshments, at a great cost."

Amen! says Uncle Toby, especially when the refreshments were chiefly the drunkard's drink.

The election in New York city passed off very quietly, this year. There was only one fight of any consequence, the origin of which is related by the Evening Post as follows:—

"The fight in Mulberry street arose from the fact that an Irishman, supposed to be sound in the faith of St. Tammany, came upon the ground with Republican tickets, and went to work industriously in their circulation. This was a thing almost unprecedented. A year ago it was not safe for a man to be seen at that poll with a Republican ticket; and the 'unterrified' were determined not to permit it now.—Accordingly a number attacked him; but after the leader was arrested, he shook his fist in triumph and exclaimed—'Ah, be jabers, I'll barn ye the worst now,' and wont to work again."

FROM TEXAS.—The dates from Galveston are to the 7th ult.

The crops in San Augustine and Sabine counties were excellent. The cotton crop was later than usual. Below several vessels were loading with cotton, to go direct to European ports. A careful estimate of the cane crops in Brazoria county shows that 3085 hhds. of sugar and 6000 bbls. of molasses have been manufactured from it.—The cotton crop promises more than the average.

At Houston, Oct. 28th, acres of cotton bales were piled up in the town, and the warehouses were filled to overflowing. The general disposition is to ship it direct to Liverpool.

☞ A correspondent of the New York Journal of Commerce states, on what he avers is entirely reliable authority,—that the high rate of interest ruling in London has brought large amounts of money from the country, seeking investment, and that money in the street there is easily obtained.

☞ The proprietors of the daily papers in Buffalo, with the exception of the Times, having notified their compositors that their wages would be reduced twenty per cent., the compositors held a meeting and refused to work at reduced rates. The Republic afterwards reconsidered its action and promised full prices. The Express, Courier and Commercial still hold out.

☞ The Stamford (Conn.) Advocate contains a notice from Matthew Hale Smith, stating that Mrs. Cunningham has not been a guest of his, and that he is not her legal counsel. The editor of the Advocate apologizes for the error into which some one had led him, but says he does not know whether the apology is due to the gentleman or the lady.

☞ There is no doubt that young Sutherland, who was wounded in his master's store in Chelsea, was stunned by a slung shot. He did not know the assailant, but thinks he should know him, if he should meet him again.

☞ The New York Legislature is claimed by both parties: though, as the democratic party have 10,000 majority conceded to them in the popular vote, we suppose they have the legislature also.

A couple of gentlemen of our city were standing on the Bay yesterday, conversing about the hardness of the times and the necessity for economy. One of them remarked—"Well, I had corned beef and cabbage for dinner to day."—His companion stumped him with the question, "Why, what did you do with the pair of ducks I saw you pay a dollar and a quarter for?" "Oh?" replied our economist, "I had them besides."—*Savannah Georgian.*

WOOD'S HAIR RESTORATIVE.

PRESERVATION OF THE HAIR.—In all ages and among almost all tribes of men, a beautiful head of hair has been, and still is, regarded as the fairest ornament of the fairest works of the Creator. The patrician dames and damsels of ancient and modern Rome bestowed that attention upon the hair which has added the crowning beauty to the chef d'aeure of the sculptor and the painter, and no lady, and indeed no gentleman of modern times is insensible to this exquisite shield and lovely ornament of the face. To maiden beauty it is the finishing touch; to manhood it is the symbol and warrant of strength and nobility, to-day as in the days of the patriarchs; indeed such it always had been and always will be.

But unable as we are to withstand the ills of time and life, it often happens that through disease and misfortune we become gray in early life, and bald before we reach the full grace of womanhood or the full stature of manhood.—Then it is that however much we may deplore the grey locks and reverence the wisdom of bald head among the honored remnants of the generation of three score and ten, we know that our grey hairs are no more venerable than beautiful; while our bald heads are neither the one nor the other, but, on the contrary, are quite the reverse of both and impose upon us many social and sanitary disadvantages and discomforts.

Sold by all Druggists.

WE WISH TO SAY TO EVERY PERSON Who reads this that there is an article known as "Dr Sanford's Invigorator or Liver Remedy," which can be relied on as certain to cure liver complaint in any of its forms, such as Jaundice, Dyspepsia, and numerous other complaints, described in another column, besides which it is one of the greatest preparations or cures for consumption, taken in early stages, that is now known.

We take it for granted, as experiment has proven, that diseases of the lungs are not generally the first cause of consumption, but a debilitated system caused by the improper action of the liver, reduces the power of the lungs to resist or throw off diseases caused by cold and irritation, leaving the lungs at the mercy of one disease, because the liver has incapacitated them from performing their proper action of throwing off diseased matter caused by cold, thus to prevent consumption, cure the liver, and keep the system strong enough to throw off slight diseases of the lungs.

There is not in the world a better liver remedy or acute for debilitated system, than "Dr. Sanford's Invigorator," for it has been fully tried in a large and extended practice, till its results are fully known and now it is offered as a tried remedy, and one that can be relied on.

The venerable Dr. Smith was preaching to his rural charge one of the warmest of last summer's Sunday nights, and while waxing warmer in his discourse, he observed also that one of the large lamps at his hand was waning and ready to expire. Just as he discovered it he was exclaiming, in reference to the impractibility of escape from the law, "*Which way shall he turn?*" and, saying that, he put out his hand to give the lamp a turn to brighten up the dying luminary; but an officious deacon, near the pulpit, seeing he was turning the wrong way and would have it out in a minute, cried out, "*Turn to the right*, Doctor! turn to the right!" The sudden answer to the Doctor's question put him out completely, and the lamp at the same time.

HARTFORD, Nov. 6.—The Convention of the Banks of Connecticut, which met in this city this afternoon, for the purpose of consulting upon some plan of home redemption, by which a circulating medium might be obtained, for the relief of the business community, adjourned without having done anything except to lay on the table all the resolutions offered. Some of the Banks were for cutting of their present plan of redemption, while others were strongly opposed to it. Forty-three Banks were represented by delegates.

LOCAL.

☞ A *good* part, at least, if not "the better part" of our citizens, were in attendance on the Concert at the Temple, on Thursday evening. Mr. Thompson, with his quartet club, came from Newburyport with a "coach and four," and returned the same night, after singing through the long and rather laborious programme.—The concert was, on the whole, first-rate; we don't remember to have heard so good a quartet as this, since the days of the old original Harmoneons — so powerful and well balanced, thoroughly drilled, prompt and effective.

Thompson sings just as well as he did the first time we heard him, with Hector and the Peak family, many a year ago—and we have never heard any other singer who pleased us so well since. His peculiar forte is in music of the tyrolean style, and comic songs, in which his equals are scarce. Miss Page has much improved under Mr. Thompson's tuition, and sang finely. Mr. Burrill, bass, and Miss Davison, well sustained their parts; and in their *forte* singing, the quartet filled the Temple with ringing melody, such as twenty good common singers might fail to produce.

Mr. Thompson's new pieces, "Annie Lisle" and "Marion Lee," though good, and the chorus of the latter very fine, we did not regard as equal to some of his others—say "Lila May" and "the Mariner Boy;" but his new tyrolean duett "From my mountain land," was splendid. It was beautifully and effectively sung by Mr. T. and Miss Page; and the only reason that it will never be learned as universally as his "Lily Dale," and other songs, is, that scarcely any, especially male voices, can execute it.

The Drumming by the little boy and girl would have satisfied even 'Sensitious' himself, for time and touch; and the military band (drum and fife) in which the little girl whistled Yankee doodle and Pop goes the weasel, made no little amusement. It would seem as if a drum and fife could be made from most any instrument—Satter brought them out of the piano more natural than life; and this juvenile dispensed with the fife, and yet the effect was the same.

☞ There were a couple of reports heard about midnight of Saturday, as of a pistol or pistols discharged somewhere in Congress street; but we have not learned of anybody being killed or wounded.

☞ On Sunday at noon, a good-sized shaggy dog, which had evidently just been delivered from some "miry pit" of the character of a cess-pool, ran up and down Congress street, dripping flagrantly, and shaking himself lustily—to the great terror of some of the passers-by, and the amusement of others, according to the direction he took. At last, by dint of stamping and hooting, kicks and umbrellas, stoning and screaming, he was driven from the field, though still as *strong* as ever.

☞ Wanted—to complete files at this office—copies of the Daily Chronicle of April 7 and 17, 1857. Any person having copies of the Chronicle of these dates, will confer a great favor by leaving them at our counting-room.

NEW CITY HALL.—We understand that Mr. S. Woodcock of Boston, the architect of the splendid new Rockingham Bank building, proposes to prepare, at his own expense, a complete set of plans for a new City Hall, in the hope that at some future time, not far distant, the citizens of Portsmouth may be induced to make an appropriation for such a building.

☞ Like most everything else, now-a-days, work on our new Custom House is suspended again; and the unpaid workmen would like to suspend the contractors, too, if they don't pay up soon. Things don't go on very fast there, and seem not to go very smooth.

☞ The first Promenade Concert by the Portsmouth Cornet Band will probably come off some evening this week—of which notice will be given hereafter. It was designed to begin to-night, but it was found impossible to decorate Jefferson Hall in time.

☞ By the notice of Mr. Russel in our advertising columns, it will be seen that you can have your winter's potatoes delivered at your cellar door for 75 cents a bushel. They are the regular blue noses, and in excellent condition.

☞ The November term of the Court of Common Pleas for Rockingham County, to be held in this city, commences to-morrow.

☞ Maj. Isaac T. Doughty, in command of the Pensacola, Fla., Marine Barrack, has been ordered to the command of the Portsmouth Marine Barracks.

HARD TIMES.

"Hard times" is now on every lip,
And breathed from every tongue,
The banks are cursed and blamed by all—
The aged and the young,
The merchant has to close his doors
And throw his ledger by—
Such times he vows were never seen
By any mortal eye.

The shopman quits the counter's side,
For customers are few,
The times are now so very "tight"
It makes them all look blue.
The citizen in vain essays
To make more than his bread,
A pound of which, he now declares,
Won't weigh a pound of lead.

There's not a day but some one fails,—
Some house that goes to smash,
And names that once stood high on 'change,
Are out for want of cash.
Those whom we thought were millionaires,
And rich in shares and stocks,
Their "*million heirs*" now disappoint,
They fail and leave no 'rocks.'"

"Hard times! hard times! was ever seen
Such times as hard as these?"
This is the cry from morn till night,
In which each one agrees.
A remedy we think we've found;
Say, how do you think 'twill do?
Pull off your coats—roll up your sleeves—
And work these hard times through.

A lady neighbor and acquaintance, the doting mother of a waggish lad—having bottled up a lot of nice preserves, labeled them, "Put up by Mrs. ——," (her name.) Morning Chronicle.

One day last week a farmer from the town of Madrid, in Franklin county, Me., visited Phillips to do some trading, and among other things he purchased a pound of powder, which he deposited in the box of his wagon seat. Besides the package of powder he placed several empty bags, which he had carried under his arm while smoking, and which had without his knowledge taken fire from a spark from his pipe. The burning bags soon ignited the powder and just as the owner was stepping into his carriage, a violent explosion took place, the seat took a sudden elevation, and was seen moving through the air in numerous pieces and various directions. Had the farmer been a moment earlier in taking his seat, his mangled flesh and broken limbs might have proved an argument against smoking, of such force as to have cured him of the pernicious habit.—*Boston Advertiser.*

A Dog belonging to Nathaniel White, Esq., of Chency & Co.'s Express, Concord, N. H., saved the life of a Frenchman named Gust. Dessert. The Frenchman got drunk and fell in a gutter on his face, and was so far gone as to be unable to assist himself. The dog discovered him, and bark'd long and loud for assistance. About 12 o'clock, officer Sturtevant went to see what the dog was making such a loud noise about, when he discovered the Frenchman and took him up from the gutter, and provided him with lodgings in the lobby. The Frenchman was perfectly helpless, and but for the dog would probably have perished, as his head, with his face down, was in a puddle of water.—*Mirror.*

A man named Ford, arrested for stabbing Bailey, a Free State man, at Lecompton, Kansas, has been allowed to escape by Judge Cato, who refused to call a Grand Jury, and so suffered the case to go by default, as it was only a Free State man who was stabbed. The Herald of Freedom says Cato is such an habitual drunkard that lawyers of all parties, as well as the people, complain loudly of him. He is often too drunk for a whole day to attend to business.

The Free State Territorial Executive Committee have issued an address to the people, saying that the recent victory, great as it is, does not free Kansas. A body of usurpers (the Constitutional Convention) were assembled at Lecompton, concocting a scheme to perpetuate the slave oligarchy in Kansas.

THE TABLES TURNED—*The robber robbed.* We learn from the Worcester Transcript, that Mr. Stephen B. Brigham, of Boylston, while on his way Saturday night from the meeting-house to his own residence, when in the vicinity of the Poor Farm, was met by a stranger, who demanded his money. Mr. Brigham did not see fit to accede to so unreasonable a request, and was at once attacked with a knife, cutting his vest open, and inflicting slight wounds upon his person. In the struggle which ensued, Mr. Brigham got possession of the robber's watch, but the fellow himself escaped.

REMIT IN RUM.—A man, we are sorry to say it was a Providence man, having occasion to receive a small sum from a correspondent in another city, gave the following very improper direction: "As all property is unsale, and the exchanges are so shockingly deranged, you may remit the balance in rum."—*Providence Journal.*

"I say, Pat, what are you about—sweeping out the room?" "No" answered Pat; "I'm sweeping out the dirt, and leaving the room."

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend the drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, and the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. Accompany the order with the money, and the ticket must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon principle of one number on each ticket, so that no one can fail to understand them. There is no combination of numbers to confuse the mind, the whole being left to fate alone; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Mercury*, Augusta *Chronicle*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & CO., Augusta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18ly

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. Tyson & Co. are the managers, authorized by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with the drawing is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day in the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The payment of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $200,000. All orders for tickets or packages will receive prompt attention, and the Drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

A BEAUTIFUL HEAD
OF RICH GLOSSY HAIR,

Completely Preserved
TO THE GREATEST AGE.

AND who that is gray would not have it restored to former color; or bald, but would have the growth restored; or troubled with dandruff and itching but would have it removed, or troubled with scrofula, scald head, or other eruptions, or with sick headache, (neuralgia) but would be cured. It will do them all, and free from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following.

ANN ARBOR, November 5th, 1856.

PROF. O. J. WOOD—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, having been informed of its use by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the category with the one thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months since, when you gave me such assurance as induced the trial of your Restorative in my family—first, by my good wife, whose hair had become very thin, and entirely white; and before exhausting one of your bottles her hair was entirely restored to its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not because it is her fashion, but the effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore my skepticism and doubts in reference to its character and value are entirely removed; and I can and do most cordially and confidentially recommend its use by all who would have their hair restored from white or gray, (by reason of sickness or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.

Very truly and gratefully yours,
SOLOMON MANN.

FRIEND WOOD: It was a long time after I saw you at Hillsdale before I got the bottle of Restoration for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you assured me it would do; and others of my family and friends, having witnessed its effects, are now using and recommending its use to others, and entitled to the highest consideration you claim for it.

Again, very respectfully and truly, yours,
SOLOMON MANN.

CARLETLE, ILL., June 23, 1852.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its effects. My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so. S. BREESE, ex-Senator, U. S.

GEORGIA LOTTERIES.

THE Lotteries of ADNEKEN & SON, are chartered by the State of Georgia, and have sworn commissioners appointed to superintend the drawings, and certify that everything connected with the same is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawings. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Georgia, as lotteries are legalized by special law in that state. A lottery is drawn at Savannah, Ga., about the 15th of every month, and another is drawn in Macon, Ga., *every Saturday throughout the year.* If no particular class is named, orders are filled by the first drawing to take place after the same comes to hand. The drawings are upon the principle of one number of one number on each ticket, and are so simple that none can fail to understand them. There is no complicity of numbers, which has to mystified the community for years past. Prizes vary in amount from $20 to $20,000. Every prize bearing drawn, and result of drawing, or other information, forwarded to all purchasers.

A list of the numbers that are drawn from the wheel, with the amount that each prize is entitled to, will be published after every drawing, in the following papers: New Orleans *Delta*, Savannah *News*, New York *Dispatch*, and New York *Atlas*. STOVES.

Frank Jones, No. 61 Market St.,

HAVING received his Winter Stock of Stoves, is now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:

IMPROVED EMPIRE STATE.

This celebrated Cooking Stove having been in the market many years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.

THE WHITE MOUNTAIN IMPROVED,

being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.

THE REPUBLIC.

This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.

All sizes on hand, and every Stove warranted.

Also on hand all the different kinds of the most approved patterns; among which are the

BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.

Repairing Pieces of all kinds on hand.

The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.

Our stock of

PARLOR STOVES

is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the

ILION, VILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,

OVEN PARLORS in great variety for wood or coal. SHEET IRON STOVES of all sizes, with or without ovens. Also, Offices, Hall, Shop and Store Stoves of different Patterns.

The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.

Remember the place to buy cheap is at
No. 61 Market Street.
FRANK JONES.

Magee's Patent Ventilating Stove.

FOR WARMING AND VENTILATING
PARLORS, OFFICES, HALLS, STORES, SCHOOL HOUSES, &c.

WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give

Any amount of Heat required,

and unlike all other Anthracite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and as none of the air which comes in contact with the fire can is used for inspiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.

These Stoves are beautiful in design, and finished in the most perfect manner. They are equally approved and have given universal satisfaction to all who have adopted them.

For Offices and Stores as well as the Parlor.

The Inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, or warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to rekindle without the use of charcoal, as wood is all used, and no clinkers made, consequently, sifting coal is dispensed with.—When this Stove is properly managed,

THE FIRE MAY BE CONTINUED THROUGH THE ENTIRE SEASON,

without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 30 to 50 per cent. in fuel expense.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by one of the most eminent physicians of the age.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to bring on the menses, or monthly courses, in every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and when any obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that may arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. I all cases of suppression, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid,* to DR. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

DYING ALONE.—On Friday morning, after the arrival of the Montreal at Portland, from Boston, an old man was found upon steamboat wharf, in a feeble and apparently dying condition, and was taken in a hack and removed to the watch house. The officers of the police, seeing his pitiable state, had him immediatly sent to the city poor house, where he died at four o'clock the same day. He was able to give his name as William Sutherland, and his age 75 years. He said he was born in Ireland in 1782, and came to this country in 1806; he married an American woman in the eastern part of this State, whose name was Mary Ann Coburn. He subsequently lived in Portland, where his wife died 34 years ago, and where her remains are interred with three of their children. He professed to have fought on board the U. S. brig Enterprse in her memorial action with the British brig Boxer, and exhibited upon his leg the scar of a wound which he received in the engagement. His services had been acknowledged by the government, and a land warrant issued for his benefit. His disease was consumption, and being aware of his approaching death, he said he had come there to breathe his last, and be buried near his wife and children.—*Portland Argus.*

A SERENADER ROUGHLY USED.—Mr. Andrews Hallet, of this village, on Tuesday night last, shot a large cat owl, who was treating his auditors to an unwelcome serenade from a tree in the garden. His owlship measured four feet nine inches from the tip of one wing to that of the other.—Mr. Hallet is 82 years old, and the bringing down of his game at the first fire, in the evening, evinces a steady hand and a precision of aim, of which a younger sportsman might well be proud.—*Yarmouth Register.*

ASSISTANCE FROM PROVIDENCE.—A good old Connecticut deacon was attaching a very poor and feeble pair of oxen to a very large and heavy load of wood. A neighbor asked him how he expected to get so large a load to market with so poor a team.—The good deacon replied that he expected to get *some* assistance from Divine Providence. His neighbor asked him whether it would not be as well to dispense entirely with the oxen, and *let Divine Providence draw the whole load.*

STARVING TO DEATH.—Officer Brooks, of the 10th Precinct Police, yesterday found a German family, consisting in all of five persons, residing in a hovel at 44 Orchard street, *literally starving to death.* They had been unable to procure either food or medical attendance, and as three of them have been severely burnt by a camphene explosion on Saturday last, our readers may judge of the misery they were in.—*New York Sun, 10th.*

LIQUOR CASES IN ESSEX COUNTY.—The Supreme Judicial Court, which has been held in Salem since Tuesday of last week, for the hearing and decision of law questions, on Friday overruled the 'exceptions' in twenty-seven different cases, on the liquor law, and ordered the same to be remanded to the Court of Common Pleas, where they were tried, for sentence.—*Newburyport Herald.*

BY THE LOAD.—One of our well known citizens, and an enthusiastic supporter of Banks, is said to have been seen traversing our streets on Wednesday evening, wheeling a large hand-cart, with which he was gathering up the turkeys and chickens won upon the election. He is supposed to have a complete winter's supply.—*Lawrence American.*

It is said the doctrine has recently been enunciated, that the drunker the pedestrian, the better must be the side-walk: a legal opinion probably derived from that profound jurist, known amongst living men as *Wheat*, whose Law Manual gives such completeness to the literaries of the New Hampshire Bar.—*N. H. Statesman.*

SCIENTIFIC.—"What is the cause of the potato rot?"

"It is attributed to the rot-ta-tory influence of the earth."

"How was this ascertained?"

"By consulting a great many commentators."

☞ The Canadian papers state that lumber, the great staple of Lower Canada, has been falling in price since August, and the sale is very dull, although 600,000 tons of shipping have reached Quebec this year, against 470,000 last year.

☞ The circulation of the 14 chartered banks in Canada is estimated at 13,094,313 dollars, of which at least a million is usually to be found on the United States side of the line. The specie is not estimated at much above $2,000,000.

☞ A farmer in Piscataquis county, Me., lost eight or ten bushels of choice apples from his orchard one night last week. He tracked the rascals by means of a peculiar shoe on their horse's foot, and after following them a dozen or fifteen miles, caught them and recovered his fruit.

☞ A chap who was hobbling about from the effects of a railroad smash-up, was asked if he was going to sue for damages. "Damages! no, no, I have had damages, enough of them: "*If I sue for anything, it will be for repairs!*"

A Dutchman thus describes the New Yorkers: "Fine people, says he: dey go about der streets all day, cheating each other, and dey call dat pisiness."

Mr. Samuel Lamprey, of Salisbury, Ms., has a turkey, which has laid one hundred and eighty eggs in one hundred and eighty successive days.

Remedy for Worms.
THE diseases of children are often so complicated that it is difficult to ascertain the true nature of their complaint. In a large majority of instances the cause may be traced to the existence of WORMS—the prominent symptoms of which are, paleness of the countenance, loss of or irregular appetite, starting up and crying out in their sleep, picking at the nose, great thirst, a wasting away of the flesh, &c. These symptoms should be early attended to, as by neglect it often terminates in disease of the brain.
PRESTON'S WORM SYRUP
is the most efficacious remedy ever used. It is pleasant to the taste, perfectly harmless, and is warranted in every case to give satisfactory results.—Prepared by W. R. PRESTON, Apothecary, at his Family Medicine Store, No. 2 Congress Block. nov3 eod2w

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.
INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: draws venous blood from the diseased to be its term or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every form of inflammatory (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids, much is the potency of this vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.
☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

FRIDAY, NOVEMBER 13, 1857.

HARD MONEY DIALOGUE.

Bath Organ.—It will be well when all small paper-promises are banished from our circulation, and gold and silver are allowed to flow in and supply their legitimate place in the business of the country.

Uncle Toby.—It will probably be a long time before that happens.—We have plenty of 3 cent pieces and copper cents,—yet we buy and use postage stamps to pay our postage. Why? somebody says because Government requires it! Yes indeed; but why does Government require it? Simply because it is *more convenient* for the post-office, and rather more *convenient* for the merchant. Not because it is safer, for nothing can be *safer* than a copper cent.

Organ.—Who will now be found to scout the central idea around which for so long a time the mind of Benton revolved—the idea of a purely *metallic currency.*

Uncle Toby.—will scout it as a mere chimera, so far as our country and this age are concerned. The ancients, so far back as the days of Moses and Aaron, and for many ages after, had no paper money, or not much; for two good reasons, viz. first because they had little or no paper, and secondly, because most of the people could not read. But credit and banking, and usury and failures, and bankrupt laws, are all found in the five books of Moses.—And promissory paper in some form, infallibly connects itself with credit, as soon as the people can write, and have paper to write on.

Organ.—The statement that none but New England banks issue smaller bills than $5 is not true. One dollar shinplasters are common all through New York and the West.

U. T.—Exactly so.—One dollar bills are common in all parts of the country where the laborers have any money, or where the laborers themselves are not bought and sold as merchandize. Small bills would be of little use in the plantation states. As a *convenience*, they are not called for, except in small lots for remittances. When a man at the South wishes to pay for a Chronicle, he gets a Northern Bank Note, or he sends a lot of postage stamps, excellent three cent shinplasters, and makes all right.

Democratic Standard.—Texas and Arkansas have no banks, and are never troubled with bank suspensions.

U. T.—Exactly so;—they have no expansions,—and are all the time so flat that it is impossible to collapse.

D. S.—Do not hoard the specie.—There is abundance of specie in the country for all the ordinary transactions of daily life, if it is only kept in circulation.

U. T.—No doubt of it—for daily life—but not for extensive business.—Gold and silver, and copper and iron, are all too slow.

Tampa (Fla.) Peninsular.—The monetary crisis which has been disturbing the tranquility of Northern dealers for the past month, is, at last, making an impression in the South. By the last mail we have intelligence of the suspension of about one-half the Southern banks; the rest will soon follow.

U. T.—Banks suspend, then, where there are no *small* bills.

Demo. Stand.—It is a matter worthy of reflection—and shows what a gross error our people have run into upon this subject—that, notwithstanding we furnish the world with more of the precious metal than any other country, we have a more mixed currency, a larger amount of paper circulation in proportion to the metal, than any other government on the globe.

Of all the countries which have had a mixed currency, France from 1809, when the Bank of France was established, up to 1848, (since that time it has been changed,) had the most uniform and safe—the smallest proportion of credit money. Its general average from 1809 to 1838, according to official statements, was as 20 dollars in specie to 24 in bills, or five-sixths of its currency was value money, making an average adulteration of only one sixth. England has a currency more fluctuating than that of France; Scotland more fluctuating than England; That of the United States more fluctuating than any other country in the world, because the proportion of our paper issue to the specie capital of our banks is greater than any other. Hence the ruinous expansions and contractions of our circulating medium are greater.

U. T.—Here are many facts, and some truths, mixed up with the error of mistaking effects for causes. Over importations, bad trade laws, and ruinous tariffs, would produce disaster, if we had no bank bills at all. Credit we always shall have,—and business paper of some sort. It is remarkable also, that the extent and flexibility of the paper issue of each nation, is in exact proportion to the *general* intelligence, civilization, and art, of each people. At the same Standard told us, the other day,—the best nations use credit the most freely.

Dem. Stand.—We have seen it asserted, and do not doubt the authority, because perfectly consistent with the foregoing facts, that the comparative bankruptcies among the business men in different countries named was as follows: In France 15 out of every 100; England, 35 out of every 100; Scotland, 60 out of every 100; United States, 80 out of every 100.

When men take into consideration such facts as these, they can no longer question the propriety of reducing the shin-plaster currency of the country, and giving place to something nearer a specie basis. This is the only mode of reforming the financial morals of our people and protecting them from the disasters of these periodical swindles.

U. T.—All talk about the *only mode*, sounds like quackery. It is very well to guard, so far as we can, by law, against undue expansions and abuses.—But the man who expects to reform financial morals by cutting down banks by law *only*,—is very like the other man who expects to reform temperance morals by liquor laws *only*. And the less the Standard says about swindles, the better. There are swindling banks, no doubt,—and so there are swindling merchants, mechanics, lawyers, priests, and politicians.—But then they are not *all* swindlers. What is the chaff to the wheat?

A PLEASANT AFFAIR.—One day last week a merchant in Gardiner, Me., offered to give a barrel of flour to Rev. Chas. Blake, the Baptist minister in that city, provided the young ladies would haul it to him. To this they consented, and having obtained a small pair of trucks, the barrel of flour was placed thereon, and about forty young ladies took hold of the ropes and drew the barrel about half a mile, up one of the steepest hills in Gardiner, to the minister's house. The Gardiner Band, seeing what was going on, headed the procession, and played some excellent music during the haul. There was a large crowd to witness the proceedings, and a cabinet-maker brought out a very handsome rocking-chair, which he fastened to the barrel, and let it go as an additional present to the minister. Those Gardiner girls are full of spunk, and are not to be put down or bluffed off very easily.

☞ The bursting of the boiler of the steam tug Stillman Witt, at Buffalo, by which several persons lost their lives, proves to have been the result of gross carelessness. A tow of canal boats not being quite ready at noon, the captain and crew of the tug went down to dinner, leaving an ordinary head of steam in the boiler, and the furnace doors shut! Just before this, too, a new "firing" of coal had been put in! There is no iron in the world—no method of welding or lapping materials together—at all equal to the power of steam, generated under these circumstances.

☞ Rev. L. L. Sadler died suddenly several days since in Brooklyn, N. Y., and his remains were carried to Portland on Monday for interment. Mr. Sadler resided in Portland for several years subsequent to 1841, as pastor of the Universalist Society, and married a sister of the Hon. F. O. J. Smith. He was compelled to abandon the ministry soon after leaving Portland, on account of ill health. At the time of his decease he was 51 years of age. His funeral was attended by Rev. Dr. Chapin of New York and Rev. Mr. Peters of Brooklyn.

☞ Rev. Otis Holmes was dismissed by a council, Oct. 3, from the pastorship of the Congregational church at Northwood, Reason, inadequate support. Mr. Holmes now preaches at Eliot, Me.

Rev. E. E. Atwater was dismissed on the same day from the Cong. Church at Salmon Falls—to go elsewhere—where it is not stated.

☞ Francis F. Hoyt, of Fisherville, horsewhipped E. A. Corbin. Corbin received some fifty blows of the whip, "well laid on," when Hoyt said he would then give him twenty-four lashes for the benefit of his neighbors; and he (Hoyt) then gave him that number more. Hoyt was fined $7 with costs.

☞ The Congregational Journal of Nov. 12, contains a very convenient Alphabetical Catalogue of the Cong. (Orthodox) Ministers in New Hampshire;—but, strange to say, it does not contain the name of the oldest minister of the denomination in the State, viz: Rev. Jonathan Ward, of Brentwood.

The counties of New York and Kings give a Democratic majority of nearly 32,000, and send 29 members to the Legislature.

These thousands belong mainly in the *city*, and favor the legislature of the Empire State, with the peculiar moral, religious, and political character of that city.

What kind of razors are employed in shaving notes? Raisers of money.

Correspondence of the Chronicle.

LETTER FROM NEW YORK.

NEW YORK, Nov. 9, 1857.

Dear Chronicle:—The annual State election is over, and within our goodly city has been comparatively a quiet one,—probably from two reasons, viz.: the State election is of far less local interest than the municipal, which takes place in December; also that the clause in the new act for the suppression of intemperance, passed at the last legislative session, strictly prohibiting the sale of spirituous liquors on days of election, was rigidly enforced by our efficient police, thus effectually restraining the evil power of the demon of the dram shop, which too often has more influence on these occasions than either principles or men.

The disastrous effects of the late panic on the working classes is beginning to exhibit itself in decided demonstrations, and justly excites considerable alarm. Assemblies of the unemployed, denominated "hunger meetings", are held in the public parks every day, and inflammatory speeches made by the leaders, calling for work or food, threatening to seize the public funds, and contents of warehouses and mills. Mayor Wood, with his quick eye to popularity, is gaining favor and their votes by using his influence to put the public works in operation, thereby giving a portion of them employment. A meeting of several thousand of the unemployed—and for the most part *unwashed*—was held in the City Hall Park to-day; considerable anxiety is manifested among our citizens on account of desperate threats. The U. S. Government has placed a squad of soldiers and marines from the Navy Yard in the Custom House, with decisive orders for action in case of any riotous demonstration in the vicinity of the government buildings; there being $6,000,000 in the sub-treasury alone. Lieut. Geo. Scott and an aid were in personal command of this detachment for several hours. Gen. Sanford of the State troops tendered to the Collector the aid of the city military in case of need.

One of the finest military displays of the season was the parade of the 1st Brigade, Gen. Spencer, Commanding. The 7th Reg. made a fine show, and was paraded in front of the City Hall to receive an Eagle awarded them for drill and efficiency in June last. The German Hussars are worthy of mention, as a body of cavalry similar to the National Lancers of Boston, but far exceeding them in numbers, although slightly inferior in drill. The troops numbered 1700—and with the immense crowd already collected in the Park, presented a lively scene.

The State government has at length decided on a site for the new Arsenal building, in place of the former one, which is to be demolished, being on the ground appropriated for the Central Park. The new site is at the corner of 35th street and 7th avenue; the edifice will be an imposing structure. A situation nearer the central part of the city would have been more desirable; but the funds placed at the disposal of the committee would have been inadequate to purchase more expensive lots.

It is reported, and probably is a fact, that the New York Power Loom Co. will stop the machinery of their mill on the 14th inst. This manufactory is the largest of the kind in the country, and its cessation of labor will throw out of employment over 800 persons. It is said, however, that a resumption of operations on the first of January next is promised by the proprietors.

Your readers have probably heard of the scandal which has lately been before our courts, viz., the "Sanford Hall Woodman case;" the lady is the wife of O. O. Woodman, formerly of Vicksburgh, Mississippi. She was a belle, was greatly given to dress, and flirted at Saratoga and Newport. She was known at Saratoga and Newport as the lady with seventy five dresses.

"ISLINGTON."

MR. J. A. STONE, Chelsea fireman, who is missing, has not yet been heard from.—Mr. Tolliver, whose place he was last *seen* to *enter*, states in effect that Stone came into his saloon about seven o'clock, Friday evening, partially intoxicated; that he drank two glasses of liquor, and left about nine o'clock. The statement that Tolliver changed a fifty dollar bill is denied by him. He says that Stone had only $4 or $5 in change in his possession when he came to his place. It is further stated that Stone was seen on Saturday evening at one of the grocery stores near the square.—*Traveller.*

Mister Tolliver, and the other groggy saloon keeper, his neighbor, are not very reliable people. Men go in there, and if they come out at all, come out "the *worse* for liquor."

☞ The U. S. steam frigate Roanoke, which was so badly built at Norfolk, and was so badly hogged in launching, is undergoing a straightening at the Charlestown Navy Yard.

WASHINGTON, Nov. 11—General Denver, Commissioner of Indian Affairs, to-day wrote a letter to Brigham Young, in reply to his communication of the 12th of September, administering to him a sharp rebuke for the improper manner of his administration of Indian superintendency in Utah. He tells Brigham Young that he has exceeded the appropriations from him by more than $31,000, and that he has no reason to complain of his drafts not being paid.

Gen. D. adds, "So far from encouraging amicable relations, you have studiously endeavored to impress upon the minds of the Indians that the Mormons are their friends, and that the people of the States are their enemies."

The rule is to withhold annuities from hostile Indians, and Gen. D. knows no reason why it should not be applied to Young.

In reply to Young's objection to the presence of troops, Gen. D. says, "If it is his (Young's) intentions to preserve the peace, the troops will not interfere with him."

He concludes by saying that the Executive has no alternative but to crush out rebellion, and that that purpose all the powers of the government are placed under his control.

He then tells Brigham Young that his claim for double salary is against law, but if it shall be ascertained that his expenditures were properly made, he will be paid, should Congress make an appropriation for that purpose.

☞ Mr. Allen P. Webb, master workman in the car shop of the Eastern Railroad Company, was presented with a valuable gold watch by the other workmen, last Thursday evening. The presentation took place at Mr. Webb's residence at East Boston.

☞ The only place in this city where an Ambrotype can be obtained, is at Davis' Ambrotype Gallery, No. 8 Daniel Street, as they have the Patent, and all infringements will be prosecuted. sept9

WE WISH TO SAY TO EVERY PERSON Who reads this that there is an article known as "Dr Sanford's Invigorator or Liver Remedy," which can be relied on as certain to cure liver complaint in any of its forms, such as Jaundice, Dyspepsia, and numerous other complaints, described in another column, besides which it is one of the greatest preparations or cures for consumption, taken in early stages, that is now known.

We take it for granted, as experiment has proven, that diseases of the lungs are not generally the first cause of consumption, but a debilitated system, caused by the improper action of the liver, reduces the power of the lungs to resist or throw off diseases resulting from cold and irritation, leaving the lungs at the mercy of one disease, because the liver has incapacitated them from performing their proper action of throwing off diseased matter caused by cold, thus to prevent consumption, cure the liver, and keep the system strong enough to throw off slight diseases of the lungs.

There is not in the world a better liver remedy or acure for debilitated system, than "Dr. Sanford's Invigorator," for it has been fully tried in a large and extended practice, till its results are fully known and now it is offered as a tried remedy, and one that can be relied on.

An application from Parker Cook to build a slaughter-house on Water st.—Granted.

The Board voted to extend an invitation to the Common Council to meet on Market Square at half past 2 o'clock on Monday afternoon, at the trial of the new engine "Gov. Langdon."—An application for the removal of the school house on Chestnut street to Woodbury street. Granted.

It was voted that the City Marshal be instructed to have the timber removed from the street in front of Mr. Tucker's shop on Pleasant street.

COURT OF COMMON PLEAS.

THURSDAY, Nov. 12.

Asa Ham vs. A. T. Goodrich, Administrator of the estate of Robert Ham. This is an appeal from the disallowance, by the Commissioner, of the appellant's claim for his and his family's services, in taking care of the late Robert Ham, and carrying on for said Robert, his homestead from Sept. 1837 to Dec. 15, 1849, when Robert Ham deceased.

The appellant had, soon after his father's death, brought a Bill in Equity against Mr. Goodrich and his wife and the other heirs of said Robert, for the Homestead farm, upon the alleged ground that the said Robert had agreed to give said Asa the farm for taking care of his father—which was decided by the Supreme Court against said Asa, and this appeal is prosecuted to recover for his service, which are alleged to have been performed and were to be paid for by the farm.

The case had not been submitted to the Jury at our last accounts from the Court Hatch and Emery for appellant. Hackett and Christie for Administrators.

SCENES BY GASLIGHT.—About 9 o'clock, Wednesday evening, our reporter observed a crowd gathered at the corner of Market and Daniel streets, and on inquiry, learned that a fight was about to come off, but the combatants, (preferring "darkness rather than light, because their deeds were evil,") thought it best to retreat to one of the wharves, and have a *good fight!*—Accordingly they started off for the Navy Yard landing, uttering horrible oaths and curses, and when about half way down Daniel street, the performance was varied a little, by one knocking the other into the middle of the street, and then the "fight" commenced, and continued until the weaker party cried "Enough." The row ended by one of the pugilists taking leg bail. The crowd gradually dispersed, apparently very happy in having witnessed such a display of heroism!

Passing on farther, he saw a woman sitting on some steps in front of a house in a state of beastly intoxication. The crowd assembled around her, consisted of disreputable men and women, who made all sorts of unseemly remarks, too indecent for repetition here.

Such scenes as these are of nightly occurrence.

FREE MASONRY.—The brethren of the mystic tie are decidedly flourishing. By the annual report of the Grand Lodge of Free Masons for New Hampshire, it appears that there are thirty two lodges existing in this State, containing 1570 members. The number of members initiated during the year, ending June last, was 319. The largest lodges are the Manchester, having 155 members; the Rising Sun, Nashua, 145; and the St. John's, Portsmouth, 115. Many young members have been initiated in this city, within a few years past.

☞ The Cambridge Cattle market is dull, with but few sales. Beef has declined 25 a 50c. per cwt. and sheep 25c per head, with the tendency of a still further decline. There will be quite a number of cattle left over, as butchers buy but sparingly, unless at their own prices.

☞ Ship Howaiji, of Newburyport was struck by lightning, at sea, Nov. 3, and burnt.—Officers and crew all saved. They were taken on board ship Guttenberg, and landed at New York.

In this city, 11th inst., by Rev. Jonathan Hall, Mr. Rufus Butterfield of Portland, Me., to Miss Salinda B. Kenniston of Buxton, Me.

In Newington, 12th inst., Mr. Robert Hanson, of Kittery, Me., to Miss Olivia Berry of Newington.

In Eliot, Me., Mr. Wm. Varney of Eliot, to Mrs. Delia H. Brown of Belfast.

DIED.

In this city, Nov. 8, Mrs. N. J. Brown, aged 29, wife of Mr. J. S. Brown.

Nov. 8, an infant son of Mr. Seth W. Huntress, aged 4 months.

Nov. 4, Mrs. Mary Pierce, wife of Capt. Wm. M. Pierce, aged 68.

Nov. 9, suddenly, Mrs. Lydia Stuart, wife of Mr. George E. Smart, aged 26.

In Charlestown, Mass., Nov. 5, Mr. Henry Alonzo Frost, aged 31. His remains were brought to his native place, Newcastle, for interment, and the funeral services were held at the Congregational meeting house on Sunday last

St. Louis, Nov. 11.—Advices from Fort Laramie, of Oct. 22d, states that Col. Cooke's dragoons were four miles this side, and had encountered a snow-storm five days previous. Col. Johnston, when heard from last, was 230 miles beyond Laramie. The snow was seven inches deep a hundred miles this side. When the express left him his teams, horses and men were rapidly failing, owing to the slim supply of corn and the entire absence of grass.

News had reached Fort Laramie that the Mormons had burnt three government trains of seventy-five wagons in the aggregate, near Green River, 90 miles behind Col. Alexander's command, and which formed the vanguard of the army. It is rumored that the 5th and 10th regiments of infantry, together with the batteries of artillery, will take possession of the Mormon village of Bear River for their winter quarters.

NAVAL.—The U. S. Steamer Saranac, which recently put into Norfolk in distress, went up to the Navy Yard Nov. 5th.—She will probably undergo a thorough overhauling and repairing there.

The U. S. ship John Adams at Panama has received orders to return to the United States. She was to have sailed about the 1st inst. for Valparaiso and from thence to St. Helena, from which place she will sail direct for New York.—*Portsmouth (Va.) Transcript.*

The Great English Remedy.
SIR JAMES CLARKE'S
Celebrated Female Pills.
Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.
THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.
TO MARRIED LADIES
it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.
Each bottle, (price one dollar,) bears the Government Stamp of Great Britain, to prevent counterfeits.
CAUTION.
These Pills should not be taken by females that are pregnant, during the FIRST THREE MONTHS, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.
In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or anything hurtful to the constitution.
Full directions accompany each package.
Sole Agent for the United States and Canada
JOB MOSES,
(late I. C. BALWDIN & CO.) Rochester, N.Y.
N. B.—$1 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle of the Pills by return mail.
For sale, wholesale and retail, by W. B. PRESTON, Portsmouth, and by Druggists in every town in the United States.

REMOVAL.

E. Green & Co., Merchant Tailors,

HAVE just made great improvement in their CLOTHING ESTABLISHMENT.

It gives them great pleasure to announce their thankfulness to the people of this city and neighboring towns, for their kind patronage; through which and their own facility of selling cheaper than any other establishment, we were enabled not only to increase our Stock to a great extent, but to accommodate our increased and increasing custom, we have obtained the large and commodious store,

No. 54 Market st., cor. of Hanover St.

opposite the Union Store. Said Store is more than double the size of our former establishment; we assure all who may favor us with their custom a courteous treatment and the value for their money. All who are in want of clothing, are invited to call and see whether our statement is true.

A variety of

Trunks, Valises, Carpet Bags, Oil Suits, &c., &c.

As the articles we have for sale are too numerous to detail, we will say in short, every article belonging to Gents' and Youth's wear, can be found at our CLOTHING HOUSE, together with an assortment of Woolen Goods, of which we will make garments to order, or sell by the yard, and cut it for them without making, any way to suit the purchaser. EPHRAIM GREEN,

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have co-powers commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They add to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Managers respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the legislature of the State, and will be drawn every Saturday throughout the year, all orders received being filled in the drawing next thereafter. Every ticket is warranted a prize. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawing is upon the principle of one number on each ticket, and are so simple that none can fail to understand them, yet they are a combination of numbers, which has effectually the buzzy. Prizes vary from $40 to $20,000; every prize being drawn, and result of drawing forwarded to the parties interested.

A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta, Mobile Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York *Weekly Dry Goods Reporter*. Address, S. SWAN & Co., Augusta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 1y

LOTTERIES.

The well-known and long established Lotteries of which E. Frances & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, is appointed to superintend the drawings, and everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Georgia, as the lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tenary combination. Prizes vary in amount from $20 to $150 70. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the Nation-al Intelligencer and Union, of Washington, D.C.

A BEAUTIFUL HEAD

OF RICH GLOSSY HAIR,

Completely Preserved
TO THE GREATEST AGE.

AND who that is gray would not have it restored to former color; or bald, but would have the growth restored; or troubled with dandruff and itching but would have it removed, or troubled with scrofula, scald head; or other eruptions, or with headache, (neuralgia) but would be cured. It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following.

ANN ARBOR, November 6th 1856.

FRIEND O. J. WOOD—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the same category with the one thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months since. When you gave me and assured me that a single trial of your Restorative in my family—first, by my good wife, whose hair had become very thin, and entirely gray, and before a hundred days of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon and entirely covered her mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore my skepticism and doubts in reference to its characteristics and virtues are entirely gone, and I can and do most cordially and confidentially recommend it to all who would have their hair restored from white or gray, by reason of old age, or to original color and beauty, and by all young persons who would have the hair beautiful and glossy.

Very truly and gratefully yours,
SOLOMON MANN.

FRIEND WOOD: It was a long time after I saw you at Bloomfield before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you assured me it would do; and others of my family and friends, having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.

Again, very respectfully and truly, yours,
SOLOMON MANN.

CASTILE, N.Y., June 26, 1852.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its effects. My hair was becoming gray, and thoughtlessly, I bought, but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so. S. BANKS, ex-Sentator, U. S.

Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Georgia, as lotteries are legalized by special law in that state. A lottery is drawn at Savannah, Ga., about the 15th of every month, and another is drawn at Macon, Ga., *every Saturday throughout the year.* If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. STOVES.

Frank Jones, No. 61 Market St.,

HAVING received his Winter Stock of Stoves, is now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:

IMPROVED EMPIRE STATE,

this celebrated Cooking Stove having been in the market many years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.

THE WHITE MOUNTAIN IMPROVED,

being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.

THE REPUBLIC.

This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.

All sizes on hand, and every Stove warranted.

Also on hand all the different kinds of the most approved patterns, among which are the

BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.

Repairing Pieces of all kinds on hand.

The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be undersold.

Our stock of

PARLOR STOVES

is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the

ILION, VILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,

OVEN PARLORS in great variety for wood or coal. SHEET IRON STOVES of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different patterns.

The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.

Remember the place to buy cheap is at
No. 61 Market Street.
FRANK JONES.

Magee's Patent Ventilating Stove.

FOR WARMING AND VENTILATING
PARLORS, OFFICES, HALLS, STORES,
SCHOOL HOUSES, &c.

WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give

Any amount of Heat required,

and unlike all other Anthracite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and as none of the air which comes in contact with the fire pot is used for respiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.

These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them.

For Offices and Stores as well as the Parlor.

The Inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to rekindle without the use of charcoal. The coal is all used, and no clinkers made, consequently, sifting coal is dispensed with. When this Stove is properly managed,

THE FIRE MAY BE CONTINUED THROUGH

THE ENTIRE SEASON,

without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 30 to 50 per cent, in fuel expense.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THIS compilation of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and effective in restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring on the long proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one; they also bring on those good healthy habits she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to suffer, and a train of evils follow, which has been the cause of so many consumptions among young females. Headache, pain in the side, nervous affections, palpitation of the heart, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. Cheeseman, Box No. 4531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

GARROTING A MINISTER.—The Rev. Mr. Lord, pastor of the Dutch Reformed Church in Harlem, was attacked on Wednesday evening in Second avenue, near 119th st. N. Y., by a desperate ruffian, who suddenly sprung upon him and struck him a violent blow, which was quickly followed by another in the face. The reverend gentleman is stalwart, well proportioned and athletic, and the highwayman finding that the blows he gave failed to bring his intended victim to the ground, and thinking, no doubt that he was likely to catch a Tartar, took to his heels. But Mr. Lord, not having been rendered *hors du combat*, put after him, and after a chase around two or three blocks run him into a grocery store, where he secured the fellow and handed him over to the police. He was safely locked up in the station house and will undergo an examination. Woe betide him if he should come before Judge Russell. This is not the first introduction Mr. Lord has had to a garroter. Some time since, one of the fraternity of highwaymen attacked him in Brooklyn, and struck him two blows before he was able to act on the defensive, but he soon recovered himself, and with his powerful arm sent the rascal reeling into the gutter, where he left him lying, and proceeded on his way.—*N. Y. Herald.*

OUR BANKS.—By the Bank Statement for November, it appears that the New Hampshire banks during the last month diminished their circulation $591,000;—the amount of funds deposited for the redemption of their bills was diminished only $8,500; their deposits diminished $38,000; their specie increased $11,000; and the amount of debts due them diminished $651,000.—*Patriot.*

MILLEDGEVILLE, GA., NOV. 11.—A large Democratic meeting was held last night, Gov. Johnson presiding. Resolutions were passed endorsing Buchanan's administration, and urging the removal of Gov. Walker of Kansas.

FALL OF A BUILDING IN BANGOR.—*Bangor Nov.* 11.—The boiler and pattern shop, connected with Messrs. Hinckly & Edgerly's iron foundry, fell in a mass of ruins last night. Damage about $2000. No one was in the building at the time.

Remedy for Worms.
THE diseases of children are often so complicated that it is difficult to ascertain the true nature of their complaint. In a large majority of instances the cause may be traced to the existence of WORMS—the prominent symptoms of which are, paleness of the countenance, loss of or irregular appetite, starting up and crying out in their sleep, picking at the nose, great thirst, a wasting away of the flesh, &c. These symptoms should be early attended to, or by neglect it often terminates in disease of the brain.
PRESTON'S WORM SYRUP
is the most effectual remedy for Worms. It is pleasant to the taste, perfectly harmless, and is warranted in every case to give satisfactory results.

IT IS NOT A DYE.
MRS. S. A. ALLEN'S
WORLD'S HAIR RESTORER.
GRAY-HAIRED, bald, or persons with diseases of hair, or scalp, read the following and judge of the articles.
MRS. S. A. ALLEN'S ZYLOBALSAMUM, Or World's Hair Dressing, is essential to use with the Restorer, and is the best Hair Dressing for old or young, extant, being often efficacious in cases of hair falling, &c., without the Restorer.
REV. H. V. DEGEN, Editor of the Guide to Holiness. "We can testify to its efficacy," &c.
PRESIDENT J. H. EATON, L. L. D., Murfreesboro', Tenn. "Notwithstanding irregular use, the falling off of hair ceased, and my grey locks are restored to the original color," &c.
REV. S. H. MORLEY, Attleboro' Mass. "It has changed the "Crown of Glory," belonging to old men, to the original hue of youth," &c.
REV. M. THACHER, 60 years of age, Pitcher, Chenango County, New York. "My hair is now restored; it is nothing like a dye," &c.
REV. D. T. WOOD, Middletown, New York.—"My own hair and that of another of my family, has greatly thickened, where it was bald," &c.
REV. JAMES McKEE, New York, recommends it, &c.
REV. W. FORTEUS, Stanwich, Conn. "It has *not* my most sanguine expectations," &c.
REV. J. F. GRISWOLD, Washington, N. H.—"It is really efficacious in restoring the hair," &c.
REV. G. M. STEWART, Kavelburgh, Tenn. "We can and do cheerfully recommend it," &c.
REV. J. P. TUSTIN, Charleston, South Carolina. "The white hair has become obviated," &c.
REV. AMOS BLANCHARD, Meriden, N. H. "We think very highly of your preparation," &c.
REV. C. SMITH, Prattsburgh, N. Y. "I was surprised to find my hair turn as white I was young," &c.
☞ We might swell this list, but if not convinced, TRY IT.
We export these preparations to Europe even, and they are superseding all others there, as well as in the United States.

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1836.)
No. 76 State st, oppo. Kilby st, Boston,
AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, prepared on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered from other agencies. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVERTISING AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
Testimonials.
"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.
INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—but but ONE AIM—accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. It is asked, HOW does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a knife to be applied into a solution of it, to affect the entire system.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk
Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

S. PARISH SABBATH SCHOOL EDIFICE.

DEDICATION.—On Friday evening, Nov. 13th, the edifice this season erected for the Sabbath School of the South Parish, in Court street, on the site of their former building devoted to the same purpose, was dedicated by appropriate religious services. After a Chant, Prayer and Reading of the Scriptures, the following dedication Hymn by Miss LOUISA SIMES, was sung:

I.

When from Judea's sacred hill
Shone the first temple high and fair,
To Israel's God were altars raised,
And Jew alone made offering there.

II.

From humbler domes may broader rays
Reveal the All-Father's boundless care;
Who heeds the faintest breath of praise,
And gathers up each broken prayer.

III.

Descending fire, or curling cloud,
No more the accepted dwelling prove—
But where our spirits lift to God
The viewless incense of their love.

IV.

Hither for guiding light we'd come,
And bid our voice of want arise—
Here grateful thought should swell in song,
And cleave its pathway to the skies.

V.

Hallowed these walls by Peace and Truth,
Their influence wide as life be given—
Then crown the soul's immortal youth
With beams of fadeless joy in Heaven.

After the presentation of the Report, the following Hymn by ALBERT LAIGHTON, was sung:

O Father, as in days of old—
Though men knew not thy wondrous love,
And bowed to gods of wood and gold—
Thou rulest on thy throne above.
Thou art the same unchanging Friend,
And thy Almighty arms defend.

II.

Thy hand still guides each rolling world,
And stays the tempest's awful wrath,
And on the bannered clouds unfurled
Marks out the lightning's lurid path.
It weighs the mountains, holds the sea,
And stretches through Infinity.

III.

Ah, little human hands can do
When measured by the matchless power
That raised the hills and arched the blue
Wide heavens that bless us every hour;
That made our frames, sustains our lives,
And through all earthly change survives.

IV.

Yet Lord, we offer to thee now,
This temple built on hallowed ground;
O bless its walls! for while we bow,
The sainted dead seem lingering round;
As if with us they hither came
To own this tribute to thy name.

The Sermon was from Rev. Dr. PEABODY, and was followed by other appropriate services.

The house is well designed for the purposes for which it is intended. What has been said of lack of symmetry in external appearance, is the result more of position, than of architectural design.—The whole work has been under the direction of Mr. Benjamin F. Webster.

Through a spacious hall, we enter into the main room, 58 by 35 feet, and 22 feet in height. It is plainly but elegantly finished, and has a most inviting aspect. Over the entrance hall is a convenient teachers' room, and connected with it a library room. The rooms are lighted by gas and heated by furnace. It has been built at an expense of about 7000 dollars, contributed by members of the society. In addition to this sum about $500 have been expended for the furniture and fixtures.

The desk is on the south end, opposite the entrance. In the rear of the desk the organ is placed in a recess, and with a happily designed open-work connection presents the appearance of forming in low relief a part of the wall. There are twenty-two open wall pews, with two seats—against the wall and facing the desk. In front of the desk are two rows of sixteen slips each. Every other division is movable, like the backs of the seats in rail cars. Thus making sixteen class pews of two seats each, each seat giving room to five children,—and thus affording in all 38 class pews, and accommodations for nearly 400 children. The rooms are handsomely carpeted, and the whole aspect breathes a cheerful purity which will no doubt do much in aiding the teachers and scholars in their useful and and heart renovating labors.—*Journal.*

NEIGHBOR NEWBURYPORT.

The principal topic of conversation, in the spring and fall, between housewives, is house-cleaning.—Rarely does one drop in to see another without asking the question, "Have you begun to clean house yet?" There is, if not a decided feeling of rivalry in these affairs, at least a strong desire in the mind of each not to be found behind-hand of the other, and greatly delighted and relieved is she who can answer, "Yes; I am happy to say *that* job is fairly over!"

Now in one respect Portsmouth is outdone by Neighbor Newburyport; and hearing, by chance, a chat between two neighbor-housewives concerning the just-mentioned matter of house-cleaning and winter preparations, called to our mind the subject on which we purpose to make a few remarks. In short, the fact is simply this: that Neighbor Newburyport is making, if she has not already completed, her winter preparations. A friend, who spent a day or two with our Neighbor last week, informs us that he saw men employed in all parts of the city in gathering up dead leaves and street accumulations generally, and carting them away.—When the snow, which must fall soon, melts away in the spring, Newburyport streets will present a neat appearance; whereas our streets, unless Portsmouth bestirs herself, will look extremely filthy;—more especially because they contain now the accumulated rubbish of months.

During the summer one or two faint efforts were made towards removing our disgrace; but they amounted to little or nothing. In this season of folded hands, and fainting hearts, and famishing bodies, what a help it would be to the poor, if they were employed in sweeping and cleaning our streets! Even though they earned but little, comparatively, the work must be a benefit to them in some degree; for we should have less idleness in our midst; and industry is one of the surest safeguards against drunkenness and crime. *Apropos* of this is the saying of an old divine, who was a son, by adoption, of Neighbor Newburyport. He was a man of uncommon vigor and activity, and once made this forcible and characteristic remark:—"I shall have time enough to be lazy *under* ground, but the Lord deliver me from laziness *above* ground."

Morning Chronicle.

SATURDAY, NOVEMBER 14, 1857.

GOOD FOR THIS TRIP ONLY.—The newspapers are just now publishing a statement that these words on a railroad ticket are of no effect, and that a company has no right to refuse to recognize a ticket which it has once issued, although the holder of it may be found in a different train from that for which it was bought, &c., &c.

This is not law in New England and probably not anywhere. The latest collection of authorities and decisions on all this class of questions is "Pierce on Railroads," published the present year. On the 489th page of the work, the author treats of the "duty of the company to receive and carry passengers *according to its professions*," and on the next page, upon the "duty of a passenger to conform to the regulations of the company." Under this last head, the author states:

"The company may, by its regulations, refuse to allow the purchaser of a through ticket, who leaves at an intermediate station the train in which he started, to take another subsequent train, and complete his journey by virtue of the same ticket, or a conductor's check given to him in lieu thereof. His leaving the train at an intermediate station, was an abandonment of his contract, unless the right was reserved to go through in another train. If, therefore, on resuming his journey, he refuses to pay his fare from the station where he resumes it to his destination, he may be expelled from the cars by the servants of the company having charge of them."

THE MURDERERS OF THE SWISS WOMAN. Morris O'Connell, charged with the murder of Therese Spiztlin, in New York, on Friday night, under the most horrible circumstances, was arrested on Wednesday morning while asleep at a house on 27th street. On being rudely awakened by the officers, and finding himself in their hands, O'Connell was so paralyzed with fear and surprise as to lose all power of motion for a time. His appearance, although young, being only about 16 or 17 years old, is that of a brutal, hardened villain. He denies his guilt of course. All the parties concerned in this affair, it is said, have been arrested, with one exception, viz.: "Sailor Dan," and the police expect to arrest him in a day or two.—There were four of them in all.

☞ At the late term of the Supreme Judicial Court in Dover, the Enquirer says:

The only indictment grounded on the Maine Law which was brought to trial, of the 59 which were presented by the Grand Jury, was that of State vs. Michael McGuinnis, for keeping for sale certain large quantities of the forbidden article. After an eloquent address on the part of the respondent by Hon. John P. Hale, and an equally able reply by the County Solicitor, Michael met the fate of his brothers. The alertness and vigor displayed by the Solicitor is worthy of the highest commendation. Such havoc among the rumsellers—great and small, as he has brought about, is unprecedented in the annals of our county.

The remainder, we suppose, backed out and paid up. But "the paper don't say."

☞ A fellow named Hill hired a horse and chaise at Leavitt's stable in Lowell last week to go to Newburyport. He drove the team to Concord, N. H., where he sold the whole for $80; it was worth about $300. The thief then returned to Lowell, called at the stable, stated that on account of a death in his family he wanted to keep the team a day or two longer, and then disappeared, Leavitt supposing it to be all right. The property has been recovered, but the thief is still at large.

☞ Paul and Silas, when in prison and with their feet made fast in the stocks, "sang praises;" but an exchange says those stocks couldn't have been the kind we read about now-a-days, that they were caught in,—railroad and manufacturing stocks, &c. If they had been, you wouldn't have caught them singing psalms about it.

☞ In the Supreme Judicial Court at Dover, Wm. Webster, the swindler whose operations at Great Falls, Cape Neddick, and Kennebunk, we chronicled last summer, has been convicted of stealing the team he drove out of Great Falls without leave, and sentenced to two years in the State Prison.

☞ The N. Y. Commercial Advertiser calls upon the Common Council of that city to have bread and potatoes sold by weight—from which provision it says the poorer classes will derive no small benefit.

☞ There is not a corporation in Lowell but has given notice of intention to reduce the wages. Most of them have stopped, or are running short time.

☞ Walker, the fillibuster, has got to sea, to seek his fortune once more.

UNIVERSALISTS.—The Universalist Register for 1858, contains the following summary of the denomination.

Universalism has now a footing and a name in 32 States and Territories of the Union, and in the four British Provinces on our North and East—as follows:

The General Convention of the United States, to which is attached a Historical Society, owning a valuable and increasing Library: and a General Reform Association, devoted to advancing the various reforms of the day. In 19 States and Territories there are State Conventions, supporting 3 State Tract, 7 State Missionary, 3 State Education, and 3 State Sunday School Societies, one State Relief Fund of $12,000, and one State Book and Paper Establishment. Connected with and subordinate to these, are 86 Ecclesiastical Associations, (7 of which have Missionary and Sunday School Associations within them,) constituted of 1098 churches and societies, (not counting churches organized within societies,) owning wholly or in part 901 houses of worship. To supply these there are 621 preachers, including those who are not in formal fellowship.—There are one University, one College, and 10 High Schools, under the control of and supported by the denomination; and 18 periodicals, beside three annuals, published by it. During the past year we have published 14 volumes of Books, including annuals.

Besides these, there are in the British Provinces 1 Association, 15 Churches, or Societies, 8 meeting houses, and 5 preachers.

RECORD OF INTEMPERANCE.—A Mrs. O'Connor of Yorksville, Canada, being confined recently, sent for two midwives. The next morning, a neighbor went to see how she was getting along, and found her dead in bed, with the two midwives and her husband lying drunk on the floor. The husband died the day after, leaving his child an orphan one day old.

On Saturday afternoon, five men were found in a state of insensibility, on a raft nearly submerged, near Hoboken, N. J. They had been drinking brandy and fishing, and the raft having stuck in the mud the flood tide had nearly covered them when discovered. One of the number died the same evening, but the rest were restored.

A small boy apparently not more than eight years old, was seen in the streets of Providence on Sunday, in a state of extreme intoxication, from the effects of liquor given him by some of the people near by. Such a sight throws hard times all into the shade.

BUTTER.—The New York Times says "Butter is depressed, although the stock on hand is not over large. The well-known fact that large amounts are in the country, and the absence of a demand for shipping, prevents activity in the market. We quote a decline in prices." Orange Co. pails sell at 20 a 22c; State 15 a 18c; and Ohio and other Western, 12 a 14c.

☞ A party of young men, living in Topsham, Me., were returning from Brunswick on Monday evening, in a somewhat intoxicated state, when a quarrel arose as to the ownership of a bottle of liquor.—Eliphalet Berry seized it and ran, followed by a man named Dudley, who stabbed Berry so that he died in a few minutes. The murderer has been arrested.

☞ Corporal Lincoln, of the Marine Artillery of Providence, who was sadly injured while firing a salute in honor of the Seventh Regiment of New York, during their passage through that city on their return from Boston last summer, has been presented with a purse of $1000 by the N. Y. 7th Regiment.

☞ The wages of the Irishmen on a wood train in Hartford having been reduced, they refused to work; and their places were all filled by Americans, who preferred to earn fifty cents a day, rather than be idle, and beg, steal or starve.

☞ Hon. Philip Allen, of Providence, has determined to supply fuel gratis to the help whom he has been obliged to discharge from his print works. The coal with which his yards are filled he proposes to divide among them; in addition to which he will give them house rent free of charge.

☞ A young man in Somerset, Mich., in loading his rifle, got the ball stuck fast in the middle of the barrel, when he unbreached it, took out the powder, and laid the barrel on a bed of coals to melt the ball. After the barrel had become heated, the contents exploded, the heated ball entered his eye and killed him instantly.

☞ Charles Zuener, one of the best organists and composers, committed suicide a few days ago in Philadelphia. His age was 60; he was interested in spiritualism; and some of his friends think his insanity and suicide were occasioned by it.

☞ Gen. Pillow did not get a single vote in the Tennessee Legislature for U. S. Senator.

☞ The unemployed shoemakers of Lynn have held meetings that partook somewhat of the nature of the meetings of the unemployed in New York. They are desirous that the bosses, while work is so short, should give out their work to men in Lynn, rather than those abroad.

A NEW CURRENCY.—The city of Des Moines, the new capital of Iowa, has passed an ordinance for the issue of "city scrip" to circulate as money, the same and all other city orders bearing interest at *three per cent. a month*, till January next.

☞ Joshua Banfield, Esq., of Dover, has been appointed by the Supreme Judicial Court, Commissioner for the county of Strafford, to fill the vacancy occasioned by the death of Simon L. Hartford, Esq.

☞ The Cloth Manufacturing Company, at Exeter, have ceased operation for the winter, as has also the large carriage manufactory. At Newmarket, the gas pipe establishment have dismissed all their hands.

☞ A gentleman in New York, the other day, gave his landlady some printing ink, thinking it was black paint. She used it, but found it didn't *dry* very well. No wonder.

☞ The rains of the last 10 days, with the consequent freshets in all the great rivers, have produced much loss, damage and detection, on the New York Railroads.

☞ A horse valued at $300, in Kinderhook, was so much frightened by the sight of an elephant that it ruptured a blood vessel and died.

"DIED POOR."—As if anybody could die rich, and in that act of dying did not loose the grasp upon title-deed and bond, and go away a pauper, out of time. No gold, no jewels, no lands or tenements. And yet men have been buried by charity's hand, who *did* die rich—died worth a thousand thoughts of beauty, a thousand pleasant memories, and a thousand hopes of glory.

There is a report that the dowager Empress of Russia has spent $3,000,000 since the death of the Czar, a period of two years.

BLACK BOILED SILKS.

BOILED BLACK SILKS.—We call the particular attention of purchasers to our Stock of Full Boiled Black Dress Silks. We are very particular in selecting our Black Silks, and shall keep on hand at all times, a good stock of 24 in., 26 in., 28 in., 30 in., and 32 inch of the same celebrated quality, which we have sold in such large quantities since we opened here; and which are warranted not to crack or break.

We receive our Silks new and Fresh every week. As this is an article which a person does not purchase very often, and which costs considerable money, it is very desirable to get the best in the market. For which purpose, purchasers are invited to call at the New Store, No. 15 Market Street. ALLEN & PAINE.

☞ The only place in this city where an Ambrotype can be obtained, is at Davis' Ambrotype Gallery, No. 8 Daniel Street, as they have the Patent, and all infringements will be prosecuted. sept9

BUY AND TRY IT!!

SMITH'S CURATIVE CLEANSING COMPOUND which has been sold extensively in Portsmouth and vicinity, for a few weeks past, by the proprietor, for the cure of pains, &c., may be had of Wm. R. Preston, Brackett Huckins, Asa S. Tilton, Jenkins & Goodrich, F. Dupray, C. E. Laighton, Oliver F. Gerrish, Joseph Harvey & Son, Thomas S. Gammon, in Portsmouth.

None genuine unless bearing my trade mark (J.S.) attached to the autograph on the wrapper.

Prepared by JOSEPH SMITH, Haverhill, Mass. 1y july27

WE WISH TO SAY TO EVERY PERSON Who reads this that there is an article known as "Dr Sanford's Invigorator or Liver Remedy," which can be relied on as certain to cure liver complaint in any of its forms, such as Jaundice, Dyspepsia, and numerous other complaints, described in another column, besides which it is one of the greatest preparations for cures for consumption, taken in early stages, that is now known.

We take it for granted, as experiment has proven, that diseases of the lungs are not generally the first cause of consumption, but a debilitated system, caused by the improper action of the liver, reduces the power of the lungs to resist or throw off diseases caused by cold and irritation, leaving the lungs at the mercy of one disease, because the liver has incapacitated them from performing their proper action of throwing off diseased matter caused by cold, this to prevent consumption, cure the liver, and keep the system strong enough to throw off slight diseases of the lungs.

There is not in the world a better liver remedy or cure for debilitated system, than "Dr. Sanford's Invigorator," for it has been fully tried in a large and extended practice, till its results are fully known and now it is offered as a tried remedy, and one that can be relied on.

General Agents in Boston, BUTLER, FOSTER & Co., No. 1 Cornhill; and GEO. C. GOODWIN & CO., Boston.

Sold in Portsmouth by JOS. HAVEN THACHER, Druggist.

And sold by Druggists throughout the United States and British Provinces.

MOTHERS! MOTHERS!! MOTHERS!!!

AN OLD NURSE FOR CHILDREN.

DON'T fail to procure MRS. WINSLOW'S Soothing Syrup for Children Teething. It has no equal on Earth. No mother who has ever tried Mrs. WINSLOW'S SOOTHING SYRUP for Children will ever consent to let her child pass through the distressing and critical period of teething without the aid of this invaluable preparation. If life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of Bottles of MRS. WINSLOW'S SOOTHING SYRUP are sold every year in the United States. It is an old and well tried remedy.—None genuine unless the fac simile of "Curtis & Perkins" is on the outside wrapper.

PRICE ONLY 25 CENTS A BOTTLE.

COURT OF COMMON PLEAS.

FRIDAY, Nov. 13.

The case, Asa Ham *vs.* Amos T. Goodrich, Administrator, was given to the jury at 11 o'clock.

The action Merriam v. Brown, is now on trial.—This action is brought to recover the amount of a note given by Deft. to Plf. for the balance due Plf., on an assignment in favor of their creditors.

☞ Samuel Sheafe, Esq., one of our old and opulent merchants, died in this city on Friday morning, at the age of 70. He was a son of Thomas Sheafe, also a merchant; and their ancestors, back to the early settlers of Portsmouth, were "merchant men," or "merchant adventurers." They were not on the plan of expansion and collapse, but followed the well-trodden path of care, attention and economy. Hence their success.

Messrs. Editors;—I perceive that the city authorities have remedied the slight fall in the side-walk at the corner of the North Church, probably at the urgent solicitation of "Old Square-toes" in your paper. I would therefor call their attention to a nuisance of a much more aggravating character. Throughout the entire extent of the city, wherever a dirt side-walk is to be found, are innumerable holes, a few inches in depth, dug for the ostensible purpose of "playing marbles," but which answer as man-traps in the night, being just large enough to admit of spraining an ancle in them, while in the daytime you must either force your way through a rabble of noisy boys or step out into the mud, processes both of which are distasteful to ladies. TWILIGHT.

Speaking of Nuisances, Uncle Toby thinks of another, viz. the loafers who stand in squads on the side-walks in Congress street and other places, in the way of those who would pass peaceably on, especially in the evening.

☞ Uncle Toby, who oversees the new Custom House, (without pay,) observed three boys fishing in the lake where the cellar is to be. Good skating is expected there, when the lake freezes.

☞ The man who was seen to take the Morning Chronicle of Friday, from the steps of a house in Hanover street, and place it beneath his coat, is invited to "call at the captain's office, and settle."

☞ Why is the contractor on our new Custom House, a practical joker? Because his work has resulted only in a regular "sell" ugh! (cellar.)

To NEW SUBSCRIBERS.—For $4, we will furnish the Daily Chronicle from this time to Jan. 1, 1857.

For only $1, we will supply the Weekly Chronicle from the present date to Jan. 1, 1859.

☞ It will be noticed by our advertising columns, that Mr. Sharpe, well known as a skilful painter, has returned to this city, and taken rooms in Daniel street.—He can make oak or rosewood finish faster than a joiner's gang; and turn out more marble slabs than a host of quarry men—and for one-tenth of the money, too.

☞ Wanted—to complete files at this office—copies of the Daily Chronicle of April 7 and 17, 1857. Any person having copies of the Chronicle of these dates, will confer a great favor by leaving them at our counting-room.

RAILROAD ACCIDENT.—As the 10 o'clock train from Newburyport was nearing Ipswich on Thursday, just before reaching the depot, the train came in contact with a horse and wagon, driven by Mr. Guilford of Ipswich, a blacksmith of the village.—The horse was instantly killed, the wagon torn to pieces, and Mr. Guilford thrown out into a culvert and so injured in the head and body that little hopes of his recovery are entertained.

LIQUOR SELLERS IN TROUBLE.—The Supreme Court in Salem, last week, examined twenty-seven liquor cases sent up on exceptions, over-ruled them all, and sent them back for sentence. Only think of it—twenty-seven drunkard-makers together in the House of Correction.

In the Court of Common Pleas, now in session in Lowell, the juries find no trouble in convicting where the evidence is clear. Three parties were disposed of last week, and more are to follow. The grog dealers are shaking.—*Lowell News.*

THE FILLIBUSTERS.—*New Orleans, Nov.* 12.—Gen. Walker and men were transferred from the Mobile mail boat to a steamer in waiting in Mobile Bay, with another supply of arms and ammunition. The fillibuster steamer immediately steamed down the bay, and Walker is considered fairly off. Nothing has been heard of the steamer Fashion. Some think she has gone for the Texas Regiment.

MARRIED.

DIED.

In this city, Nov. 13th, Mrs. Joanna C. Shackford, aged 65, wife of Wm. M. Shackford, Esq.

ONE WEEK LATER FROM EUROPE.

ARRIVAL OF THE ARABIA.

Important from India!—Fall of Delhi!—Cotton and Breadstuffs declined.—Consols Advanced.—Heavy Bank Failures in Liverpool.—Large Mercantile Failures.—The American Horses again Beaten.

NEW YORK, Nov. 13.—The steamship Arabia has arrived. Delhi had fallen after a desperate resistance. No quarter was given except to the women and children.

The Arabia arrived at 7 o'clock this morning. She brings $1,000,000 in specie.

Cotton and breadstuffs declined. Money market active and unchanged. The Bank of England remains firm. Consols advanced to 89 1-2 for money.

The British assaulted Delhi on the 14th of September, and effected a lodgment, and after six days obstinate resistance, had, on the 20th, obtained possession of the entire city. Numerous mutineers escaped, and among them, the King of Delhi and two sons.

The British loss, killed and wounded, up to the 16th, was 600, including 50 officers.

Cutram has reinforced Havelock at Cawnpore. The latter started for Lucknow, at which place the garrison gallantly held out.

Considerable re-inforcements had arrived at Calcutta. The markets at Calcutta were dull, but at Bombay active.

The Borough Bank, Liverpool, suspended on the 27th. Deposits estimated at a million and a half sterling, fully secured. Liabilities of the Bank in bills and endorsements supposed three millions sterling.

Several Liverpool firms have suspended, names not mentioned.

Other failures comprise Thornton, Higgins, Ward & Co., Manchester, liabilities half a million. W. & H. Brand & Co., London, in the American trade, liabilities £149,000. Charles Smith & Co., Manchester; James Condie, Perth, £180,000.

The American horses Priorcss and Babylon were badly beaten at the Cambridgeshire stakes.

Gen. Cavaignac had died suddenly of disease of the heart.

The Prince of Prussia has undertaken to conduct public affairs. The King was improving.

The Swiss elections largely favored the liberals.

There were more failures at Venice, but the worst of the crisis was believed to be over.

CHINA.—Dates from Hong Kong are of Sept. 10, Shanghae 1st.

The U. S. sloop-of war Porismouth had sailed for Japan. The Levant and San Jacinto were at Shanghae.

The blockade of Canton river was strictly maintained.

Teas have considerably advanced.

CONSTITUTION FOR KANSAS, &c.—*St. Louis, Nov.* 12.—The Locompton correspondent of the Republican says, that a majority of the Convention, headed by Calhoun, Moore, and Henderson, propose to submit the Constitution to the people in the following form, viz:—A Constitution with slavery, and a Constitution without slavery; the vote to be taken about the 20th of December, and every actual resident at that time to be allowed to vote.

The Lawrence correspondent of the Democrat says that the Constitutional Convention would probably adjourn on the 7th, and that the Constitution will endorse the the Dred Scott decision, the fugitive slave law, etc. A proposition for the establishment of a Provisional Government was before the Convention. The pro slavery clause received only four dissenting votes. This clause is the only one which will be submitted to the people, so that no chance is given to vote down the Convention.

A rumor was current at Leavenworth that Gov. Walker in conjunction with George W. Sanders, purchased several hundred acres of land from the Leavenworth Military Reservation at a nominal figure.

PHILADELPHIA, Nov. 11.—Five thousand unemployed persons met in Independence Square this afternoon. The meeting passed off quite orderly, the speakers generally advising the support of law and order. A reporter of Forney's press, being called upon, recommended the seeking of work instead of idling at meetings, and taking it at any price in preference to starving,—and was groaned: while the declaration of another speaker, that he would rather die than work at under-prices, was received with applause. The issue of small notes by the city was advocated.

WASHINGTON, Nov. 12.—At about 4 o'clock this morning two newspaper offices and five stores, in the village of Culpepper, Va., were destroyed by fire. Loss estimated at $30,000.

Cold Winter is Coming on.

AND with it will return the usual concomitants, Coughs, Colds, Dyspepsia, Scorbutic Eruptions, Sick Headache, Rheumatism, Tetter, Ring Worm, &c., which the genial warmth of summer and the perspiration has for a time relieved, but which the return of rigid, cheerless winter, will bring back, unless resisted by some medicamentum.

MYER'S EXTRACT OF ROCK ROSE,

is peculiarly applicable, and if freely used will not fail to protect the constitution against the sudden and extreme changes of our variable climate. It purifies the blood, strengthens the stomach, and invigorates the whole system, thus fortifying against the insidious attacks of unusual frosts and debilitating heats. See Circulars.

REMOVAL.

E. Green & Co., Merchant Tailors,

HAVE just made great improvement in their CLOTHING ESTABLISHMENT.

It gives them great pleasure to announce their thankfulness to the people of this city and neighboring towns, for their kind patronage; through which, and their own facility of selling cheaper than any other establishment, we were enabled not only to increase our Stock to a great extent, but to accommodate our increased and increasing custom. we have obtained the large and commodious store,
No. 54 Market st., cor. of Hanover St.
opposite the Union Store. Said Store is more than double the size of our former establishment; we assure all who may favor us with their custom a courteous treatment and the value for their money. All who are in want of clothing, are invited to call and see whether our statement is true.

A variety of
Trunks, Valises, Carpet Bags, Oil Suits, &c., &c.

As the articles we have for sale are too numerous to detail, we will say in short, every article belonging to Gents' and Youth's wear, can be found at our CLOTHING HOUSE; together with an assortment of Woolen Goods, of which we will make garments to order, or sell by the yard, and cut it for them without making, any way to suit the purchaser. LOTTERIES.

THE Lotteries of Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received before the drawing will be used to take place after the same comes to hand. According to the scheme one ticket in every ten will draw a prize; whole tickets, $5; halves, $3; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that no one can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; everything is strictly honorable and result of drawing forwarded to all purchasers.
☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Augusta, Georgia.
Prizes paid in full—no percentage deducted from prizes drawn in our lottery.
All communications strictly confidential. m13ly

LOTTERIES.

The well-known MARYLAND Consolidated Lotteries, of which R. FRANCK & Co are the managers, are chartered by the state of Maryland, and a commissioner is appointed by the legislature to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combinations. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.
☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

A BEAUTIFUL HEAD
OF RICH GLOSSY HAIR,
Completely Preserved
TO THE GREATEST AGE.

AND who that is gray would not have it restored to former color; or bald, but would have the growth restored; or troubled with dandruff and itching but would have it removed, or troubled with, scald head, or other erupt ions, or with sick headache, (neuralgia) but would be cured. It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following.

ANN ARBOR, November 5th, 1856.
PROF. O. J. WOOD—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dyes, &c., I was disposed to be incredulous. Having in the same category with the one thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months since, when you gave me such assurance as induced the trial of your Restorative in my family—first, by my good wife, whose hair had become very thin, and entirely white; and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the highest effects; therefore my acquaintance and doubts in reference to its character and value are entirely removed; and I can and do most cordially and confidentially recommend its use by all who would have their hair restored from white or gray, (by reason of sickness or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.
Very truly and gratefully yours.
SOLOMON MANN.

FRIEND WOOD: It was a long time after I saw you at Blissfield before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you assured me it would do; and others of my family and friends having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.
Again, very respectfully and truly, yours,
SOLOMON MANN.

CARLISLE, ILL., June 28, 1852.
I have used Prof. O. J. Wood's Hair Restorative, and have admired its effects. My hair was becoming, as I thought, premature gray; but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so.

STOVES.

Frank Jones, No. 61 Market St.,

HAVING received his Winter Stock of Stoves, is now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:
IMPROVED EMPIRE STATE,
This celebrated Cooking Stove having been in the market many years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.
THE WHITE MOUNTAIN IMPROVED,
being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.
THE REPUBLIC.
This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.
All sizes on hand, and every Stove warranted.
Also on hand all the different kinds of the most approved patterns; among which are the
BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.
Repairing Pieces of all kinds on hand.
The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.
Our stock of
PARLOR STOVES
is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the
ILION, VITLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,
OVEN PARLORS in great variety for wood or coal. SHEET IRON STOVES of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different Patterns.
The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.
Remember the place to buy cheap is at
No. 61 Market Street.
FRANK JONES.

Magee's Patent Ventilating Stove.

FOR WARMING AND VENTILATING
PARLORS, OFFICES, HALLS, STORES,
SCHOOL HOUSES, &c.
WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give
Any amount of Heat required,
and unlike all other Anth acite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and as none of the air which comes in contact with the fire pot is used for respiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.
These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them.
For Offices and Stores as well as the Parlor.
The Inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to rekindle without the use of charcoal. The coal is all used, and no clinkers made, consequently, sifting coal is dispensed with.—When this Stove is properly managed,
THE FIRE MAY BE CONTINUED THROUGH
THE ENTIRE SEASON,
without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 30 to 50 per cent, in fuel expense.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience.

THIS valuable female regulating Pills is the result of a long and extensive practice; they are mild in their operation, and certain to produce the effect for which they are intended. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular: and whenever an obstruction takes place, which is from various causes, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many premature graves among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the derangement of nature; and whenever that is the case, the Pills will invariably remedy all these evils. All cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by inclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,681, Post Office, New York City, can have them sent to their respective addresses by return of mail.

VOL. II. PORTSMOUTH, N. H., MONDAY, NOV. 16, 1857. NO. 87.

LAW ENFORCED.—It is a month or more since some two hundred of the inhabitants of the town of Haverhill, Mass., formed a committee of vigilance to suppress the liquor traffic in their town. They at once notified the owners of all buildings where liquors were sold, the Agent of the Boston and Maine Railroad Company, as well as the Express Company, that any violation of the Liquor Law by them, either by transporting into the town or allowing their property to be occupied for the sale of liquors, would be immediately prosecuted to the extent of the law. The result was, we are informed, that all liquor stores (except the Town Agency) were at once closed up, and have not been reopened, and the sales under the law, by the Town Agent, have much increased.—*Boston Journal.*

A worthy but illiterate exhorter, hardly a thousand miles distant, having occasion, not long since, to address his hearers on the subject of the eucharist, inadvertently branched off in a minute account of the growth and culture of the grape and the process of manufacturing wine. Having described the final stage of this process, by announcing with immense gusto that "the grapes are all thrown into a press, and the juice squeezed out of them," he threw out his arms in a sort of circular motion, as if to grasp the whole congregation, and exclaimed at the top of his voice, "Just so, my brethren and sisters, will it be with us all that great day. We will all be thrown into a press and the juice squeezed out of us!!"

S. D., & H. W. Smith,
—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,
No. 511 Washington St., Boston,

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and then it is one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by one of the performers. This combined with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

Is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of a great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promote our business by the instrument being not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon:
Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited on the purchase price, if purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instrument before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities, or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. It is asked, how it does this?—simply by restoring the balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a lancet, dissolved into a solution of it, to affect the entire system.

THE QUESTION.

The Portland Advertiser has papers containing a full report of the so-called Constitutional Convention of Kansas, up to the 31st of October. The Convention was progressing with its work at a rapid rate, and would, it was thought, have the "organic instrument" fully completed by the 20th inst. The members were all pro-slavery, there being no one in the Convention, who had the slightest idea of seeing Kansas admitted as a free State, if fraud and violence could in any way bring about a different result. The question of submitting the Constitution to a vote of the people for ratification or rejection, had not been formally passed upon by the Convention, though the general impression at Lecompton was that no such submission would be made, but that the instrument would be sent directly to Congress with the view of having Kansas immediately admitted as a Slave State. The article relating to the subject of Slavery had been adopted by the Convention, and formally incorporated into the Constitution. It is in the following words:

PREAMBLE.—The right of property is before and higher than any Constitutional sanction, and the right of the owner of a slave to such slave and *its increase* is the same and as inviolable as the right to any property whatever.

SEC. 1. The Legislature shall have no power to pass laws for the emancipation of slaves without the consent of their owners, or without paying their owners, previous to their emancipation, a full equivalent in money for the slaves so emancipated. They shall have no power to prevent emigrants to this State from bringing with them such persons as are deemed slaves by the laws of any one of the United States or Territories, so long as any person of the same age or description shall be continued in Slavery, by the laws of this State: provided that such person or slave be the bona fide property of such emigrant; and provided also that laws may be passed to prohibit the introduction into this State, of slaves who have committed high crimes in other States or Territories. They shall have power to pass laws to permit the owners of slaves to emancipate them, saving the rights of creditors, and preventing them from becoming a public charge. They shall have the power to oblige the owners of slaves to treat them with humanity, to provide for them necessary food and clothing, to abstain from all injuries to them extending to life and limb; and, in case of their neglect or refusal to comply with the direction of such laws, to have such slave or slaves sold for the benefit of the owner or owners.

SEC. 2. In the prosecution of slaves for crimes of higher grade than petit larceny, the Legislature shall have no power to deprive them of an impartial trial by a petit jury.

Should the Constitution containing this most odious clause be forwarded to Congress without any submission to the people, we shall await the action of the Administration in regard to it, with no small degree of interest. Governor Walker pledged the people of Kansas that if the Constitution were not submitted to a popular vote, the National Administration would insist on having Congress reject it, while, *per contra*, Senator Hunter, in his recent manifesto, declares himself perfectly certain that the Administration will do no such thing. It is therefore quite evident that the question will come up, and it must be met. There is a wide difference and absolute contradiction between the papers of the democratic party, North and South.—Their papers in New England, laud Walker, glorify popular sovereignty, and praise free Kansas as killing black republicanism.—But the Richmond South, Richmond Enquirer, Charleston Mercury, and Savannah Georgian, pitch into Walker, cast him out of their church, and throw him over to the black republicans, for daring to correct the bogus returns.

When these opposing factions get together in Congress next month, the country will hear some music. The Charleston Mercury says:

But, admitting that all the objections of the Governor and his Secretary were perfectly good—that the oath taken by the governors of the elections should have been inscribed on their returns—and that the roll of the names of the voters afforded the most abundant grounds for suspicion, *they had nothing to do with it*. The law had not elevated them into judges of elections. The Secretary was nothing but a recording and ministerial officer. Their flagitious corruptions to set aside the returns of the governors of elections, and thus set up a majority in the Territorial Legislature, of Abolitionists and Black Republicans, is in perfect keeping with their whole course since they entered the Territory of Kansas. It is plain that, in the opinion of these precious worthies, their mission was—cost what it may—to make Kansas a Free State; but we rejoice to believe they may yet be defeated.

Walker is cast off, as, doubtless, he anticipated, by the whole Democratic Party. He will, we presume, carry off as many as he can to the Abolitionist or Black Republican Party, and as their leader will make good his promise to join them, and aid them in their efforts to overthow the Democratic Party.

NENA SAHIB'S PROCLAMATIONS.—The following proclamations, issued by this miscreant, have been forwarded for publication. The first is dated July 1:—

As, by the kindness of God, and the ikbal or good fortune of the Emperor, all the Christians who were at Delhi, Poonah, Starah, and other places, and even those 5000 European soldiers who went in disguise into the former city and were discovered, are destroyed and sent to hell by the pious and sagacious troops who are firm to their religion; and as they have all been conquered by the present Government, and as no trace of them is left in these places, it is the duty of all the subjects and servants of the Government to rejoice at the delightful intelligence, and to carry on their respective work with comfort and ease.

Proclamation dated 1st of July and issued by order of the Nena:—

As, by the bounty of the glorious Almighty God and the enemy-destroying fortune of the Emperor, the yellow-faced and narrow-minded people have been sent to hell, and Cawnpore has been conquered, it is necessary that all the subjects and landowners should be as obedient to the present Government as they had been to the former one; that all the Government servants should promptly and cheerfully engage their whole mind in executing the orders of Government; that it is the incumbent duty of all the ryots and landed proprietors of every district to rejoice at the thought that the Christians have been sent to hell, and both the Hindoo and Mahommedan religions have been confirmed; and that they should as usual be obedient to the authorities of the Government, and never to suffer any complaint against themselves to reach the ears of the higher authority.

Order dated the 5th of July to the city Kotwal (Mayor) by the Nena:—

It has come to our notice that some of the city people, having heard the rumors of the arrival of the European soldiers at Allahabad, are deserting their houses and going out into the districts; you are, therefore, directed to proclaim in each lane and street of the city that regiments of cavalry and infantry and batteries have been dispatched to check the Europeans either at Allahabad or Futtehpore: that people should therefore remain in their houses without any apprehension and engage their minds in carrying on their work.

NOTES Critical and Practical on the Book of Numbers, designed as a general help to Biblical reading, by George Bush, late Professor of Hebrew and Oriental Literature in New York City University. New York, Ivison & Phinney

We regard the former critical works of Prof. Bush on Genesis, Exodus, Leviticus, Joshua and Judges, the most able and valuable ever published in the English language on the same books. After an interval of several years, he has resumed his labors with a view of completing his notes on the two remaining books of the Pentateuch. The publishers assure us that his peculiar theological views will not appear in his comments, as he will strictly confine his labors to a literal construction and exegesis of the text, in which department he has probably no superior. A specimen of 25 pages of the work is before us. It will be published in May, 1858, when, if we receive a copy, we will give it a more extended notice.

We copy the above from the Congregational Journal, and adopt every word of it, except that about reviewing a specimen.—Several of our readers will remember, with us, the visit of Prof. Bush to Portsmouth more than a dozen years ago,—and concur with us in our high estimate of both his learning and modesty.

Prof. Bush *was* a presbyterian, and *is* a Swedenborgian,—as he found himself greatly disturbed by small men in the former church, who nibbled at his work on the Resurrection. The men of more breadth and larger culture, however, in all churches, who own and *use* his Notes, will buy the new volume, regardless of every thing but his learning, honesty and good faith.

☞ A single paragraph in the court report of the Dover Gazette shows the act for the suppression of intemperance is not a dead letter in Dover—and also shows *how* the birds were "twigged." Here it is:

Monday and Tuesday of this week there was a terrible fluttering among those who had been indicted at this term for selling *bad rum* and liquors of the R. G. and S. P. brands, there being 59 indictments against a large number of individuals, *all* residents in Dover. The Solicitor kept the Sheriff calling all day Tuesday for some one or other of the indicted to come into Court and answer according to the tenor of their respective recognizances, or to some dozens of sureties to come into Court and bring with them the bodies of those for whom they were sureties, as they stood bound to do, or their several recognizances would be forfeited. To his repeated calls there was no answer.

That is to say, after one case had been tried, verdict *guilty*, all the other "coons came down"—forfeited the bonds, and will have to pay over to the county a few thousand dollars of the "fool's pence," on which they have been growing rich.

NEAL DOW.

The public reception tendered to Hon. Neal Dow by the friends of temperance, in Portland, on Thursday evening, was an occasion expressive of much enthusiasm and cordial feeling on the part of a large class of citizens towards the distinguished advocate of reform. The hall was tastefully decorated, and Chandler's Band furnished the music.

Benj. D. Peck, Esq., was President of the meeting, with Hon. John M. Wood and other distinguished men for Vice Presidents. Among the numerous clergymen on the stand we notice the name of Rev. H. D. Moore.

Rev. Mr. Pratt of Portland made the reception address. He welcomed Mr. Dow, not to rest from his toils,—there could be no rest for him here,—but to renewed labor in the noble cause which, he regretted to say, had sadly retrograded in his absence. In behalf of the friends of temperance, he welcomed him as the 'captain of our host.'

Mr. Dow replied in his accustomed earnest, effective manner. He disclaimed the title which had been so flatteringly bestowed upon him. He came not as a captain, but to fight as a soldier in the ranks. He had been among our English cousins—cousins he called them before he went—English brothers he called them now—and he had been delighted to find such warm brotherly hearts there, and such deep interest in the temperance cause. The people there, when they boast of their national glory, allude to the wide-spread intemperance as their national shame and curse.—England is borne down by the evils of intemperance as no other country ever was. 60,000 Englishmen go to their graves annually from intoxicating indulgence.

The English clergy not only stand aloof from temperance reform, but are found in direct opposition to the efforts for its advancement. The younger clergy, however, are coming to the work, and the older ones must follow, or lose their influence with the people. He told them that in this country the temperance cause was born among the clergy; they had ever been foremost in nurturing it, and had carried it forward by their labors and sacrifices.

Mr. Dow said that at the meeting which was tendered him on his arrival in Liverpool, he was mortified and made indignant by a letter presented from this country, stating that the "Maine Law was everywhere a dead letter." The enemies of the cause caught the cry, and echoed it through the land. Traffickers placarded in their gin-shops, "The Maine Law is a dead letter." He asserted that the statement was utterly false, and thought very little of the temperance principle of the man who would place such a weapon in the hands of the enemy.

NEW BRUNSWICK MURDERERS SENTENCED. *St. John, N. B., Nov.* 13.—Breen, and Slavin, Jr., the murderers of the McKenzie family, have been sentenced to be hung on the 13th of December next. Salvin, Jr., was likewise found guilty, and his sentence is to be passed hereafter.

WILMINGTON, N. C., Nov. 15,—The upper rolling mill of Dupont's powder mill, near this place, exploded this morning. Two men named Shannon, were injured, but not fatally.

ATHENS, GA., Nov. 12.—A cotton factory was destroyed by fire here on Tuesday night. Loss $600,000. No insurance.

WEANING THE BABY.

There's trouble in the house, and Bub in arms
Protests with stentor lungs and brimming eyes,
Against this greatest of his earthly harms,—
The order cutting off his small supplies.
With stormy brow—a tempest in a bowl—
He bellows with a most determined might,
Disclosing fierceness in his inward soul,
That in the Infantry may some day fight.
We speak of sorrows, what are they to Bub's?
And the maternal 's half disposed to yield!
'Tis hard to find, amidst earth's minor rubs,
A trouble near so sad as is revealed
Where the accustomed lacteal rations stop,
And infant lungs, like Dives, bellow for a drop.

DEBT.

Oh, beware of debt:
It crushes out the manhood of a man,
Robs his bright eye of boldness, cheats his limbs
Of elasticity, unnerves his hand,
Beclouds his judgement, dulls his intellect,
Perils his uprightness, and stains his name,
And minifies him to his fellow men;
Yes, far worse degradation, to himself.

FASHION.

Oh 'tis a mean and an unmanly thing
To be the slave of fashion. Still to spend,
To plan, arrange, increase, and beautify,
Forespend one's income, hamper one's estate,
Peril one's honor, pauperize one's heirs,
All that, forsooth, one's neighbors round may cry,
"How beautiful! how grand!"

FROM HAVANA AND CALIFORNIA.

NEW ORLEANS, NOV. 13.—The steamer St. Louis, from Havana for New York, has nearly $,200,000 and 600 passengers.—The Granada brought to this port $600,000 in specie.

The Granada brings the (St. Louis) California mails of the 20th ult. The steamer St. Louis, with the mails and over one million in gold, left Havana for New York on the 10th.

New Orleans papers of the 5th inst. contain Havana dates of the 1st. Preparations were being made at Havana for a grand military encampment, at which, it was said, the troops destined to act against Mexico would be manœuvred.

The bark Vesta, of Boston, has been seized as a slaver.

A Walker fillibuster movement against Cuba was dreaded.

The Wailer Fillibuster Expedition at Sea. The steamer Dick Keys, which took Gen. Walker from the mail-boat in Mobile, has returned to Mobile, having placed the fillibusters on board Walker's steamer Fashion, which has sailed for Nicaragua.

His whole force consists of about 400 men. He has large quantities of munitions, and provisions enough to last for three or four months, and a thousand stand of arms.

THE UTAH EXPEDITION.—*Washington, Nov.* 12.—(Correspondence N. Y. Tribune.) No intelligence has reached the Department of the reported slaughter of troops by the Indians, or of the destruction of trains by the Mormons. Previous information, however, renders the latter event not improbable. The troops are considered perfectly safe, unless resisted in the mountain defiles.

The aggregate force consists of 1500 men, with three companies of flying Artillery. It is fully provisioned for ten or eleven months. The direction of hostilities, whether hostile or passive, is left to Colonel Johnson, who commands, and whose prudence is greatly valued by the department. The administration has no intention of sending forward reinforcements this winter, unless some unexpected exigency arises.

The cost of transportation and supplies is immense. Letters were received a few days ago from an officer on Green river, where the force proposes to winter as things are now planned, which seems to contradict the story that an attack had been made on the teams.

WASHINGTON, Nov. 13.—Gen. Cass today received letters from Judge Eckles, Chief Justice of Utah, who is on his way to the Territory, and beyond Fort Laramie, stating that the express had arrived, bringing intelligence of an attack on the U. S. Quartermaster's train by the Mormons, in which 78 army wagons and their contents were destroyed. The government officers here do not fully credit the report.

Emphatic instructions have been sent South, with a view, if possible, of intercepting Gen. Walker and his party.

The Treasurer's statement shows the amount in the different depositories to be $11,868,000, of which $8,758,00 is subject to draft. The receipts for the week ending the 9th inst., amounted to nearly $580,000

☞ The fire engine and apparatus belonging to Waldoboro', Me., was lately taken on execution and sold to a private company.

WASHINGTON, Nov.13.—A. Belmont is to be appointed American Minister at Madrid, mainly for the purpose of negotiating for the purchase of Cuba. President Buchanan seems determined to push this project.

SMITH'S CURATIVE CLEANSING COMPOUND which has been sold extensively in Portsmouth and vicinity, for a few weeks past, by the proprietor, for the cure of pains, &c., may be had of Wm. R. Preston, Brackett Hutchings, Asa S. Tilton, Jenkins & Goodrich, R. Duprey, C. E. Leighton, Oliver F. Gerrish, Joseph Harvey & Son, Thomas S. Gammon, in Portsmouth.
None genuine unless bearing my trade mark (J.S.) attached to the autograph on the wrapper.
Prepared by JOSEPH SMITH, Haverhill, Mass. 1y july27

WE WISH TO SAY TO EVERY PERSON Who reads this that there is an article known as "Dr Sanford's Invigorator or Liver Remedy," which can be relied on as certain to cure liver complaint in any of its forms, such as Jaundice, Dyspepsia, and numerous other complaints, described in another column, besides which it is one of the greatest preparations or cures for consumption, taken in early stages, that is now known.
We take it for granted, as experiment has proven, that diseases of the lungs are not generally the first cause of consumption, but a debilitated system, caused by the improper action of the liver, reduces the power of the lungs to resist or throw off diseases caused by cold and irritation, leaving the lungs at the mercy of one disease, because the liver has incapacitated them from performing their proper action of throwing off diseased matter caused by cold, thus to prevent consumption, cure the liver, and keep the system strong enough to throw off slight diseases of the lungs.
There is not in the world a better liver remedy or cause for debilitated system, than "Dr. Sanford's Invigorator," for it has been fully tried in a large and extended practice, till its results are fully known and now it is offered as a tried remedy, and one that can be relied on.

COURT OF COMMON PLEAS.

SATURDAY, Nov. 14.

The case Merriam v. Brown, was given to the jury in the forenoon.

In case, No. 10, Asa Ham *vs.* Adm'r of estate of Robert Ham, the jury after being out all night, until some time this forenoon, returned a verdict allowing the appellant $300 for his claim.

In case Merriam *vs.* Brown, finished on Saturday afternoon, the Jury found a verdict for deft. Small for plf. Hatch for deft.

NAVAL.—U. S. Steamer Water Witch, Lieut. Lovell commanding, arrived at the Navy Yard, on Friday, from Norfolk via New York and Boston. The Water Witch has Naval Stores for the Yard, and will probably leave this port to-day for Norfolk.

The U. S. Sloop-of-war Vandalia went into commission on Thursday. Purser Jackson, ordered to this ship, has withdrawn his resignation, and rejoined the ship on Saturday. The ship is still at the wharf at the Navy Yard, and will get to sea probably the latter part of this week.

U. S. frigate San Jacinto and sloop-of-war Levant were at Shanghae Sept. 1.

Steamer Nantucket, with the crew for the Vandalia, made the passage from Charlestown Navy Yard to this naval station in four hours and twenty minutes!

THE NEW CUSTOM HOUSE.—We learn that the Department at Washington have directed Col. Weare, the Superintendent of the new Custom House here, that the work must not be stopped, and have authorized him at once to employ the men who have been at work for the contractor. This is good news for the mechanics and laborers. They will be sure of their pay while at work directly for Uncle Sam, and we hope that the work will be allowed to proceed vigorously under Col. Weare's direction till the building is completed.

☞ The Dedication Exercises on Friday evening, at the new Sunday School Room in Court street, were attended by a crowded audience. They were: Sacred Music by the choir; introductory prayer by Rev. Mr. Medbery, city missionary; reading of scripture; Report of the building committee, presented by Mr. J. P. Lyman,—in which we were reminded that the school is in its 40th year, having been set up in 1818. There have been in all 2700 scholars, and 250 teachers. Sermon by Rev. Dr. Peabody from 2 Peter, 3: 18—"Grow in grace, and in the knowledge of our Lord and Saviour Jesus Christ."—General subject, Christian Culture;—particular application, the connexion of growth in knowledge with growth in grace, and the dependence of the latter upon the former.

Dedicatory prayer by the pastor.

The interior arrangements of the building are plain, pleasant, and convenient.

☞ The musical critic of the Gazette expresses a hope that we may "make more money" by the club of singers we proposed to hire, of his selection, "than we did by guaranteeing the expenses of a concert here to Mr. Thompson's." Now, as we made no such guaranty, we didn't have much chance to "make" *anything*,—except to hear a first-rate concert, which we always count gain; and as the receipts were double the expenses, probably nobody lost much, except those who *didn't* hear the concert. By the way, wonder how large is the annual contribution of our hypercritic of the Gazette, for the cause of music?

A new feature will probably be introduced when this company takes the field. It seems that professional artists cannot appreciate Mr. Thompson's compositions, and they will therefore be sung by a select company of "*uncultivated ears.*" This performance will certainly draw a full house.

If all the cultivated, developed ears—the long-eared fraternity, are there,—and they don't dead-head in—the receipts will be ample. It *is* bad to be too much of a "professional artist,"—that's a fact—such people cannot appreciate simple music.—Our friend's case deserves sympathy. F.

TO NEW SUBSCRIBERS.—For $4, we will furnish the Daily Chronicle from this time to Jan. 1, 1857.

For only $1, we will supply the Weekly Chronicle from the present date to Jan. 1, 1859.

☞ The Gazette critic informs us that the club of Newburyport singers who gave a concert at the Temple last week, "were very tired on reaching home—and so were the audience." We dont know where he got his information respecting the singers—but for a bachelor to state that he was tired of accompanying a lady on such an occasion, we take it, is no compliment to the fair sex. F.

☞ The first Promenade Concert is to given this (Monday) evening. Jefferson Hall is decorated tastefully, and with the present arrangement of seats, &c., affords more room than on any similar occasion. The Band have a fine programme of new pieces, and will bring out their cotillon band for the first time. They merit encouragement, and judging from the past, will doubtless be well patronized.—We should judge that no one can complain of the price of their tickets.

The Chronicle has given up the attempt to maintain its independence, and turns about and charges a want of that virtue in us. When its "case is all in," as they say in court, we shall decide whether a defence is necessary or possible.—*Ballot.*

As much mistaken, neighbor, as when you predicted, three or four years ago, that the Chronicle would soon "die out." We have *not* given up the attempt to maintain our independence—unless, indeed, in the sense that a man whose rights are not attacked, has no *need* to defend them. We hav'n't yet seen any bribe offered for our expressing opinions other than our own—when we do, it will be time enough to decide whether the "consideration" is sufficient.

As to that "case"—some people can make out both sides to suit themselves; but as we don't deem that a fair way, we will just inquire, with all due respect, how it was, that the editor of the Ballot, who at first sneered at the American idea and the Chronicle for favoring it, came afterwards to be so warm a supporter of that very idea? F.

THE EASTERN RAILROAD EMBEZZLEMENT CASE.—In the Supreme Judicial Court at Salem, on Tuesday, Nov. 10th, the case of William S. Tuckerman, convicted last spring of defrauding the Eastern Railroad Corporation, came up. His counsel, Rufus Choate and John A. Bolles, contended that his confessions to Samuel Hooper, Esq., were made under peculiar influences, which should preclude them from being used as evidence against him. The decision of the Court will probably not be given for some days.

WALKER'S EXPEDITION. — *Washington, Nov. 13.*—The statement that Walker took arms and munitions of war with him from New Orleans is believed to be erroneous. A disposition is manifested to blame the federal officers at that port for permitting him to elude their vigilance. It was admitted that the government could take no adding steps for the arrest of Walker's expedition, and it was hoped that he would be intercepted on the high seas by either the steamer Fulton or the sloop-of-war Saratoga. The President maintains the right to seize him anywhere at sea, but will not order his molestation if once he gets within any foreign jurisdiction.

The New Orleans despatch that the Fulton was on the Mississippi river when Walker embarked, must be an error. There is no doubt that she was on the Costa Rican coast at the time Walker has about 900 men with him, and his rendezvous is in the Caribbean Sea, and has never been sus. His friends here are confident that now the way is clear.

He expected to proceed to the mouth of the Colorado branch of the San Juan river, where no force is stationed except it be a British vessel, which is not anticipated.—Once within the harbor he can land at leisure, and proceed to the San Juan river, up which he is expected to force his way, taking the weakly garrisoned forts, and pushing his way to the Pacific. Reinforcements are supposed to be on the way; if successful in opening the transit route and getting the reinforcements together, it is the intention to proceed to Costa Rica and strike at once at San Jose, the capital.

Said Anna's preceptor, a kiss is a noun;
But tell me if *proper* or *common*, he cried;
With cheeks of vermilion, and eyelids cast down,
'Tis both *common* and *proper*, the pupil replied.

Cold Winter is Coming on.

AND with it will return the usual concomitants, Coughs, Colds, Dyspepsia, Scorbutic Eruptions, Sick Headache, Rheumatism, Tetter, Ring Worm, &c., which the genial warmth of summer and free perspiration has, for a time relieved, but which the return of rigid, cheerless winter, will bring back, unless resisted by some medicamentum.

MYER'S EXTRACT OF ROCK ROSE,

is peculiarly applicable, and if freely used will not fail to protect the constitution against the sudden and extreme changes of our variable climate. It purifies the blood, strengthens the stomach, and invigorates the whole system, thus fortifying against the insidious attacks of unseasonal frosts and debilitating heats. See Circulars.

LOTTERIES.
THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, and the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every day throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme, each ticket is every ten days draw a prize. Tickets are $10; halves $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of the Public Schools, and the results are so simple that none can fail to understand them. There is no combination of numbers to mystify the business. Prizes from $10 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.
☞ A list of the numbers that are drawn from the wheel, with the amount that each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Augusta, Georgia
☞ Prizes paid in full; no per centages deducted from prizes as in other lotteries.
All communications strictly confidential. m18 1y

LOTTERIES.
The well-known Maryland Consolidated Lotteries, of which R. Fearce & Co are the managers, are now in full blast, and drawing daily, under a commissioner elected by the people, who is sworn to superintend and certify that everything connected with the business is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the public should bear in mind is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the week. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets are from $10 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket, rather than the Public Schools combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.
☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

A BEAUTIFUL HEAD
OF RICH GLOSSY HAIR
Completely Preserved
TO THE GREATEST AGE.

AND who that is gray would not have it restored to former color; or bald, but would have the growth restored; or troubled with dandruff and itching but would have it removed, or troubled with scrofula, scald head, or other eruptions, or with sick headache, (neuralgia) but would be cured. It will also remove all pimples from the face and skin. Prof. Mann's Hair Restorative will do all this. See circular and the following.
ANN ARBOR, November 5th 1856.
PROF. O. J. WOOD—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackeries and quack nostrums, I feared, as I was disposed to place our Restorative in the same category with the one thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months since, when you gave me such assurance as induced the trial of your Restorative in my family—first, by my good wife, whose hair had become thin, dry, and entirely white; and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become healthy, so that it lay on, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with happiest effects; therefore my skepticism and doubts in reference to its character and value are entirely removed; and I can and do most cordially and confidentially recommend it to any all who would have their hair restored from white or gray, (by reason of sickness or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.
Very truly and gratefully yours.
SOLOMON MANN.

FRIEND WOOD: It was a long time after I saw you at Hillsdale before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you assured me it would do; and others of my family and friends, having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.
Again, very respectfully and truly, yours.
SOLOMON MANN.

CARLYLE, ILL., June 28, 1852.
I have used Prof. O. J. Wood's Hair Restoratives, and have found it all that is claimed. My hair was becoming, as I thought, prematurely gray, but by use of the Restorative it has resumed its original color, and I have no doubt permanently so.

GEORGIA LOTTERIES.
THE Lottery of Anderson & Son, are chartered by the State of Georgia, and have sworn commissioners appointed by the State, to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawings. Another fact which the public should call attention to, is, that all persons have a legal right to send orders for tickets to Georgia, as lotteries are legalized by that state. A lottery is drawn at Savannah, Ga., about the 15th of every month, and another is drawn at Macon, (*a new one*) every *Saturday throughout the year.* If no particular class is named, orders are filled by the first drawing to take place after the communication comes to hand. The prices of tickets are from $10 to $20. No tickets are sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket, rather than the Public Schools combination. Prizes vary in amount from $20 to $100,000. STOVES.

Frank Jones, No. 61 Market St.,
HAVING received his Winter Stock of Stoves, is now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:
IMPROVED EMPIRE STATE,
This celebrated Cooking Stove having been in the market many years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.
THE WHITE MOUNTAIN IMPROVED,
being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.
THE REPUBLIC.
This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.
All sizes on hand, and every Stove warranted.
Wood Stoves, all the different kinds of the most approved patterns; among which are the
BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.
Repairing Pieces of all kinds on hand.
The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.
Our stock of
PARLOR STOVES
is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the
ILION, VILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,
OVEN PARLORS in great variety for wood or coal.
SHEET IRON STOVES of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different Patterns.
The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.
Remember the place to buy cheap is at
No. 61 Market Street.

Magee's Patent Ventilating Stove.

FOR WARMING AND VENTILATING
PARLORS, OFFICES, HALLS, STORES,
SCHOOL HOUSES, &c.
WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give
Any amount of Heat required.
and unlike all other Anth acite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and as none of the air which comes in contact with the fire or is used for respiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.
These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them,
For Offices and Stores as well as the Parlor.
The Inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to rekindle without the use of charcoal. The coal is all used, and no clinkers made, consequently, sifting coal is dispensed with.—When this Stove is properly managed,
THE FIRE MAY BE CONTROLLED THROUGH
THE ENTIRE SEASON,
without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 25 to 50 per cent, in fuel expense.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES,
Prepared by an old Physician, with 30 years experience.

THE combination of ingredients in these Pills is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper order, in every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health and strength, with the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever any obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of hundreds being laid prematurely among young females headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep are the results that arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,531, Post office, New York City, can have them sent to their respective addresses by return of mail.

OLD TIMES.

Uncle Toby has maintained (against scores of assertions by those who know nothing about the matter) that the drinking and drunkenness of to-day are by no means equal to the same kind of folly and sin of 50 years ago, and of some other dates. Now, reader, just see what the Newburyport Herald says about drink in the olden time.

It has always been as common on public occasions to take an extra quantity of spirituous liquor, as it is now with some on election day. We have before us a bill of William Davenport against the town of Newburyport, dated Sept. 26th, 1765,—at "the great uneasiness and tumult on occasion of the Stamp Act," that amounted to £59 17s 3d old tenor. It was entirely a grog bill; for single, double and treble bowls of punch, nips of toddy, and bowls of toddy. The account seems to have begun Sept. 26th, and run on till it comes to suppers, "cooked hot," and then bowls and double bowls of punch, egg toddy, and pints and half pints of spirits, after supper.—Then breakfast and toddy and punch in the morning. By this it appears that having attended to "the great uneasiness and tumult occasioned by the stamp act," they took to drinking, as was customary then on all occasions, such as births, marriages, funerals, installations and ordinations of ministers, &c., and set drinking and swilling and swilling and drinking through the night, when taking an additional nip of flip and a bowl of coffee, they blundered the way home. The amount they consumed at the town's expense, if it had been the adulterated and drugged liquor of to day, would have killed the whole of them; but those were the most respectable men in town, and nobody thought the worse of them for the spree. Who says that temperance has made no progress, and that drinking is worse now than ever?

MISERLY ADVICE.—One of the hackney fallacies of the time is the Wall street suggestion continually dinned into our ears from the press, that everbody should reserve himself into a sort of "sixpenny saving institution." On the contrary, now is the time for everybody who has money to spend it freely. In the first place every one who owes a dollar and has the money should make haste to pay it, and the rich, who have plenty of cash on hand, should just now give employment to as much labor as possible; subscribe for newspapers, and keep the printers busy; buy clothes, and keep the seamstresses occupied.

Fill your cellars with fuel and provisions, and if you have a vacant lot put a building on it, while labor is idle and lumber is cheap. If lots, we should commence digging and building upon every one of them, and thereby, directly or indirectly, give employment to hundreds of men. This cry of economy is very well for the poor; but the rich should be encouraged, even in a seeming extravagance.—*N. Y. Mirror.*

BREAD BAKING.—Alluding to the demonstration of the Philadelphia bakers against the steam bakery of that city, the New York Journal of Commerce remarks:

From our knowledge of the capacity and capability of Bedan's Automatic Oven, with the various machinery in connection with it, we would advise the bakers to be cautious how they assail it. It is not a question of capital against labor; it is a question of mechanical labor against hand labor; a question of cheap bread against dear bread; a question of pure bread against bread made with the addition of chemicals; a question of bread made sweet and clean against bread mixed with the sweat of the human body and all the impurities of the underground bakeries of the cities.

This is the question and bakers may be assured, that where cheap, neat, pure and wholesome bread is concerned, all the people will be on the side of any bakery which will improve our condition in this respect. We anticipate that the Philadelphia Mechanical Bakery will work a revolution in the bread business of that city.

☞ Lord Mahar of Troy beat his wife on Saturday night, so that the officers who arrested him could hardly distinguish a single feature of her face. He was drunk, and his complaint against his wife was that she pawned flour to obtain liquor.

☞ Of three race-horses carried to England by Mr. Ten Broeck, two are dead.—Lecompte died several weeks ago; and Pryor on the 22d October, of lung fever.—Rather an up-hill game, to beat all England with two or three sick horses.

☞ In a temperance procession at Millwood, Virginia, recently, the ladies bore a banner inscribed, "Teetotallers, or no husbands." That's the only safe motto.

☞ In China it is not unusual for nursing women to sell their own milk for motherless babes or octogenarians in second babyhood,—the nurses drawing their own milk to vend it at 2d. or 3d. a cup.

GLOUCESTER FISHERIES.—Among all the drawbacks to the prosperity of our community, there is one favorable point to be considered which is connected with the nature of our business. And this is, that, in ten years,—and perhaps we might say a longer period—not a dollar has been thrown away upon abused credit. For the fish and mackerel that have been taken to market from our town, there has returned *dollar for dollar*. What other community can claim the like? Can the sugar and cotton planters of the South,—the cotton spinners of the North,—the producers of the West? We think not; and submit whether it is not worthy of note.—*Tel.*

"Peter, what are you doing to that boy?" asked a schoolmaster. "He wanted to know, if you take ten from seventeen, how many will remain; so I took ten of his apples to show him, and now he wants I should give 'em back." "Well, why don't you do it?" "Cos, sir, he would forget how many are left."

PAY THE PRINTER.

A FITHY, PATHETIC, PRACTICAL PARODY.

Oh, how happy are they
Who the printer do pay,
And have squared up the old year and more;
Tongue cannot express
The great joy of the Press,
When delinquents have squared the old score.

Printers all the day I
Labor hard for their song,
Oh, that all their hard fate cold but see;
They have worked all the day,
And of course want their pay,
To buy sugar—bread—butter—and tea.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.
INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—but that ONE MALADY accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. *Is it asked, how it does this?*—simply by restoring the balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.
☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*
FREE COST, $1, 50 per drachm—PRICE $2 per drachm.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk
Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are therefore considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind ever introduced into the market.

Morning Chronicle.

TUESDAY, NOVEMBER 17, 1857.

ROWDIES, NOT PAUPERS.—The New York Herald says:—"In conversation with an intelligent magistrate a few days since, on the probabilities of an increase of crime in consequence of many persons being out of employment, he replied that his experience sustained the opinion that those who commit crime would not toil at any honest employment, let work be ever so plentiful or wages ever so high. It is not the careful working poor who farm mobs or commit depredations. Rascals may make the extremities of the times a pretext for crime, but they would be rascals under any circumstances.

SLAVE STEAMERS FROM VIRGINIA.—The Richmond South of Nov. 11th says that last Sunday night a family of negroes belonging to G. W. Fairfax, of Prince county, and consisting of father and mother, and five children, took three horses belonging to their master, and made good their escape to Pennsylvania. They were pursued the next day, and overtaken about two miles from Uniontown, when the negroes made desperate resistance, fighting with knives, hatchets, &c., but were finally captured and confined in jail in Morgantown.

FORMER BANK SUSPENSIONS.—The first general suspension of specie payments by banks occurred in 1814, immediately after the capture of Washington by the British, the banks of New York and all South and West suspended, and did not resume for three or four years. The general suspension of 1837 commenced early in the spring of that year. A general resumption of specie payments was attempted in 1839, but a large proportion of the banks did not succeed in the operation, and a universal resumption was not effected until 1842—'44.

THE FALL OF DELHI.—This important event took place on the 20th of September, after six days spent in assault and obstinate resistance. The number of the British killed and wounded during the first two days was six hundred, including fifty officers. No quarter was shown the mutineers, except to the women and children. The fate of Delhi is the first indispensable achievement towards a re-conquest of the country.

☞ The Bath (Me.) Organ, a hard-money paper, is down on the Suffolk Bank system, and says the banks out of Boston should cut loose from the Suffolk, if they cannot be let into the benefits of the Boston Clearing House. The Organ says:

If the Boston banks do not resume specie payments, our banks have got to cut loose or they have got to have their entire circulation destroyed. And will they tie themselves to a system which prevents their usefulness? The Boston banks are growing fat on the substance of the other New England banks. They are redeeming our bills with their own paper, which they refuse to cash, and are then drawing specie for the bills thus redeemed.

MORMON SQUATTERS.—A contemporary puts the following pertinent case into the form of a supposition.

If Buddhists from India should emigrate to Southern California and wish to be admitted as a State, does our squatter sovereignty cover all the ground that we must receive them to an equality, with their widows burning upon the funeral piles, their children drowning in the rivers, and their old people turned out to die by the way sides? No more does it oblige us to receive a community of polygamists, who in denying the binding force of the marriage covenant, as is understood by christians, deny the great truth upon which home is founded—by which there are wives to be loved and mothers to be reverenced—by which society exists, and on which rest good order and good government? If a hundred thousand cannibals should squat in one of the valleys of the west, they would have the same claims on us as a hundred thousand Mormons, whose customs are quite as destructive of the common good.

☞ The Leeds Mercury, in noticing the visit of the Hon. Charles Sumner to that place, says that Mr. Sumner's health has been greatly restored, and that he will return to America in the course of the 7th of November, and be in his place in the Senate on the opening of Congress.

PASMORE WILLIAMSON VS. JOHN K. KANE. The Philadelphia correspondent of the Anti-Slavery Standard states that there is a fair prospect of this case coming to an early trial—probably not later than December or the early part of January. He says the case will certainly be prosecuted to the uttermost."

☞ The steamboats on the Winnipisiogee have stopped running for the season.

FOUR DAYS LATER FROM EUROPE.

St. JOHN'S, N. F., Nov. 14.

The steamer Ariel, from Southampton on the evening of Nov. 4, was signalized off Cape Race to-day, on route for New York.

The Ariel has over $400,000 in specie, and one hundred and eighty-four passengers.

The English money market continued in a depressed state, but consols had slightly advanced.

The dry goods market at Manchester was dull and gloomy. At Leeds there was but little business doing. At Huddersfield the woollen market was inactive.

King Victor Emanuel has subscribed 10,000 francs to the Indian Relief Fund.

The telegraph between Bona and Cape Spartaret has been completed.

The King of Prussia's health continues to improve.

The attempt to launch the steamship Great Eastern was unsuccessful. An accident occurred by which several persons were injured, two of them seriously. A second attempt to launch her would be made in a month.

The Ariel's advices contain nothing later from India.

LATER FROM CALIFORNIA.

NEW YORK, Nov. 16.—Steamship St. Louis arrived at her dock this morning, bringing two weeks later dates.

The St. Louis brings home Commodore Mervin, late of U. S. ship Independence, with a portion of his officers and crew.

Two severe shocks of earthquakes were felt at San Francisco on the evening of the 19th ult.

WASHINGTON, Nov. 14.—Dispatches corroborative of Judge Eckels' were received this afternoon. They say:—"The Mormons have opened the ball, by burning three supply trains, two on Green River and one on the Big Sandy, the centre trains, consisting in all of 78 waggons.—

There was a council among the officers, and it was determined, after hearing the opinion of guides in relation to the country, to go around by the Soda Springs, where the road forks for Oregon and California, and enter the Salt Lake Valley through an extensive valley, where the snow will not be an impediment. This determination, the expressman says, was approved of by Col. Johnston who told him to say to everybody that he intended to winter in the valley, or not at all. The Mormons are congregating in large numbers, even on this side of the mountain, burning the grass, and are determined it seems, to prevent the entrance of the troops into the valley, anyhow. They are regularly enrolled in thousands, and if Col. Johnston enters the valley he can only act on the defensive with his handful of men.

The War Department is expecting despatches from Col. Johnston himself, sent through Gen. Scott, at headquarterrs.—Should these not arrive here to-morrow, or by Monday morning, the whole report will be discredited by the Department. Col. Johnston certainly never permitted an express to come back without sending official despatches by him.

At an early hour this morning Secretaries Cass, Floyd, and Attorney Gen. Toucey, held a hurried consultation, and determined to telegraph the United States Marshal at New Orleans to send the revenue cutters in pursuit of General Walker.

CINCINNATI, Nov. 14.—A special convention of the delegates from the various annual conferences of the Methodist Protestant Church of the North and West has been in session for several days.

No important action was taken until yesterday, when the following preamble and resolutions were adopted:—

Whereas, We have received satisfactory information that entire freedom of discussion on the subject of slavery cannot be enjoyed in Lynchburg; whereas we do not feel under any obligations to meet our Southern brethren upon any other ground than terms of equality, therefore,

Resolved, That it is inexpedient and unnecessary for representatives of the North and West to attend the general conference at Lynchburg, with a view to secure redress of grievances which we suffer.

At the afternoon session, a memorial to the general conference was drawn up, which says:—

It is our earnest desire to perpetuate the union with the general association, but we must in Christian fairness state that insuperable impediments prevent the continuance of the union: that the traffic in slaves and the voluntary holding of slaves, conflict with the rights of humanity, and we regard it as our bounden duty as ministers and members of the church to oppose the above practice; also that the word "white" be struck from the constitution.

The memorial was adopted.

The convention will probably adjourn to-day.

ST. LOUIS, Nov. 14.—The Lecompton correspondent of the Republican says that the Kansas Constitutional Convention adjourned on the 7th inst. A provisional government, with Gen. Calhoun as Governor, was formed, to go into operation immediately. The convention passed a separate clause, sanctioning slavery, which is the only section that will be submitted to the people. It is thought to be the design to get the constitution prior to the assembling of the Territorial Legislature. Gov. Walker has been appealed to, to convene an extra session to met this contingency. The apportionment of the State provides for 45 Representatives, and 15 Senators.

The bill to legalize a Mill Tax to sustain the credit of Missouri was defeated in the House yesterday, by a majority of 30.

If there is a man above all others, who deserves the contempt of a free community, it is he who, educated in a free country, will in these hard times compare the condition of free laborers with the black slaves at the South, to commend the latter. Let such a fellow go to one of the meetings of the unemployed in New York city, and advise the populace to sell themselves for slaves to better their condition, and from the mouths of famishing women and children he will receive the words suited to his character, and from the weakened paws of starving men he will have what such degeneracy deserves.—*Newburyport Herald.*

UNUSUALLY PROMPT JUSTICE IN NEW YORK.—On the evening of the 17th of October, James Rodgers, a youth of 17 years, wantonly assaulted John Swanston, who was walking with his wife on Tenth avenue. Words ensued, and Rodgers stabbed Swanston, killing him instantly. On Friday last Rodgers was convicted of murder, without even the benefit of a recommendation to mercy, so black was his character, as revealed by the trial.

☞ Ex-President Pierce left Concord on Friday afternoon for Boston, whence he proceeds to Norfolk, Va., from which place he is to sail to the Madeiras to spend the winter.

☞ A correspondent of the Newark Advertiser states that "eleven persons came into an office during one day last week, asking alms, ten of whom were more or less intoxicated."

THE MORMON DEMONSTRATIONS.—The report that the Mormons had burnt 78 government wagons in the service of the "army for Utah," on the night of Oct. 5th, has been confirmed.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to procure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or inventions,—and his advice or service rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF AN AGENT'S SKILL AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The great power of the subscriber, during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Remedy for Worms.

THE diseases of children are often so complicated that it is difficult to ascertain the true nature of their complaint. In a large majority of instances the cause may be traced to the existence of WORMS—the prominent symptoms of which are, paleness of the countenance, loss of or irregular appetite, starting up and crying out in their sleep, picking at the nose, great thirst, a wasting away of the flesh, &c. These symptoms should be early attended to, as by neglect it often terminates in disease of the brain.

PRESTON'S WORM SYRUP

is the most efficacious remedy ever used. It is pleasant to the taste, perfectly harmless, and is warranted in every case to give satisfactory results.

S. D. & H. W. Smith,

—MANUFACTURERS OF—

Melodeons, Organ Melodeons,

—and—

PEDAL BASS MELODEONS.

No. 511 Washington St., Boston,

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, and the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and vocal like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys; the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of a great variety of tone, like the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we promise our customers an instrument equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their leisure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we have leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon:

Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instrument before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

BUY AND TRY IT!!

SMITH'S CURATIVE CLEANSING COMPOUND which has been sold extensively in Portsmouth and vicinity, for a few weeks past, by the proprietor, for the cure of pains, &c., may be had of W. R. Preston, Brackett Hutchings, Asa S. Tilton, Jenkins & Goodrich, F. Dupray, C. E. Laighton, Oliver F. Gerrish, Joseph Harvey & Son, Thomas S. Gammon, in Portsmouth.

None genuine unless bearing my trade mark (J.S.) attached to the autograph on the wrapper. Prepared by JOSEPH SMITH, Haverhill, Mass. 1y july27

WE WISH TO SAY TO EVERY PERSON Who reads this that there is an article known as "Dr Sanford's Invigorator or Liver Remedy," which can be relied on in certain to cure liver complaint in any of its forms, such as Jaundice, Dyspepsia, and numerous other complaints, described in another column, besides which it is one of the greatest preparations or cures for consumption, taken in early stages, that is now known.

We take it for granted, as experiment has proven, that diseases of the lungs are not generally the first cause of consumption, but a debilitated system, caused by the improper action of the liver, reduces the power of the lungs to resist the throw off diseases caused by cold and irritation, leaving the lungs at the mercy of one disease, because the liver has incapacitated them from performing their proper action of throwing off diseased matter caused by cold, thus to prevent consumption, cure the liver, and keep the system strong enough to throw off slight diseases of the lungs.

There is not in the world a better liver remedy or acure for debilitated system, than "Dr. Sanford's Invigorator," for it has been fully proved in a large and extended practice, till its results are fully known and now it is offered as a tried remedy, and one that can be relied on.

COURT OF COMMON PLEAS.

MONDAY, Nov. 16.

Samuel Chase v. James Spofford. Action of Replevin.

First Jury organized by the appointment of John O. Cilley of Nottingham Foreman. Second Jury—Hall J. Jenness, South Newmarket, Foreman.

☞ The beautiful new Fire Engine "Gov. Langdon" was tested a bit, on Market Square on Monday afternoon—through a coil of new hose manufactured by Mr. Larrabee of this city. Both proved to be of good quality—and, by aid of the Company, throw a stream high enough for all practical purposes We are glad the Threes have at last got a tub worth their while to work and play on.

☞ The rite of baptism was administered, Sunday noon, at Noble's Island, by Rev. Thomas Holmes of the Christian Church, to seven converts; and by Rev. Mr. Hall, of the Methodist church, to four. The attendance of spectators was very large, and the chorus singing of the good old tunes was truly grand.

☞ About six months since, the stockholders of one of the Union Stores near Boston, took account of goods on hand, and found, as they supposed, their stock worth two or three hundred per cent. advance.—One of the company, a little miserly, investigated the matter closer than the rest, and induced the company to wind up their affairs and make a dividend;—when, to the astonishment of all interested, each member was assessed about one hundred dollars, to enable them to close the concern! It would be well for the managers of all such companies, to look carefully, lest a similar fate await them. B.

Messrs. Editors:

A writer in the Journal speaks of Portsmouth being outdone by Newburyport in the cleanliness of her streets. Newburyport, for many years, has been as celebrated for her good streets, as Portsmouth has for her poor and dirty ones. Indeed, if we may except New York, I think our streets may be called the dirtiest of any city in the Union. Why is this? Cannot we have some officer whose duty it is to look after the streets? It is said that we have what is termed a "Street Commissioner," but that his salary has been so low, that he can't afford to perform but half the duties of his office. Our City Government have but little idea of the actual condition of the streets, from the fact that on public occasions, when they are in processions, they generally can afford, from excessive economy in other matters, to go in carriages, and do not see the real state of the roads, from whose roughness they are protected by the easy mode of conveyance they adopt.

Many of the older inhabitants have dim recollection of certain public crossings, which have long since been buried in mud, and almost in oblivion. Cannot they be searched for, and if found, cleaned and kept passable? Possibly, the Superintendent of the House of Correction might spare, for half a day in the week, the services of some one under his care, who might do wonders in the labor of keeping the crossings in order.

In former years the municipal authorities were careful to have Market Square and the streets in that vicinity cleaned, and the accumulated filth was carted to the city farm; but of late years this has been left to private enterprise, and the gardens and fields of several citizens can testify as to the rich return for the slight labor in collecting the refuse manure from the streets.—One thrifty farmer from Maine has been in the habit, at certain periods, of hauling over a load of wood and loading up his cart for the homeward trip from the accumulated dirt round Market Square!

Cannot these evils be remedied? Cannot the city keep the streets clean? We can excel New York in handsome women and well built ships: let us not keep behind her in the condition of our streets. ***

THAT CLUB.—We have received a letter from a musical young gent in a neighboring town, who says he can sing tenor, and play the violin, piano, or melodeon, and (in the words of a friend) "make a great splurtation" generally in the musical line. He wants to join the quartet which the Gazette states we wish to engage; but don't say whether he can comply with our terms—to "give as fair a concert with only one week's practice together, as Mr. Thompson's club." Our critic of the Gazette is to be the judge; so we will refer our correspondent to him. E.

TO NEW SUBSCRIBERS.—For $4, we will furnish the Daily Chronicle from this time to Jan. 1, 1857.

For only $1, we will supply the Weekly Chronicle from the present date to Jan. 1, 1859.

☞ A very extensive revival of religion has been in progress in the Independent Christian Society in this city, for a few months past—of which we have several times given notices of baptisms, &c.; and we have also mentioned a somewhat similar movement or condition in other churches here. As a matter of general interest, and especially as a part of the religious history of the times, it may be desirable to chronicle a little more fully, the actual state of things. More than one hundred converts have been baptized by immersion, by four pastors in this city, within the last three months; and doubtless others will be.

So great has been the interest in the meetings, at Hanover Street Chapel, that that building was found too small to accommodate the attendance; and on Sunday afternoon and evening, the Society met in the Temple. The audience in the afternoon was about 600,—probably the largest in the city. Mr. Holmes took occasion to refer to and defend the revival now in progress, revivals in general, and especially that which occurred at the Pleasant Street Church several years since, when he was pastor there. He stated in answer to questions which had been put to him, and objections made, that of 109 converts whom he then baptized, at least 90 had remained firm in the faith, and were in good and regular standing with the church at this time—though many had left the city, a few had died, and a very few others been excommunicated.

At the evening meeting, the Temple was crowded; and though the services were very long, we never saw an audience preserve better order or give closer attention. Rev. Mr. Damon preached his farewell sermon pr exhortation, after which brief addresses were made by various ladies and gentlemen interested in the revival.

Rev. Mr. Holmes, in the afternoon, expressed his great pleasure at getting back on the "old ground" (of the Chesnut St. Church) again; and is very desirous that the Society should worship there permanently. And we can't see why a hall that is allowed to be by far the best in the city for a lecture or concert, can be anything but the best for a church also,—other objections being removed.

Messrs. Editors:—I have noticed with satisfaction, the good results which have followed your gentle hints to the city fathers, with regard to the inequalities and obstructions in our streets. I beg to call your attention to one of the latter, which in your walks you may not have observed. You have doubtless noticed the new and agreeable brick side-walk which has been recently laid in Court Street, from the corner of Pleasant street to the new Chapel. Now just beyond the extent of the walk, and directly in the path of passers upon that side of Court Street, there stands an upright hollow log, from the top of which projects a large iron rod, and by the side of which stands a large horse-trough—indicating by daylight, that the said upright is nothing more nor less than a *defunct pump*.

A distinguished stranger visiting our city this season, had occasion, one rather dark evening, to visit a friend at the easterly end of Court street, and tempted by the new and even side walk, entered the street upon the southerly side, and proceeded well enough until he left the brick walk, when in a few steps he was suddenly overthrown, and most unexpectedly found himself stranded into and upon the said dry tub, the iron upon the edges of which, (to prevent horses from taking a bite, before or after a drink,) contributed, in no small degree to the damages sustained by the unfortunate gentleman.—It was, perhaps, fortunate however, for our city tax payers, that a slight flesh wound and not a broken limb was the only result in this particular case.

But let me inquire why that old worn-out, disused, and in its present state, useless pump, is allowed to stand, with its open, dry, iron-bound trough, to the peril of all pedestrians on that side the street? That part of Court Street from Pleasant Street to the river, has much improved within a few years.—A little attention from the proper street authorities, and the removal of a few unsightly and worthless houses and ruins on the northerly side, would make it one of the most pleasant sightly streets in that quarter of the city. Perhaps a word to the wise will suffice. B.

Quite worthy of consideration. The pump should be repaired and used, says Uncle T., because the water in that well is good,—and the horses need to drink. But if the city *will* not repair it—or are so poor they *cannot*,—then clear away the pump and trough,—and cover the well.

REMOVAL.

E. Green & Co., Merchant Tailors,

HAVE just made great improvement in their CLOTHING ESTABLISHMENT.

It gives them great pleasure to announce their thankfulness to the people of this city and neighboring towns, for their kind patronage; through which, and their own facility of selling cheaper than any other establishment, we were enabled not only to increase our Stock to a great extent, but to accommodate our increased and increasing customers, we have obtained the large and comprehensive *stock.*

No. 54 Market st., cor. of Hanover St.

opposite the Union Store. Said Store is more than double the size of our former establishment; we assure all who may favor us with their custom a courteous treatment and the value for their money. All who are in want of clothing, are invited to call and see whether our statement is true.

A variety of

Trunks, Valises, Carpet Bags, Oil Suits, &c., &c.

As the articles we have for sale are too numerous to detail, we will say in short, every article belonging to Gents' and Youth's wear, can be found at our CLOTHING HOUSE; together with an assortment of Woolen Goods, of which we will make garments to order, or sell by the yard, and cut it for them without making, any way to suit the purchaser. LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed by that State, to attend the drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact, that in such persons have the right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. Accompanying this is a schedule for every ticket must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the following plan: The number and prizes are so simple that none can fail to understand them. There is no combination of numbers to secure the prize of the highest number, $50 to $500; every prize being drawn, and result of drawing forwarded to all purchasers.

The list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—*New Orleans Delta, Mobile Register, Charleston Mercury, Nashville Gazette, Atlanta Intelligencer,* and New York Weekly *Day Book.* Write your address plainly, and direct to SAMUEL SWAN & CO., Augusta, Ga.

Money paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 1y

LOTTERIES.

THE well-known Maryland Consolidated Lotteries, of which D. G. Ellis & Co. of Baltimore, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with the drawing is strictly honorable, and fair manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Attention is called to the fact that persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that State. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the following plan: Numbers are on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published in the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

TO THE GREATEST AGE.

AND who that is gray would not have it restored to former color; or bald, but would have the growth restored; or troubled with dandruff and itching but would have it removed, or troubled with scrofula, scald head, or other eruptions, or with sick headache, (neuralgia) but would be cured. It will also remove dandruff from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following.

ANN ARBOR, November 5th, 1856.

PROF. O. J. WOOD—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been often cheated by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the same category with the one thousand and one long-boasted quack remedies, until I met you in Lawrence county some months since, when you gave me such assurance as induced the trial of your Restorative in my family. My by my good wife, whose hair had become very thin, and entirely white; and before exhausting one quart bottle, her hair was found to be nearly its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply for its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore my skepticism and doubts in reference to its character and value are entirely removed; and I can and do recommend its use to others as entitled to the highest consideration you claim for it.

Again, very respectfully and truly, yours,
SOLOMON MANN.

CARLISLE, ILL., June 26, 1852.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its effects. My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative it has restored its original color, and I have no doubt permanently so. S. BREEZE, ex-Senator, U. S.

GEORGIA LOTTERIES.

THE Lotteries of ANDERSON & SON, are chartered by the State of Georgia, and have sworn commissioners appointed by that State, to superintend the drawings, and certify that everything connected with the same is done in a strictly honorable manner, and that the interests of parties at a distance are as well protected as if they themselves were present at the drawings. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Georgia, as lotteries are legalized by special law in that state. A lottery is drawn at Savannah, Ga., about the 15th of every month, and at Augusta and Macon, Ga., *every Saturday throughout the year.* It no particular class is named, orders are filled by the first drawing to take place after the communication comes to hand. The prices of tickets are from $1 to $10. No tickets are, however, sent unless the money for the same is received with the order. Numbers are on each ticket, and prizes of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers, which has symbolized the community for years past. Prizes vary in amount from $40 to $60,000. STOVES.

Frank Jones, No. 61 Market St.,

HAVING received his Winter Stock of Stoves, is now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:

IMPROVED EMPIRE STATE,

This celebrated Cooking Stove having been in the market many years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.

THE WHITE MOUNTAIN IMPROVED,

being among the first class Cooking Stores, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.

THE REPUBLIC.

This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.

All sizes on hand, and every Stove warranted.

Also on hand all the different kinds of the most approved patterns; among which are the

BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.

Repairing Pieces of all kinds on hand.

The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.

Our stock of

PARLOR STOVES

is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the

ILIONA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,

OVEN PARLOUS in great variety for wood or coal. SHEET IRON STOVES of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different patterns.

The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.

Remember the place to buy cheap is at

Magee's Patent Ventilating Stove.

FOR WARMING AND VENTILATING

PARLORS, OFFICES, HALLS, STORES,

SCHOOL HOUSES, &c.

WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give

Any amount of Heat required,

and unlike all other Anth acite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and as none of the air which comes in contact with the fire pot is used for respiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.

These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them.

For Offices and Stores as well as the Parlor.

The Inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to rekindle without the use of shavings. The coal is all used, and no clinkers made, consequently, sifting coal is dispensed with. When this Stove is properly managed,

THE FIRE MAY BE CONTINUED THROUGH

THE ENTIRE SEASON,

without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 30 to 50 per cent, in fuel expense.

WEDNESDAY, NOVEMBER 18, 1857.

FRANCE.—The death of General Cavaignac was the most important topic in France. The event took place while he was out shooting, on the 28th ultimo, near Tours. The General was in the act of raising his gun to his shoulder, when he felt a weakness suddenly creep over him, and he had scarcely time to hand his gun to his attendant who stood by, when he fell to the earth and expired. He had just completed his 55th year. His widow forthwith proceeded to Paris with the remains.

The funeral obsequies of the General took place on Saturday, the 31st in the church of St. Louis d' Antin. All was conducted with order and regularity, although the streets through which the procession to the Cemetery of Montmatre passed, were crowded, and about 15,000 people followed the hearse to the gate of the cemetery. Quite a large body of troops took part in the proceedings, and many prominent, Republicans, and literary and political celebrities, were present. The procession contained far less of the democratic element than was expected.—An Imperial carriage was looked for in the train, but none was there. As the hearse passed along every hat was raised, and the spectators often remained bareheaded until it was out of sight. No address was spoken over the tomb, but the soldiers paid the usual military honors.

The regret felt at the death of the General is described as deep and universal.

THE DRUNKEN POOR.—The Newark, N. J., Advertiser, speaking of the unemployed there, says:—

One fact may be brought particularly to the attention of the people here, viz: that there are in this city some five hundred or six hundred places where liquor is sold, whose receipts will average two dollars per day, or in all about $1200 per day, or $438,000 per year. This enormous tax is unnecessary, and yet there are men whose families are now needing the necessities of life, who weekly spend enough in tippling to support them comfortably. Let such give up their "drams," and there will be an improvement in their condition.

The population of Newark was about 39,000 in 1850. Then, if there are 500 groggeries, there is one to every 50 persons, or every 10 or 12 families. This is much more rummy than Portsmouth, where, with 10,000 people, there are about 70 spirit places, or one to 143 persons.

THE MUSTACHE IN THE ENGLISH PULPIT. A writer in a late London periodical states that nearly all the English clergymen, living between two and three hundred years ago, wore the mustache. In his list of those who wore the beard on the upper lip, we find the well known names of John Donne, George Herbert, Robert Herrick, Jeremy Taylor, Thomas Fuller and Robert South. The famous John Knox and the celebrated John Bunyan wore the mustache; also, Wickliffe, Cardinal Pole, Abp. Cranmer, Bishops Ridley, Latimer, Jewel, Holleob, Thirlldey, Goodrich Skip, Day, Abp. Laud, and a host of others.

A MISSISSIPPIAN'S THANKSGIVING PROCLAMATION.—Gov. McRae of Mississippi proclaims Thanksgiving in the following manner, which is more remarkable for a business-like than a religious spirit:

"Since I have been in office I have, in each year, as Governor of the State, without any authority of law, but sustained by ancient custom, appointed a day of Thanksgiving. Thursday, the nineteenth day of this month, is the day now appointed, and I trust it will be observed. There is, certainly, some super-ruling Providence which has brought us into existence, and which will ultimately accomplish the ends for which we were created, not only as individuals, but as a people. Nothing can, therefore, be lost by recognizing the obligation which we owe to the Supreme Being—by it much may be gained.

☞ Daniel F. Flynn, a young man of 19, a shoemaker, being drunk on Sunday night, knocked at the door of a rumseller, James Prescott, on North street, Boston, for rum. Prescott refused, and an altercation ensued, when Prescott was stabbed three times in the leg, from which he bled six quarts, and now lies in a critical condition. Flynn has been arrested.

James W. Patten, of Buncomb county, North Carolina, claims to have raised *seven hundred baskets* of Irish potatoes on an acre of land!

We should think this was a story for Buncomb,—it can hardly be believed elsewhere.

Two of the courses of lyceum lectures in Salem, have been abandoned on account of the hard times.

NEW YORK LABORERS.—A correspondent of the New York Evening Post says a great deal of the excitement concerning unemployed labor, is an intense humbug. He explains as follows:—

I have offered several workmen, carpenters, masons, &c., work at one dollar per day; and they have in every instance replied that they would rather starve than work for less than they have been getting, viz., two dollars per day; and yet each of them is out of employment.

Now, with all my desire to aid the suffering by employing the idle, I confess my sympathies to be pretty effectually blunted by this.

The unemployed masses who are making such a hubbub in the streets seem to be well provided with pipes, cigars, and chewing tobacco; and when they robbed the bakers' carts yesterday, they pelted each other instead of taking it home to their "starving children."

HEAVY FAILURES IN THE CALCUTTA TRADE. The failure of Messrs. Nathaniel and Benjamin Goddard, of No. 80 State street, Boston, extensive importers of India goods, was announced on Monday. Their liabilities are said to be very large—by some stated as high as from half a million to a million.

The failure of Messrs. Crocker & Sturgis, large dealers in India goods, was announced on Saturday. Liabilities said to be half a million.

NAVAL.—The United States steamer Susquehanna was at Genoa 24th ult., bound to the West Indies and the Gulf of Mexico, to sail in a few days. The United States frigate Congress was also in port, and would sail for the United States soon.—Crews of both vessels all well.

OLDEST CLERGYMAN IN ENGLAND.—Probably the oldest clergyman in England is the Rev. H. Toddy, D. D., rector of Elchingham, Sussex, who is 102 years of age, and who has just witnessed the reopening of his church after a thorough restoration, to the expenses of which he largely contributed.

THE BIBLE IN SWEDEN, NORWAY AND FINLAND.—In these countries, recently, 240,500 copies of the New Testament have been circulated, (being a copy for every family,) and 40,000 for the solitary and homeless. So highly is this agency of colporteurs prized in Sweden, that a school for the training of agents has recently been opened there.

☞ Mr. James Morrison, one of the wealthiest merchant princes of London, is dead. The value of his property is estimated at nearly four millions sterling, a considerable portion of which is invested in good securities in the United States.

☞ Mrs. Decker, who was some time ago indicted for manslaughter in an alleged case of having caused the death of Anna Hilton, an apprentice to her, by prolonged cruelty, brought a libel suit against the New York Dispatch, and has recovered a verdict of six cents damages!

☞ The English markets, except as connected with American trade, appear quite as well as was expected. There have been heavy bank and mercantile failures, but it is thought that the worst of the crisis is past. Cotton had declined 1 cent during the week previous to October 31st, and was selling at Liverpool at 16 3-4 cents. Breadstuffs had a more rapid fall. Flour had gone down during the week from 50 to 75 cents, wheat from 12 to 15 cents, and corn 12 cents—enough to check importation.

☞ On the 8th inst. a $50 dog chased a $20 buck belonging to Lorenzo W. Lyman of Hadley into the Connecticut river, and killed it. After which a boy (value not given) rowed out in a skiff, caught the expensive dog, put it under water, and in a few minutes $50 worth of dog was transformed into something *not* "better than a dead lion."

THE MORMONS.—The St. Louis Democrat publishes an extract from a private letter, dated Fort Laramie, Oct. 22, which says that "Brigham Young informed Col. Alexander, by express, that he must not advance further into the territory."

"EGYPT."—The Chicago Journal states that the Republicans have elected their entire tickets in four counties of Southern Illinois, generally known as "Egypt," and parts of their tickets in three other counties in the same section.

☞ Spencer's History of the United States, parts 36, 37 and 38, are received from the agent. They contain engraved portraits of Gen. Jackson and Gen. Taylor, and an engraving of the Storming of Stony Point.

ESSEX CO., MASS.—In this county, the Court of C. P., Judge Perkins presiding, came in at Lawrence, Monday morning, and disposed of the following cases for violation of the liquor law, which would indicate that the liquor law can be and will be executed like any other law.

Jeremiah Lyons, of Newburport, convicted of one sale. Fined $10 and costs, and 25 days hard labor in the County House.

Charles W. Buxton, of Salem, convicted under the nuisance act. Sentenced six months in the County House.

Patrick Cunningham, of Lynn, $10 and costs, and 25 days in the County House.

John Harvey, of Lynn, convicted of four sales, $10 and costs, with 30 days in the County House on each, as a common seller $50 and four months.

John Hollroyd, of Andover, common seller, $50 and costs, four months.

George W. Kerch, of Lawrence, $50, 4 months.

Edson G. Littlefield, Manchester, $10, 25 days.

Mark Deckerty, Lawrence, common seller, $50, 4 months.

John Rock, Salem, common seller, $50, four months.

Hiram Hill, Andover, common seller, $50, four months.

Lawrence Brown, Salem, common seller, $50, four months.

John Farrar, Lawrence, common seller, $50, four months.

Mary A. Burns, Lawrence, two sales, $10 on each, 20 and 30 days.

Stephen D. Snow, Salem, common seller, $50, four months.

Michael Carney, Lawrence, two sales, $10 on each, 20 and 30 days.

Michael Fitzgerald, Salem, common seller, $50, 4 months.

Jere. Nyhan, Lawrence, one sale, $10, and 25 days.

Henry Murphy, Salem, common seller, $50, four months.

Mary Daily, of Lawrence, for a violation of liquor law, case continued.

The following persons were defaulted: Josiah Herrick, of Gloucester; Payne M. Davis, of Salem; Warren Brickett of Haverhill; Curtis C. Dearborn of Lawrence; Michael Bird of Andover; Jonathan Sargent of Haverhill: Hewett C. Tucker of Salem; Hugh Rafferty of Lawrence; John Reed of Salem; John Page of Haverhill: Thomas O'Reilly of Lawrence.

FROM SANTE FE—DESTRUCTION OF THE GOVERNMENT TRAIN CONFIRMED.—*St. Louis, Nov.* 16,—The Sante Fe mail arrived at Independence on the 8th inst. Business was dull at Santo Fe and money scarce.—The party encountered a snow storm this side of Fort Union. Grass and water were abundant on the plains.

Cheyenne Indians were around Booth and Allison's post, on Walnut Creek, very much alarmed, and anxious to make peace.

Intelligence from Fort Kearney confirms the reports of the destruction of the Government train by the Mormons. Mr. Lander, Chief Engineer of Magraw's wagon road survey, arrived here on Saturday, en route to Washington. The expedition has gone into winter quarters, at Wind River, near the South Pass. Mr. Lander corroborates the previous reports relative the destruction of the government trains by the mormons. In consequence of new discoveries and explorations by Landers party, the military force had abandoned the old route, and were approaching Salt Lake Valley by the open plains of the Western descent, by the Bear and Malady rivers.—George Cumming and Col. Cooke had met, and were two days march east of Fort Laramie. Brigham Young disclaims any knowledge of, or participation in, the destruction of the supply trains.

BREADSTUFF RAILROAD.—*Philadelphia, Nov.* 16.—To-day the Reading Railroad Co. executed a mortgage for $7,000,000, to take the place of the mortgage bonds of 1800, for the purpose of paying those bonds and the floating debt of the company. When the new bonds are issued, the debt of the Company will be less than $7,000,000.

MISSOURI LEGISLATURE.—*St. Louis, Nov.* 16.—The railroad bill which has been before the Senate for several days, and the bill for the payment of the interest due on the State Bonds, passed the Senate on Saturday night.

☞ Godey's Lady's Book, for December, contains 3 Steel Plates, 1 colored Fashion plate, 1 slipper printed in colors, 12 pages printed in blue tint, 49 engravings, 100 pages, and 60 contributors.

The publisher is willing to rest his fame on this number as the best number of a magazine ever published in this country or any other. But he adds:—

Even our December number, we think, can be beaten, though that may look impossible; but the January number, in engravings and literary matter, will surpass the December number.

Capt. Linus Washburn, recently deceased, was buried by the side of his five wives, the last of whom died one year ago—at Middleboro', Mass.

☞ Neal Dow, on his return to this country, has been received with signal honors. In Boston, a grand reception will be given on Thursday evening, at the Tremont Temple. A public breakfast will be given to Mr. Dow, at the Adams House, on Friday morning at 8 1-2 o'clock. This is something new in this country, though quite common in England.

FROM HAVANA.—Havana dates to Nov. 9, state that Gen. Concha and his subordinates are waking up to the suppression of the slave trade. The Spanish war steamer which captured the barque Vesta, of Boston, brought her into Havana, having on board 116 Africans. On the 7th, the steamer Colon, brought into Havana an American barque, captured in the vicinity of Sagua la Grande, having on board 460 Africans. The officers and crew were apparently Americans. The vessel is supposed to be the Petrel, owned partly in Boston and Portland.

Several other vessels have landed cargoes in the last ten days.

During the past week the sugar market had been less active, owing to continued unfavorable accounts and returns from the markets of Europe and the United States; added to the stringency pressing upon the commercial and the trades community.—Prices have yielded a small fraction under the circumstances.

KANSAS NEW CONSTITUTION.—*St. Louis, Nov.* 16.—Kansas advices state that the constitution adopted by the Constitutional Convention was by a vote of 28 in favor of it to about a dozen against it. The whole number of delegates was 60; consequently the constitution was not adopted by a majority of the convention. The majority and minority report of the committee on a schedule was merged into one schedule. It provides for a election on the 21st of December to ratify or reject the constitution, the voting to be by ballot, and the votes cast to be endorsed "Constitution with Slavery," and "Constitution without Slavery;" also, for an election to be held the first Monday in January next for the election of State and Congressional tickets.

The Lawrence correspondent of the Democrat asserts that Gov. Walker brought from Washington a manuscript copy of the Kansas Constitution, almost identical with the one adopted. He also states that no free State man will vote on the 21st of December.

Messrs. Bacon, Cooke & Co., of Lawrence, have suspended.

SPECIAL NOTICES.

The announcement that Mrs. Cunningham had committed suicide would cause a sensation.—But the fact that the Carminative has cured 1000 children of summer complaints produces no lasting impression. Mothers! Mothers!

DOUBT NOT!

We would not be so base as to deceive in a matter of such vital importance to our fellow man, nor trifle with what is so precious to us all, but speak advisedly and in all sincerity, when we say that in Dyspepsia and all its concomitants, in Scrofula, in all its varied forms, whether indicated by swelling of the glands, diseases of the skin or deformation, Myer's Extract Rock Rose will invariably mitigate the suffering, and in most cases effect a cure: it operates by changing the viscid humors, purifying the blood, thereby imparting vigor to the whole system. As a tonic, the Rock Rose is invaluable, hence its happy effects in all those disorders arising from impaired digestion. Get a Pamphlet.

BUY AND TRY IT!!

SMITH'S CURATIVE CLEANSING COMPOUND which has been sold extensively in Portsmouth and vicinity, for a few weeks past, by the proprietor, for the cure of pains, &c., may be had of Wm. R. Preston, Brackett Hutchings, Asa S. Tilton, Jenkins & Goodrich, F. Duprey, C. E. Laighton, Oliver F. Gerrish, Joseph Harvey & Son, Thomas S. Gammon, in Portsmouth.

None genuine unless bearing my trade mark (J.S.) attached to the autograph on the wrapper.

Prepared by JOSEPH SMITH, Haverhill, Mass. 1y july27

WE WISH TO SAY TO EVERY PERSON Who reads this that there is an article known as "Dr Sanford's Invigorator or Liver Remedy," which can be relied on as certain to cure liver complaint in any of its forms, such as Jaundice, Dyspepsia, and numerous other complaints, described in another column, besides which it is one of the greatest preparations or cures for consumption, taken in early stages, that is now known.

We take it for granted, as experiment has proven, that diseases of the lungs are not generally the first cause of consumption, but a debilitated system, caused by the improper action of the liver, reduces the power of the lungs to resist or throw off diseases caused by cold and irritation, leaving the lungs at the mercy of one disease, because the liver has incapacitated them from performing their proper action of throwing off diseased matter caused by cold, thus to prevent consumption, cure the liver, and keep the system strong enough to throw off slight diseases of the lungs.

There is not in the world a better liver remedy or acure for debilitated system, than "Dr. Sanford's Invigorator," for it has been fully tried in a large and extended practice, till its results are fully known and now it is offered as a tried remedy, and one that can be relied on.

COURT OF COMMON PLEAS.

TUESDAY, NOV. 17.

The case of Chase vs. Spofford occupied the Court all day.

THE NEW FIRE ENGINE "GOV. LANGDON." On Monday afternoon, after the new No. Three had been well tested, the committee from the City Council who purchased the Tub and hose—Messrs. Charles E. Maine and Richard Waldron—delivered her to His Honor Mayor Morrison, as the property of the city—pronouncing her all right. The Mayor, in a neat, off-hand speech, accepted the committee's report, and passed the Engine into the charge of Chief Engineer Hadley; who, in his turn, with a compliment to our whole Fire Department, and particularly on this occasion to the Company most immediately interested,—delivered to Mr. Wm. Cornelius, Foreman of Company No. Three, their new and beautiful tub.

We hope they will have more occasion to "play" than to "work" their nice little machine—though doubtless they won't be slow, when called upon to do either.—We have great regard for "the small sweet courtesies of life"; and are as much pleased to see them observed among Firemen as anywhere.

☞ The Sagamore Mill, in this city, owned and run in connection with the Portsmouth Steam Factory, ceased operations a few days since. The large Factory itself is to stop running for a short time at least, beginning to-morrow, while the boilers are being moved. It has been running short time for some weeks past.

☞ We are glad to learn that the keel for a new ship has just been laid at the yard of Messrs. Raynes & Son, in this city. Now is the time, for all who can, to build ships or houses, or to make business in any way,—instead of "hedging" their capital, and doing the least possible.

☞ As the prospect is, that the coming winter is to be rather a hard one for poor folks, and even for some who haven't usually been put down in that list,—and as the wealth or property of the city will have to support the idle poor in some way—would it not be the best for the city to employ as many hands as possible, in making such repairs and improvements in the streets and other places, as are demanded, or would conduce to the public good? Better pay men as laborers than pension their families as paupers. We can name some jobs, if desirable.

PHYSICAL TRAINING OF GIRLS.—We all know that the absence of systematic and efficient bodily training is one of the greatest defects of the educational course in this country. To this may be attributed a great part of the physical and mental debility which renders American women so pitiably incapable of active usefulness.—It is the principal cause of the crooked spines and contracted chests so general among the inmates of our ladies' schools, where the only exercise is "the solemn procession, two and two," and a little drilling or dancing, under the supervision of dancing masters about as well qualified for the important work of bodily training as they are to rule an empire. Rothstien remarks—"It is very singular that we would not confide the training of a valuable horse to a man who had not studied the animal's anatomy and physiology, although the person we entrust with the development of the human body is not expected to possess any knowledge whatever of these sciences."

Dr. Roth states that out of eleven young ladies who came under his observation in first-class boarding schools, not one could stand upright for five minutes. Sir John Forbes mentions a school "in which there was not a girl who was not more or less crooked;" and adds that "scarcely a girl who has been at a boarding school for two or three years, returns home with unimpaired health." The name of such witnesses is "Legion." It we consider how much the mental and moral condition of woman depends on her physical state, and remember that surely as the thistle-down produces a thistle, so surely must the physical and mental weakness of this generation be reproduced in the next,—we shall be able to estimate rightly the importance of such means of improving health.

DETROIT, Nov. 6.—The steamer Michigan arrived here on Saturday from Lake Superior. She reports propeller City of Superior, with a valuable cargo of provisions and mining supplies for all the ports on Lake Superior, went on the rocks at the entrance of Copper Harbor, during a dense snow storm, last Tuesday morning, and that she will prove a total loss. The propeller was now, valued at $50,000, insured for $32,000, and owned by Hanna, Garrison & Co., of Cleveland.

IT IS NOT A DYE.

MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

GRAY HAIRED, bald, or persons with diseases of hair, or scalp, read the following and judge of the articles.

MRS. S. A. ALLEN'S ZYLOBALSAMUM, Or World's Hair Dressing, is essential to use with the Restorer, and is the best Hair Dressing for old or young, extant, being often efficacious in cases of hair falling, &c., without the Restorer.

REV. H. V. DEAEN, Editor of the Gold to Holiness. "We can testify to its effects," &c.

PRESIDENT J. H. EATON, L. L. D., Murfreesboro', Tenn. "Notwithstanding irregular use, the falling of hair ceased, and my grey locks are restored to the original color." &c.

REV. S. B. MORLEY, Attleboro' Mass. "It has changed the "Crown of Glory" belonging to old men, to the original hue of youth," &c.

REV. M. THACHER, 90 years of age, Pitcher, Chenango County, New York. "My hair is now restored; it is nothing like a dye." &c.

REV. D. T. WOOD, Middletown, New York.—"My own hair and that of another of my family, has greatly thickened, where almost bald," &c.

REV. JAMES McKEE, New York, recommends it, &c.

REV. W. PORTEUS, Stanwich, Conn. "It has exceeded my most sanguine expectations," &c.

REV. J. F. GRISWOLD, Washington, N. H.—"It is really efficacious in restoring the hair," &c.

REV. G. M. SPRATT, Lewisburgh, Penn. "We can and do cheerfully recommend it." &c.

REV. J. P. TUSTIN, Charleston, South Carolina. "The white hair has become obviated," &c.

REV. AMOS BLANCHARD, Meriden, N. H. "We think very highly of your preparation," &c.

REV. B. C. SMITH, Prattsburgh, N. Y. "I was surprised to find my hair turn as white I was young," &c.

☞ We might swell this list, but if not convinced, TRY IT.

We export these preparations to Europe even, and they are superseding all others there, as well as in the United States.

☞ It does not soil or stain. Sold by all the principal wholesale and retail merchants in the U.S., Cuba, or Canada.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 78 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed in the shortest terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents, inventions, &c., and legal or mechanical advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through its inventors have advantage for securing patents, or ascertaining the patentability of inventions, unsurpassed by, it not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove how well it has succeeded in the past. AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The numerous patents secured by the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relating to patents. These, besides the extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had more business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. My regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

REMOVAL.

E. Green & Co., Merchant Tailors,

HAVE just made great improvement in their CLOTHING ESTABLISHMENT.

It gives them great pleasure to announce their thankfulness to the people of this city and neighboring towns, for their kind patronage; through which, and their own facility of selling cheaper than any other establishment, we were enabled not only to increase our Stock to a great extent, but to accommodate our increased and increasing custom, we have obtained the large and commodious store,

No. 54 Market st., cor. of Hanover St.

opposite the Union Store. Said Store is more than double the size of our former establishment; we assure all who may favor us with their custom a courteous treatment and the value for their money. All whom are in want of clothing, are invited to call and *see* whether our statement is true.

A variety of

Trunks, Valises, Carpet Bags, Oil Suits, &c., &c.

As the articles we have for sale are too numerous to detail, we will say in short, every article belonging to Gents' and Youth's wear, can be found at our CLOTHING HOUSE, together with an assort of Woolen Goods, of which we will make garments to order, or sell by the yard, and cut it for them without making, any way to suit the purchaser. LOTTERIES.

THE Lotteries of Messrs. Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a fair and honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Managers would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Messrs. Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all schemes being of the same class. Drawing nearly to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2 50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that any child can understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing published in the Savannah papers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York *Weekly Dog Book*. Write address plainly, and direct to S. SWAN & Co., Augusta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries. *All communications strictly confidential.* m181y

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCIS & Co. are the managers, are chartered by the state of Maryland, and a commissioner appointed by the state, to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Georgia, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders will be filled from the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tenary combinations strictly confidential. oct29 1y

A BEAUTIFUL HEAD

OF RICH GLOSSY HAIR,

Completely Preserved

TO THE GREATEST AGE.

AND who that is gray would not have it restored to former color; or bald, but would have the growth restored; or troubled with dandruff and itching but would have it removed, or troubled with scrofula, scald head, or other eruptions, or with sick headache, (neuralgia) but would be cured. It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following.

ANN ARBOR, November 5th, 1856.

PROF. O. J. WOOD—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, I, like, &c., I was disposed to place your Restorative in the same category with the one thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months since, when you gave me such assurance as induced the trial of your Restorative in my family—first, by my good wife, whose hair had become thin, and entirely white; and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its beneficial influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore my skepticism and doubts in reference to its character and value are entirely removed; and I can and do most cordially and confidentially recommend it to all who would have their hair restored from white or gray, (by reason of sickness or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.

Very truly and gratefully yours,

SOLOMON MANN.

FRIEND WOOD: It was a long time after I saw you at Hillsfield before I got the bottle of Restorative to which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you assured us it would do; and others of my family and friends, having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration for such a thing.

Again, very respectfully and truly, yours,

SOLOMON MANN.

CARLISLE, ILL., June 23, 1853.

I have used Prof. O. J. Wood's Hair Restorative, and have found it to be all that it was represented, as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and I have no hesitancy in recommending it to all who desire a good article of the kind.

STOVES.

Frank Jones, No. 61 Market St.,

HAVING received his Winter Stock of Stoves, is now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:

IMPROVED EMPIRE STATE,

This celebrated Cooking Stove having been in the market many years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.

THE WHITE MOUNTAIN IMPROVED,

being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.

THE REPUBLIC.

This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.

All sizes are hand, and every Stove warranted.

Also on hand all the different kinds of the most approved patterns; among which are the

BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.

Repairing Pieces of all kinds on hand.

The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.

Our stock of

PARLOR STOVES

is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the

ILION, VILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,

OVEN PARLORS in great variety for wood or coal. SHEET IRON STOVES of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different Patterns.

The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.

Remember the place to buy cheap is at

No. 61 Market Street.

FRANK JONES.

Magee's Patent Ventilating Stove.

FOR WARMING AND VENTILATING

PARLORS, OFFICES, HALLS, STORES, SCHOOL HOUSES, &c.

WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated in two ways.

Any amount of Heat required,

and unlike all other Anthracite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and as none of the air which comes in contact with the fire pot is used for respiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.

These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them.

For Offices and Stores as well as the Parlor.

The inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to rekindle without the use of charcoal. The coal is all used, and no clinkers made, consequently, sifting coal is dispensed with.—When this Stove is properly managed,

THE FIRE MAY BE CONTINUED THROUGH

THE ENTIRE SEASON,

without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 20 to 50 per cent, in fuel expense.

BOSTON.

Re-establishment of the old Plan of management.

LEWIS RICE, Proprietor, respectfully announces that he has resumed the *old plan* of management, as it existed before the recent alteration. Trial of Plans on the European system in this House proves that although the advantages are great, yet the plan is better adapted for the *smaller class* of hotels.

The accommodations and convenience of this House are unsurpassed, and the recent improvements and alterations, for the comfort of guests, leave nothing to be desired.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience in this branch of business, and warranted perfect.

This is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance where these Pills prove unsuccessful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, from whatever cause, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of a great many deaths among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from nature's intention of nature; and whenever that is the case, the Pills will invariably remedy all these evils. All cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their residence, free of postage, by mail.

S. D. & H. W. Smith,
—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,
No. 511 Washington St., Boston,
The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C.; also at the Ohio State Fair, held at Columbus, Ohio, were awarded to these Manufacturers.
By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.
THE PEDAL BASS MELODEONS,
Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower of which running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.
THE ORGAN MELODEON
Is designed for parlor and private use. The construction is similar to the Church instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church instrument. It is used without the pedals. Also, every variety of MELODEONS for Parlor use.
Purchasers may rely upon instruments from our Manufactory being made in the most complete and thorough manner. Having removed to the spacious Buildings
511 Washington Street,
We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an instrument equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*
Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to call at our Rooms at any time, and examine or test the instruments on exhibition for sale at their pleasure.
As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following
Piano Forte Manufacturers of Boston,
who have examined our Melodeons, and will give their opinion when called upon:
Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.
MELODEONS RENTED.
Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This is used without special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.
Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(*Late Agent of U. S. Patent Office, Washington, under the Act of 1837.*)
No. 76 State st, oppo. Kilby st, Boston,
AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters relating thereto. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonial below given proves that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGE AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.
All necessity of a journey to Washington to procure a patent, with the usual great delay there, are here saved inventors.
Testimonials.
"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of pufting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
From the present Commissioner.
ABOUT 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.
THOMAS MASON,
Commissioner of Patents.

Remedy for Worms.
THE diseases of children are often so complicated that it is difficult to ascertain the true nature of their complaints. In a large majority of instances the cause may be traced to the existence of WORMS—the prominent symptoms of which are, paleness of the countenance, loss of or irregular appetite, starting up and crying out in their sleep, picking at the nose, great thirst, a wasting away of the flesh, &c. These symptoms should be early attended to, as by neglect it often terminates in disease of the brain.
PRESTON'S WORM SYRUP
is the most effectual remedy ever used. It is pleasant to the taste, perfectly harmless, and is warranted in every case to give satisfactory results.

A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.
INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—but ONE AIM—accomplishes but ONE THING, to wit: SURDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, or whether in the joints. *Every form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. It is asked, how it does this?—Answer, by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a penknife dipped into a solution of it, to affect the entire system.

Morning Chronicle.

THURSDAY, NOVEMBER 19, 1857.

☞ The Concord, N. H. Patriot, puts Kansas into the pyramid of Democratic victories during the past few months.—By the same rule, New Hampshire should be put there.—But Gov. Walker says of Kansas, he is obliged to denounce the glaring *frauds*, and to *correct* them, though in so doing, he gives the legislature, as he says, "*to our opponents.*"—Now every body knows Gov. Robt. J. Walker to be an eminent officer of the Democratic party,—once Secretary of the Treasury,—a pro-slavery man,—a Buchanan man,—the man, who before and beyond all others was selected by President Buchanan to pacify Kansas, and so save the Union.—Now Gov. Walker gives the legislature and the congressman to opponents of *his* party, i. e. of the democratic or pro-slavery party of Kansas.—These opponents are the *free state party*, including all the republicans and other independent free State men in the territory. And this result, the Patriot seeks to palm upon its readers as a victory of the democratic party. We can hardly believe them to be so gullible as to swallow a hook so bare of bait.

☞ There are some signs of resuming specie payments by the banks in New York. The Daily News says the banks are, like Midas of old, turning all they touch into gold; and the consequence seems to be that also, like Midas, they will get nothing they can digest into good fat dividends, as they used to get before they entered on their disastrous course of contraction.—How will the stockholders fare if this continues?

Specie is in good circulation, notwithstanding the accumulation of it in bank.—There never was so much gold passing from hand to hand, and silver is in surplus supply, the banks refusing to take it from the railroads.

At Chicago, exchange upon the East is working easier, the rate being 4 a 5 per cent. Business is reported more active and money easier. At Buffalo, Cincinnati and New Orleans, also, the tendency is to improvement.

SPECIE PAYMENT RESUMED.—NEW ORLEANS, Nov. 17.—All our banks have resumed specie payment in full.

BETTER TIMES COMING.—The Providence Transcript reports that the Carolina Mills, and nearly all the mills in Fall River will recommence operations again next week.

MILLS STARTING UP.—No. 3 Mill, at Great Falls, re-commenced operations on Monday last week; No. 4 will commence this week, and others will follow. The Print Works will not start for a few weeks. The mills in South Berwick will start next month.

METHODIST CHURCH SOUTH AND SLAVERY. The Holston Conference of the Methodist Episcopal Church, South, at its recent session in Marion county, Va., rescinded that clause in its discipline which prohibits the "buying of men, women and children for the purpose of enslaving them." The Knoxville Whig says that there were over one hundred travelling preachers in the Conference, and only four voted against it. The proposition is to be submitted to the twenty-three annual Conferences South, between this and the meeting of the General Conference, which meets in the city of Nashville, Tenn., in May next.

☞ At the recent court of common pleas in Huron county, Ohio, Rev. Julius Cæsar Bement was convicted of bigamy. It appears that in 1840 he was married to a Miss Darling in Tompkins county, N. Y., who is now living in New York with a family of five children. In May last Bement, under the title of Rev. Dr. Bement, lectured in Huron county and vicinity, and, on a five weeks' acquaintance, married a Miss Charlotte M. Johnson of Fitchville. He represented himself a widower.

LATEST FROM MINNESOTA.—The St. Paul Times of the 9th has the following in regard to the late election: "We do not hesitate to assert and to reiterate our assertion that Alexander Ramsey is the legally elected Republican Governor of Minnesota; but we are fearful fraudulent votes will turn the scale in favor of Sibley.—Wait a little longer gentleman, and you shall have an exposure of your villainy which will cause your ears to tingle and burn with shame."

☞ Application was recently made to an insurance agent for a policy on his "house not made with hands"—to which reply was made, that "the premium rate for some kinds of people is very high."

GOV. WALKER AND THE ADMINISTRATION. A Washington letter in the New York Commercial, remarks:—

"The President has been very silent in regard to the Kansas Walker question, of late, and is evidently embarrassed by it.—Deference to the Southern members of his cabinet—a majority of whom are from the South—induced him to take such a course in regard to Kansas as would free them from domestic assaults. Besides, he would willingly conciliate the support of the free-eaters if possible. Therefore he did instruct Gov. Walker to leave all questions of fraud in the election to the Legislature. He was left free to put down violence, but not fraud. Therefore it is that Gov. Walker is said to have violated his instructions by rejecting the simulated and fictitious returns from Johnston and McGee counties. The assaults upon Gov. Walker from the South are barbarous and unmerciful. It will require much nerve for any Southern man to sustain him against such a clamor as has been raised.

Unless the Republican Senators come to his rescue, his nomination is likely to be defeated. But it is even doubtful now whether a sufficient number of Northern Democrats will stand by him to secure his confirmation, with Republican aid. The President and administration will not remove him, but they disapprove of his course, and will submit his nomination to the tender mercies of the Senate, with indifference to its result."

GOOD SUGGESTIONS.—The sermons for the times, which have been delivered recently, and which have been reported, contain valuable suggestions for present thought and practice. President Wayland, in a sermon on "the crisis," in Providence, said:

But we suppose the worst to come. Let us look at it calmly, that we may estimate it aright. Suppose you lose half your property, and that your neighbors all are as unfortunate as yourself; what then?—Suppose that point lace, and sables, and diamonds, and pearls, and jewelry were thrown aside forever. Suppose that dresses at a hundred dollars were exchanged for dresses that cost only ten dollars; that wool were substituted for silk, and calico for wool; that we wore our old clothes until we were able to pay for new; that instead of riding, we learned to walk; that instead of spending two or three months of the year in fashionable folly, we and our families remained at home; suppose that our sons, instead of becoming idle and dissipated, were inured to honest labor, and that our daughters, instead of being fashionable playthings, were taught to be intelligent, useful and self-reliant women;—would this, after all, be a calamity too insufferable to be endured? Should all this happen, wherein would it touch the essential springs of happiness in the bosom of any reasonable being? It is not half so bad as the doing of a wrong or even a mean action. We could surely endure all this.

FATAL ACCIDENT.—In Portland, on Tuesday afternoon, as the workmen on the new jail were engaged in putting up a new derrick, one of the posts to which a guy was attached, gave way, in consequence of not being firmly set in the ground, and the derrick fell, the most striking Mr. Ara Leavitt of Sacarappa, upon the head, killing him instantly. He was the contractor for the masonry of the building; was 45 years of age, and leaves a wife and two children.

☞ A letter from Rapides, Louisiana, says in that and the adjoining parishes, sugar planters are all rolling now, and both the quantity and the quality of the article are then far satisfactory; but the tremendous decline in the prices of both cotton and sugar is a sad drawback on the schemes of expenditure which were entertained by the planting interest.

FRENCH SPOLIATION CLAIMS.—The Washington correspondent of the New York Journal of Commerce says that the parties interested in the claims for French spoliation prior to 1800, have looked with confidence to the coming Congress and the present Executive for the final payment of their claims. But the present and prospective revenue will, it may be supposed, again defer the consummation of this measure.

AN OLD PRISONER.—A few days ago, Joel Schoonhoven, 100 years of age, was discharged from the Sing Sing State Prison, New York, having been pardoned by the Governor. He was committed for life for arson. He reached the age of a century, in prison, on the 4th of July last.—He saw Washington at Newburgh, N. Y., during the revolutionary war.

FIRE IN HOLLIS.—The house, barn, and sheds of B. M. Farley, Esq., at Hollis Village, were destroyed by fire on Friday night, together with the stores of William A. Trow. We have no particulars except that the property was mostly insured, and the fire probably the work of an incendiary.

☞ Prof. Orfila has proved by numerous experiments that arsenic always exists in the crust formed on the inside of teakettles.

From Washington.—More about the Mormons—Confirmation of Previous Reports—Martial Law Declared in Utah—Proclamation of Defiance by Brigham Young—U. S. Troops Ordered to give up their Arms or Keep out of Utah.

WASHINGTON, Nov. 17.—Advices have been received from Col. Alexander substantially confirming the reports in the newspapers respecting the destruction of the contractor's trains by the Mormons.

Brigham Young has issued a Proclamation to the United States troops, defying the government, and counselling his people to hostilities in the most determined manner, and ordering the troops to keep out of Utah. He says that if they desire to remain until spring, they may do so, provided they give up arms and ammunition.

Col. Alexander, in reply stated to Young that the troops were there by order of the President, and would be disposed of as the commanding general saw proper.

The War Department to-day received some highly interesting official despatches, including a Proclamation of Brigham Young's, declaring martial law in Utah.

The language of the proclamation is emphatically in hostility to the authority of the United States, and is regarded here as a declaration of war.

Among the documents is a letter from Col. Johnston, dated from the camp on the three wings of the Sweetwater, addressed to Adjutant General McDowell, New York, in which he confirms the burning of the contractor's trains by the Mormons. He says the Governor's escort is four days march behind him, with two companies of Dragoons. He knows no reason why Col. Alexander should attempt to reach Salt Lake by Bear River, excepting from fear that the Mormons have burned the grass on the shorter route. He adds: "If I could communicate with Col. Alexander, I would direct him to take up a good position for the winter at Ham's Fork. The road is beset between this and Ham's Fork with companies of Mormons, so it is doubtful if I shall be able to communicate with Col. A."

It is supposed at the War Department that the troops are all in good condition, as nothing to the contrary is said in the despatches.

MORMON OUTRAGES CONFIRMED.—*New York, Nov.* 17.—General Scott received a dispatch from Col. Johnston, confirming the intelligence of the destruction of the government trains, on their way to Salt Lake City, by the Mormons, the intelligence of which had been previously sent to the government at Washington by Judge Eckels. Col. Johnston's dispatch is voluminous, and contains a copy of a violent proclamation issued by Brigham Young.

☞ The Mormon cancer is rapidly coming to a head. Governor Brigham Young, invested with the power there by President Fillmore's grand blunder, is now out in open and defiant rebellion. If the federal government wish for more soldiers to fight the Mormons, they can be had by thousands from Illinois, Missouri and Arkansas, where the true character of the Mormon leaders is understood.

☞ A letter from Key West, of Nov. 10th, says the wrecking vessels at that station, have been doing a poor business the last few months. None of them have paid their expenses. Wrecking was never at so low an ebb as it has been this fall, and the extra rate of insurance upon property passing the Florida reefs during the hurricane months, has been a clear profit to the companies.

Capt. Beal, convicted of incendiarism at Ellsworth, Me., has been sentenced to the State Prison for ten years.

He was a brave and valuable man, having saved several lives from watery graves—but put an enemy into his mouth to fire his brain, and then fired his neighbors' houses.

ORDINATION.—At Hampton Falls, Oct. 28, Mr. Eli Lowe was ordained pastor of the Baptist Church. Sermon by Rev. Dr. Lamson of this city.

A Baptist Church was constituted in Hillsborough, Oct. 29.

The Merrimack Street Baptist Church in Manchester, was dedicated last week.

BRADFORD, MASS.—On Thursday, the 5th inst, a whole family belonging to Bradford were committed to the jail in Lawrence, every member being addicted to the grossest habits of intemperance. The family consisted of a mother, 55, eldest son 28, another 21, the youngest 16 years of age, and a sister of the mother. The youngest is charged with and no doubt will be convicted of setting fire to a barn of a neighbor, whereby it was consumed, together with his hay, grain, horse, cow, and other valuable property, causing much loss and inconvenience. This case is very aggravated. The neighbors had been in the habit of contributing to the wants of this wretched family, as they confess. The eldest son died on Sunday in prison of delirium tremens, and the youngest is in a very critical state. The father died some months since in the same manner.

This should be a solemn warning to all persons who use the alcoholic drinks of the present day—all of which, of every name, are compounded of some of the most deadly poisons, which are destructive to human life and health.

☞ F. V. Moore, sentenced to be hung, in Nevada, California, took strychnine on the morning appointed for his execution, after the gallows had been erected and his grave dug,—thereby disappointing a large number of would-be spectators, including three thousand who had come in from the neighboring towns. Pity he and all such fellows shouldn't take the strychnine before they commit their crimes.

SINGULAR CASUALTY.—A young man near Panola, Mississippi, was recently riding a mule and carrying a shot-gun. He tied the end of a rope, by which he was leading his dog, to the gun. The mule became alarmed, and threw him off; the dog started to run, and dragged the gun after him, when it went off, and shot the young man in the leg.

☞ Dr. Nathaniel Wheeler fell from one of his buildings in Dunbarton, N. H., on Friday last, striking the back of his head on a tree as he fell. He was immediately carried into his house, and a physician called. His recovery is very doubtful.

☞ A Mrs. Loomis, at Albany, N. Y., gave powdered opium to her infant, the other day, instead of rhubarb, and the child died in severe spasms: the mistake was made by the druggist.

☞ A Washington dispatch of the 18th, says: "A proclamation will be issued tomorrow morning, declaring Utah to be in a state of rebellion."

CALIFORNIA LIFE—QUICK TRANSITION.—Two weeks since we chronicled the remarkable effect of lager beer in producing inclinations for hymen. It will be recollected that the wonderful influence of the beverage brought about a marriage after a courtship of thirty minutes from first sight. We have now to announce the fact that after a snug little time of double felicity of three days, the blushing bride has applied for a divorce. How far the "Dutch slop" is amenable for the "disgust" of the frail creature for married life, we are not advised.—*Nevada Journal.*

RIGHTS OF WIDOWS IN MASSACHUSETTS.—"*September ye* 5, 1749. Then did Nathan Shearmane take the widow, Mary Tailor, in her shift, without head-cloth, and barefoot, and led her across the highway, where two highways met, as the *law directs* in such cases, and was then married by Mr. Philip Taber, minister of Dartmouth.—*MS. Records of Dartmouth.*

An elderly friend informs us that within his recollection, a similar occurrence took place in Little Compton, R. I. The ceremony was performed from a belief that the husband elect was thereby released from all pecuniary liabilities contracted by the wife previous to her marriage with him.—*Boston Trans.*

SPECIAL NOTICES.

The announcement that Mrs. Cunningham had committed suicide would cause a sensation.—But the fact that the Carminative has cured 1000 children of summer complaints produces no lasting impression. Mothers! Mothers!

DOUBT NOT!

We would not be so base as to deceive in a matter of such vital importance to our fellow man, nor trifle with what is so precious to us all, but speak advisedly and in all sincerity, when we say that in Dyspepsia and all its concomitants, in Scrofula, in all its varied forms, whether indicated by swelling of the glands, diseases of the skin or deformation, Myer's Extract Rock Rose will invariably mitigate the suffering, and in most cases effect a cure: it operates by changing the vicid humors, purifying the blood, thereby imparting vigor to the whole system. As a tonic, the Rock Rose is invaluable, hence its happy effects in all those diseases arising from impaired digestion. Get a Pamphlet.

☞ The only place in this city where an Ambrotype can be obtained, is at Davis' Ambrotype Gallery, No. 8 Daniel Street, as they have the Patent, and all infringements will be prosecuted. sept9

BUY AND TRY IT!!

SMITH'S CURATIVE CLEANSING COMPOUND which has been sold extensively in Portsmouth and vicinity, for a few weeks past, by the proprietor, for the cure of pains, &c., may be had of Wm. E. Preston, Brackett Hutchings, Asa S. Tilton, Jenkins & Goodrich, F. Dupray, C. E. Leighton, Oliver F. Gerrish, Joseph Harvey & Son, Thomas S. Gammon, in Portsmouth.

None genuine unless bearing my trade mark (J.S.) attached to the autograph on the wrapper.

Prepared by JOSEPH SMITH, Haverhill, Mass. 1y july27

WE WISH TO SAY TO EVERY PERSON Who reads this that there is an article known as "Dr Sanford's Invigorator or Liver Remedy," which can be relied on as certain to cure liver complaint in any of its forms, such as Jaundice, Dyspepsia, and numerous other complaints, described in another column, besides which it is one of the greatest preparations or cures for consumption, taken in early stages, that is now known.

We take it for granted, as experiment has proven, that diseases of the lungs are not generally the first cause of consumption, but a debilitated system, caused by the improper action of the liver, reduces the power of the lungs to resist or throw off diseases caused by cold and irritation, leaving the lungs at the mercy of one disease, because the liver has incapacitated them from performing their proper action of throwing off diseased matter caused by cold, thus to prevent consumption, cure the liver, and keep the system strong enough to throw off slight diseases of the lungs.

There is not in the world a better liver remedy or score for debilitated system, than "Dr Sanford's Invigorator," for it has been fairly tried in a large and extended practice, till its results are fully known and now it is offered as a tried remedy, and one that can be relied on.

MOTHERS! MOTHERS!! MOTHERS!!!

AN OLD NURSE FOR CHILDREN.

DON'T fail to procure MRS. Winslow's Soothing Syrup for Children Teething. It has no equal on Earth. No mother who has ever tried Mrs. Winslow's SOOTHING SYRUP for Children will ever consent to let her child pass through the distressing and critical period of teething without the aid of this invaluable preparation. If life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of Bottles of Mrs. Winslow's SOOTHING SYRUP are sold every year in the United States. It is an old and well tried remedy.—None genuine unless the fac simile of "Curtis & Perkins" is on the outside wrapper.

PRICE ONLY 25 CENTS A BOTTLE.

Sold by DAVID KIMBALL, No. 95 Market Street and by Druggists generally. july21d6 wly

THE CHRONICLE.—We wish to tender our thankful acknowledgement of the promptness with which our city patrons respond to our call for settlement of their bills. This has contributed materially to the success of our enterprise, from the start; and is especially gratifying as well as convenient, at the present time, when every mechanic or business man is in need of all the spare dollars due him. No cleaner financial record can be found, than that of the Chronicle city list. We commend the example to our out-of-town patrons—*some* of them.

Suggestions are often made to us, that we should "do better to charge $3 than $4, for the Daily Chronicle"—even after we have *tried* both. "The laborer is worthy of his hire"—and we don't like to sell for a cent, what costs us a cent and a half.

We have just made considerable change in the arrangements for carrying our morning papers. Any omissions of delivery, we shall endeavor to rectify, immediately on learning them.

COURT OF COMMON PLEAS.

WEDNESDAY, Nov. 18.

The case Chase v. Spofford was decided by the jury's bringing in a verdict for the plaintiff of $4.50!

The case Perkins v. Scott was taken up—then laid aside—and the docket called in the afternoon. Many cases appeared to be settled out of court.

☞ If the Ports. & Concord Railroad has brought no other business to this place, it has, at least, furnished quite a bone for our lawyers to pick. In the Docket of the December (Law) Term of the Supreme Judicial Court, there are no less than five cases growing out of this road, in which the plaintiffs in some are defendants in others.

☞ In the docket of the December term of the Supreme Judicial Court, we find the suits of 'Little against Little' and 'Moore against Moore.' Most people who enter into litigation are apt to come out of the "Little" end of the horn.

☞ The Promenade Concert on Monday evening was well attended, considering the stormy weather, and was an occasion of no little social enjoyment. Old Jefferson Hall isn't so bad a place, after all, for a good time, when it is trimmed up and filled with smiling faces—though the sooner we have a new one, the better. The full Cornet Band well entertained the lively company present, till 9 o'clock; after which time their Cotillion Band started the dancers in quicker motion, which they kept up till half past ten—when it is time for everybody to go to bed who gets up in the *morning*.

The second is to take place on Monday evening next.

☞ A young fellow who lives in a neighboring city, and disgraces Portsmouth by hailing from it, entered a place of social amusement in this city, recently, just drunk enough to be full of fight; and though he didn't frighten anybody, he succeeded in creating some little disturbance, and marred the pleasure of the company somewhat—as drunken men usually do.—He ought to have been kicked out,—or better, been kept out.

☞ The oldest person in this city, we believe, is Mrs. Shores, aged 98 years. She is the mother-in-law of Mr. Samuel Hall, with whom she resides, on his farm on Sagamore Road; and is "a smart old lady" yet. She was one of a family of fourteen, of whom the late Stacy Hall was one; and Mrs. Joseph Jones, also living in this city at the age of 84 years, is the only other survivor. Another sister, Mrs. Janvrin, died not long since, at the age of 87.

The oldest man in the city is, we think, Mr. George Melcher.

☞ Some persons, without doubt emulous of the favor with which Ball Hughes' "poker portraits" are received in California, have recently disfigured some of the well painted fences in front of the residences of our citizens, by hieroglyphics in charcoal; while others, desirous of varying the effect, have practiced on those fences which present a darker background, with white chalk. It would be well for these amateurs to keep themselves "shady," or they may be taught that the aggrieved parties will not consent to furnish such costly material for their primary lessons.

A PHYSICIAN PUTTING TOO MUCH CONFIDENCE IN HIS OWN MEDICINE.—A German doctor of Urbana, Ill., the manufacturer of snake-bite medicine, caught a rattle-snake on the prairie, and offered to let the reptile bite him every time any person bought a box of his medicine for one dollar. On Sunday of last week, while fooling with his pet, it bit him in the hand. He applied his medicine without effect. On Monday he sent for a doctor, but too late; he died the same day.—*Western Lancet.*

3 DAYS LATER FROM EUROPE.

HALIFAX, Nov. 18.—Steamship Niagara, from Liverpool 7th inst., arrived this morning.

The financial news by this arrival is very important.

The Bank of England has raised its rate of discount to 9 per cent.

Consols quoted 88 1-8 a 88 1-2.

Cotton has considerably declined.

Breadstuffs essentially unchanged. Provisions dull.

The Niagara brings about half a million dollars in specie.

FROM AFRICA.—The Salem Register has the following interesting intelligence from Africa:

The Liberia Herald has been discontinued for want of sufficient support.

There has been a great deal of sickness at Accra, most of the residents having suffered. Mr. Augustus Amadie, a well-known resident, died there on the 31st of August. The Commandant has also been very ill, but was recovering.

The Emperor of the French is accused of reviving the slave trade, by contracting with the kingdom of Regis at Marseilles, who have a factory at Whydah, to purchase 1200 slaves, ship them on board, and call them free emigrants.

MASSACHUSETTS.—In the Worcester Common Pleas Court, last week, the following cases of liquor selling were disposed of:

James Fennely received the usual fine and sentence for violation of the liquor law.

In the cases of William W. Pierce, keeper of North Dana Hotel, and of D. A. Spooner of Dana, indicted for being common sellers, the jury returned verdicts of guilty.

Patrick Tiernan was ordered to pay costs in five cases in which he was convicted for single sales, and upon the recommendation of the complainant, the cases were placed on file.

James Sullivan, heretofore convicted on five complaints for selling liquor, was ordered to recognize, in $1000 on each case, to prosecute his exceptions.

Eugene Flaherty paid costs on two complaints for selling liquor, and, upon the recommendation of the selectmen of Fitchburg, the cases were placed on file.

Charles Gillon of Milford received the usual fine and sentence on five complaints for keeping and selling intoxicating liquors. The full term of his imprisonment, if he does not pay the fine and costs, will amount to 250 days. If he pays the fine and costs his imprisonment will be 140 days.

Mary Monahan, for selling liquor, received the usual sentence, to pay a fine of $10 and costs, and was committed to the Worcester Almshouse.

Eliza Maloi of West Brookfield received the usual sentence for selling liquor, and was committed to Worcester Almshouse.

Dr. Joseph T. Curtis, a distinguished homeopathic physician, residing at 49 East Twentieth street, New York, committed suicide on Friday. He was a student of Gramm, and one of the first who practised on the Hahnemanic theory. He was a great mechanician, and invented the Automatic Triturator, which would cunningly grind a powder to precisely the desired tenuity, and stop at the point set. Latterly, he devoted much of his time to the construction of a sewing machine, which gives gives the needle precisely the movement the hand gives it—successfully working button holes and eyelets with it. A model of this curious contrivance was exhibited at the late Crystal Palace Fair. He had become so interested in some improvements upon it, that for four or five nights past he did not sleep at all. On Thursday, though still about, he showed evidences of derangement, and on Friday, he suddenly clapped the muzzle of a loaded pistol to his side, directly over the heart, fired, and fell, dying almost instantly.

AS A REMEDY FOR DYSPEPSIA AND INDIGESTION, we think the Oxygenated Bitters unequaled. They are free from alcohol, and contain—judiciously combined with other hygienic substances—oxygen, the chief vital element. ††

Guardian's Sale.

BY VIRTUE of a license from the Hon. Judge of Probate for the County of Rockingham, the subscriber, guardian of Edward H. Fernald, a minor and heir at law of Thomas Fernald, late of Portsmouth in said county, deceased, will sell at Public Auction, at the City Clerk's office, No. 74 State street, in said Portsmouth on Wednesday, the 25th day of November instant, at 12 o'clock at noon, one moiety in common and undivided of a certain tract or parcel of land situated in said Portsmouth, belonging to her said ward, containing about one-quarter of an acre; bounded and described as follows: northerly by Pleasant street, easterly by the Pleasant street burying ground, (so called,) southerly by land belonging to the heirs of Alexander Ladd, deceased, westerly by land of Thomas Maddox. LECTURES,

AT THE TEMPLE.

THE LYCEUM COMMITTEE, being desirous of making their Course a popular one, have made the following arrangements for the season:

The Lectures will commence on

TUESDAY EVENING, DEC. 1, 1857.

For the first evening, the services of MRS. EMMA WENTWORTH and MR. ALBERT LAIGHTON have been secured.

ALBERT LAIGHTON will read a POEM, and MRS. WENTWORTH will sing some of her choicest SONGS, accompanied by MR. LISZ, Pianist.

The Lectures will be held on Alternate Tuesday evenings.

HON. RUFUS CHOATE,
REV. A. L. STONE and ARTHUR GILMAN, ESQ., of Boston; and REV. J. C. BODWELL of Framingham, have been engaged to lecture.

The other lectures will be announced in future.

Tickets for the Course, $1; do. for two, $1.50; do. for gentleman and lady, $2; lectures to commence at 7½.

JOHN P. PAYSON, N. K. RAYNES,
C. C. HARVEY, E. N. HEATHES,
E. P. KIMBALL, J. H. THACHER,
Lyceum Committee.

☞ The members of the Association will be supplied with free tickets for the Course, by calling on the Treasurer, Mr. C. C. Harvey. o20

REMOVAL.
E. Green & Co., Merchant Tailors,
HAVE just made great improvement in their CLOTHING ESTABLISHMENT.
It gives them great pleasure to announce their thankfulness to the people of this city and neighboring towns, for their kind patronage; through which, and their own facility of selling cheaper than any other establishment, we were enabled not only to increase our Stock to a great extent, but to accommodate our increased and increasing custom, we have obtained the large and commodious store,
No. 54 Market st., cor. of Hanover St.
opposite the Union Store. Said Store is more than double the size of our former establishment; we assure all who may favor us with their custom a courteous treatment and the value for their money. All who are in want of clothing, are invited to call and see whether our statement is true.
A variety of
Trunks, Valises, Carpet Bags, Oil Suits, &c., &c.
As the articles we have for sale are too numerous to detail, we will say in short, every article belonging to Gents' and Youths' wear, can be found at our CLOTHING HOUSE; together with an assortment of Woolen Goods, of which we will make garments to order, or sell by the yard, and cut it for them without making, any way to suit the purchaser. LOTTERIES.
THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity by investment, to share the profits of a distance being as well projected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme there are 12,000 tickets and the following prices. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Schemes for the month of May, are now being drawn, and result of drawing forwarded to all purchasers.
☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Mercury*, Nashville *Gen. Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Augusta, Georgia
Prizes paid in full; no percentage deducted from prizes as in other lotteries.
All communications strictly confidential. m31y

LOTTERIES.
The well-known Maryland Consolidated Lotteries, of which H. Fairer & Co. are the managers, are chartered by the State of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. And in fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every Saturday, and if any particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The price of tickets may from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket. Prizes vary in amount from $20 to $100 00. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.
☞ The drawn numbers of the Maryland Lottery are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

A BEAUTIFUL HEAD
OF RICH GLOSSY HAIR,
Completely Preserved
TO THE GREATEST AGE.
AND who that is gray would not have it restored to former color; or bald, but would have the growth restored; or troubled with dandruff and itching but would have it removed, or troubled with scrofula, scald head, or other eruptions, or with sick headache, (neuralgia) but would be cured. It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following.
ANN ARBOR, November 5th, 1856.
PROF. O. J. WOOD—DEAR SIR: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the same category. But with one thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months since, when you gave me such assurance as induced the trial of your Restorative, in the case of a friend, by my good wife, whose hair had become very thin, and entirely white; and before exhausting one of your large bottles her hair was fast turning nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continued to use it, not simply because of its wonderful effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and myself have used the Restorative, with the happiest effects; therefore my skepticism and doubts in reference to its character and value are entirely removed; and I can and do most cordially and confidently recommend its use by all who would have their hair restored from white or gray, (by reason of sickness or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.
Very truly and gratefully yours,
SOLOMON MANN.
FRIEND WOOD: It was a long time after I saw you at Blissfield before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you assured me it would do; and others of my family and friends, having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.
Again, very respectfully and truly, yours,
SOLOMON MANN.
CARLISLE, ILL., June 8, 1852.
I have used Prof. O. J. Wood's Hair Restorative, and have admired its effects. My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so. S. BERRIE, ex-Senator, U. S.

THE Lotteries of ANDERSON & SON, are chartered by the State of Georgia, and have sworn commissioners appointed by the State, to superintend the drawings, and certify that everything connected with the same is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawings. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets in Georgia, as lotteries are legalized by special law in that state. A lottery is drawn at Savannah, Ga., about the 15th of every month, and about the 25th at Macon, Ga., *every Saturday throughout the year.* If no particular class is named, orders are filled by the first drawing to take place after the communication comes to hand. The price of tickets range from $1 to $10. No tickets are, however, sent unless the money for the same is received with the order. STOVES.

Frank Jones, No. 61 Market St.,
HAVING received his Winter Stock of Stoves, is now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:
IMPROVED EMPIRE STATE.
This celebrated Cooking Stove having been in the market many years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.
THE WHITE MOUNTAIN IMPROVED,
being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.
THE REPUBLIC.
This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.
All sizes on hand, and every Stove warranted.
Also on hand all the different kinds of the most approved patterns; among which are the
BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.
Repairing Pieces of all kinds on hand.
The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.
Our stock of
PARLOR STOVES
is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the
ILION, VILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,
OVEN PARLORS in great variety for wood or coal.
SHEET IRON STOVES of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different Patterns.
The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.
Remember the place to buy cheap is at
No. 61 Market Street.

Magee's Patent Ventilating Stove.

FOR WARMING AND VENTILATING
PARLORS, OFFICES, HALLS, STORES, SCHOOL HOUSES, &c.
WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give
Any amount of Heat required,
and unlike all other Anthracite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and as none of the air which comes in contact with the fire goes to waste in respiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.
These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate for warming, and give universal satisfaction to all who have adopted them.
For Offices and Stores as well as the Parlor.
The inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to rekindle without the use of charcoal. The coal is all used, and no dirtiness nor consequently, sifting coal is dispensed with.—When this Stove is properly managed,
THE FIRE MAY BE CONTINUED THROUGH
THE ENTIRE SEASON,
without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 20 to 50 per cent, in fuel expense.

IMPORTANT DISCOVERY.
DR. CHRESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience.
THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to bring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health when her menses are irregular or suppressed; or obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the agent of such a misery has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. All cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhoea, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHRESEMAN, Box No. 4,581, Post Office, New York City, will receive them, free, to their respective addresses by return of mail.

S. D. & H. W. Smith,
—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,
No. 511 Washington St., Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in some two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

Is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of great volume and power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most competent and skillful workmen. In short, we will promise our customers an instrument equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in music, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,
who have examined our Instruments, and will give their opinion when called upon:

Chickering & Sons, Hallet & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.

MELODEONS RENTED

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instrument before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory the Piano, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,
(Late Agents of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to procure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting a Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not unanimously superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render it invaluable, in any question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I remained in the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skillful Patent solicitors in the United States and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

August 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

CHAS. MASON,
Commissioner of Patents.

Remedy for Worms.

THE diseases of children are often so complicated that it is difficult to ascertain the true nature of their complaint. In a large majority of instances the symptoms would lead to the existence of WORMS—the prominent symptoms of which are, paleness of the countenance, loss of or irregular appetite, starting up and crying out in their sleep, picking at the nose, great thirst, a wasting away of the flesh, &c. These symptoms should be early attended to, as by neglect it often terminates in disease of the brain.

PRESTON'S WORM SYRUP

is the most effectual remedy ever used. It is pleasant to the taste, perfectly harmless, and is warranted in every case to give satisfactory results.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has concrete one SPECIFIC DISEASE—but but ONE AIM—accomplishes but ONE THING, to wit: SUBDUE INFLAMMATORY DISEASE—whatever be its form or locality whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, yet as easily as fire is extinguished by water. Is it asked, how can this be? Reply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely a vital influence to the point of a pin dipped into a solution of it, to affect the entire system.

☞ *Its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk Railroad Spikes

ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. FRIDAY, NOVEMBER 20, 1857.

FROM WASHINGTON.—*Washington, Nov. 18.*—It is believed that Costa Rica will retire from the possession of the San Juan river as soon as she may be informed of the negotiation of the recent treaty between the United States and Nicaragua.

The action of the Kansas Constitutional Convention meets the *approval* of the President, as calculated to quiet existing troubles.

We do not know on what authority this last statement rests,—but it strikes us as a most tyrannical way to quiet troubles, for this convention to usurp all manner of authority, against the known wishes of two-thirds of the voters. Is *this* the great doctrine of popular sovereignty?

STRANGE STORY.—A man named Bourne, living in Westerly, R. I., fancied that while walking he heard voices bidding him go to church; he said audibly that he would rather be deaf and dumb than go to church, whereupon the senses of sight and hearing failed him, and he was found and carried home in an almost insensible state. After a few hours, his senses returned, and he has since become a constant attendant at church and a convert to religion. This story is told by the people of Westerly, many of whom look upon it as a miracle that may be placed by the side of the conversion of St. Paul.

There is a key to the story, viz., the fact that the man "has been dissipated," rendering it probable that half drunken imaginations created the voice he heard—and also aided in his alarm and insensibility. If the convert will keep away from liquor, he may hold out. To drink will be to fail.

NEW YORK.—An old man, named Francis Vincent, was on Tuesday night murdered and robbed in his store, at No. 15 William street. He was a liquor dealer, and was in the habit of carrying large sums of money about his person. On Tuesday night four Spaniards or Italians entered his store, and after drinking with him, attacked him, murdered him, and fled. A old man named Hilton, a soldier of the war of 1812, was also attacked, but was not dangerously wounded. The villains escaped without being identified, but later in the night two men were arrested on suspicion.

INCENDIARY FIREMEN.—From disclosures that have just come to light in Philadelphia, suspicion has given place to the positive fact that a very large portion of the incendiary fires in that city have been caused by firemen or the hangers-on of the engine companies. One of these fellows was arrested a day or two since, caught in a house, announcing the fact of his having just set fire to a building, and his motives for the act—which was not merely to have a "fun," but to provoke a collision with another company, with a view to demolish its machine.

☞ Rev. Hugh McLeod, pastor of the Congregational church, in Springfield, O., has received a unanimous call to become pastor of the Congregational church, Brentwood, N. H.

Rev. L. Huntley has removed from Campton, N. H., to Lunenburg, Vt., having received a call to the pastorate of the Baptist church in L.

Rev. Lyman Chase, lately of Warren, Me., has accepted an invitation to the pastorate of the Baptist church in Pittsfield, N. H., and enters upon his labors there immediately.

☞ Rev. E. E. Atwater, recently dismissed from the Congregational church in Salmon Falls, has removed to New Haven, Ct., where he has engaged to preach in the Mission Chapel.

☞ The Mobile Mercury says a lady in that vicinity, a few days since, missing her *teeth* under circumstances that led her to believe that one of her turkeys had appropriated them, instituted an examination after a style of justice once much in vogue, of executing a criminal first and trying him afterwards. Seven of the fowls were decapitated and acquitted, but the eighth was found guilty, and the lost teeth extracted from its craw.

COUNTING CHICKENS.—The N. H. Patriot of Nov. 16 says:—

The people of this State have become acquainted with the designs and characters of the black leaders, have become disgusted with them, and will "let them slide" to oblivion next March, by confiding the management of their affairs to honest men.

☞ The name of the publisher of a newspaper in Pennsylvania,—the York Democratic Press, is Oliver Stuck—a very suggestive cognomen for a printer, which may signify all-of-a-"stuck," as many publishers do get.

EXETERIANA.

EXETER, Nov. 19.

Dear Chronicle:—One spontaneously pities that poor Frenchman whom we read of as having been so cruelly tormented by the wretch who obstinately persisted in the delusion that "Mister Thompson" dwelt at Frenchy's house. One can readily imagine the feelings of the poor fellow as he uttered for the last time: "Monsieur Tonson come again;" and incontinently departed for parts unknown. The same Tonson, who has come to our town so many times during the last season, bids fair to make his future visits here as unlike those of angels as possible. In other words, the ladies of the Methodist Society advertise a Donation and Public Festival on Tuesday day evening next, at the New Town Hall. As usual the Exeter Cornet Band will appear to entertain the Company. The next regular Promenade Concert has not yet been announced.

That it may not be thought that we have no other amusements than Fairs and Promenade Concerts, we might chronicle the fact that a "grand Indian Exhibition by the Minnehaha Troupe of the Penobscot tribe of Indians," who were to give "one of their inimitable performances" on Thursday last, was duly advertised and probably took place. Besides this, a meeting of Spiritualists is regularly held every Sabbath. No mention of Lyceum lectures has yet been made, and it is quite likely that we shall not have a course, as was the case last winter.

You stated, a short time since, that Mr. J. B. Wadleigh had purchased the Chauncey farm in Stratham, lately occupied by George Janvrin, Esq. The latter gentleman has purchased a house on Middle Street in this town, for his residence, and is making many improvements on the premises. Among other things, he has substituted slating for the old-fashioned shingling, which is something of a novelty in Exeter, as a year or two ago hardly a slated roof could be found in town. The News-Letter says that Mr. A. H. Merrill, of your city, is the owner of a quarry at Brownsville, Me.; and that he has some twenty men in his employ there. His article is considered superior to the imported slate, and Mr. M., could undoubtedly furnish it at Portsmouth cheaper than any other kind.

A handsomely printed Catalogue, of Exeter Female Academy has just been published, from the press of C. W. Brewster & Son, of your city. It appears that the Institution has five teachers, and that during the last five terms, 172 pupils have attended. The school, under Prof. E. G. Dalton, maintains the high reputation it has so long enjoyed.

The "long, winter evenings" are coming, as the booksellers would have us recollect, and it is gratifying to know that our Town Library is in a fat condition, to sustain the attacks of all the readers who may beseige it. It contains upwards of one thousand nine hundred volumes, and is constantly increasing. The recent removal of the Library from its old quarters in the old Town Hall to a fine room in the lower story, formed out of the old Court Room, is a marked improvement.

Perhaps you have heard of the poor wag, who, upon finding "Nothing to Eat" in its literal sense, at home, told his wife to fetch out the plates, knives, and forks, and he "would go through with the motions." In the same way, the managers of the Cloth Factory here keep up the sound of business by ringing the bell as regularly as ever, although the machinery has been idle for more than a week.

The Piscataqua Association of Ministers held a meeting at the First Congregational Church on Tuesday last. The sermon was by Rev. Mr. Whiting, of your city.—The family of the late Senator Bell have arrived here, and commenced housekeeping.

Yours, F. G.

SLAVERY IN OREGON.—The latest dates from Oregon, received by the last California mail, are to October 8th. The Constitutional Convention adjourned on the 18th of September, having adopted a constitution which was to have been submitted to the people on the 9th inst. The vote is viva voce. The people are to vote whether or not they will have slavery, and also whether they will permit the future immigration of free negroes and mulattoes.

☞ In the Superior Court, Boston, on Wednesday, the Chauncy street Church obtained a verdict against the city of Boston, for $17,000 damages to church property by the opening of Chauncy street.

☞ The will of the late Mrs. Dr. Rush, of Philadelphia, in effect makes her husband her sole and absolute legatee. The estate is estimated at one million of dollars.

MORE OF THE WOODMAN AFFAIR.—Mr. Woodman, the husband of the lady involved in the New York Hotel affair, has published a letter sustaining the statements originally made of the case; denouncing Furness's attempt to remove Mrs. Woodman from the asylum, as "the scandalous proceeding of a heartless villain;" asserts his belief that the letters said to have been written by Mrs. Woodman are forgeries; and shows that in his treatment of his erring wife, he was actuated by sincere motives of humanity, and that he acted with the full knowledge and consent of her relatives; also that he had made complete arrangements, from the first, for her speedy restoration to the home of her parents.

The Mr. Furness, who figures so largely in the disgraceful affair, was once a citizen of Portsmouth; and removed hence, because, as he said, he was taxed improperly for some Stocks. Now he figures as a dangler after Mrs. Woodman, the lady with 75 dresses, the belle of the watering-places, and the silly beau-catching wife. There is an old proverb about an idle man's being the devil's playfellow. Perhaps in this case, it might apply to both man and woman.

☞ A couple of Detroit police officers, took a long ride after a fugitive from justice—and arrested him and a handsome "young man" travelling with him. For safe keeping, it was arranged that one prisoner should sleep with each officer; and the culprit was hand-cuffed to the chief officer, while his friend was secured by a handkerchief to the middle of the other officer—in spite of the reluctance of the handsome young man to room with the staid policeman, who was a man of family. The morning arriving, daylight revealed the fact that the nice young man, the handsome young man, who had "put on airs" the night before, and swore he was ready to shoot any "dem'd officer," was no young man at all, but a veritable *woman*. We have not heard how our officer settled the matter with his better half upon his arrival home.

FROM KANSAS.—Extract from a letter written by a gentleman who is prominent in Kansas, and is well known:

"Nov. 8, 1857.—The 'Constitution without slavery' is a pro-slavery Constitution, and we have no vote against it. I do not know what will be done, but think we shall not vote at all upon it till the Territorial Legislature meet and provide for submitting it with the Topeka Constitution to a fair vote of the people. We can do nothing by voting before. The President of their Convention, J. Calhoun, a very ultra man, appoints the judges of election and counts the votes, and he censured Cov. Walker for rejecting the Oxford and McGee frauds. Should the above course be pursued, we trust out friends in Congress will keep off the vote on the Lecompton Constitution, till we have had our vote upon it.

"They have a State election about the first of January, and under the auspices of the same President. If they succeed with this Constitution, they will retain the government in the hands of a minority so long as they please, unless there should be a revolution."

WASHINGTON, Nov. 18.—It is decided to send no minister to Nicaragua till after Congress meets. The new treaty will be sent out by Yrisarri on the steamer of the 20th.

Secretary Stanton of Kansas has forwarded his resignation, to take effect on the 31st of December, when the President supposes that the government will be fairly in operation.

NEW YORK, Nov. 19.—Dispatches from the South state that the Niagara's news had unsettled the cotton markets at all points, and business was at a dead stand.

THE MILLS AT GREAT FALLS.—We copied from the Manchester Mirror a day or two since, a statement that the No. 3 mill at Great Falls has again started. This, we learn from an authentic source, is wholly a mistake. The mill has not started.—*Boston Journal.*

STEAMSHIP SUNK AND TWENTY-FIVE LIVES LOST.—*New Orleans, Nov. 17.*—Steamship Opelousas, from Berwick Bay, bound to Galveston, is reported to have sunk at midnight of the 15th, and 25 passengers were lost, including Gen. Hamilton of South Carolina. Officers and crew all saved.

☞ A seaman named James Mason was murdered in Clark street, Boston, on Tuesday night. Henry Jones, John Conley, James Finnegan, and John Kelly, have been arrested as the murderer or accomplices.

WISCONSIN ELECTION.—*Detroit, Nov. 18.* The Superior (Wis.) Chronicle of the 10th inst., received here this evening, says that Douglas county gives Cross, the Democratic candidate for Governor, 117 majority, which it is claimed insures his election.

GAMBLING.—Perhaps there never was a time when was so much played in this city as now. The thirst for it is said to amount to a furor. It has every stage; first bean poker, second whiskey poker, and third the real poker, which takes the mineral to play.—*Nevada (Cal.) Journal.*

HARD TIMES.

What a tread-mill life I lead,
Trotting round from store to store;
Still I'm short of what I need—
Two hundred dollars or more.

I've tried of every one to borrow
This little sum, in vain;
It is too bad, for on the morrow
I must do the same again.

But twenty minutes more, I see,
And "Bank hours" will be ended—
Now I must raise this sum, or be
Reported broke—suspended.

Portland Argus.

MRS. PARTINGTON ON WEDDINGS.—"I like to 'tend weddings," said Mrs. Partington, as she came back from one in church, and hung her shawl up, and replaced her bonnet in the long-preserved band box. "I like to see young people come together with the promise to love, cherish and nourish each other. But it is a solemn thing, is matrimony; a very solemn thing, where the minister comes into the chancery with his surplus on, and goes through the ceremony of making them man and wife. It should be husband and wife. It isn't every husband that turns out to be a man.—I declare I never shall forget when Paul put the nuptial ring on my finger and said —'With my goods I thee endow.' He used to keep a dry goods store then, and I thought he was going to give me the whole there was in it. I was young and simple, and didn't know till afterwards that it meant only one calico dress a year!"

THE MAN WHO RAN AGAINST CALEB CUSHING.—The man who ran against Caleb Cushing, Ex-Attorney General of the United States, for Representative in Newburyport, and who came within fifty-four votes of beating him, is a barber. Had he possessed half the wealth of Cushing he might have beaten him; as it was he gave him "a close shave."

A young lady inquired of a sailor, why a ship was always called "she."—"Because," replied Jack, "the rigging costs more than the hull." And is of but little use if not *manned*.

SPECIAL NOTICES.

The announcement that MRS. Cunningham had committed suicide would cause a sensation.—But the fact that the Carminative has cured 1000 children of summer complaints produces no lasting impression. Mothers! Mothers!

DOUBT NOT!

We would not be so base as to deceive in a matter of such vital importance to our fellow man, nor trifle with what is so precious to us all, but speak advisedly and in all sincerity, when we say that in Dyspepsia and all its concomitants, in Scrofula, in all its varied forms, whether indicated by swelling of the glands, diseases of the skin or deformation, Myer's Extract Rock Rose will invariably mitigate the suffering, and in most cases effect a cure: it operates by changing the viscid humors, purifying the blood, thereby imparting vigor to the whole system. As a tonic, the Rock Rose is invaluable, hence its happy effects in all those diseases arising from impaired digestion. Get a Pamphlet.

SMITH'S CURATIVE CLEANSING COMPOUND which has been sold extensively in Portsmouth and vicinity, for a few weeks past, by the proprietor, for the cure of pains, &c., may be had of Wm. R. Preston, Brackett Hutchings, Ass S. Tilton, Jenkins & Goodrich, F. Dupray, C. E. Laighton, Oliver F. Gerrish, Joseph Harvey & Son, Thomas S. Gammon, in Portsmouth.

None genuine unless bearing my trade mark (J.S.) attached to the autograph on the wrapper.

Prepared by JOSEPH SMITH, Haverhill, Mass. 1y july27

WE WISH TO SAY TO EVERY PERSON Who reads this that there is an article known as "Dr Sanford's Invigorator or Liver Remedy," which can be relied on as certain to cure liver complaint in any of its forms, such as Jaundice, Dyspepsia, and numerous other complaints, described in another column, besides which it is one of the greatest preparations or cures for consumption, taken in early stages, that is now known.

We take it for granted, as experiment has proven, that diseases of the lungs are not generally the first cause of consumption, but a debilitated system, caused by the improper action of the liver, reduces the power of the lungs to resist or throw off diseases caused by cold and irritation, leaving the lungs at the mercy of our diseases, because the liver has incapacitated them from performing their proper action of throwing off diseased matter caused by cold, thus to prevent consumption, cure the liver, and keep the system strong enough to throw off slight diseases of the lungs.

There is not in the world a better liver remedy or nerve for debilitated system, than "Dr. Sanford's Invigorator," for it has been fully tried in a large and extended practice, till its results are fully known and now it is offered as a tried remedy, and one that can be relied on.

COURT OF COMMON PLEAS.

The Court were occupied Wednesday afternoon and Thursday morning in disposing of the cases upon the new docket. The case Perkins v. Scott was resumed on Thursday, Nov. 19. The action was brought to recover damages of the defendant for putting certain furniture of the plf. into the street from the house at the Arch in Water Street in June 1855. Defence was that Deft. owned the house, and had notified the plf. to leave the same, frequently, and that he removed the furniture to get possession of the house. The plff. having hired it of Wm. Claggett, who claimed under a title derived under an execution against Jacob Myers; while the deft. claimed under a deed from Myers, dated and recorded before the property was attached on the writ upon which execution issued. The case was given to the jury on Thursday evening.

Case No. 96, Little v. Little, is next in order for trial — an action of trespass brought originally before a Justice of the Peace, involving the title to certain real estate in Hampstead. The case was tried at the last term, when the jury did not agree.

☞ Mrs. Straightjacket says, she don't see what they call a Court, "Common Please" for her part, she always "thought that neither side was pleased;—the one what beat, 'cause it had to pay so much for it; the one what didn't, 'cause it had to pay as much as the other, and a good deal more besides." Though Mrs. S. doesn't belie her name, she isn't always totally addled.

☞ Through the columns of the Daily and Weekly Chronicle, advertisements receive as thorough circulation and reading, both in the city and country adjacent, and at as low rates, as in any other way.

A gentleman who does an extensive business not a thousand miles from this city, and who had previous to this season advertised in all the other newspapers in the city—during the last summer has patronized the Chronicle; and he informs us that he has derived more benefit from this, in the city and out, than from all the other advertising, by papers or handbills, that he has ever done! We give this only as his opinion,—from which all can draw any inference they choose. We have received many other such expressions of appreciation.

☞ We do Job and Card Printing, at the Chronicle Office, in any style to suit, and at prices to compare with the times. We are constantly adding to our materials and facilities in this department of our business. For Cards and small work generally, Foster's press can't be beat.

☞ A few days since, we enjoyed one of the most pleasant jaunts we have had for a long time—to the extensive nurseries, greenhouses and gardens of our enterprising friend John Rogers, in Kittery, a couple of miles from the city. His grounds are the most extensive and best cultivated, and his products of course the largest and finest of any establishment of the sort in this region. Good taste and thrift are exhibited in every arrangement, whether it be the laying out of grounds, constructing a cottage or greenhouse, or building only a barn. His premises have been much improved during the past season, by grading a new semi-circular carriage-way from the road to the greenhouses—of which he has two, the old one being devoted to grapes, while the new and larger building is filled with choice and flourishing plants.

Among other trophies of our visit was a bunch of white grapes weighing half a pound or more, which forcibly brought to our mind the old bible picture of the spying Israelites returning from the land of Canaan, shouldering a mammoth bunch of the fruit—which we don't believe was a bit better than this.

A lover of the beautiful will be richly repaid for a visit to Mr. Rogers' grounds, at almost any season of the year; and will be sure of a cordial reception and the most polite attention from the gentlemanly proprietor. The ride thence is the finest to be enjoyed in this vicinity—over Portsmouth Bridge and along the banks of the river, through Navy Yard Village and in sight of the Yard itself; and if you choose, through Love Lane—a road long out of use, and one of the most picturesque, tree-sheltered, grass-grown old paths we know of. A drive through it in summer is charming indeed, but we can't recommend it for winter travel—we tried it, with a friend, one sloshy day last spring, just as the sleighing was going off, and were near being left in a posthumous snow-drift, through which the horse and riders floundered like the Pilgrim in the slough of despond.

☞ The Ballot is dreadfully exorcised about that concert. All "out in your calculations," too, neighbor. That club don't sing for "wages;" and Mr. Thompson *did* have much "to do with the receipts and expenditures"—and as he is satisfied, and we (who did all his advertising and printing) are, we should think other folks might be.

But we don't see that we can suit the Ballot at all—the editor blamed us for advertising (or noticing) Russell and Kirbye *for* pay; and now finds fault that we did the same service for Thompson *without* pay (he says.) If that dog *hasn't* got a "sore head," he must be a dreadful Snarleyow naturally. F.

☞ We are glad to learn that Messrs. Marcy & Pettigrew, at their new ship yard at the South End, have just laid the keel of another ship.

☞ Will those Weekly subscribers to whom we have sent bills, please forward our money forthwith? To those who have done so, we are "much obliged"—and we hope that there are *more* honest ones yet among the delinquents. On the 1st of January, we intend to print a list of all who are owing us for more than a year—as we hope in this way to inform some of the fact, who seem utterly oblivious of it now.

A car load of liquor sellers were sent down from Lawrence on Tuesday, to the House of Correction in Ipswich. There were ten men and one woman. One of the men has some 240 days to serve, and fines amounting to $90. We understood that the County House at Lawrence is full, and if the coming courts have as many liquor cases as the last, we shall soon need another County House to be devoted specially to liquor sellers:—*Newburyport Herald.*

Cold Winter is Coming on.

AND with it will return the usual concomitants, Coughs, Colds, Dyspepsia, Scorbutic Eruptions, Sick Headache, Rheumatism, Worms, Ring Worm, &c., which the genial warmth of summer and free perspiration has, for a time relieved, but which the return of rigid, cheerless winter, will bring back, unless resisted by some medicamentum.

MEYER'S EXTRACT OF ROCK ROSE,

is peculiarly applicable, and if freely used will not fail to protect the constitution against the sudden and extreme changes of our variable climate. It purifies the blood, strengthens the stomach, and invigorates the whole system, thus fortifying against the insidious attacks of unseasonal frosts and debilitating heats. See Circulars.

REMOVAL.

E. Green & Co., Merchant Tailors,

HAVE just made great improvement in their CLOTHING ESTABLISHMENT.
It gives them great pleasure to announce their thankfulness to the people of this city and neighboring towns, for their kind patronage; through which, and their own facility of selling cheaper than any other establishment, we were enabled not only to increase our Stock to a great extent, but to accommodate our increased and increasing customers, we have obtained the large and commodious store,
No. 54 Market st., cor. of Hanover St.
opposite the Union Store. Said Store is more than double the size of our former establishment; we assure all who may favor us with their custom a comfortable apartment and the value for their money. All who are in want of clothing, are invited to call and see whether our statement is true.
A variety of
Trunks, Valises, Carpet Bags, Oil Suits, &c., &c.
As the articles we have for sale are too numerous to detail, we will say in short, every article, belonging to Gents' and Youth's wear, can be found at our CLOTHING HOUSE; together with an assortment of Woolen Goods, of which we will make garments to order, or sell by the yard, and cut it for them without making, any way to suit the purchaser. LOTTERIES.

THE Lotteries of Messrs. Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as safe as though they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to purchase tickets in Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received before that date will entitle parties to take place after the same comes to hand. According to the scheme one ticket in every ten issued will be a prize. Tickets are $1 in Sixes, $6 a quarter, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle, and the number on each ticket, and are so simple that none need fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $20,000, according to the number of tickets and result of drawing forwarded to all purchasers.
☞ A list of the numbers that are drawn from the whole ticket, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Confederacy*, and New York *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Augusta, Georgia.
Prizes paid in full—no percentage deducted from prizes as in other lotteries.
All communications strictly confidential, m18ly

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FARRIS & Co are the managers, are chartered by the State of Maryland, and are sworn commissioners elected by the people, sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of persons residing at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day, and the result of each lottery class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the manner of the Havana plan), and Tenary combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.
☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

A BEAUTIFUL HEAD
OF RICH GLOSSY HAIR,
Completely Preserved
TO THE GREATEST AGE.

AND who that is gray would not have it restored to former color; or bald, but would have the growth restored; or troubled with dandruff and itching but would have it removed, or troubled with dyspepsia, nervous affections, or with sick headache, (neuralgia) but would be cured. It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following.

ANN ARBOR, November 5th, 1855.
PROF. O. J. WOOD—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dyes, &c., I was disposed to place little dependence in the same category with the one thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months since, when you gave me such assurance as induced the trial of your Restorative in my family—first, by my good wife, whose hair had become very thin, and entirely white, and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become soft and glossy upon, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore my skepticism and doubting intuitiveness to the character and value are entirely removed; and I can and do most cordially and confidentially recommend its use by all who would have their hair restored from white or gray, (by reason of sickness or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.
Very truly and gratefully yours,
SPENCER MARR.

FRIEND WOOD: It was a long time after I saw you at Hillsdale before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you assured me it would do; and others of my family and friends having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.
Again, very respectfully and truly, yours,
J. W. MANN.

CARLISLE, Ill., June 28, 1852.
I have used Prof. O. J. Wood's Hair Restorative, and have admired its effects. My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so. S. M. SHUMAN, ex-Senator, U. S.

STOVES.

Frank Jones, No. 61 Market St.,

HAVING received his Winter Stock of Stoves, is now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:
IMPROVED EMPIRE STATE.
This celebrated Cooking Stove having been in the market many years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.
THE WHITE MOUNTAIN IMPROVED,
being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.
THE REPUBLIC.
This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.
All sizes on hand, and every Stove warranted.
Also on hand all the different kinds of the most approved patterns; among which are the
BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.
Repairing Pieces of all kinds on hand.
The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.
Our stock of
PARLOR STOVES
is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the
ILION, VILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,
OVEN PARLORS in great variety for wood or coal. SHEET IRON STOVES of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different Patterns.
The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.
Remember the place to buy cheap is at
No. 61 Market Street.
FRANK JONES.

Magee's Patent Ventilating Stove.

FOR WARMING AND VENTILATING
PARLORS, OFFICES, HALLS, STORES, SCHOOL HOUSES, &c.
WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give
Any amount of Heat required,
and unlike all other Anthracite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and as none of the air which comes in contact with the fire pot is used for respiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.
These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them.
For Offices and Stores as well as the Parlor.
The Inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, burning but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to rekindle without the use of charcoal. The ashes will need, and no either made, consequently, sifting coal is dispensed with—When this Stove is properly managed,
THE FIRE MAY BE CONTINUED THROUGH
THE ENTIRE SEASON,
without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 30 to 50 per cent, in fuel expense.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have these Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, when perfect health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular: and whenever an obstruction takes place, the whole system becomes out of order, and the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the obstruction of nature, are whatever may be the cause, the Pills will invariably remedy all these evils. All cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to the constitution. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

S. D. & H. W. Smith,
—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS.
No. 511 Washington St., Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Institute, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tone full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,
Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON
Is designed for parlor and private use. The construction is similar to the Church instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skillful workmen. In short, we will promise our customers an instrument equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,
who have examined our Instruments, and will give their opinion when called upon:
Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, J. Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and be faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Also, Reissues, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL, AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office in the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure them the early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

CHAS. MASON,
Commissioner of Patents.

Jobbing and Repair Shop.

JOHN H. STICKNEY respectfully informs his friends and the citizens of Portsmouth and vicinity generally, that he has taken a shop on the corner of State and Church streets, (over Greenleaf's Blacksmith Shop) where he will be ready at all times to make or repair, varnish or polish CABINET FURNITURE of every description, in a manner warranted to give satisfaction, and on the most reasonable terms.

Remedy for Worms.

THE diseases of children are often so complicated that it is difficult to ascertain the true nature of their complaint. In a large majority of instances the cause may be traced to the existence of WORMS—the prominent symptoms of which are, paleness of the countenance, loss of appetite, irregular appetite, starting up and crying out in their sleep, picking at the nose, great thirst, a wasting away of the flesh, &c. These symptoms should be early attended to, as by neglect it often terminates in disease of the brain.

PRESTON'S WORM SYRUP
is the most effectual remedy ever used. It is pleasant to the taste, perfectly harmless, and is warranted in every case to give satisfactory results.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but **ONE** MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form* of inflammation (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoration of the just balance between the fluids and solids. Such is its potency, that like a magnetic matter, it requires merely what adheres to the point of a pin, dipped into a solution of it, to affect the entire system.

☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

Morning Chronicle.

SATURDAY, NOVEMBER 21, 1857.

WHAT SHALL WE EAT?

There are few questions of more vital importance in times of scarcity and want, than those which concern our articles of diet. Indeed we cannot wholly ignore them at any season without a palpable injury to ourselves; but we generally shun the minute calculations they involve, so long as industry meets with its accustomed fruition, and ease and comfort can be obtained with little exertion. That we must have something to subsist upon is a proposition too obvious to need any reasoning to prove its truthfulness. It now follows for us to discover what kind of food we can use with the least expense of money and the greatest benefit to the system. We therefore propose to offer a few suggestions to enable those who have not "enough and some to spare," to form a clearer idea of the comparative value of the various articles of diet, and to spend their earnings to the best advantage.

The three main articles of food, purchased by a large majority of providers for use in their families, are flour, meat of some kind, and potatoes. Now it is the testimony of competent observers that a much larger portion of the latter products is consumed than of the former. And here, we believe, is a palpable deviation from true economy. An examination into the relative quantity of the nutritious element contained in each, will be sufficient to convince any one of the truth of this assertion. According to a table prepared by the learned Pereira, the amount of nutrition in good flour is about 85.5, while that in beef is but 25. and in potatoes 24.2. It will readily be seen from this computation, that in flour there is at least 60 parts more of the real nutriment than in either of the other two articles; and yet those who have families to provide for persist in expending their earnings for beef and Irish potatoes. Many, too, are taught to believe flour a mere luxury, and designed for those only who have large incomes and fastidious tastes. This is a mere hoax; for if we take into consideration the cheapness of wheat compared with other products, and the amount of nutritious element which it contains, we shall find it the cheapest to buy as well as the best to live upon.

But we cannot subsist upon bread alone. Something more is necessary to preserve and keep the system strong and vigorous. What shall it be? We say a *few* potatoes and a good supply of peas and beans. And to show the utility of using large quantities of the two latter articles, we will again recur to the table. Beans, says the same author, contain 85.89 parts nutrition, and peas 84. It has also been stated by able economists, that beans are cheaper at $2.50 per bushel than potatoes at 20c. Here, then, is reliable testimony of the superiority of two grand articles of food, which are rather prepared as a dainty than otherwise, by very many poor families.—The fashion is, to cook beans or peas for some extra occasion, while potatoes are dragged on to the table every day. If the above calculations are worth anything, this practice is a direct violation of the laws of economy.

It may be thought by some that we have not presented sufficient variety. This objection is easily disposed of. We had no intention of prescribing to house-wives what they should use in giving diversity to their pastries. This is an artifice with which they alone are acquainted. But in regard to those kinds of food which constitute the main dependence of every family, there are many false opinions prevailing. People in general think, like the famous trader mentioned by Sterne, it's poor policy to buy a good thing when a poor thing can be obtained for less money. This is a sore delusion, and can be banished only by careful experiments and a studious attention to the teachings of experience.

The above data are sufficient to prove the propriety of a slight change in domestic regulations. The present customs are the result of habit rather than of sound reasoning. They ought to be done away with, and doubtless will be ere long. In conclusion we would urge those who wish to economize without detriment to themselves, and who wish to live cheap and live well, to supply themselves with a fair complement of peas, beans and good flour, and to buy meat sparingly as long as it continues as high as it is present. T. K. A.

A bankrupt was condoled with the other day for his embarrassment. "Oh, I am not embarrassed at all," said he,—"it is my creditors that are embarrassed."

A cotemporary protests most earnestly that he is always as good as his word. No doubt he is, but his word is good for nothing. So says Prentice.

☞ The Investigating Committee of the Concord (and Boston) Railroad, appointed by the Stockholders, some time since, have presented an elaborate Report, comprising with the tables, some seventy close pages. The report shows that the committee, consisting of Hon. Asa Fowler, and Seth Eastman and Hiram Brown, Esqs., have gone into the matter of investigation in a thorough manner. Among other curious developments, is the amount paid to lawyers and lobby members of the legislature,—for political engineering. The aggregate law expenses for the last five years is $9031.70, or more than $1800 per annum,—pretty good pay, when it is considered that the President, who has a very large salary, is a lawyer, who like the President of the Boston, Concord, and Montreal Railroad, *might* take care of a greater part of the law matters of the road.

The Committee recommend that economy should be practiced in the management of the road, condemn the practice of paying the largest compensation for the smallest amount of labor performed, and are satisfied that the President of the road is paid too high a salary for his services, and recommend the abolishment of the present salary, and a moderate compensation instead, to be paid; they also suggest the necessity of increasing the discrimination in favor of passengers who buy tickets before taking seats in the cars over those who neglect it, and to compel the conductors to enforce the laws against free riding; and they urge a prudent adherence to the low rates of speed recently adopted, and the policy of running the fewest possible trains compatible with reasonable accommodation to the public and the business of the road. The report presents many matters of interest to the stockholders and managers of Railroads.

THE NAVAL COURTS.—One hundred and seventeen cases have been gone through by the Naval Courts of Enquiry. Twenty more remain for trial. The public will rejoice to learn that this apparently interminable business is nearly through. How much the Naval Reform Board will cost the government remains to be seen. The present tribunals of Enquiry and Revision will do the country some service if they do not rush into the opposite extreme of the Naval Star Chamber, and execute mercy as indiscriminately as that body did justice. Whilst some efficient and excellent officers suffered under the Reform Board, a great many incapables were displaced, and some, professionally capable, who were morally a disgrace to the service. No officer should be permitted to wear the livery of his country, however good a seaman, whose character as a gentleman cannot pass muster among civilized people.—*Portsmouth, Va., Transcript.*

☞ A little son of Mr. T. F. Beals, playing in the saw mill at Norway, Me., accidentally fell through a hole in the floor about two feet square, into the flume where the water was about eight feet deep. The alarm was given, and the boy's mother was the first to arrive at the place. She bravely plunged in and dove for him, and the second time succeeded in bringing him to the surface, where she maintained herself and boy by holding with one hand to a brace, until assistance came to relieve them both from their perilous situation.—This is what we call a brave woman—and she deserves a troop of model boys to bring up.

☞ Ben. P. Shillaber has gone on a lecturing tour to the South and West. The Boston Gazette cautions the people of the localities which he shall visit to beware of Ike, to take good care of Mrs. Partington, to keep out of the way of Old Reger, and be prepared for the Brahmin and Widesworth, for he has concluded, regardless of expense, to take them all along with him.

☞ More pleasant to Neal Dow, than all the brilliant public receptions given to him on his return home, must have been "the welcome by his honored father, a patriarch of more than ninety-one years, who still lives in a green old age, a living exemplification of the value of temperance principles, to receive back his son, the world renowned champion of teetotalism and prohibition." So it seems that *all* the old men are not "soakers."

☞ Daniel Pratt, the silly fellow, who fancied himself a candidate for the presidency, has been boring Gov. Wise of Virginia with an hour's talk. At the end of the hour, Wise was foolish enough to call Pratt an agitator, and advise him to leave the State. In New England, Pratt is only a harmless simpleton.

☞ A subscription paper is being circulated in Manchester, N. H., for the relief of the needy in that city. Twenty-five persons have contributed $50 each. When $2000 shall have been raised, the matter will be referred to the corporations.

"Gentlemen of the Jury, what is your verdict?" "We find the prisoner not guilty—if he'll leave town."

THE FURNESS AND WOODMAN CASE.—It is said that Oliver O. Woodman, the husband of the beautiful but foolish woman at New York, who has given so much occasion for scandal, served his time in the apothecary business, with Franklin Scammon, in Hallowell, Me. He then went to Philadelphia and finally out West, where he has done a large business in the Drug line, and finally settled down at New Orleans, and is supposed to be worth $200,000.

Mr. Woodman, it is said, has been one of the most devoted and indulgent husbands a woman ever had, and Mrs. Woodman had not had the reputation of being an unfaithful wife. But she was a belle, greatly given to dress, and loved Saratoga, Newport, and fashionable follies,—having appeared at Saratoga in seventy-five different dresses. Her age is 28, and she has been married ten years. One who knows both the husband and wife prophecies that such is the bond between the married pair that they cannot live apart, and that she will again be taken to Mr. Woodman's heart and home.

The Police Gazette thus states the antecedents of Furness, who is known in Broadway as a "fancy man."

In appearance he is a perfect fop. He is well known, not only in this country, but also on the Continent of Europe, where he boasts of having made greater conquests than the one in question; indeed, he talks lightly of this scrape and looks upon it as a small affair. He is very showy and tidy in his dress, and never falls at night, before retiring, to put his pantaloons in a stretcher. This is to keep them in shape. He does the same with his boots; as soon as they are taken off they are boot-treed during the night, and, to give the boot a high instep, it has an extra pad of leather. This gives his feet a very pretty shape, which, with his small hands, he considers his great *forte*. He imagines that they are truly captivating.

Furness was at one time the fancy man of Kate Hastings; but his friends tried to break up the intimacy existing between them, and obtained for him the position of Secretary to the Legation at Hague.

When Furness returned from Europe he went to New Orleans, where he first became acquainted with Mrs. Woodman, at St. Cross Hotel. They had a difficulty at a soiree when at this house, and the proprietor ordered Furness and Mrs. Woodman to leave.

A REAL COMFORT.—Among our special notices may be found a simple sentence, reading thus: "The best Parlor Ventilating Stove is the Magee." This we would strengthen by word of our own, to the same purpose, from a use of the article named and a thorough understanding of its merits. It is objected to close stoves that the air is hot and oppressive where they are used, but in the Magee this is obviated by a fine open draught which creates a circulation in the room, and thus prevents the frequency of headache and vertigo, resulting from the density and dryness of the atmosphere. But its greatest value consists in its economy, convenience, and neatness. It is so arranged that any amount of heat required may be obtained from it, graduated to any degree of temperature, and the fire may be continued day by day, and even week by week, thus avoiding the disagreeable necessity, existing in the case of other stoves, of frequent renewing, and the contingent dust and ashes so annoying to people of neat habits. The amount of coal necessary to supply the stove and give fire sufficient to warm the largest room, is comparatively small, (about 24 pounds per day) and, as the Miller said it was all corn that came to his mill, so it is all coal that comes to the Magee, for slates, stones and all other foreign substances seem to disappear in the ashes of combustion. We have the authority of one of the most intelligent housekeepers that ever lived, for saying that it is the best stove she ever used; and this, after a trial of many others, which fully confirms our own conviction.—*Boston Saturday Evening Gazette.*

The Magee Ventilating Coal Stove is for sale in Portsmouth by Frank Jones—whose advertisement may be found on our fourth page. It is undoubtedly a very excellent stove.

☞ The Boston Journal of Friday says there were painful rumors on State street that the principal member of one of the past commission houses in the city, who are the agents for several manufacturing companies, and who are authorized to use the names of three corporations on promissory notes, has used the paper of one of these corporations, with the endorsement of the firm, for his own private speculations. The amount of the breach of trust thus committed, according to current rumor, is from $300,000 to $600,000. The Journal hopes that rumor is not true, but remarks that "the effect of the rumor on State street has been to make it almost impossible to negotiate any paper to-day."

☞ Charles Sumner was welcomed home to Boston, on Thursday afternoon, by many friends, personal and political, among them, Messrs. Banks, Wilson, Phelps and Stone.

☞ Neal Dow was warmly received by the Sons of Temperance in Boston, on Thursday evening, at the Tremont Temple.

STATE TEMPERANCE CONVENTION.

The next annual New Hampshire State Temperance Convention will be held at Smyth's Hall, in Manchester, on Tuesday, Dec. 3, at ten o'clock, for the choice of officers, and for the transaction of other important business connected with the interests of the cause in the State. Will not the friends of Temperance gather in large numbers, to consider the best means of carrying forward this enterprise at the present time? Much has been done, but still the work is not accomplished. We wish to see delegations from as many towns as possible. Let us have a great gathering of the working men, and lay our plans, and then let us carry them forward, till rumselling, with all its terrible results, is driven from our State. Among the speakers expected to be present and address the convention, are the Rev. Messrs. Whiting, Lamson and Hall, of Portsmouth; Prof. J. G. Hoyt, of Exeter; Rev. Mr. Holman of Great Falls;—Rev. Mr. Hartwell, of Nashua; as well as many other active friends from different parts of the State.

SPECIAL NOTICES.

The announcement that Mrs. Cunningham had committed suicide would cause a sensation.—But the fact that the Carminative has cured 1000 children of summer complaints produces no lasting impression. Mothers! Mothers!

DOUBT NOT!

We would not be so base as to deceive in a matter of such vital importance to our fellow men, but we think with what we do speak to be all, but speak advisedly and in all sincerity, when we say that in Dyspepsia and all its concomitants, in Scrofula, in all its varied forms, whether indicated by swelling of the glands, diseases of the skin or deformation, Myer's Extract Rock Rose will invariably mitigate the suffering, and in most cases effect a cure; it operates by changing the viscid humors, purifying the blood, thereby imparting vigor to the whole system. As a tonic, the Rock Rose is invaluable, hence its happy effects in all those diseases arising from impaired digestion. Get a Pamphlet.

WE WISH TO SAY TO EVERY PERSON Who reads this that there is an article known as "Dr. Sanford's Invigorator or Liver Remedy," which can be relied on as certain to cure liver complaint in any of its forms, such as Jaundice, Dyspepsia, and numerous other complaints, described in another column, besides which it is one of the greatest preparations or cures for consumption, taken in early stages, that is now known.

We take it for granted, as experiment has proven, that diseases of the lungs are not generally the first cause of consumption, but a debilitated system, caused by the improper action of the liver, reduces the power of the lungs to resist or throw off diseases caused by cold and irritation, leaving the lungs at the mercy of one disease, because the liver has incapacitated them from performing their proper action of throwing off diseased matter caused by cold, thus to prevent consumption, cure the liver, and keep the system strong enough to throw off slight diseases of the lungs.

There is not in the world a better liver remedy or source for debilitated system, than "Dr. Sanford's Invigorator," for it has been fully tried in a large and extended practice, till its results are fully known and now it is offered as a tried remedy, and one that can be relied on.

LOCAL.

NAVAL. — The U. S. steamer Water Witch, Lieut. W. S. Lovell commanding, arrived at New York, on Tuesday, from Portsmouth, N. H., and sailed for Washington via Norfolk, on Thursday.

Commander Charles F. McIntosh has been appointed to the U. S. Naval Rendezvous at Philadelphia, in place of Commander Arthur Sinclair, transferred to the command of the Vandalia, and has entered upon his duties.

☞ The U. S. Sloop-of-war Vandalia, Commander Arthur Sinclair, at the Navy Yard, is ready for sea, and will probably sail on the 22d inst. The Vandalia arrived here about the first October, 1856, and was taken into the Dry dock at the Navy Yard on the thirtieth of June last, where her copper was taken off, decks removed and her planking from rail down to light floating line stripped off. The thick streaks ceiling in the hole, and clamps, were removed, and new streaks ceiling, clamps and decks were put in, and new planks, wales and rails put on, and the ship caulked, coppered, painted and put afloat, in seventy-three days.

Orders were received to fit the ship for sea, on the seventeenth of October, and she was reported ready on the seventh inst. In the meantime, the cabin, state and store rooms were completed, the ship rigged and her stores and provisions put on board, and her furniture, curtains, shades and carpets fitted. The ship is furnished with new spars, sails, and rigging, and it is said has been repaired and fitted out in the most complete manner of any ship of her size that has left the United States for many years. It will be seen that the Vandalia was taken into dock, repaired and fitted for sea in the short space of ninety-one working days, which well illustrates the prompt manner in which work of this kind is done ot our Naval Station.

The Vandalia has a fine set of officers, who leave Portsmouth with the best wishes of a host of newly-made friends, for their future welfare and happiness; and we are glad to add that the gallant fellows are highly pleased with the neat craft which is to be their home for the next two years.

COURT OF COMMON PLEAS.

FRIDAY, Nov. 20.

In the case Perkins v. Scott, before reported, the jury returned a verdict for the defendant. Hatch for plff., Hackett for deft.

Little v. Little is still on trial and will occupy the week and will be the last civil jury case of the term.

☞ The Independent Christian Society are to worship at the Temple tomorrow. Services day and evening—preaching by the pastor, Rev. Thomas Holmes.

☞ We regret exceedingly that an erroneous statement was published in our paper of Friday, respecting the hero in the Furness Woodman case in New York. The young Furness who has thus disgraced himself and his family, was not the Mr. (William P.) Furness who formerly owned property here, but one of the youngest of his children. As a lady correspondent, at whose house the Furness family visit here, remarks in a note to us, (for which attention we are much obliged,) "It is surely enough to be disgraced by such a child, without being identified with him."

We now learn from several gentlemen who knew the father in this city, and are still proud to acknowledge his acquaintance, that he was born here, and learned the cabinet-makers' trade with the late Langley Boardman, Esq.; afterwards went for Mr. Boardman, to St. Thomas, where he acquired considerable wealth; married a lady in some distant city, and subsequently bought and resided in the house on Middle street, which Dr. Kittredge afterwards owned; and that of a number of children, at least the one now so notorious was born here. On the death of Mr. Furness' mother, in 1834, he removed to New York with his family; at which time we are told this Gardiner was but two years old.

Mr. William P. Furness is an old gentleman, probably seventy years old highly respectable and very wealthy. He was a worthy man and good son, who purchased a seat and lived here to afford aid and comfort to his mother, and removed on her death. His working his way up from the position of a mechanic's apprentice to that of a New York millionaire, bespeaks his industry and energy.

The son who now appears so badly, was carried hence at two years of age; was a troublesome schoolboy, a vicious youth, and now a contemptible fop, a disgrace to his parents, and a pest wherever he goes.

Our mistake was unfortunate, — but with the utmost care, such will sometimes occur.

NEWSPAPER THIEVES BEWARE!—A lad in Boston, named Daniel Franklin, was detected, a day or two ago, in stealing a newspaper, and was sentenced to *six months' imprisonment* in the House of Industry. There are similar characters in all cities who deserve the same punishment—and we will pay handsomely for evidence to convict one such. It is a pity, though, that the name of Franklin should be disgraced thus—especially in connexion with newspapers.

But there is another class of "newspaper thieves"—none the less mean, none the less dishonest, than the chaps who take papers from the doors of subscribers—but rather more fatal to the prosperity of printers, because they *won't* "beware." We mean those who regularly read "the papers," without paying a cent for them—who steal "their news" in their neighbors' stores or houses, and thus cheat the printers of their honest dues. As we regard it, a man has no more right to habitually enjoy a paper he don't pay for, than he has to help himself from his neighbor's corn-bin.

THE MORMONS.—*Washington, Nov. 19.* (Times correspondence.) I learn from an intelligent gentleman who has spent two or three years among the Salt Lake Mormons, a fact or two tending to confirm the suspicion that the recent horrible massacre of over one hundred California emigrants by the Santa Clara Indians, was perpetrated under the influence of the Mormon leaders. It is evident that the savages who perpetrated this outrage are the same band who cut off Capt. Gunnison and his party, for they are the only band of Indians at Coon Creek who raise grain and have it to sell; they are the same, also, who a year or more ago came very near massacring Dr. Hunt, U. S. Indian Agent, Mr. Burr, U. S. Surveyor General, and their party, at the suggestion of Mormon emissaries, who rode into the Indian village a few miles ahead of them and announced that the Indian Agent and his friends were coming to arrest and punish them for Gunnison's murders. On that occasion, fortunately, they were accompanied by the war chief of a neighboring friendly tribe, who succeeded with difficulty in satisfying the Indians that they were on a friendly visit. I learn also that Bill Hickman and Lott Smith, erroneously published Docksmith, who healed the party which recently destroyed the train containing supplies for the troops on their way to Utah, are two of the most notorious leaders of the Mormon Danite band or Destroying Angels.

There is reason to believe that Brigham Young has fully made up his mind that he must leave Utah next spring. It seems that part of the mission to Enging of Elders Orson Pratt and Ezra T. Benson, who are still abroad, was to seek from the British government permission to settle in the British possessions. The application was refused.

Of the probable treatment of Kansas affairs in Congress, the Washington correspondent of the N. Y. Commercial says:

"The Kansas question is regarded as so nearly settled that it will cease to be the leading subject of dispute in Congress.—No time will be lost by the two Houses in the admission of Kansas as a State, with the constitution that she will present. It will, of course, be a constitution without any article in relation to slavery. The article adopted by the convention, and which is to be submitted to the people, will necessarily be rejected by the popular vote. It is even supposed that Kansas will be admitted before the regular time for the meeting of the Territorial Legislature."

GALES AND SNOW STORMS.—*New York, Nov.* 19.—It commenced raining here about 7 o'clock, but afterwards changed to snow. It is now snowing hard and the wind blowing a heavy gale.

Buffalo, Nov. 19.—Severe gales have been blowing here from the S. W. all day, accompanied with flurries of snow.

Chicago, Nov. 19.—We were visited with a very heavy snow storm last night, and several vessels are reported ashore.

E. Green & Co., Merchant Tailors,

HAVE just made great improvement in their CLOTHING ESTABLISHMENT.

It gives them great pleasure to announce their thankfulness to the people of this city and neighboring towns, for their kind patronage; through which, and their own facility of selling cheaper than any other establishment, we were enabled not only to increase our Stock to a great extent, but to accommodate our increased and increasing customs, we have obtained the large and commodious store,

No. 54 Market st., cor. of Hanover St.

opposite the Union Store. Said Store is more than double the size of our former establishment; we assure all who may favor us with their custom a courteous treatment and the value for their money. All whose in want of clothing, are invited to call and see whether our statement is true.

A variety of

Trunks, Valises, Carpet Bags, Oil Suits, &c., &c.

As the articles we have for sale are too numerous to detail, we will say in short, every article belonging to Gents' and Youths' wearing, will be found at our CLOTHING HOUSE; together with an assortment of Woolen Goods, of which we will make garments to order, or sell by the yard, and cut it for them without making, any way to suit the purchaser. LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner, for the benefit of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that persons have a perfect right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. Accordingly I offer my services as Agent to every one who is made faithfully and of the best material.

A BEAUTIFUL HEAD OF RICH GLOSSY HAIR,

Completely Preserved

TO THE GREATEST AGE.

AND who that is gray would not have it restored to former color; or bald, but would have a growth restored, or troubled with dandruff and itching but would have it removed, or troubled with scrofula, scald head, or other eruptions, or with sick headache, (neuralgia) but would be cured. It will also remove all dandruff from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following.

ANN ARBOR, November 5th, 1856.

PROF. O. J. WOOD—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but being been so deceived by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the category with the one thousand and one lendly trumpeted quack remedies, until I met you in Lawrence county some months since. when you gave me such assurance as induced the trial of your Restorative in my family—first, by my good wife, whose hair had become very thin, and entirely white; and before exhausting one of your bottles, her hair was restored (as near) to its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore my skepticism and doubts in reference to its character and value are entirely removed; and I can and do most cordially and confidently recommend its use by all who would have their hair restored from white or gray, (by reason of sickness or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.

Very truly and gratefully yours,
SOLOMON MANN.

FRIENDS WOOD: It was a long time after I saw you at Blissfield before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you assured me it would do; and others of my family and friends having witnessed its effects, are now using and recommending its use to such as are entitled to the highest consideration you claim for it.

Again, very respectfully and truly, yours,
SOLOMON MANN.

CARLYLE, ILL., June 28, 1852.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its effects. My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so. S. BARRE, ex-Senator, U. S.

GEORGIA LOTTERIES.

THE Lotteries of ANDERSON & SON, are chartered by the State of Georgia, and have sworn commissioners appointed by the State, to superintend the drawings, and certify that everything connected with the same is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawings. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Georgia, as lotteries are legalized by special law in that state. A lottery is drawn at Savannah, Ga., about the 20th of every month; the Georgia lottery is drawn at Macon, Ga., *every Saturday throughout the year.* It no particular class is named, orders are filled by the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100 '50. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

STOVES.

Frank Jones, No. 61 Market St.,

HAVING received his Winter Stock of Stoves, is now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:

IMPROVED EMPIRE STATE,

This celebrated Cooking Stove having been in the market many years, is too well known to need any recommendations from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.

THE WHITE MOUNTAIN IMPROVED,

being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.

THE REPUBLIC.

This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.

All stoves on hand, and every Stove warranted.

Also on hand all the different kinds of the most approved patterns; among which are the

BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.

Repairing Pieces of all kinds on hand.

The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.

Our stock of

PARLOR STOVES

is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the

HLION, VILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,

OVEN PARLORS in great variety for wood or coal. SHERF IRON STOVES of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different Patterns.

The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.

Remember the place to buy cheap is at

No. 61 Market Street.

FRANK JONES.

Magee's Patent Ventilating Stove.

FOR WARMING AND VENTILATING

PARLORS, OFFICES, HALLS, STORES, SCHOOL HOUSES, &c.

WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give

Any amount of Heat required,

and unlike all other Anthracite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and in none of the air which comes in contact with the fire pot is used for respiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.

These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them.

For Offices and Stores as well as the Parlor.

The Inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to rekindle without the use of charcoal. The coal is all used, and no clinkers made, consequently, sifting coal is dispensed with. When this Stove is properly managed,

THE FIRE MAY BE CONTINUED THROUGH THE ENTIRE SEASON,

without once going out. Added to these qualifications, the purchaser may reasonably expect to save from 30 to 50 per cent, in fuel expense.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THIS combination of ingredients in these Pills, is the result of a long and extensive practice, they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills given satisfaction. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and doubtful complexion changed to a healthy one. No female can enjoy good health unless she is regular: and whenever an obstruction takes place, whether from cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of the menses, is relieved by this the easy, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each Box.

These Pills are put up in square, flat boxes. Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

A GUNNING EXCURSION.

"Ah! sitting on your happy hearths, beside your mother's knee,
Ye little know the miseries and dangers of the sea!"

But let no one hereafter plead ignorance of said "hardships and perils," when such an opportunity for obtaining information as this, is given them—where by simply following the writer in his glowing account of a perilous excursion in pursuit of game, the reader will gain more lasting knowledge than was ever obtained from one of Alphabet James's novels.

A few days ago, accompanied by a friend, and armed with a big musket, your humble servant started for ——somewhere, in a leaky wherry, in pursuit of pleasure and wild ducks. For the first three hours we pulled (we had no sail) steadily for the place where we were to fill our skiff with birds, occasionally varying the entertainment by bailing water from the boat, and on one occasion by laying down in the bottom of the leaky old concern, in the vain hope of deluding a lonely-looking loon within gunshot, but the bird was infatuated and wouldn't come.

After a while we got tired, and concluded to land; but encountered one slight obstacle, in the shape of a heavy surf, which enabled us to decide on returning to town. It was now dusk, and we treated old Neptune to several good songs, well sung; and ended the entertainment with a howl, which started up a large flock of ducks.—In the intense excitement that followed, what happened history saith not, but I have an indistinct idea of sitting on the bottom of the boat, in about three inches of water, and wondering what made my companion rub his shoulder in the manner he did. Our plunder, in this onslaught upon the feathered tribe, amounted to two benumbed arms, and a lame finger. It was now dark, and we had six miles to row, and neither of us knew which way to steer—but, after pulling for two hours, and narrowly clearing Odiorne's Point and the beacon, we had the unspeakable satisfaction of finding ourselves stuck in the mud on the flats, with the prospect of waiting a while for the tide. However, by dint of pushing, pulling, and a frightful "yo-e-o-o" we at last got into deep water, and arrived at home with no other mishap than running into Pierce's Island, which was exactly in our way.

Now, (grateful for our escape,) we are of opinion that when we are caught down there again, there'll be a reason for it. D.

MRS. PARTINGTON AT THE BALLET.—"When is the bally troop comming on?" said Mrs. Partington, after watching the dancers at the theatre about half an hour. "That is the ballet troupe," said Augustus, with a smile, pointing at the beautiful sylphs that were fluttering like butterflies about the stage. She looked at him incredulously for a little while and said "Well, I believe in calling things by their true names, and what they call them a troop for I don't see. I thought it was a troop of horses,—such as they used to have in Beanville." She leveled her new opera glass given her by Mr Bigelow, at the stage, and looked long and earnestly.—"Well," said she, "if there ever was any body that needed sympathy, it's them; worn their dresses away up to their knees by dancing, poor creatures, and by and by at this rate they won't have nothing to wear." "Do you know what name should be applied to this performance?" said a fat voice behind her. It was old Roger and the Brahmin who had dropped in with Wideswarth. She said she could not determine about the name. "*Leg-erdemain*," replied he quickly. Widesworth stood beating time as the waves of gauze moved hither and thither in illustration of the poetry of motion, while Ike amused himself by tearing up his theatre bill and putting it into the silk hood of a lady that hung over the back of the front seat.—*Sat. Eve. Gaz.*

HOW TO GET TO CONGRESS.—The following story is told by the Mobile Tribune of Judge Hawkins, the present Representative to Congress from the State of Florida—a man, by the way, brimful of genuine wit.—During the war with the Florida Indians he commanded a volunteer company. On one occasion they fell upon a party of the enemy concealed in a swamp. The Captain sprang upon a log (with more valor than discretion), waved his sword, and cheered his men to the charge. Just then he was shot down. One of his officers ran to ask if he was much hurt. "Not very badly," said Hawkins, "just about enough to send me to Congress!" The prediction has now been verified.

☞ The people of Brunswick, Me., have a cemetery they call "God's acre." As if *all* the acres are not God's—and as if dead men are any more under his especial care than live ones.

Jobbing and Repair Shop.

JOHN H. SHICKNEY respectfully informs his old friends and the citizens of Portsmouth and vicinity generally, that he has taken a shop on the corner of State and Church streets, (over Greenleaf's Blacksmith Shop) where he will be ready at all times to make or repair, varnish or polish CABINET FURNITURE of every description, in a manner warranted to give satisfaction, and on the most reasonable terms.

VARNISHING and POLISHING Jobs promptly attended to, and performed in a satisfactory manner.

He also offers his services as undertaker, and will keep on hand a supply of COFFINS, or make them to order and deliver them in or out of the city at short notice.

Remedy for Worms.

THE diseases of children are often so complicated that it is difficult to ascertain the true nature of their complaints. In a large majority of instances the cause may be traced to the existence of WORMS—the prominent symptoms of which are, paleness of the countenance, loss of or irregular appetite, starting up and crying out in their sleep, picking at the nose, great thirst, a wasting away of the flesh, &c. These symptoms should be early attended to, as by neglect it often terminates in disease of the brain.

PRESTON'S WORM SYRUP

is the most effectual remedy ever used. It is pleasant to the taste, perfectly harmless, and is warranted in every case to give satisfactory results.

A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUNDRIES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. *Every form of inflammation* but one yields to disease subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the just balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to effect the entire cure.

THE BEST
Planing, Tonguing & Grooving Machine
IN THE WORLD.

PATENTED Nov. 21, 1554, and Nov. 13 1855.—These Patents have been assigned to the Proprietors upon the celebrated Woodworth Planing Machine, the Patent for which expired, Dec. 29 1856. By the combination of these several inventions, a machine is produced of *unrivalled excellence.*

A GOLD MEDAL for the invention was awarded by the Mass. Char. Mech. Assoc., at their exhibition of 1856.

Machines of all kinds and sizes, from $150 to $2000.

ALL MACHINES WARRANTED to give entire satisfaction, and to be superior to any other machines now in use.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk Railroad Spikes

ARE well known in the United States, and are conspicuous for their regularity and finish, their uniformity of thickness and size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind ever introduced to the public.

MONDAY, NOVEMBER 23, 1857.

KANSAS AFFAIRS.—The recent accounts from Kansas, show that the Convention called by the fraudulent legislature to make a Constitution, and elected by a very inconsiderable minority of the voters, has completed its labors and adjourned. It has devised a cunning scheme to entrap the people of the Territory into an apparent agreement to a fundamental law odious to their principles. They are only to vote upon the Constitution, by expressing a preference for one or other of two forms; and if they are opposed to both, (as no doubt three-fourths of them are,) they are allowed no way of expressing their opposition. Moreover, the qualifications of voters, the places of voting, and the judges of election, are all to be appointed by the authorities of the Convention, and not by Gov. Walker, or by the legislature just fairly elected. Thus is the way deliberately paved for a gross fraud of intolerable enormity.

A most high-handed act of the Convention, and one which must certainly bring down upon it the signal rebuke of the federal authorities at Washington, if all pretence to consistency and fairness have not wholly deserted the cabinet,—is its usurpation of the sovereignty of the Territory and State by the formation a "provisional government" with the President of the Convention, Mr. Calhoun, at its head. Thus the Convention sets at defiance the authority of Gov. Walker, and of the President, who appointed him.

It also, and very queerly sets aside the recent election, though that was conducted under the territorial government.

It is an act of barefaced usurpation, for which it would be difficult to form a tolerable apology. We can think of none better than this: Slavery is a fraud, an outrage, a wrong,—and can only be sustained and defended by a series of frauds, outrages and wrongs. It was desired to extend slavery into Kansas, and fix it there, —and to this purpose we have been treated with fraud upon fraud, swindle upon swindle, and outrage upon outrage.

SUICIDE.—Mr. Alfred Randall, well known in former years as a hotel and restaurant keeper in Portland, destroyed his own life on Friday, by jumping from Vaughn's bridge. Several gentlemen were crossing the bridge at the time, but no means being at hand for reaching him, his body remained floating upon the water until a boat was procured, when life was found to be quite extinct.

The Advertiser says, the deceased was unhappily addicted to intemperance, and during Thanksgiving day and evening was suffering from delirium tremens, and it was no doubt under the influence of the terrible disease that the fatal act was done. He had been boarding at the Caledonia House, in Green street, where the police went, on Friday morning to quiet him. During the forenoon, he was seen by several persons in a wild and excited state, and ended his life about 12 o'clock.

☞ Dr. Lowell Mason delivered a very interesting lecture on Puritan Psalmody, in Boston on Wednesday afternoon, before the Congregational Library Association. Among other good things, he urged all those who had any influence in the matter, to prepare and adopt measures for the encouragement of universal song, as no man could possibly derive any considerable advantages from the songs either of a secular or religious character, which he does not engage in himself. The people must sing. Christ himself set the example with his disciples, and the church must go on to victory.

The Boston Journal states that "the public generally are beginning to entertain the same views. Quite a number of congregations in the vicinity of Boston have adopted the congregational manner of singing within a few months past."

GALLANTRY OF THE SECRETARY OF THE TREASURY.—Last Thursday morning the revenue cutter "Harriet Lane" was launched from the ship yard of Wm. H. Webb, New York. It has been the custom to endow these vessels with the names of the Secretaries of the Treasury in office at the time of launching, but Mr. Cobb has preferred in this instance that the cutter should be christened after the President's handsome niece, Miss Lane.

THE BALLOT IN ENGLAND.—The London Star says that there is reason to believe that the winter will be allowed to pass away without an organized effort being made to institute an effective agitation on behalf of the vote by ballot.

STOOL PIGEONS.—A store in Westport, Mass., having been robbed of a lot of goods, a reward of $100 was offered for the detection of the thief. Mr. George Randall, of New Bedford, having learned from a pedlar that a man in Fall River had applied to the pedlar to dispose of some stolen goods in his possession, it immediately occurred to Mr. Randall that they might be those stolen.

Accordingly he ascertained when the pedlar was to meet his customer, and went to Fall River and made himself acquainted with him. By drinking with him and pretending to be intoxicated, Mr. R. managed it so that they were both arrested and locked up in the same cell, where he succeeded in obtaining the confidence of the fellow, who informed him of all the circumstances of the robbery, who his confederates were, and where the stolen goods were to be found. Mr. Randall then got himself bailed out and procured the arrest of the two confederates, and they are all now in custody. The property has also been recovered, and Mr. Randall, by his perseverance and address, has earned the promised reward.

This statement is from the New Bedford Mercury, in which Mr. Randall is rather praised for his perseverance in ferreting out the rascals, and bringing them to justice; with which idea, doubtless every honest man will agree. Now won't somebody please inform us where the difference is between this and the execution of another law, about which such a hullabaloo was kicked up last summer—that "strangers should come from abroad to teach us temperance!"

☞ The Wise Governor of Virginia appointed no Thanksgiving, but "at the request of numerous citizens and of the Young Men's Christian Association," the Mayor of Portsmouth (Va.) "would request that Thursday, the 26th inst., be observed as a day of Thanksgiving," &c.

NOT A MURDER.—The evidence before the coroner, on the body of James Mason, said to be murdered in Boston, is not likely to criminate any one as being guilty of anything more than an assault, and perhaps larceny of a pair of boots, as the autopsy satisfied the examining physician, that the death was caused by disease of the heart, hastened by intemperance.

MICHAEL CANCEMI CONVICTED OF THE MURDER OF THE NEW YORK POLICEMAN.—The second trial of Cancemi, for the murder of Officer Anderson, was concluded on Wednesday evening, by the jury returning a verdict of guilty.

INCREASE OF CRIME IN NEW YORK.—Upwards of four columns in the Tribune of Friday are filled with accounts of terrible crimes in New York since the issue of that paper on the day previous. Since Monday last no less than seven murders have taken place up to Thursday at midnight. In all these cases the perpetrators have escaped.

CONVICTION OF A HUSBAND POISONER.—In Lancaster, Penn., a light mulatto woman, named Mary Jane Sebastian, only 17 years old, was convicted of killing her husband by administering arsenic to him.

☞ Our Exeter correspondent informs us that a man named Loud, of Great Falls, was seriously injured on the up freight train on the Boston & Maine Railroad, on Saturday morning. He was knocked off the top of the cars, by a bridge near the station-house in Exeter. His head and shoulders were most affected; and though in a critical state, his recovery is probable.

☞ Work has been resumed on the new Jail at Exeter. The completion of the main building, and the erection of an outhouse for a stable, will keep the carpenters of Exeter at work for five or six weeks to come.

CONDOLENCE.—*Inquiring Bachelor Friend*—"Have you any children?" *Disconsolate Mother*—"One, in heaven." *Friend*—"That's the best place for all of 'em!"

ORDINATION.—The ordination of Mr. S. Farrington as Pastor of the 24 Congregational (Unitarian) Society in Concord, is to be on the 2d day of December. Sermon by Rev. H. W. Bellows, D. D., of New York. Services in the Church at 6½ o'clock in the evening.

☞ The Congregational Society at Rochester, N. H., has given Rev. Horatio Merrill of Portland a unanimous call to become their pastor.

MURDERER SENTENCED.—*St. John, N. B., Nov.* 20.—Patrick Slavin, Jr., implicated in the murder of the McKenzie family, was to-day sentenced to be hung, on the 4th of March next, but it will probably be commuted to imprisonment in the Penitentiary for life.

BURGLARIES.—On Saturday night last, the Boot and Shoe store of Mr. Simeon Standen, Great Falls, was broken open and goods to the amount of about $300 stolen. The bake-house nearly opposite the shoe store above named, was entered the same night, and a small quantity of flour, crackers, and a loaf of *wedding cake* was taken. The burglars also entered the cellar of the Great Falls Hotel, where they took a supply of provisions. The rogues have not as yet been apprehended.

We hear of a large amount of thieving in some of the back towns. The Union store at Rochester was broken into, on Sunday night last, and a small amount of goods stolen. A quarter of beef was taken from the slaughter house of Dan'l McDuffee of Rochester, which was afterwards found in the barn of one of his neighbors. Hen-roosts have been robbed—and we learn of one instance where a hog was killed and a portion of his body carried away, without making any noise. It is supposed that *chloroform* was administered to keep the hog from giving any alarm.—*Great Falls Adv.*

MEDFORD FORGERIES.—We understand that the developements which have been made in the case of George W. Wild, of Medford, who suddenly disappeared last week show that he has forged the names of Messrs. Gibson Trask and Hall, of that town, to notes to the extent of about $2000. Of this amount $1000 was in the hands of Mr. Gibson. In addition to the forgeries, Mr. Hall on the day of his disappearance handed him $600 to take up a note originally given by Mr. Hall to Mr. Wild, but which had been sold by the latter and lodged in a bank in this city for collection. As the note was not paid by Mr. Wild, Mr. Hall has been called upon by the bank to pay it a second time.

It is supposed that Mr. Wild has been issuing forged papers for a considerable period, but has managed to take up the notes at maturity until the present financial pressure materially crippled his resources. The amount of his indebtedness above his forgeries is said to be large. As an evidence of his position before the present disclosures, it is stated that he applied to an inhabitant of the town for the loan of $500 but a short time before his departure. The money would undoubtedly have been lent had the person to whom the application was made been in possession of the amount.—*Boston Traveller.*

P. S.—Wild has returned and owned up.

FATAL RESULT—MURDERERS RECOGNIZED. *New York, Nov.* 20.—Susan Dempsey, the girl who was stabbed last night in the dance house in Water street, died in the Hospital to-day, making the second death. The other injured parties remain at the Hospital in a critical condition. The three Spaniards arrested on suspicion of being the assassins are recognized as being part of the crew of a Spanish vessel from Havana, which was wrecked at Sandy Hook two months ago, which was then carrying home a number of discharged soldiers and convicts. They have since been living in this city at the cost of the Spanish Consul, while waiting a passage home.

A GARROTER SHOT.—*New York, Nov.* 20.—An attempt was made last night by two men, to garrotte Dr. Alexander B. Mott, while he was on his way from a visit to a patient. He shot one of the assailants, when they both escaped.

CITIZENS' MEETING.—*New York, Nov.* 20.—There was a tremendous meeting in Wall street, this afternoon, to ratify the nomination of Mr. Tiemann for Mayor.—Hon. James Cooley presided, assisted by eighty Vice Presidents, including some of the most prominent gentlemen of the Democratic party.

CLEVELAND, Nov. 20.—A terrible snow storm occurred along the whole chain of lakes, yesterday and to-day.

"Industry must prosper," as the man said when holding the baby for his wife to chop wood.

DOUBT NOT!

We would not be an base as to deceive in a matter of such vital importance to our fellow men; nor trifle with what is so precious to us all, but speak advisedly and in all sincerity, when we say that in Dyspepsia and all its concomitants, in Scrofula, in all its varied forms, whether indicated by swelling of the glands, diseases of the skin or deformation, Myer's Extract Rock Water will invariably mitigate the sufferings and in most cases effect a cure: it operates by changing the viscid humors, purifying the blood, thereby imparting vigor to the whole system. As a tonic, the Rock Rose is invaluable, hence its happy effects in all those diseases arising from impaired digestion. Get a Pamphlet.

WE WISH TO SAY TO EVERY PERSON Who reads this that there is an article known as "Dr Sanford's Invigorator or Liver Remedy," which can be relied on as certain to cure liver complaint in any of its forms, such as Jaundice, Dyspepsia, and numerous other complaints, described in another column, besides which it is one of the greatest preparations or cures for consumption, taken in early stages, that is now known.

We take it for granted, as experiment has proven, that diseases of the lungs are not generally the first cause of consumption, but a debilitate system, caused by the improper action of the liver, reduces the power of the lungs to resist or throw off diseases caused by cold and irritation, leaving the lungs at the mercy of one disease, because the liver has incapacitated them from performing their proper action of throwing off diseased matter caused by cold, thus to prevent consumption, cure the liver, and keep the system strong enough to throw off slight diseases of the lungs.

There is not in the world a better liver remedy or acure for debilitated system, than "Dr. Sanford's Invigorator," for it has been fully tried in a large and extended practice; till its results are fully known and now it is offered as a tried remedy, and one that can be relied on.

COURT OF COMMON PLEAS.

SATURDAY, Nov. 21.

The case Little v. Little was on trial till Saturday afternoon, when the Court adjourned to Monday at 10 1-2 o'clock. The case is likely to last till Thanksgiving, as there is much more testimony to be heard.

ADVICE TO YOUNG MEN.—Wear your old coat and hat a month or two longer. Old hats feel best—so do old boots. Finally, leave off smoking and drinking, improve your evenings by reading and study, and wait patiently for better times.—*N. H. Gazette.*

"Leave off smoking and drinking," eh? Pretty "advice," that, for the Gazette to give. Where are those (pot) valiant knights who were going to have a Daily Gazette to kill out the temperance-lautical Chronicle?

☞ Several of our traders have advertised to take Spanish quarters for 25 cents. If they will *keep* them out of circulation, we hope they will get them all. *We* call them all 20-cent pieces, and don't want to see them at that.

"What are you about?" said Jones the other day to Sharp, whom he saw blowing with all his might to inflate a light coinless purse. "Nothing particular," replied Sharp; "I am only trying to raise the wind."—*Gazette.*

Why don't our friend of the Ballot start up his "wind mill" again, if the wind can be raised in this way?

OUR BAND.—The second Promenade Concert by the Portsmouth Cornet Band takes place at Jefferson Hall this evening. With such a chance to hear good music, enjoy a social dance, and at the same time aid in encouraging the only musical institution among us—and all for only "a quarter," and to take the ladies too—everybody ought to be there. The season tickets, cheaper yet, should be taken to the capacity of accommodation.

☞ The Newburyport Herald understands the Eastern Railroad corporation is about reducing the wages and number of its employees.

☞ Three applicants for admission to the Christian Church in this city, were baptized by the pastor, at Noble's Island, on Sunday afternoon.

Rev. Mr. Hall of the Methodist Church, also baptised six converts at the same time.

☞ A. Williams & Co., Boston, and J. H. Foster of this city, have supplied us thus early with Harper's Magazine for next month.—The leading illustrated article is entitled "Madras in Pictures," and is deeply interesting and valuable. The other articles are of great variety, and even more than usually attractive. Let the reader get it for amusement and improvement, on Thanksgiving week.

A ROGUE IN A CHARITABLE GUISE.—Edwin A. Moulton was before the Police Court, Boston, Thursday, charged with attempting to obtain money from Mr. Abijah Jenkins under false prences. Some days since, Mr. Jenkins received the following document:

BOSTON, Nov. 16, 1857.

Abijah Jenkins—Dear Sir:—At the meeting called last week, by the Clergy, Mayor, and other prominent citizens, for the relief of the poor of our city, you was selected, from your prominent position, as the most suitable person to head our subscription paper at the West End. It is the determination of the committee to canvass the whole city, north, south, east and west, and from your past interest in benevolent enterprises, we feel that your name, standing at the head of our West End list, will induce others to follow your example, and give us their generous aid. All subscriptions made in cash, enclosed in the paper presented. Believing this will still find you in the front rank of philanthropists, we remain your obedient servants.

GEORGE R. RUSSELL, } Secretaries.
WM. F. CHANNING, }

A few days after Mr. Jenkins received a note purporting to be signed by Wm. F. Channing, referring to the above circular, and requesting Mr. Jenkins to send by the bearer the document, together with the amount of his subscription. Mr. Jenkins, suspecting a fraud, enclosed in a letter a check for $50, and gave it to the boy, who was watched and traced to Moulton. A police officer was called and Moulton was arrested. It was shown in court that the signatures of Messrs. Russell and Channing were forgeries, and Moulton was sentenced to nine months in the house of Correction, from which sentence he appealed, and in default of bail to prosecute his appeal, was committed to jail.—*Traveller.*

☞ Abijah Jenkins of Boston, has been sentenced by the Police Court of that city, to 10 months imprisonment in the house of Correction, for buying stolen books.—Jenkins appeals to the municipal Court, and gives $800 bonds.

☞ The editor of the Nashua Telegraph contends that "eyes have no expression"—but that the whole expression is in the surroundings.

☞ The Municipal Election in Dover takes place to-morrow, Tuesday, Nov. 24th.

MONEY MISSING FROM THE MAVERICK BANK.—Rumors have been floating in the street during the morning, of an extensive defalcation in the Maverick Bank. The facts as we learn them at the Bank are as follows. Some time ago a package of bills to the amount of $360 was found to be missing and has not been accounted for up to the present time. Last Monday morning a package of bills paid into the Clearing House from the Maverick Bank and sent thence to the Granite Bank in payment of the balance between the two Banks were returned on the ground that it was $500 short.

This led to an examination on the part of the Directors of the Maverick Bank, which resulted in matters coming to their knowledge that led them to discharge at once the cashier, the teller and the bookkeeper. The Directors are now making a thorough examination of all the affairs of the bank. So far as they have progressed, they have found only the above deficiency of $860.

We understand that the teller and bookkeeper admit that in some respects their habits have not been correct; that they have gambled some, though they insist only in very small sums—not over twenty-five cents. We do not understand that the Directors at present charge either of the parties with having embezzled the money. The admission above alluded to and the fact that the cashier kept a knowledge of the deficiency from the Directors after it was known, furnishes the ground upon which the parties were discharged.—*Boston Journal.*

A SPECK OF WAR IN NEW YORK.—*New York, Nov.* 21.—Owing to some recent suspicious movements among the rowdies of the city, Commissary General Ward has deemed it necessary to fortify and garrison the State Arsenal in the upper part of the city. The garrison is under the command of experienced officers. All of the outer approaches to the building are commanded by howitzers loaded with ounce balls, and sentinels are on duty through the night.

FROM HAVANA.—*New York, Nov.* 20.—The steamer Black Warrior, from Havana 15th, arrived this morning. Business at Havana was very dull. Sugar declining and sales very small. Stock at Havana and Matanzas 170,000 boxes. Freights for Europe declining. Exchange on London 10 1-2 a 11 premium. American gold 3 per cent. premium.

STATE TEMPERANCE CONVENTION.

The next annual New Hampshire State Temperance Convention will be held at Smyth's Hall, in Manchester, on Tuesday, Dec. 15, at ten o'clock, for the choice of officers, and for the transaction of other important business connected with the interests of the cause in the State. Will not the friends of Temperance gather in large numbers, to consider the best means of carrying forward this enterprise at the present time? Much has been done, but still the work is not accomplished. We wish to see delegations from as many towns as possible. Let us have a great gathering of the working men, and lay our plans, and then let us carry them forward, till rumselling, with all its terrible results, is driven from our State. Among the speakers expected to be present and address the convention, are the Rev. Messrs. Whiting, Lamson and Hall, of Portsmouth; Prof. J. G. Hoyt, of Exeter; Rev. Mr. Holman of Great Falls;—Rev. Mr. Hartwell, of Nashua; as well as many other active friends from different parts of the State.

T. T. ABBOTT, *President.*
J. W. RAY, *Secretary.*

TO NEW SUBSCRIBERS.—For $4, we will furnish the Daily Chronicle from the time to Jan. 1, 1857.

For only $1, we will supply the Weekly Chronicle from the present date to Jan. 1, 1859.

The Great English Remedy.
SIR JAMES CLARKE'S
Celebrated Female Pills.
Prepared from a prescription of Sir Jas Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females that are pregnant, during the first three months, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or any thing hurtful to the constitution.

Full directions accompany each package.

Sole Agent for the United States and Canada

JOB MOSES,

Morning Chronicle.

☞ Deacon Nathaniel Frothingham, of Salem, aged 88, died on Sunday evening. He was a native of Charlestown, but when the British burned that town, on the day of the battle of Bunker Hill, he went to Salem. He was deacon of the Universalist Church in Salem, has filled many public offices, and was always respected for his integrity and public spirit.

☞ A terrible fight occured in Columbia, S. C., one night last week, between a fine-blooded stallion and a jack, which resulted in the death of the horse. The jack literally tore one of the horse's ears out by the roots, and then seizing him by the throat, soon made a finish of him.—Just so, it is not unusually the case, that a jackass in human form, can whip the man of better blood.

Omni-buss.—A young city gent escorting his country cousin down town, and not wishing to walk, remarked, "Hold on, Mary, let's take a buss." But Mary, blushing to the eyebrows, drew back, and with offended modesty replied—"Oh, George! *not right here in the street!*"

☞ A baker in Charlestown, Mass., advertises to sell Bread at 3 cents for pound loaves of "family," and 4 cents for pound loaves of flour—"while other bakers generally are getting 6 1-2 cents per lb. for bread of all kinds,"—says the Advertiser.

☞ At a temperance meeting in Montague, Mass., after addresses, the pledge was circulated by four young ladies throughout the church, and *one hundred and five* names were given to it.

☞ On Tuesday morning, Nov. 17th, the ground in Claremont, N. H., was covered with snow, giving quite a cold and wintersh appearance.

☞ From the minutes of the Maine Baptist Convention for 1857, it appears that the number of churches is 275, ministers 187, licentiates 14, members 19,402.

A Golden Wedding was recently celebrated at Ipswich, Mass., by Rev. David T. Kimball and wife. They were married in 1807. Mrs. Kimball was attired in her white silk wedding dress of that date. A crown was placed on her head wrought of flowers of hair taken from the heads of all the members of her family, with the motto "her children rise up and call her blessed." The crown for Mr. Kimball was composed of sixteen ovals, with the motto "children's children are the crown of old men." In the opposite oval, surrounded by the words "of such is the kingdom of heaven," were the names of the grandchildren already there. Six persons who attended the wedding fifty years before were present.

Quick Work.—At a late fire in Cincinnati, Ohio, an individual who happened to be at the door, of the steam fire engine house thus describes the effect: "The firemen, who were sitting near the stove, sprung instantly to their different posts.—One applied a lighted match to the prepared fuel underneath the boiler, and another lit the lamps, others got the impatient horses ready, who started from their stalls at the first peal of the bell, and in precisely one minute and twenty six seconds the steam fire engine started from the house into the street."

"Out West."—It is reported that the indebtedness of the city of St. Paul, Minnesota, to the east, (says the Milwaukie News,) is over $2,000,000. The pressure is tremendous. Land speculation has been the leading business of its citizens, and the pressure will be fatal to many of them.—*Exchange.*

Get "out" with your Western bragging, say we.

Some of the papers of this State are making a great ado about the banks and bank commissioners. Their talk is all for effect—mere humbug. Since the coming on of the financial crisis, New Hampshire alone of all the New England States has not had a single bank bill, bills of which have not been received at the Suffolk.—The banking system of this State is safer than those of any other in the Union.—*Manchester American.*

☞ The American horses, Prioress and Babylon, made an inglorious performance in the race for the Cambridgeshire stakes at Newmarket, England. Thirty-one horses ran, and Babylon actually came in last.

Class in Oriental Philosophy.—"What is life?" "Life consists of money, a horse, and a fashionable wife.' 'What is death?' 'A paymaster who settles everybody's debts and gives them tombstones as receipts in full of all demands.'

Common Sense is genius in its working dress.

LOTTERIES.
THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner, and that the interests of parties at a distance being as well protected as if they were present. The Managers would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next after their receipt. Persons desiring tickets will be according to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50; no tickets sent unless the money accompanies the order. The drawing will show the principle of one number on each ticket, and are so simple that none can fail to understand them. The drawings are conducted so as to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.
A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers: New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York *Weekly Day Book*. Write your address plainly, and direct to

LOTTERIES.
The well-known, Reliable and Long established Lotteries, of which H. FRASER & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend the drawings to take place, and all business connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as the lottery is regulated by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Twenty combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.
The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

A BEAUTIFUL HEAD
OF RICH GLOSSY HAIR,
Completely Preserved
TO THE GREATEST AGE.
AND who that is gray would not have it restored to former color; or who, that would have the growth restored; or troubled with dandruff and itching but would have it removed, or troubled with scrofula, scald head, or other eruptions, or with headache, (neuralgia) but would be cured. It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following:
ANN ARBOR, NOVEMBER 5th, 1856.
PROF. O. J. WOOD—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the same category with the one thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months since, when you gave me assurance so unbounded of the trial of your Restorative in my family—first, by my good wife, whose hair had become very thin, and entirely white, and before exhausting one of your large bottles, her hair was growing nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and skin. Others of my family and friends are using your Restorative, with the happiest effects; therefore my skepticism and doubts in reference to its character and claims entirely removed; and I can and do most cordially and confidentially recommend its use by all who would have their hair restored from white or gray, (by reason of sickness or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.
Very truly and gratefully yours,
SOLOMON MANN.
FRIEND WOOD: It was a long time after I saw you at Blissfield before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you assured me it would do; and others of my family and friends, having witnessed its effects, are using and recommending its use to others as entitled to the highest consideration you claim for it.
Again, very respectfully and truly, yours,
SOLOMON MANN.
CARLISLE, ILL., June 28, 1852.
I have used Prof. O. J. Wood's Hair Restorative, and have admired its effects. My hair was becoming, as I thought, premature gray, but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so.

GEORGIA LOTTERIES.
THE Lotteries of ANDERSON & SON, are chartered by the State of Georgia, and have commissioners appointed by the State, to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawings. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Georgia, as lotteries are legalized by special law in that state. A lottery is drawn at Savannah, Ga., about the 15th of every month, and another is drawn at Macon, Ga., *every Saturday throughout the year.* If no particular class is named, orders are filled by the first drawing to take place after the communication comes to hand. The prices of tickets are from $1 to $10. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. STOVES.

Frank Jones, No. 61 Market St.,
HAVING received his Winter Stock of Stoves, is now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:
IMPROVED EMPIRE STATE,
This celebrated Cooking Stove having been in the market many years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.
THE WHITE MOUNTAIN IMPROVED,
being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.
THE REPUBLIC.
This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.
All sizes on hand, and every Stove warranted.
Also on hand all the different kinds of the most approved patterns; among which are the
BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.
Repairing Pieces of all kinds on hand.
The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.
Our stock of
PARLOR STOVES
is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the
ILION, VILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,
Oval Parlors in great variety for wood or coal.
Sheet Iron Stoves of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different Patterns.
The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.
Remember the place to buy cheap is at
No. 61 Market Street.

Magee's Patent Ventilating Stove.

FOR WARMING AND VENTILATING
PARLORS, OFFICES, HALLS, STORES, SCHOOL HOUSES, &c.
WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give
Any amount of Heat required,
and unlike all other Anthracite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and as none of the air which comes in contact with the fire pot is used for respiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.
These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them.
For Offices and Stores as well as the Parlor.
The Inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to rekindle without the use of charcoal. The coal is all used, and no clinkers made, consequently, sifting coal is dispensed with.—
☞ Every Stove is properly managed,
THE FIRE MAY BE CONTINUED THROUGH
THE ENTIRE SEASON,
without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 30 to 50 per cent, in fuel expense.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience
THE combination of ingredients in these Pills, is the result of a long and extensive practice; they will in all cases be found efficacious and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and restore the blood back into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to fail, and the result of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. A all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. They are purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box. These Pills are put up in square flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

VOL. 11. PORTSMOUTH, N. H., TUESDAY, NOV. 24, 1857. NO. 94.

THE LATE MR. JAMES MORRISON OF LONDON.—In the obituary notice of this wealthy millionaire, who is stated to have died worth £4,000,000 sterling, a significant circumstance is omitted, which reconciles one to the possession of even a bare humble competence. Although rich beyond the dreams of avarice, James Morrison, for a long time, was fully impressed with the idea that he was a poor man who had to live upon the humble rate of earnings of his early life. So strong was this feeling that for years past he has been in the habit of calling for and of receiving a pound a week as his wages, on which he believed he had to live. This was, probably the amount he received when a light porter in Todd's warehouse in Fore street. What a moral for poor human nature!—*Glasgow Chron.*

We are reminded by the above, of an incident of a parallel nature, which happened in a neighboring State a few years ago. A wealthy and retired merchant, who had been "close," but was not considered miserly, became possessed with an idea, during his last illness, that he was coming to poverty. He insisted that everything which was done for his comfort, should be upon the most economical scale, and would not even turn himself in bed, lest the sheets should be worn out and he would not be able to replace them! He was indeed poor in this world's goods when he entered

"The undiscovered country from whose bourne
no traveler returns,"

but he left property to the amount of two hundred thousand dollars.—*Boston Jour.*

ST. LOUIS, Nov. 20.—Steamer Cataract exploded her boiler on the Missouri river, near Lisbon, on the 17th inst. Five men were killed, including Wm. Bruce of Hartford, and 15 badly scalded.

MONTREAL, Nov. 20.—A steam boiler in Paige's Foundry at Cuffentown exploded this afternoon, killing one man and severely injuring eight others. The building was blown into ruins.

Remedy for Worms.

THE diseases of children are often so complicated that it is difficult to ascertain the true nature of their complaint. In a large majority of instances worms are the cause or be traced to the existence of WORMS—the prominent symptoms of which are, paleness of the countenance, loss of or irregular appetite, starting up and crying out in their sleep, picking at the nose, great thirst, a wasting away of the flesh, &c. These symptoms should be early attended to, as by neglect it often terminates in disease of the brain.

PRESTON'S WORM SYRUP

is the most effectual remedy ever used. It is pleasant to the taste, perfectly harmless, and is warranted in every case to give satisfactory results.

THE BEST

Planing, Tongning & Grooving Machine

IN THE WORLD.

PATENTED Nov. 21, 1854, and Nov. 18 1855.—These Patents were obtained for improvements upon the celebrated Woodworth Planing Machine, the Patent for which expired, Dec. 26 1855. By the combination of these several inventions, a machine is produced of *unrivalled excellence.*

A GOLD MEDAL for the invention was awarded by Mass. Char. Mech. Assoc., at their exhibition of 1856.

Machines of all kinds and sizes, from $150 to $2000.

ALL MACHINES WARRANTED to give entire satisfaction, and to be superior to any other machines now in use.

BURDEN'S

Pressed Boat, Ship, Brad & Countersunk Railroad Spikes

ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand made spikes of common English iron, and inferior to nothing of the kind ever introduced to the public.

TUESDAY, NOVEMBER 24, 1857.

GOV. WISE AND SENATOR HUNTER.—Gov. Wise has addressed a letter to the Richmond Enquirer, denying in the most emphatic manner any design in opposition to the re-election of Mr. Hunter to the U. S. Senate. He says that he does not desire a seat in the Senate, but if he did he would not desire it at the expense of Mr. Hunter. He styles the opposition organized against the administration as soon as it was formed, a "porcupine opposition," whose plan was to sink the whole Democratic party of the North, and every Southern man who trusted them. Affiliated with this opposition, he finds some of the most zealous of Mr. Hunter's friends, but he admits that Mr. Hunter disclaims all responsibility for them. Yet he seems to have adopted their views against submitting the Constitution of Kansas to the people. On this point, Gov. Wise put himself forth strongly, that the Constitution ought to be submitted to the people. He is aware that there are precedents the other way, but he maintains that they were, in their inception, exceptional cases, and that the doctrine is anti-Democratic.

We see here two views, both claiming to be democratic. One is *popular* sovereignty, the other *federal* sovereignty.

☞ The Herald says the only question of importance, at the coming Newburyport city election, will be the law for the suppression of intemperance. "The present city government have evaded the liquor law by the appointment of a large number of selling agents—those agents not being called upon to comply with the letter and spirit of the law. In other words it has used the liquor law to license a large number of grocers and apothecaries to sell spirituous liquors. Their opponents say that liquor selling ought not to be allowed—that no grocer and no other persons should be allowed to sell; that the business *should be* and *shall be* separate from all other business; and at least one agent, and at most not more than three, appointed for the city; and these persons shall sell nothing but liquors.

☞ "Citizens' Meetings" are being held in Dover to make preparations to relieve the poor from hunger and cold the coming winter. It is decided "that a petition be presented to the City Government, praying that the sum of $4000 be appropriated to the poor who are able to work, and that this work be provided them by the city; and that on Thanksgiving day and evening the citizens at large congregate in the City Hall and there make a Thanksgiving offering for the benefit of the poor, at which time the Rev. Mr. Richardson will deliver an address adapted to the occasion." The city has already made some appropriations and has purchased teams for the purpose of keeping men employed.

☞ The Great Falls Advertiser states that no mills in that place that have been stopped, are likely to go into operation at present. The mills at Dover are resuming operations.

The ship Howadji, for Liverpool, struck by lightning and totally destroyed, was loaded principally with cotton from the Great Falls Manufacturing Co. So that cotton *won't* come back in the shape of English calicoes, after all.

A BAD FIX.—When a convict enters the State Prison or House of Correction, the first thing done is to dress him in the prison costume. The Newburyport Herald says that when the liquor sellers, lately sentenced in Essex County, reached Ipswich on Tuesday, the house was so full that all the garments were occupied, and accordingly by losing their own clothes they had none to put on. They were sent to bed while the master of the house went to the State Prison to borrow suits. He was disappointed at Charlestown, and therefore they are obliged to lie in bed or keep in their cells till clothes can be made.

☞ Daniel Lynch, a laboring man, who took passage on Thursday night at Rondout on the steamer North America, which plies between that place and New York city, met with a terrible accident. Having drank freely, he wandered unconsciously into the engine-room, where he was caught in the machinery and his head cut clear from his body. The body was untouched. A bottle of brandy was found in one of his pockets.

☞ The New York Herald reports a "panic" among the Opera-tires in that city. The net loss of the opera season there, thus far, has amounted to $18,000

☞ On Thursday evening last, in Boston, at the close of the reception meeting in the Temple, Massachusetts Division of the Sons of Temperance held a meeting, at which Hon. Henry Wilson, Henry Smith, the Razor Strop man, R. K. Potter, Asa Potter, Samuel Neale, Amos B. Merrill, and four others were initiated. After the ceremonies, Senator Wilson offered some very interesting remarks, in which he stated that he signed the pledge when he was nineteen years old, and had never broken it. He had never lost a friend by refusing to partake of intoxicating drinks. He spoke in the highest terms of the value of the cause. Remarks of an interesting character were also made by Judge Russell and others.

Judge Russell of the Police Court, and John L. Swift, Esq., have also been initiated into the Order.

☞ The Norwich (Conn.) Courier says facts are coming to light which awaken the most painful suspicions that a number of deaths which have lately occurred on Church street of that city have been caused by *lead poison* from the pipes through which the water passed from the aqueduct. A number of others are now sick on the same street, supposed from the same cause.

☞ C. Stetson, of Boston, the well-known pedestrian, writes to Porter's Spirit, complaining of the adoption of his name by the person who ran against, and was defeated by the Indians at Buffalo, at the late Fair. Mr. Stetson states, that he has finally left the Turf, in consequence of a settled lameness, which unfits him for such exploits.

☞ A letter from Shelbyville, Tenn., says that there will be fatted for market from 150,000 to 200,000 hogs, within an area of fifty miles each way from that point.

☞ Paris Fashions for this November, exhibit the figure of a gentleman in the tip of the mode, with an overcoat extending to his heels, with red collar, cuffs, and pocket welts.

A kiss, says an ingenious authority, is like creation, because it is made of nothing and is very good.

Yes, and a kiss is unlike the creation, in that while creation was made out of chaos, —chaos is often made out of a kiss.

When is charity like a top? When it begins to hum.

When is charity *not* like a top? When it *don't begin* to hum.

THE FALL RIVER MILLS.—It was recently reported by the Providence Transcript that several of the Fall River mills had recommenced operations, but the Star says that only two are running—one at three-quarters time.

THE BAY STATE COMPANY.—We hear that Hon. Geo. H. Kuhn has been appointed Treasurer of this Corporation, in place of Samuel Lawrence, Esq., resigned. The affairs of the Company are in process of investigation, with a view to learn the value of its property. A report will doubtless be made to the shareholders at an early day.—*Boston Transcript.*

FIRE AND LOSS OF LIFE.—The Leavitt house in Raymond, owned by Mrs. Joseph Corson, was consumed by fire last Monday, 16th inst. It was occupied by a family named Stevens. Mrs. S. went to a neighbor's, leaving three children. The flames soon burst forth. Those who arrived first, found two of the children at the door, and the other, a girl 5 years old, perished in the fire. The bone of the scull was about all that was found. The house was insured.—*Exeter Newsletter.*

TABLES TURNED.—One of our most respectable merchants, a partner in a well-known business firm, was so highly pleased with his "balance sheet" in July, that he decided and gave formal notice to his firm that he should "retire" from business on the first of January next. Early in October the house of which he is a member "suspended." Having a large surplus, they offered at once full payment in merchandise to all their creditors. An avalanche of protested paper, however, soon changed their mind, and they are now offering a compromise of only — per cent. Thus swings the pendulum. Put your shoulders to the wheel again, gentlemen.—Retire—not yet.—*N. Y. Independent.*

PERMANENT INVESTMENT.—A "capitalist" in the country some months ago, sent $20,000 to a friend in the city to invest in "good endorsed business paper." It was done. The whole amount matured during the month of October. In all, there were about twenty notes, and every single one was protested. All the names as makers or endorsers, save one (an endorser) have either failed or suspended.—One note out of the whole batch, after going to protest, was taken up by the endorser.—*N. Y. Independent.*

AN IMPORTER'S EXPERIENCE.—One of the leading importers in New York found, upon examination, that 85 per cent. of his October bills receivable were either protested or extended, and yet he says that it was all "first-class paper."

4 DAYS LATER FROM EUROPE.

Arrival of the Steamer Atlantic.—Capture of Delhi confirmed—Lucknow Relieved—King of Delhi surrendered—his two sons shot—Rise in the Rate of the Bank of England to Ten Per Cent—Suspensions, Telegraph Cable, &c.

NEW YORK, Nov. 22.—The steamship Atlantic, from Liverpool Nov. 11, arrived at this port at 7 o'clock this evening, bringing $128,000 in specie, and 71 passengers.

The news by this arrival is highly important and interesting, both as relating to financial matters and general news.

The capture of Delhi is confirmed. Lucknow has been relieved. The King of Delhi has surrendered himself, and his life was spared; his two sons were shot.

Messrs. Dennistoun & Co., the heaviest house in Britain connected with American trade, suspended on the 7th inst. Their principal house was in Glasgow, with branches in London, Liverpool, New York, New Orleans and Melbourne, but it is said the Australian house is not compromised. The cessation of American remittances was the cause of its suspension. The private resources of the partners are very large, and the suspension is probably temporary.

On Monday the Bank of England raised its rate of discount to ten per cent.

The Western Bank of Scotland, Glasgow, with a paid capital of £1,500,000, and deposits of £6,000,000, has suspended. The business of the bank was immense, and it had one hundred branches in Scotland. The proprietary members are wealthy, and no eventual loss is apprehended.

Messrs. Pennoch, Twentyman & Rigg, of London and Manchester, in the silk trade, have suspended. Liabilities from two to three hundred thousand pounds.

Broadway & Barclay, of London, in the East India trade, have also suspended.—Liabilities £200,000.

There has been nearly a total stoppage of the withdrawal of specie from the Bank.

It is reported that the American house of John Munroe & Co., Paris, has stopped.

Gallerkamp Brothers, Amsterdam, have failed.

The deputations from Liverpool and Glasgow were unsuccessful in indeavoring to induce government to adopt measures of relief. The Manchester Commercial Association declined participation in the movement.

Four hundred thousand sovereigns were taken from the Bank of England for Scotland, the suspension of the Western Bank having caused a run on all the Banks, including many savings institutions. There was less uneasiness in mercantile quarters, but demands for discounts were depressing. The following suspensions are announced:—Baleock & Co., Glasgow and New York, liabilities £300,000; Henry Dutith & Co., Liverpool; Foot & Son, silk manufacturers.

A letter from Hamburg of 7th, reports a general panic in the stock market. Specie was scarce, and bills of exchange unsaleable.

The shareholders of the Borough Bank, of Liverpool, have resolved to register the Bank under the Joint Stock Banking Company's Act, but are undecided about the propriety of winding up its affairs.

The Atlantic Telegraph Co. have decided to lay their cable the latter part of next June, commencing in the middle of the Atlantic Ocean, as originally designed. Messrs. Glass & Elliott have commenced the construction of additional cable, making 3000 miles in all. Messrs. Eaton & Ames are building new paying-out machines.

The Directors of the Bank of France had an audience with the Emperor, and unsuccessfully urged a duty of 3 per cent. on specie exported. The Emperor is reported to favor an advance in the rates of discount to 8 per cent.

☞ The Bank of France has raised its rates of discount to 8 per cent. on bills under 30 days, and 9 and 10 per cent. on 60 and 90 day bills.

Accounts from the French manufacturing districts represent a complete stagnation in business.

The financial pressure had reached Sweden and Norway.

The Bank of Frankfort and the Bank of Prussia have raised the rates of discount to 7 1-2.

The Senate of Frankfort have interdicted the residence of an old political refugee, Froebel, who has since become an American citizen, and the American Consul threatens to break off relations unless the order for his expulsion is recalled.

The Russian war steamer "Caspian Sea" has been lost. The captain, three lieutenants and eighteen men were drowned.

The Liverpool cotton market was very dull, and prices had receded ¼ d per lb.—The sales for the three days reached only 4500 bales.

Breadstuffs were slightly lower, with a dull market. The decline amounted to 1s per barrel on flour, 3d per bush. on wheat, and 6d on corn.

Provisions dull, and quotations nominal. Sugar dull, prices nominal. Coffee and tea lower.

LATEST.—Telegraphic advices from India are a fortnight later than previous dates.

Delhi was in complete possession of the British on the 21st of September.

Gen. Nicholson had died of his wounds.

It was rumored in Liverpool on Wednesday that the Bank of France had suspended. The rumor probably grew out of the fact of an advance in its rate of discount.

LIVERPOOL, Nov. 11, 3 P. M.—The cotton market is depressed, and lower prices are accepted. Sales to-day estimated at 2000 bales. Breadstuffs very dull.

A young widow in New Orleans, being asked after her husband's health, answered with a soft, quiet smile, "He's dead, I thank you."

Why was Pharaoh's daughter like a broker? Because she got a little *prophet* from the *rushes* on the banks.

LARGE FIRE IN BALTIMORE.—*Baltimore, Nov. 22.*—A destructive fire occurred on Baltimore street, near Howard, last evening. The splendid warehouse occupied by Fisher, Boyd & Bros., dry goods dealers, and others, was totally destroyed. The adjoining store was much damaged, and several tenants suffered losses. The total loss is about $80,000.

ROBBERY IN PHILADELPHIA.—*Philadelphia, Nov. 21.*—The sloop Mechanic, now lying above Market street, bound for Odessa, Delaware, was entered last night, the man in charge beaten till insensible, and the vessel carried over to Cooper's Creek, and robbed of groceries and freight to the value of $200 or $300.

DECISION IN THE CASE OF DONNELLY.—*Trenton, N. J., Nov. 21.*—A decision was rendered in the Supreme Court this afternoon, in the case of Donnelly, who murdered the bar-keeper of the Sea View House at the Highlands, some time ago. None of the exceptions taken below were allowed, consequently the motion to reverse judgment and have a new trial was refused. Donnelly will be executed on the 8th of June next.

SNOW IN CANADA.—*St. Catharine's, C. W., Nov. 21.*—Snow fell here last night to the depth of 18 inches. The passenger trains of the Great Western Railway got through, but only at a very late hour. The freight trains stuck in the drifts.

FIRE.—*Louisville, Nov. 21.*—The stores of Gay & Co., liquor dealers, and H. F. Buckner, feed merchant, together with two or three small stores, on Second street, were destroyed by fire this morning. Amount of the loss, $20,000.

MIDDLEBURY, VT., Nov. 21.—Hon. Horatio Seymour, LL. D., died here to-day. He was one of our most prominent and respected citizens, and for some twelve years United States Senator from Vermont.

THE THREE JOSIAHS.—At Mr. Mackay's lecture, in Boston, on Thursday evening, might be seen, "all seated in a row," Josiah Quincy, Josiah Quincy, Jr., and Josiah P. Quincy—father, son and grandson.

The Three Horatii.—Horace Greely, Horace Bushnell, and Horace Mann.—*Trans.*

As Joe was walking up Washington street, yesterday, with a friend who indulges pretty freely in the use of the *weed*, the latter remarked that he was almost roasted. "No wonder," replied Joe, "as you have been on the *spit* all the morning." *Boston Post.*

Portsmouth Mercantile Library Association

LECTURES,

AT THE TEMPLE.

THE LYCEUM COMMITTEE, being desirous of making their Course a popular one, have made the following arrangements for the season: The Lectures will commence on

TUESDAY EVENING, DEC. 1, 1857.

For the first evening, the services of MRS. EMMA WENTWORTH and MR. ALBERT LAIGHTON have been secured.

ALBERT LAIGHTON will read a POEM, and MRS. WENTWORTH will sing some of her choicest SONGS, accompanied by Mr. LANG, Pianist.

The Lectures will be held on alternate Tuesday evenings.

HON. RUFUS CHOATE,
REV. A. L. STONE and ARTHUR GILMAN, ESQ., of Boston; and REV. J. C. BODWELL of Framingham, have been engaged to lecture.

The other lectures will be announced in future.

Tickets for the Course, $1; to be had at the Bookstores. Doors open at 7; lectures to commence at 7½.

JOHN P. PAYSON, N. K. HAYNES,
C. C. HARVEY, E. N. MATHES,
E. P. KIMBALL, J. H. THACHER,
Lyceum Committee.

☞ The members of the Association will be supplied with free tickets for the Course, by calling on the Treasurer, Mr. C. C. Harvey. c23

SPECIAL NOTICES.

The announcement that Mrs. Cunningham had committed suicide would cause a sensation.—But the fact that the Carminative has cured 1000 children of summer complaints produces no lasting impression. Mothers! Mothers!

DOUBT NOT!

We would not be so base as to deceive in a matter of such vital importance to our fellow man, nor trifle with what is so precious to us all, but speak advisedly and in all sincerity, when we say that in Dyspepsia and all its concomitants, in Scrofula, in all its varied forms, whether indicated by swelling of the glands, diseases of the skin or deformation, Myer's Extract Rock Rose will invariably mitigate the suffering, and in most cases effect a cure; it operates by changing the viscid humors, purifying the blood, thereby imparting vigor to the whole system. As a tonic, the Rock Rose is invaluable, hence its happy effects in all those diseases arising from impaired digestion. Get a Pamphlet.

☞ The only place in this city where an Ambrotype can be obtained, is at Davis' Ambrotype Gallery, No. 8 Daniel Street, as they have the Patent, and all infringements will be prosecuted. sept9

WE WISH TO SAY TO EVERY PERSON Who reads this that there is an article known as "Dr Sanford's Invigorator or Liver Remedy," which can be relied on as certain to cure liver complaint in any of its forms, such as Jaundice, Dyspepsia, and numerous other compaints, described in another column, besides which it is one of the greatest preparations or cures for consumption, taken in early stages, that is now known.

We take it for granted, as experiment has proven, that diseases of the lungs are not generally the first cause of consumption, but a debilitated system, caused by the improper action of the liver, reduces the power of the lungs to resist or throw off diseases caused by cold and irritation, leaving the lungs at the mercy of one disease, because the liver has incapacitated them from performing their proper action of throwing off diseased matter caused by cold, thus to prevent consumption, cure the liver, and keep the system strong enough to throw off slight diseases of the lungs.

There is not in the world a better liver remedy or acure for debilitated system, than "Dr. Sanford's Invigorator," for proof has been fully tried in a large and extended practice, till its results are fully known and now it is offered as a tried remedy, and one that can be relied on.

ALARMING.—Under the head of "Decrease of Population," the Concord Democratic Standard of Nov. 21, says:

The diminution of the population of Manchester, since the depression of business is estimated at 3000; and in Portsmouth about 3,000.

We have seen such a statement about Manchester, and suppose it to be true. But the item of diminution in Portsmouth is a very great error. Our population has not diminished 3,000.—We are not aware that it has diminished 300, or that it has diminished at all, this Autumn.—Emigration carried away a number last spring—many of whom have come back. But our numbers have not changed in any great degree.

Portsmouth has stood the pressure, thus far, as well as any city in the country;—and we doubt not our citizens generally will get comfortably through the winter.

☞ Another gentleman, who ought to know all about the matter, corrects our statement that Mr. Wm. P. Furness learned his trade of Langley Boardman. He says he was an apprentice of the late Jonathan Judkins; and that on a visit here, years afterwards, he "didn't know" his old master!

☞ Died, at Kittery Point, on Saturday, Nov. 21, Col. George Sparhawk, aged 57. His remains were deposited on Sunday, the 22d, in the tomb of the Pepperell family, of which family he was a descendant, in the female line. There were no funeral ceremonies, as the Sandemanians, of which the deceased was one, bury their dead in solemn silence.

Col. George Sparhawk was a native of Portsmouth, a son of Geo. King Sparhawk, and with the writer of these lines attended the Gravelly Ridge School, 50 years ago. He was in subsequent years a clerk in the Loan and Pension office, a bookseller of the firm of Gray, Childs & Co., and Childs & Sparhawk; afterwards an editor of a paper here, conducted by Cutts [Hampden] and Sparhawk; and later still, fort keeper at Fort McClary, and a clerk to the Navy Storekeeper.

Originally of a good constitution, and of a noble stature and presence, he has been a sufferer for many years by a complication of disorders, which gradually bent and enfeebled, and at length broke him down.

Originally of a noble and wealthy family, he cultivated a hired acre on their once ample domain, as his last work on earth, died there in a hired and humble cottage, and in his burial, without noise or pomp, claimed only a resting place for himself, (beside the coffin of his wife,) amid the ashes of the old aristocracy of the Piscataway colony.

But honors vastly better than the accidents of birth, or the splendors of burial, belong to the memory of George Sparhawk. In his bosom the milk of human kindness flowed, warm, gentle, steady, perpetual.—His friendship was easily obtained, and not easily lost. Enmities he had none; enemies as few as ever fell to the lot of any mortal.

A man of transparent honesty, undoubted integrity, and delicate modesty, in the world of show he never made a great figure; and in his declining days and declining fortunes, he made less and less. But in the social circle, as a friendly and intelligent companion: and in the domestic as a brother, husband and father, he had a character which shone brighter and brighter as it glowed in the furnace of afflictive and bereaving providence. The christian patience, resignation and trust of his declining and closing days, were a fit sequel to his humble, unobtrusive life. He died in peace, and his memory is blessed. "Let me die the death of the righteous, and let my last end be like his."

STATE TEMPERANCE CONVENTION. The next annual New Hampshire State Temperance Convention will be held at Smyth's Hall, in Manchester, on Tuesday, Dec.15, at ten o'clock, for the choice of officers, and for the transaction of other important business connected with the interests of the cause in the State. Will not the friends of Temperance gather in large numbers, to consider the best means of carrying forward this enterprise at the present time? Much has been done, but still the work is not accomplished. We wish to see delegations from as many towns as possible. Let us have a great gathering of the working men, and lay our plans, and then let us carry them forward, till romselling, with all its terrible results, is driven from our State. Among the speakers expected to be present and address the convention, are the Rev. Messrs. Whiting, Lameon and Hall, of Portsmouth; Prof. J. G. Hoyt, of Exeter; Rev. Mr. Holman of Great Falls;—Rev. Mr. Hartwell, of Nashua; as well as many other active friends from different parts of the State.

MRS. S. A. ALLEN'S
WORLD'S HAIR RESTORER.

GRAY HAIRED, bald, or persons with diseases of hair, or scalp, read the following and judge of the articles.

MRS. S. A. ALLEN'S ZYLOBALSAMUM, Or World's Hair Dressing, is essential to use with the Restorer, and is the best Hair Dressing for old or young, extant, being often efficacious in case of hair falling, &c., without the Restorer.

REV. H. V. DRUEEN, Editor of the Guide to Holiness. "We can testify to its effects," &c.

PRESIDENT J. H. EATON, L. L. D., Murfreesboro', Tenn. "Notwithstanding irregular use, falling off of hair ceased, and my grey locks are restored to the original color," &c.

REV. S. R. MORLEY, Attleboro' Mass. "It has changed the 'Ethiop' of my locks, belonging to old men, to the original hue of youth," &c.

REV. M. THACHER, 60 years of age, Pitcher, Chenango County, New York. "My hair is now restored; it is nothing like a dye," &c.

REV. D. T. WOOD, Middletown, New York.—"My own hair and that of another of my family, has greatly thickened, where almost bald," &c.

REV. JAMES McKEE, New York, recommends it, &c.

REV. J. F. GRISWOLD, Washington, N.-H.—"It is really efficacious in restoring the hair," &c.

REV. U. M. SPRATT, Lewisburgh, Penn. "We can and do cheerfully recommend it," &c.

REV. J. P. TUSTIN, Charleston, South Carolina. "Its white hair has become obviated," &c.

REV. AMOS BLANCHARD, Meriden, N. H. "We think very highly of your preparation," &c.

REV. N. C. MILLER, Farmington, N. H. "I was surprised to find my hair turn as when I was young," &c.

SOLE Agents for the above Goods, have on hand a large Stock of the same, suitable for shore and sea wear.

These fabrics, since their first introduction to the public, (almost three years since,) have been fully tested, and the result has proved them to possess all the qualities requisite to make a perfect article. They have on hand numerous testimonials from gentlemen in the navy and merchant service, which they would be pleased to show any one who would favor them with a call. They have been supplying some of the officers of the Falmouth, who have tested the Rubber goods, and found them unfit for sea service.

S. D. & H. W. Smith,
—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,
No. 511 Washington St., Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without jarring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and then get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This ingenuity with the pedal bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

Is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument without the pedal bass. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced workmen. We warrant, and will promise our customers an instrument equal, if not superior, to any Manufacturer, and guarantee *an entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our establishment, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon:

Chickering & Sons,	Hallett & Cumston,
T. Gilbert & Co.,	Wm. P. Emerson,
Brown & Allen,	A. W. Ladd & Co.,
George Hewes,	Richard Dudley,
	Edward & Brown,
	Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instrument before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory references, will be promptly attended to, and as faithfully secured as if the parties were present, or employed an agent to select, and on as reasonable terms.

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered on all matters touching the law. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded in Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for procuring patents, on considering the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that some 18 MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES, he would say, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond mention, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States; and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."
From the present Commissioner.

August 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office; as a Solicitor. He is thoroughly acquainted with the laws and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries are legalized by special law in that state, authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received by the Saturday previous, in time to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $5; halves $3; quarters $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that a child can tell to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize is drawn in full, and result of drawing published to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, New York *Weekly Day Book*. Write your address plainly, and direct to S. SWAN & Co., Augusta, Georgia

Prizes paid in full—no percentage deducted from prizes as other lotteries do.

All communications strictly confidential. m18 1y

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRENCH & CO are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. The following plans is named, orders received in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20, no tickets are forwarded unless the money for the same is received with the order. A BEAUTIFUL HEAD

OF RICH GLOSSY HAIR,

Completely Preserved

TO THE GREATEST AGE.

AND who that is gray would not have it restored to former color; or bald, but would have the growth restored; or troubled with dandruff and itching bit would have it removed, or troubled with any disease of the scalp or other eruptions, or with sick headache, (neuralgia) but would be cured. It will also remove all pimples from the face and give a fair complexion. Prof. Wood's Hair Restorative will do all this. See circular and the following.

ANN ARBOR, November 5th, 1856.

PROF. O. J. WOOD—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, I feared to, I was disposed to place your Restorative in the same category with the one thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months since, where you gave me such assurance as induced the trial of your Restorative in my family—first, by my good wife, whose hair had become very thin, and entirely white; and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore my skepticism and doubts in reference to its character and value are entirely removed; and I can and do most cordially and confidentially recommend its use by all who would have their hair restored from white or gray, (by reason of sickness or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.

Very truly and gratefully yours,

SOLOMON MANN.

FRIEND WOOD: It was a long time after I saw you at Blissfield before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you assured me it would do; and others of my family and friends, having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.

Again, very respectfully and truly yours,

SOLOMON MANN.

CARLISLE, Ill., June 28, 1852.

I have used Prof. O. J. Wood's Hair Restorative, and have found it to be all that it is recommended to be, as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so.

GEORGIA LOTTERIES.

THE Lotteries of Annasson & Sea, are chartered by the State of Georgia, and have sworn commissioners appointed by the State, to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawings. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Georgia, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month, and the following plans is named, orders received in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20, no tickets are forwarded unless the money for the same is received with the order. STOVES.

Frank Jones, No. 61 Market St.,

HAVING received his Winter Stock of Stoves, is now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to satisfy the most economical, among which are the following:

IMPROVED EMPIRE STATE,

This celebrated Cooking Stove having been in the market many years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.

THE WHITE MOUNTAIN IMPROVED,

being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.

THE REPUBLIC.

This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.

All sizes on hand, and every Stove warranted.

Also on hand all the different kinds of the most approved patterns; among which are the

BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.

Repairing Pieces of all kinds on hand.

The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.

Our stock of

PARLOR STOVES

is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the

ILION, TILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,

OVEN PARLORS in great variety for wood or coal. SHEET IRON STOVES of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different Patterns.

The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.

Remember the place to buy cheap is at

No. 61 Market Street.

FRANK JONES.

Mage's Patent Ventilating Stove.

FOR WARMING AND VENTILATING

PARLORS, OFFICES, HALLS, STORES,

SCHOOL HOUSES, &c.

WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give

Any amount of Heat required,

and unlike all other Anth scite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and in none of the air which comes in contact with the fire pot is used for respiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.

These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them,

For Offices and Stores as well as the Parlor.

The Inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to kindle without the use of charcoal. The coal is all used, and no clinkers made, consequently, sifting coal is dispensed with.—When this Stove is properly managed,

THE FIRE MAY BE CONTINUED THROUGH

THE ENTIRE SEASON,

without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 30 to 50 per cent, in fuel expense.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THIS combination of ingredients in these Pills, is the result of long and close study; particularly they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have they been successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the long train of sickness and suffering which follows, is thereby one. No female can enjoy good health unless she is regular: and whenever an obstruction takes place, whether from exposure to cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever this is the case, he Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

S. D. & H. W. Smith,

—MANUFACTURERS OF—

Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,

No. 511 Washington St., Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C.; also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The notion is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower so running as octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be used at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

Is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of Melodeon for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. We also, will promise our customers an instrument equal, if not superior, to any Manufacturer, and guarantee an entire and perfect satisfaction.

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine for themselves the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon:

Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who are fearful lest of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent of one or two years trial.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully and as cheap as if the parties were present, or employed an agent to select, and on as reasonable terms.

Remedy for Worms.

THE diseases of children are often so complicated that it is difficult to ascertain the true nature of their complaint. In a large majority of instances, symptoms would lead to the existence of WORMS—the prominent symptoms of which are, paleness of the countenance, loss of or irregular appetite, starting up and crying out in their sleep, picking at the nose, great thirst, wasting away of the flesh, &c. These symptoms should be early attended to, as by neglect it often terminates in disease of the brain.

PRESTON'S WORM SYRUP

is the most effectual remedy ever used. It is pleasant to the taste, perfectly harmless, and is warranted in every case to give satisfactory results.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—but but ONE AIM—accomplishes but ONE THING, to wit: SUBDUE INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued by its use and easily distinguished by water. Is it asked, how it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires minute quantities, even the point of an nail dipped into a solution of it, to affect the entire system.

UNSKILFUL MECHANICS.

It is a circumstance worthy of note, that a vast majority of the young men who are apprenticed to learn a trade, never rise to any distinction in their profession, or even obtain a position of common usefulness and advantage. Whether this is owing to a want of ability on the part of their instructors or not, is hardly a debatable question, since it is generally admitted that an earnest and persevering student in any science will succeed, however unfavorably situated. The scales, then, are in the hands of the apprentice himself, and if he fails he is certainly chargeable with the disgrace. In view of this fact, it may not be unprofitable to examine into some of the more immediate causes of ill success among mechanics, and to offer a few examples of illustrious artisans, who may serve as an encouragement to greater zeal and devotedness.

In the first place, there is a visible want of inquiry into those principles which lie at the foundation of the sciences. Nothing could be more fatal to real success than this. The mind, in its researches after knowledge, must have an unfailing basis to act upon, before it can form theorems or extend the scope of its operations. If this point be neglected, the most vigorous exertions will avail nothing; since the extent and variety of all mental acquisitions depend upon a thorough understanding of fundamental principles. Now it cannot be denied that these are either totally overlooked by the great body of artizans, or examined with a lack of dilligence ill-becoming their dignity and importance.—Comparatively few ever ask themselves how such and such results are obtained, or whether the simplicity or complexity of machinery be most conducive to its effective operation. These, and many other more important questions, are not allowed to "take up their time." The whole business of obtaining a proficiency in the useful arts is turned into a continual series of imitations; while reflection, the mother of all true conceptions concerning any subject, is banished from the mind as a destructive property. Hence the scorer of superficial mechanics.

Again: there is not a proper spirit of emulation among shop-hands to render their employment interesting and instructive. If a certain amount of work is accomplished each day, and the promised remuneration received, nothing farther is bought of or cared for. To be sure, an increase of wages is a sufficient inducement to cause to apply themselves with unbending energy, but the instances are few where the acquisition of money has stimulated individuals to put forth the exertions necessary to the attainment of true distinction. Nothing short of an ambition to excel will place the mechanic on the proper basis. He must convert his work into an Olympic game, in which he is striving with the rest of the world for the ascendancy. If he succeed, then he may wear the laurel and gain the custom; but if he does not, he must prepare for another contest, and in so doing he will soon obtain for himself a position as an artizan as enviable as Croton or Milo as wrestlers. Let an ambition to stand first in their respective occupations once prevail, and our shops would soon be filled with an abundance of ingenious, enterprising and scientific workmen.

The pages of history are replete with the names of men who have warmed into life their intellectual fires, while swinging the heavy sledge at the forge, or engaged in working the mason's trowel. In fine, no professions can boast of greater names than those which are now neglected, or considered too servile to claim the attention of intelligent men. Rittenhouse, Whitney, Franklin, and the gallant Greene, were all mechanics. The whole world is acquainted with their fame. Inspired by their achievements, let the workmen of all kinds press on. While progress in the mechanic arts, is an infallible indication of the advancement of civilization, the onward march of refinement in its turn demands more skilful and experienced mechanics. Here, then, is a stimulus to all men. If they will but submit their handicrafts to a thorough investigation, and master the principles upon which they are founded, they will soon find themselves in the possession of a comfortable competency and an enviable reputation. SECESSION.—The Providence Journal thinks if Gen. William Walker were sent to chastise the Mormons, a great public benefit would accrue. Then, every well-aimed bullet, on either side, would do a service to the country.

LETTER FROM NEW YORK.

NEW YORK, Nov. 22.

Dear Chronicle:—Awaking from the dreamy slumbers of Sunday morning, which by a tacit agreement between inclination and opportunity, is prolonged several hours beyond the allotted limit of week-day awakening, a glance from my window presented the novel sight of the first fall of snow for the season;—but the patches of blue sky and the beams of sunshine streaking through the lattice, betokened a speedy disappearance of the beautiful stranger, after a short morning call.

A New York snow storm is devoid of the beauty with which a New England winter clothes its hills and valleys in radiant garments of spotless white. Here, a snowfall either disappears in a few hours, or if bestowed in more generous quantity, is converted into an indescribable substance of a mush and milk consistency, which, is far from agreeable to pedestrians;—and the "merrie sleigh bells" are as little in harmony with the muddy compound through which the vehicle splashes, as are the crinolined belles who drag their bespattered expanse of hoops through the common element.

The approaching municipal election excites more interest than any previous one within our recollection, and the vote will probably run even ahead of the Presidential, last fall. There are but two candidates in the field, (Mr. Cooley, *American*, having resigned,) Fernando Wood and Daniel F. Tieman. The contest is the people *versus* the politicians. Both men are Democrats,—a qualification necessary to stand any chance of an election.—The only issue is Wood or anti-Wood; and the efforts of the combined anti-villain sentiments of the metropolis, if crowned with success, will dethrone the man who has wielded a more powerful sway than any other ruler in a republican land can boast of.

Mr. Tieman is said to be a man fit to be the representative of a respectable, law-loving community; an old and respected citizen, who has the honor and confidence of all parties. It only seems to me, remarkable that a person of such standing could be induced to accept the nomination for the office of Mayor of New York, a term which has of late been synonimous with *blackguard*. Mr. Tieman is a Roman Catholic; but in the language of the Express, the K. N. organ, which favors his election, that matters nothing: "If Archbishop Hughes himself were nominated, he should have our support, in preference to Fernando Wood."

The times are beginning visibly to improve; we may now look back on the 'panic' as a vision of the past;—a wild spasm, into which our people so foolishly threw themselves.—The best history of the Panic extant, is this terse little parody from Harper's Weekly:

"There was a man in our town,
He was so wondrous strong,
He jumped into a Barbary Coast
And drew out his supplies;
And when he got his money out,
With all his might and main,
He walked into another bank
And concluded that all things considered, he might as well deposit it again."

Among the peculiar effects of the commercial crisis, is one which I have not seen mentioned in print. It is decidedly a new feature in the interchange of currency. Many merchants here, in dunning their backward debtors in the Agricultural districts of the west, offered as a desperate recourse, to take their produce in payment, in lieu of the proper exchange. This offer was accepted to a greater extent, and the transportation lines were astonished to see such quantities of potatoes, corn, butter, cheese, etc., marked to the address of heavy dry and silk goods houses here.

Passing through one of our principal wholesale streets a day or two since, I suddenly came in sight of a number of barrels obstructing the walk, and a large pile of suspicious looking boxes on the stoop of a well known dry goods concern. Looking upwards, a placard met my eye, bearing the inscription, "Ohio Butter and Cheese for sale," hanging in strange contrast with the numerous banners and painted signs of a neighbor, "Wholesale stock of dry goods selling at Retail." I almost imagined the Cheese boxes looked a little ashamed of their position.

Although times are so hard, and money is so tight, every new building which was begun before the panic, still has its complement of workmen upon it, and every possible exertion is made to prevent their discharge; a number of the finest buildings which have been raised during the past five years, are *now* in process of completion.—Among them I would mention the Astor Bank at No. 98 Broadway, and the American Exchange Bank, a short distance above, at the corner of Cedar street and Broadway. The former is built of white marble, very massive and substantial, will be five stories in height, and will be occupied, as the name indicates, by the Astor which Bank, is a new institution, named in honor of Wm. B. Astor, who is understood to own considerable of the stock and the building. The American Exchange Bank is built of Nova Scotia sandstone; it has a front of about fifty feet on Broadway, and runs back double the distance on Cedar street.

On the triangular piece of land at the junction of Park row, Nassau and Chatham streets, is being completed a very handsome block of buildings of sandstone, to be occupied as stores, and a portion by the Times newspaper.

A site has at last been settled on for the new Post Office; it is to be at the lower corner of our City Park, facing Broadway and Park row, and the veritable spot where the magnificent fountain of *Engraving* notoriety stands. For four or five years that has stood there, an eyesore to the citizens. Not a "*spirit*" have we seen from its basin these many years; the only surmise we can make is that since the Maine Law came into operation the commissioners have needed the whole head of Croton for city supply, without wasting any on the fountains in our Parks.

As it is settled that we are to have a new Post Office, it is hoped that, as we now have many unemployed hands in the city, operations will be commenced immediately, instead of waiting until the opening of spring, as is proposed. ISLINGTON.

MIDDLESEX CO. MASS.—In the Court of Common Pleas, since our last report, Mary Ritter of Natick was convicted of liquor selling. Mary Gallagher of Lowell was also convicted—fined $10 and costs and 20 days in the House of Correction. The cases of Wm. H. Armstrong of Boston (selling in Woburn) and Thomas Burns of Cambridge came back from the Supreme Court, and the parties were sentenced to fines each of $50 and costs and three months in the House of Correction.—Thomas Jones of Medford, Francis McQuaid of Lowell and David H. Fuller of Groton were all acquitted. All the cases above reported were for liquor selling.—Cornelius Murphy of Lowell charged with being a common drunkard, was acquitted. Allen Connor of Cambridge was convicted of keeping a disorderly house. Munroe Thompson of Natick was convicted of burglary and sentenced to three years in the State Prison. For assaulting an officer, Thompson got an addition of one year in the House of Correction. David H. Fuller is now on trial on a second case for liquor selling.—*Lowell News.*

☞ George Varney, formerly of Lawrence, and originally from Dover, N. H., has been arrested on suspicion of having set fire to the Methuen Hotel, of which he was landlord, by which fire a large part of that village was destroyed, a month or two since. Varney had an insurance on the hotel of $1,500, which he compromised with the company for $1,000. He then went to Boston and purchased a saloon for $700. Hardly had he commenced business when it proved to be mortgaged to another man, and his arrest for incendiarism followed soon after.

A WIFE BEATER.—John Rogers, who keeps a *saloon* in York street, Portland, was before the Municipal Court on Saturday, for ill-treating and abusing his wife, a neat and intelligent woman, who appeared and testified against her husband. It seems that he is a drunken fellow, and is in the practice of striking and kicking her with shameful cruelty and violence. The police have been repeatedly called to their residence by the outcries of the unhappy woman, and she has been often driven into the street and compelled to seek shelter and protection from her relatives. The immediate cause of his arrest, was following his wife down stairs and kicking her in the back.—*Adv.*

TIMES IN WORCESTER.—The Worcester Transcript says:

"The hard times are leading our manufacturers to keep their hands by working fewer hours, and at reduced rates. A large carpet manufacturing company in a neighboring town have reduced their wages 18 per cent. Two firms in this city, making machinery and tools, have reduced 20 and 25 per cent. Our largest manufacturers of wire offered, a short time since, to employ their hands on half time at a reduction of 15 per cent. on all wages over a dollar and a quarter a day, and 10 per cent. on all at and under that price.—The hands declined to accept the offer, and stopped working. Idleness has convinced them of their error, and they commence work to-day."

NEW CENTS.—Within three months just past, eight millions six hundred thousand new cents have been issued from the mint at Philadelphia, the total weight of which would be forty-three tons.

☞ Mr. Nathan Morrison was accidentally killed at Wolfboro, N. H., on Friday last, by being crushed beneath a rock. The deceased was thirty-eight years of age, and leaves a wife and three children.

ALCOHOL VS. STRYCHNINE.—Prof. Allen of Kalmazoo, writes in the Medical Independent, that it is alcohol, and not the poisonous drugs put into the liquors, which destroys the inebriate. Analysis fails to show the presence of these drugs in such quantities as to compare with the active effects of alcohol. Strychnine is put into the yeast to strengthen it, in making whisky, and promotes the entire conversion of the saccharine matter of the grain to alcohol, and while retained in the "slops" in sufficient quantities to kill swine who feed upon them, and fishes who swim in waters contaminated by them, chemical analysis proves that scarcely a vestige of the drug passes through the dead "worm of the still."

We have before us another paragraph, from the Louisville Journal, on a kindred subject, viz. diseased hogs.

We have been told that some of the distillers in the interior, whose hogs have died of cholera, have sold the carcasses to parties in Cincinnati for $2 each, who are rendering them into lard. It is to be hoped that the product will not be sold for food. It may be turned into lard oil or candles without injury.

Thus it seems that the strychnine stays in the beer and slops, and so poisons the beer-bibbers and the hogs, while the alcohol goes on into the whiskey, and burns up the drunkards.

ASTONISHING BOLDNESS.—The Boston Post of Saturday morning, not only has the enterprise to bring its Kansas comments down to so recent a point as the Convention schedule, but is actually so bold as to hint some doubts of the perfection of that instrument. After remarking that the practical effects of the schedule would be to impose the constitution on Kansas, till 1864, the Post says:

"Is not Governor Wise entirely right in his remark that, if Congress should aid and abet a convention in doing this, it would be intervening against non-intervention! Is he not right, too, in the position that a constitutional form ought not to be imposed on the people of Kansas? and that their sovereign power *as a State*, ought not to be snatched away from them even for a moment?"

We do hope, says the Boston Journal, that some Democrat will answer these questions in the affirmative, and thus do something towards encouraging such an unwonted display of nerve.

☞ Geo. Stovall, once a Baptist minister, ended a career of crime and debauchery on the 10th inst., at New Orleans, by murdering an Irishwoman named Mary Roy Duiand, with whom he lived. He was arrested and acknowledged the murder.

This Mr. Stovall must be one of the Hard Shell stripe.

NEW YORK, NOV. 24.—Messrs. Denniston, Wood & Co. made an assignment yesterday, to Mr. John Howe, for the benefit of all their creditors. It is not yet known what is the extent of their liabilities, but great confidence is felt that their creditors will be paid in full.

The suspension of Duthill & Co., and Hoge & Williamson, was precipitated by that of Denniston & Company.

High Testimonials

IN Favor of Professor Kelly's New Invention of WRITING.

The study of years reduced to a few hours, which is sustained by the most eminent and independent men in the Union, whose letters he holds in his possession, corresponding with the following statements, which is convincing proof of the extraordinary results produced by his new invention:

Rt. Rev. Bishop Clarke, of Rhode Island, says in his letter:—"I would give more for six lessons from Professor Kelly, than for sixty from any other teacher I ever knew."

Rev. Dr. Blagden and Ex-Mayor Seaver of Boston, Rev. Dr. Putnam of Roxbury, and Prof. Warren of Amherst College, have also given letters which Prof. Kelly holds, in testimony of the unquestionable results produced by this invention.

Rev. Mr. Ellis, of Charlestown, Mass., has certified by letter, to the very remarkable change produced by this invention, and says that the improvement in his son's hand-writing, resulting therefrom, had not only been very satisfactory, but wonderful; he therefore was pleased to admit of reference and application to him.

The above are only a few of the many testimonials which are in Prof. Kelly's possession, from some of the most eminent men in the Union.

Applications may be made to Prof. Kelley, through the Chronicle Office. s25 & 33

SPECIAL NOTICES.

The announcement that Mrs. Cunningham had committed suicide would cause a sensation.—But the fact that the Carminative has cured 1000 children of summer complaints produces no lasting impression. Mothers! Mothers!

DOUBT NOT!

We would not be so base as to deceive in a matter of such vital importance to our fellow man, nor trifle with what is so precious to us all, but speak advisedly and in all sincerity, when we say that in Dyspepsia and all its concomitants, in Scrofula, in all its varied forms, whether indicated by swelling of the glands, diseases of the skin or deformation, Myer's Extract Rock Rose will invariably mitigate the suffering, and in most cases effect a cure: it operates by changing the viscid humors, purifying the blood, thereby imparting vigor to the whole system. As a tonic, the Rock Rose is invaluable, hence its happy effects in all those diseases arising from impaired digestion. Get a Pamphlet.

☞ The only place in this city where an Ambrotype can be obtained, is at Davis' Ambrotype Gallery, No. 8 Daniel Street, as they have the Patent, and all infringements will be prosecuted. sept9

WE WISH TO SAY TO EVERY PERSON Who reads this that there is an article known as "Dr Sanford's Invigorator, or Liver Remedy," which can be relied on as certain to cure liver complaint in any of its forms, such as Jaundice, Dyspepsia, and numerous other complaints, described in another column, besides which it is one of the greatest preparations or cures for consumption, taken in early stages, that is now known.

We take it for granted, as experiment has proven, that diseases of the lungs are not generally the first cause of consumption, but a debilitated system, caused by the improper action of the liver, reluges the power of the lungs to resist or throw off diseases caused by cold and irritation, leaving the lungs at the mercy of one disease, because the liver has incapacitated them from performing their proper action of throwing off diseased matter caused by cold, that to prevent consumption, cure the liver, and keep the system strong enough to throw off slight diseases of the lungs.

There is not in the world a better liver remedy or cause for debilitated system, than "Dr. Sanford's Invigorator," for it has been fully tried in large and extended practice, till its results are fully known and now it is offered as a tried remedy, and one that can be relied on.

COURT OF COMMON PLEAS.

The Little case occupied the Court on Monday and Tuesday, in hearing testimony. The pleas will probably occupy the day Wednesday—and whether the jury will digest the case along with their thanksgiving dinner—or whether it will be hung up till Friday, we cannot say.

The case State vs. Alfred Pierce, for assaulting Mr. John G. Coult, last April, which was brought up by appeal from the Police Court of Portsmouth,—has been very wisely settled by payment of fine and costs, about $35, by the prisoner, who thus backs out. By this wise course the offender has saved the expense of a jury trial; has spared his witnesses the occasion of deeper and more deliberate falsehood; and avoided the more severe penalty to which he would have been extremely liable.

☞ At a meeting of the Mercantile Library Association on Friday evening, Nov. 20, the following resolutions were passed, referring to the death of SAMUEL SHEAFE, Esq., a late member of the Association:

Resolved, That by the recent death of Samuel Sheafe, Esq., this Association has lost a patron and benefactor,—one who has ever exhibited an interest in its welfare, and a correct appreciation of its object and influence, and who quietly and without ostentation has given liberally yet judiciously for its benefit.

Resolved, That a proper regard for the memory of the deceased should lead us, at the present time, to renew more vigorously our efforts to make this institution, in accordance with his well known wishes, a means not only for the diffusion of intelligence among the young men of our city, but also for the dissemination of those correct principles of mercantile life which give stability and success to business, and inspire the confidence of the community,—principles now so often forgotten, but characteristic of the old time merchants, whom the deceased so worthily represented.

Resolved, That in the loss which the family, and relatives of the deceased have been called to sustain, we respectfully tender to them the expression of our sincere sympathy.

JAS. W. TUCKERMAN,
Portsmouth, Nov., 1857. Secretary.

☞ Prof. Kelly, whose advertisement is in another column, brings the most abundant testimonials to his skill in imparting a knowledge of the principles of writing, and in correcting and improving the handwriting of a pupil, in six lessons, during which he does not put pen to paper with his own hand. It might seem impossible for him to do this; but he has numerous vouchers from among the best judges.

☞ We hope that the lecture committee of the Mercantile Library Association will extend during the season an invitation to Hon. TEN DOLLARS REWARD.—Having been very much troubled of late by newspaper thieves, we offer the above reward for such information as shall lead to the conviction of any person who has within thirty days, or may within thirty days to come, steal a copy of the Chronicle from the premises of any subscriber. We are determined, if it be possible, to punish this crime by either man or woman, and they may take warning in season; for we can assure them that though the value of a paper is small, the annoyance is unendurable, and it will be a winter's job for any fellow taken in the act.

THANKSGIVING EVE.—There is to be a grand Ball at Congress Hall this evening. The tickets are 'marked down' at an unusually low figure—yet the entertainment will be first-rate—good music, and everything in style, and of course there will be a large and genteel company.

☞ The Promenade Concert on Monday evening passed off finely, in spite of the storm. The Band played better than ever; and social pleasure reigned within, while the elements rained without. It seems as though Monday evenings are specially devoted to storms as well as Promenade Concerts; and to steer clear of this arrangement, the Band are to give an extra entertainment to-morrow (Thursday) evening. We wish them fair weather, and a full house.

STEAMBOAT DISASTERS.—*Cincinnati, Nov. 23.*—The steamboat Republican arrived here from Louisville on Saturday night. She reports that during the storm of Wednesday, sixteen coal boats sunk in the Ohio and Mississippi rivers, near Cairo. One hundred men were lost in them. The loss of coal is about 100,000 bushels, valued at $36,000. The crews were principally from Louisville and Pittsburg.

The steamer Gladiator reports that other boats, as far down the river as New Madrid, have been swamped and sunk.

Passengers from Evansville, state that the storm was terrific upon the lower Ohio, and that all boats had to tie up, not one being able to run.

The steamer Baltimore arrived from Marietta, last evening, and reports encountering a heavy gale at Parkersville, on Saturday. A heavy wind prevails here this morning.

The steamer Rainbow was burnt on the morning of the 21st, when ten miles above Napoleon. From fifty to seventy lives were lost, including all the officers. The boat's cargo, books and papers are a total loss.

P. M. The steamer Newcomb, which passed Cairo twelve hours after the Republican, does not confirm the loss of the canal boats.

FINANCIAL PROJECT.—*Philadelphia, Nov. 23.*—Before the Board of Trade, this evening, a proposition was discussed, commending to the consideration of the Legislature the project of a single department of issue, to which shall belong exclusively the privilege of issuing notes for the entire State, upon deposite of pledged securities, and specie in proportion—the deposit to be prohibited from issuing notes under $20. The stockholders to incur unlimited liability, and statements of the transactions and the condition of the department to be published.

An opinion was favored to call a Congress of business men, to have the said project adopted in every State.

HARTFORD CHARTER ELECTION.—*Hartford, Nov. 23.*—Our annual town election came off to-day. The Union Party elected four Selectmen to one Democrat.—The balance of the ticket is equally divided. A ticket nominated by the National Americans, containing names on each of the other tickets, controlled the election, none being elected except those who were on the American ticket. The election was warmly contested. The whole vote was about 3300.

NAVAL.—*Washington, Nov. 23.*—The U. S. sloop-of-war Saratoga arrived at Hampton Roads to-day, from Aspinwall.

The Powhattan went into commission to-day.

ST. LOUIS, Nov. 23.—Gov. Walker arrived here on Saturday, en route to Washington. There is nothing new relative to Kansas affairs.

WE HAVE no hesitation in saying, that Consumption can always be alleviated, and in a great many cases completely cured, simply by the use of Dr. Wistar's Wild Cherry Balsam. Its soothing and healing influence over the diseased organs is truly wonderful. †††

The Great English Remedy.
SIR JAMES CLARKE'S
Celebrated Female Pills.
Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females that are pregnant, during the FIRST THREE MONTHS, *as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.*

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysteria, and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or any thing hurtful to the constitution.

Full directions accompany each package.

Sole Agent for the United States and Canada
JOB MOSES,
(late I. C. HALWDIN & CO.,) Rochester, N. Y.

N B.—$1 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle of the Pills by return mail.

For sale, wholesale and retail, by W. R. PRESTON, Portsmouth, and by Druggists in every town in the United States.

MOSES & DOWNIE,
SOLE Agents for the above Goods, have on hand a large Stock of the same, suitable for shore and sea wear

These fabrics, since their first introduction to the public, (almost three years since,) have been fully tested, and the result has proved them to possess all the qualities requisite to make a perfect article. They have on hand numerous testimonials from gentlemen in the navy and merchant service, which they would be pleased to show any one who would favor them with a call. They have been supplying some of the officers of the Falmouth, who have tested the Rubber goods, and found them unfit for sea service.

REMOVAL.

E. Green & Co., Merchant Tailors,

HAVE just made great improvement in their CLOTHING ESTABLISHMENT.

It gives them great pleasure to announce their thankfulness to the people of this city and neighboring towns, for their kind patronage; through which, and their own facility of selling cheaper than any other establishment, we were enabled not only to increase our Stock to a great extent, but to accommodate our increased and increasing custom, we have obtained the large and commodious store,

No. 54 Market st., cor. of Hanover St.

opposite the Union Store. Said Store is more than double the size of our former establishment; we assure all who may favor us with their custom a courteous treatment and the value for their money. All who are in want of clothing, are invited to call and see whether our statement is true.

A variety of

Trunks, Valises, Carpet Bags, Oil Suits, &c., &c.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interest of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, and orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme, one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; cash paid on being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount that each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer* and New York *Weekly Day Book*. Write your address plainly, and direct to S. SWAN & Co., Augusta, Georgia.

Prizes paid in full; no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m181y

LOTTERIES.

The well-known MARYLAND Consolidated Lotteries, of which R. FRAZER & Co are the managers, are chartered by the state of Maryland, and a commissioner, elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day at Baltimore. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Nassau combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C. Address R. FRAZER & CO.,

A BEAUTIFUL HEAD

OF RICH GLOSSY HAIR,

Completely Preserved

TO THE GREATEST AGE.

AND who that is gray would not have it restored to former color; or bald, but would have the growth restored; or troubled with dandruff and itching but would like it removed, or troubled with scrofula, scald head, or other eruptions, or with sick headache, (neuralgia) but would also gladly have the disease cured and removed from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following.

ANN ARBOR, November 5th, 1856.

PROF. O. J. WOOD—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often deceived by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the same category with the one thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months since, when you gave me such assurance as induced the trial of your Restorative, by my wife—first, by her good wife, whose hair had become very thin, and entirely white; and before exhausting one of your large bottles, her hair was restored nearly, to its original beautiful brown color, thick and thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply because of its beautifying it effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore my skepticism and doubts in reference to its character and value are entirely removed; and I can and do most cordially and confidentially recommend its use by all who would have their hair restored from white or gray, (by reason of sickness or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.

Very truly and gratefully yours,
SOLOMON MANN.

FRIEND WOOD: It was a long time after I saw you at Blissfield before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you assured me it would do; and others of my family and friends having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration for beautifying it.

Again, very respectfully and truly, yours,
SOLOMON MANN.

CARLYLE, ILL., June 29, 1852.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its effects. My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and I have no doubt it will do so.

STOVES.

Frank Jones, No. 61 Market St.,

HAVING received his Winter Stock of Stoves, is now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:

IMPROVED EMPIRE STATE.

This celebrated Cooking Stove having been in the market many years, it can well be said to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.

THE WHITE MOUNTAIN IMPROVED,

being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.

THE REPUBLIC.

This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.

All sizes on hand, and every Stove warranted.

Also on hand all the different kinds of the most approved patterns; among which are the

BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.

Repairing Pieces of all kinds on hand.

The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.

Our stock of

PARLOR STOVES

is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the

ILION, VILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,

OVEN PARLORS in great variety for wood or coal. SHEET IRON STOVES of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different Patterns.

The attention of all who are in want of good Stoves at a low price, is invited, for we are determined sell lower than any other establishment in the vicinity.

Remember the place to buy cheap is at

No. 61 Market Street.

FRANK JONES.

Magee's Patent Ventilating Stove.

FOR WARMING AND VENTILATING

PARLORS, OFFICES, HALLS, STORES,

SCHOOL HOUSES, &c.

WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give

Any amount of Heat required,

and unlike all other Anth soite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and at none of the air which comes in contact with the fire pot is used for respiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.

These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them.

For Offices and Stores as well as the Parlor.

The Inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours without replenishing, and thus leaving fire enough to rekindle without the use of charcoal. The coal is all used, and no clinkers made, consequently, sifting coal is dispensed with. When this Stove is properly managed,

THE FIRE MAY BE CONTINUED THROUGH

THE ENTIRE SEASON,

without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 30 to 50 per cent, in fuel expense.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience in this branch of business.

THIS is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance where the Pills proved unknown. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, giving health and vigor, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular: and whenever an obstruction takes place, whether from cold, exposure, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spasmodic affections in the back and limbs, hysterics, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called "the whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from any thing injurious to life or health. A pamphlet with directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to DR. C. L. CHEESEMAN, Box No. 4231, Post Office, New York City, can have them sent to their respective addresses by return of mail.

Cold Winter is Coming on.
AND with it will return the usual concomitants, a Cough, Cold, Dyspepsia, Scorbutic Eruptions, Sick Headache, Rheumatism, Tetter, Ring Worm, &c., which the genial warmth of summer and free perspiration has, for a time relieved, but which the rigors of rigid, cheerless winter, will bring back, unless resisted by some medicamentum.
MYER'S EXTRACT OF ROCK ROSE,
is peculiarly applicable, and if freely used will not fail to protect the constitution against the sudden and extreme changes of our varying climate. It purifies the blood, strengthens the stomach, and invigorates the whole system, thus fortifying against the insidious attacks of unusual frosts and debilitating heats. See Circulars.

S. D. & H. W. Smith,
—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,
No. 511 Washington St., Boston.
The first premium over all competitors, at the Fair of the Mass Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.
By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized this instrument, and giving the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.
THE PEDAL BASS MELODEONS,
Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by one of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently powerful to fill a house that seats from 1000 to 1500 persons.
THE ORGAN MELODEON
Is designed for parlor and private use. The construction is similar to the Church instrument, being arranged with two banks of keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church instrument when used without the pedals. Also, every variety of Melodeons for Parlor use.
Purchasers may rely upon instruments from our Manufactory being made in the most complete and thorough manner. Having removed to the spacious Buildings
511 Washington Street,
We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an Instrument which is not superior, to any Manufacturer, and guarantee *an entire and perfect satisfaction.*
Dealers in Music, Teachers, Choirs, and others interested in musical matters, are respectfully invited to visit our Room at any time and examine for themselves the instruments on exhibition for sale at the lowest prices.
As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we have leave to refer, by permission, to the following
Piano Forte Manufacturers of Boston,
who have examined our Instruments, and will give their opinion to any inquiring inquirer:
Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.
MELODEONS RENTED.
Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.
Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and the instrument executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

Remedy for Worms.
THE diseases of children are often so complicated that it is difficult to ascertain the true nature of their complaint. In a large majority of instances, they are induced to the existence of WORMS—the prominent symptoms of which are, paleness of the countenance, loss of or irregular appetite, starting up and crying out in their sleep, picking at the nose, great thirst, a wasting away of the flesh, &c. These symptoms should be early attended to, as by neglect it often terminates in convulsions and death.
PRESTON'S WORM SYRUP
is the most effectual remedy ever used. It is pleasant to take, perfectly harmless, and is warranted in every case to give satisfactory results.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.
INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY, and has but ONE AIM—accomplishes but ONE THING, to wit: SUBDUE INFLAMMATORY DISEASE—whether in the head—throat—lungs—heart—liver—bowels—throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as a thirst is quenched by water. It is asked, how it does this? simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely the application to the point of an old dipped into a solution of it, to affect the entire system.
☞ *Its importance relies, the enlightened community, and not the discoverer, must be the judge.*

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk
Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand made spike of ancient English iron, and inferior to nothing of the kind yet introduced to the public.

THURSDAY, NOVEMBER 26, 1857.

THANKSGIVING.

For the fruits of the earth, in their variety, abundance, and excellence, the people of New Hampshire this day, have great occasion for thank-offerings, due to the Giver of Every Good and Every Perfect Gift.

For the blessings of good government, imperfect though it be, few States have more reason to be thankful. For the diffusion of virtue and intelligence, and for general prosperity, there is good and great reason, to give thanks.

True, our people are not all intelligent, nor all virtuous;but many are so. Nor are all prosperous, nor any quite so independent of God or each other, as some seemed to think they were a few months ago.

But does any man deplore the bursting of a transparent bubble? No wise man should do so. Reverses may be terrible; to some men they are really dreadful. But if any sober thinker will take counsel of Paul, he may not only see, but meet reverses, like a christian hero, or like the patient Job. The time is short, the fashion of the world passeth away, says Paul,—therefore let those who buy be as though they possessed not—they that use the world as not abusing it.

Shall we receive good at the hand of the Lord, and shall we not also receive evil?—asks Job of his wife, when she bade him curse God and die. Nay, nay, quoth he, the Lord gave, and the Lord hath taken away;—blessed be his name.

In this spirit, would we keep Thanksgiving,—grateful and joyful for what we have,—grateful and submissive for what we have lost,—of friends, possessions, or prospects,—because we are conscious of an ever present, over-ruling Providence, whose tender mercies are over all his works, and whose mercy endureth forever.

Trusting in his beneficence, his wisdom, his power, his goodness, we may rejoice today, that He who feeds the birds of the air will feed us, and that He who watches the sparrow's fall, will take care of us and of ours, who are of more value than many sparrows.

☞ The U. S. practice-ship Plymouth has arrived in the Potomac, from her summer's cruise. During her absence, she has visited England, Holland and Portugal.—The practice with the heavy cannon has been very satisfactory, and the experience gained will be usefully employed when fitting the new steamers with their batteries. It is said to be generally thought on board that we have very little to learn in this country from Europe in regard to the manufacture and working of ordnance, especially in the manufacture. The Plymouth will go into winter quarters at the Washington Navy Yard, but will continue the practice with the view of turning out good captains of guns for the Navy generally.

Liquor Sellers Prosecuted.—Quite a number of liquor sellers were prosecuted at the Court of Common Pleas in Franklin county, Mass., last week. It seems that a young man of Greenfield, who became a victim of the rum traffic, was convicted and sent to the House of Correction for six months. The father of this young man determined to rid the place of the liquor traffic, and commenced the assault upon the sellers. The grand jury, while investigating the case of the young man referred to above, found that several citizens of the country towns had been supplied with liquor and, in some cases, their money had been stolen. One man from Rowe was taken with delirium tremens, and remained for some time in a very precarious situation. These facts decided the jury to make an immediate assault upon the liquor traffic. Among the sellers who were found guilty last week, were Henry S. Robbins, Chas. Thrasher, one Zederie, Louis Furst, and John H. Morehouse. We are informed that there is a determination on the part of the temperance men to uproot the traffic in that county. It will be remembered that this is the only county, except Suffolk, where the juries have not agreed.

☞ John C. Breckenridge, Vice President of the United States, has sold his residence in Lexington, Ky., to Rev. W. C. Dandy, of Maysville. Washington will, for some years at least, be the residence of Mr. Breckinridge.

☞ The receipts of the New York Bible Society the past year have been $18,700—a diminution as compared with previous years. The society has, however, been able to meet all its engagements, and donate $1000 to the American Bible Society

Riches.—Pitiful! that a man should so care for riches, as if they were his own; yet so use them, as if they were another's; that when he might be happy in spending them, will be miserable in keeping them; and had rather, dying, leave wealth with his enemies, than, being alive, relieve his friends.

Pitiful indeed; but all rich men are not in this class. Some are always liberal, and friendly in relief of others. Covetousness is an evil; wealth is a good, if a man have a heart to use it aright.

☞ Our readers will see, by a notice in this day's paper, that a State Temperance Convention has been called, by the Committee, to meet at Manchester, on the fifteenth day of December.

It is to be hoped that a delegation may be present from every part of the State, so that a concert of action may be enjoyed in every christian effort to promote temperance.—It is desirable to know the success or the failure of efforts, moral or legal, to diminish the dreadful evils of intemperance,—and from this knowledge, to shape our future course. We hope the meeting will be well attended.

☞ Rev. Charles Beecher has just been installed pastor of Congregational church at Georgetown, Mass. The Sermon was by Rev. Prof. Stowe, of Andover. Rev. John Pike of Rowley, extended the Right Hand of Fellowship; the choir sang an original hymn written by Miss Henrietta Holt, when Rev. Dr. Withington of Newbury addressed the people. He dwelt chiefly upon the duties of minorities, and was very happy in remarks suited to the occasion, since there was not a unanimous call to the pastor.

☞ The Court of Common pleas, at Lawrence; Ms., adjourned Monday, sine die, having sentenced Whittier and Sargent of Haverhill, Michael Bird of Andover, and Thomas O'Reilly, of Lawrence, to the House of Correction, as common sellers of spirituous liquors.

A Bad Editor's Influence.—The Cumberland Presbyterian, published at Pittsburg, Pa., announces that in consequence of the deleterious influence upon that journal, resulting from the conduct of Rev. Mr. Simpson, one of its editors, who was recently deposed from the ministry for seduction, it has become necessary to remove the paper into the country, to maintain even a nominal existence, so great has been the falling off in the patronage before extended to it.

The Burlington (Vt.) Sentinel says that the amount of butter produced the present season in the dairy counties of that State, exceeds that of any previous year by about one-third.

Henry A. Wise on Kansas.—In his recent letter to the democrats of Virginia, Gov. Wise says:

"If a majority of legal voters are opposed to the plan of govenment proposed by the Convention, their voices ought to prevail; a constitutional form ought not to be *imposed upon them*, and cannot be but for a day, and their sovereign power ought not to be snatched away from them even for a moment. If Congress should aid and abet a Convention in doing so, would not Congress be intervening against non-intervention?"

Burning of the Rainbow.—*Cincinnati, Nov. 24.*—We have further particulars of the burning of the steamer Rainbow. She had 347 passengers on board, including a large number of coal boatmen on the deck. The fire is attributed to incendiarism on the part of some of the deck passengers. The total loss of lives is estimated at 75. When the fire was discovered the boat was run ashore, where she burnt to the water's edge. The wind at the time of the discovery of the fire was blowing a stiff gale, so that in a very short time the whole boat was enveloped in flames. The steamer Minnehaha, from New Orleans, carried the saved to Memphis. All the steamer's books were destroyed, so that no list of the passengers can be furnished. All the officers of the boat were saved.

We learn that a man by the name of Frank Bean, living at Franconia, was thrown out of his wagon, on Saturday last, between North Lisbon and Franconia, while intoxicated, striking on his head, breaking his neck. He was dead when found.—*Littleton Banner.*

We occasionally hear a simpering, double refined young lady boasting that she never labored; and could not, for the life of her, make a pudding, as though ignorance in these matters was a mark of gentility. There can be no greater proof of silly arrogance than such remarks.

The wife of the Duke of Nemours, a son of Louise Phillippe, died at London on the 9th inst., a few days after her accouchement. The Duchess was a German princess, cousin to Queen Victoria. She was born in 1822, married in 1840, and has had three children, two sons and a daughter, and after an interval of eleven years, the infant whose birth preceded by only ten days the decease of its mother.

3 DAYS LATER FROM EUROPE.

ARRIVAL OF THE VANDERBILT.

Sr. Johns, N. F., Nov. 23, Via Halifax and Quebec.

Steamship Vanderbilt, from Havre via Southampton 14th inst., was signalized off Cape Race at 4 P. M., on the 22d, by the news yacht of the Associated Press, and the news dispatch obtained, and forwarded by telegraph via Quebec and Portland to Boston and New York.

The news from England is highly important. The despondent condition of monetary matters on the departure of the Atlantic, resulted on the following day in a fearful panic. All the banks refused discounts in any shape, but in the afternoon, however, appeared most opportunely the Treasury letter, suspending the Bank Charter Act, and authorizing the issue of notes to any amount on approved securities.

The effect was instantaneous, and the panic ceased as if by magic. At Liverpool, Manchester, Glasgow, and other important cities, the news was received with furious acclamations.

Cotton and all kinds of produce immediately enhancing in value, the greatest anxiety was felt on the departure of the Vanderbilt to secure this important intelligence before the arrival of the Atlantic at New York.

The occupation of Delhi by the British forces is fully confirmed.

The loss of the British was immense.—Several British officers, including Gen. Neill, were killed.

The mutineers were pursued from Delhi by the British troops.

The connection between Cawnpore and Lucknow was still interrupted.

The latest advices from Australia state that the ship Dunbar was wrecked off Sydney, and 144 passengers were lost, together with the whole crew, with the exception of one seaman.

It is reported the British Parliament is to meet immediately.

Throughout England there was great monetary excitement. The suspension of the City of Glasgow Bank, and several additional commercial failures are announced. The following are the most important: Sanderson, Sandman & Co., of London; Grunaraar & Co., of Paris; Wilson, Morgan & Co., wholesale stationers, of London; Fitch & Skeet, provision merchants, of London; Coddington & Co., iron merchants, of Liverpool; Mackenzie, Ramsay, & Co., merchants, of Dundee;—Draper, Picton & Co., of London; Kalman, Grenel & Co., of Liverpool; Ban, Broddice & Co., of London; Munroe, Grant & Co., lumber merchants, of Swansea; Storgman & Co., manufacturers, of Nottingham.

There has been a great money panic in Scotland, with a heavy run on the banks.

The public feeling at Manchester, Bristol, Edinburgh, &c., was much improved on learning that the government had authorized the Bank of England to extend its issue of notes.

Latest India Intelligence.—The exact amount of the British loss is not known, but it is believed to be 1150 killed and wounded, including 60 officers.

Scindin had brought the mutineers of the Gwalior contingent under his control, by arraying against them his own troops and 10,000 Thakoors, cutting of their supplies, &c.

There is division and dissension among the mutineers, who were asked for aid by a Shah Sadah from Delhi on the one hand, and a commissary from the Nena on the other.

It was reported that Lucknow, which had been relieved on the 25th of September, was again besieged by Nena, with 50,000 rebels.

All the citizens of Delhi found in the city after its capture, were bayonetted by the British troops.

Some Europeans were discovered at Delhi, fighting on the side of the mutineers.

Liverpool Breadstuffs Market, Nov. 13.—Breadstuffs generally have a declining tendency, and a slight decline has been experienced in all qualities. Flour is dull, with a decline of 6d a 1s since Tuesday.—Wheat is also dull, with a decline of 2 a 3d on the middling and lower grades. Corn is also dull, and all qualities have declined slightly. The quotations are: Flour—Western Canal 26 a 27s; Philadelphia and Baltimore 27 a 29s; Ohio 29s. Wheat—Red 6s 3d a 7s 6d. Corn—White 40 a 41s.

The Grave at Cawnpore. An intelligent officer of engineers, who is a near relative of seven of the Cawnpore victims, says:—"There is some talk of raising a monument over that well. They don't understand the natives or they would do nothing of the sort. What does a Hindoo care for a marble pyramid or obelisk? Now what they should do is this,—build above that well a Christian temple, as small as you like but splendid, so that after generations of Christians shall say to as many generations of Mahomedans or Hindoos, 'Look here! On this spot your fathers wrought the blackest of their deeds to get rid of Christianity from India. See what came of it. Christian rites are now celebrated and Christian worship presented on the very site of that well, and above the ashes of 200 martyrs.' What an illustration this would be for coming ages to witness of the sacred truth—'He maketh the wrath of man to praise him-'"—*Manchester Paper, Oct. 31.*

Dangerous Counterfeit—Look Out.—Counterfeit 10's on the Gloucester Bank, Mass. Vignette wharf and shipping, figure 10 and letter X on right hand corners. Ship in a circle between T E N on left.—There are two kinds, one on white paper and the other of a yellow tint, remarkably well done, but totally unlike the genuine.

Dover, N. H., Nov. 24.—At the Municipal election held in this city to-day, the Republicans have carried all the Wards, electing their Mayor by 150 majority.

☞ Orders have been received at the Philadelphia station, to have the sloop-of-war Jamestown put in readiness with all possible dispatch. Capt. C. H. A. H. Kennedy has been ordered to her.

The Portsmouth (Va.) Transcript hears "that orders have been received at the Norfolk Navy Yard, to have the U. S. sloop-of-war Marion and the brig Perry fitted for sea with all possible dispatch. We conclude that their destination is Nicaragua, and the object in view the enforcement of our stipulations with the government as well as to compel the fulfilment of her obligtions to the United States."

Liquor Selling.—The Boston Herald says, in relation to the car load of liquor sellers, who were committed to the county house in Ipswich, some time since:

"In proportion as the county houses are filled by infractors of the liquor law, the alms-houses fill up. The men generally singled out for prosecution are the poorest in society, and their families have to become burdens on towns during their incarceration."

The Boston Herald reverses the truth—it is the selling that fills almshouses. The city of Newburyport pays ten thousand dollars annually to the support of the paupers who are made so by intemperance,—The dram shops make paupers every year, every month, and every week, grinding them out as a legitimate business; and the keepers might as well have their own families in the alms-houses, as to send others. It is not true that the poorest are singled out. We know one convicted at the last term of court, who is worth $25,000, at least; and some taxed for more than that amount, have worn the regimentals of the county house at Ipswich.

The Boston Herald has great sympathy for the female convicts:

"One of the features of the law is specially obnoxious—that is the imprisonment of women—mothers of families. If we are not much mistaken, we saw a woman (with her four children) in durance in Plymouth County House of Correction, last winter, on a charge of liquor selling; and, we think, several other women, with portions of their families with him, in the same prison."

The woman that will debase her nature by making drunkards of other women's husbands, and other mothers' sons, passes out of the reach of such sympathy; and as to her children, they are a thousand times better off in the prison than in the grog-shop—better off in the grave than in the grog-shop. A dram-selling women is a moral monster, and deserves double punishment.—*Newburyport Herald.*

☞ Sugar is selling in the New Orleans market at 4 1-2 cents per pound, and molasses at from 18 to 20 cents per gallon.

High Testimonials

IN Favor of Professor Kelly's New Invention of WRITING.

The study of years reduced to a few hours, which is sustained by the most eminent and independent men in the Union, whose letters he holds in his possession, corresponding with the following statements, which is convincing proof of the extraordinary results produced by his new invention.

Rt. Rev. Bishop Clarke, of Rhode Island, says in his letter:—"I would give more for six lessons from Professor Kelly, than for sixty from any other teacher I ever knew."

Rev. Dr. Blagden and Ex-Mayor Seaver of Boston, Rev. Dr. Putnam of Roxbury, and Prof. Warren of Amherst College, have also given letters in which Prof. Kelly holds in testimony of the unquestionable results produced by this invention.

Rev. Mr. Ellis, of Charlestown, Mass., has certified by letter, to the very remarkable change produced by this invention, and says that the improvement in his son's hand-writing, resulting therefrom, had not only been very satisfactory, but wonderful: he therefore was pleased to admit of reference and application to him

The above are only a few of the many testimonials which are in Prof. Kelly's possession, from some of the most eminent men in the Union.

Chronic Diarrhea.
Colebrook, Aug. 19, 1853.
Rev. A. B. L. Myers: Dear Sir—I have used the bottle of Extract of Rock Rose you left me for Chronic Diarrhea, and found great benefit from it. It is now all gone, and I dislike to be out of it at this sickly season of the year; therefore, I wish you would send me a bottle as soon as possible. Respectfully, yours,

☞ The only place in this city where an Ambrotype can be obtained, is at Davis' Ambrotype Gallery, No. 8 Daniel Street, as they have the Patent, and all infringements will be prosecuted. sept9

WE WISH TO SAY TO EVERY PERSON Who reads this that there is an article known as "Dr Sanford's Invigorator or Liver Remedy," which can be relied on as certain to cure liver complaint in any of its forms, such as Jaundice, Dyspepsia, and numerous other complaints, described in another column, besides which it is one of the greatest preparations or cures for consumption, taken in early stages, that is now known.

We take it for granted, as experiment has proven, that diseases of the lungs are not generally the first cause of consumption, but a debilitated system, caused by the improper action of the liver, reduces the power of the lungs to resist or throw off diseases caused by cold and irritation, leaving the lungs at the mercy of one disease, because the liver has incapacitated them from performing their proper action of throwing off diseased matter caused by cold, thus to prevent consumption, cure the liver, and keep the system strong enough to throw off slight diseases of the lungs.

There is not in the world a better liver remedy or acure for debilitated system, than "Dr. Sanford's Invigorator," for it has been fully tried in a large and extended space, till its results are fully known and now it is offered as a tried remedy, and one that can be relied on.

MERCANTILE LYCEUM. — In yesterday's Chronicle there was a suggestion from S. W. C., that the Mercantile Association get Hon. Edward Everett to deliver his oration on Washington. It is the intention of the Lyceum Committee to have the oration delivered here, if possible, during the coming winter or early in the spring, but as the oration is not intended for Lyceum, the Committee desire first to get up a good and successful course of Lyceum lecture; and having been successful, they will of course, feel encouraged to get Mr. Everett.

The Course will begin on next Tuesday evening, Dec. 1, and the first evening's entertainment will be worth the price of the season ticket. It would seem that every body, who ever attended a Lyceum lecture, would desire to hear Albert Laighton read a poem, and Mrs. Wentworth sing some of her best songs.

The Committee have recently advertised the name of Hon. Rufus Choate, in their list of lecturers; they delayed placing his name on their list, that they might be made quite sure of his coming. Mr. Choate has relatives in Portsmouth who kindly lent their aid to the committee in securing his services, and it is considered quite certain that persons who purchase tickets, expecting to near Mr. Choate, will not be disappointed. The Committee will use all the means in their power to secure the services of Hon. Caleb Cushing for one of their lectures.

This will be the only course this season, and if the public sustain the Mercantile, the latter pledge themselves to satisfy the demands of every reasonable person. Their tickets are for sale at the different bookstores, and enough have now been disposed of to warrant good success.

COURT OF COMMON PLEAS.

On Wednesday, after hearing all the testimony on both sides of the Little Case, the Court adjourned over to Friday.

☞ Devoting this day to public worship and social festivity, we shall issue no Daily Chronicle on Friday. The Weekly will appear as usual.

☞ This being one of the days which custom has selected, on which one may receive presents without taking umbrage, our office will be open until 11 o'clock, for the purpose of accommodating those who may desire to present us with some slight token of their esteem.

Our friend J. C. Carr, wishing to see the press polished in its boots, if not manners, has favored us with a fine brush and the blacking to match; so if we don't appear bright and shining, it will be our own fault.

Chas. C. Harvey, from his variety of new music, has sent us, "The Trapper's Song," by T. Nichols Crouch, with a fine lithographic title page.

The Mercantile Lyceum Committee also appear posted in the courtesies of life, as we are in receipt of tickets to their course of Lectures, which begins on Tuesday evening next.

☞ The Leather Preservative advertised by Mr. J. C. Carr is getting to be the standard article to lubricate leather; and has driven most others from the market.—We have had several calls for it at our office; and have been inquired of concerning "our blacking" much oftener. We don't "keep" it—because it gets used up—but Mr. Carr will supply it in any quantity.

F.

☞ Why don't everybody use the anti-kick-up-a-dust rock-the-cradle Coal Sifter, for sale by Uriah Blaisdell, Merchants' Row? There's nothing like it. It saves half your coal, all your dust, and don't touch your lungs or your patience. Try it.

☞ The Annual Meeting of the Rockingham County Agricultural Society takes place at Exeter on Friday next, the 27th inst. We hope Portsmouth and vicinity will send a good delegation to help choose the officers, and arrange the other business for the coming year.

TO NEW SUBSCRIBERS.—For $4, we will furnish the Daily Chronicle from this time to Jan. 1, 1859.

For only $1, we will supply the Weekly Chronicle from the present date to Jan. 1, 1859.

☞ The Atlantic Monthly for December is just received by J. H. Foster.

FROM MEXICO.

NEW ORLEANS, Nov. 24.—The steamship Tennessee has arrived here from Vera Cruz with dates to the 21st, and from the city of Mexico to the 19th.

The country was in a distracted condition, and another general revolution was impending. Resolutions were pending between the revolutionists and General Santa Anna, whom they intend for President.

Of the passengers by the Tennessee there are twenty-three political exiles.

MARRIED.

WASHINGTON, Nov. 24.—(N. Y. Herald correspondence.)—Orders were issued today from the War Department for two columns of troops, one from California and the other from Oregon, to proceed to Utah as soon as the necessary subsistence for them can be obtained.

The President in conversation to-day with gentlemen on Kansas affairs, stated unequivocally that he endorsed the action of the recent convention. He stated a fact which is not generally known—that 43 out of 52 members of the Convention signed the constitution, and those who refused to sign it were ultra pro slavery men.

WASHINGTON, Nov. 24. (Tribune correspondence.)—A dispatch has been received here from gentlemen intimately associated with Gov. Walker, saying that up to the 20th he had reserved committing himself regarding the action of the Constitutional Convention in Kansas.

The President will approve its proceedings fully. He will contend in the message that the question of slavery has been submitted fairly to the people, and that the present mode is the only one for attaining its settlement. The message on this point is under deliberation, but will be determined this week to the satisfaction of the southern wing of the Cabinet.

STATE TEMPERANCE CONVENTION.

The next annual New Hampshire State Temperance Convention will be held at Smyth's Hall, in Manchester, on Tuesday, Dec. 15, at ten o'clock, for the choice of officers, and for the transaction of other important business connected with the interests of the cause in the State. Will not the friends of Temperance gather in large numbers, to consider the best means of carrying forward this enterprise at the present time? Much has been done, but still the work is not accomplished. We wish to see delegations from as many towns as possible. Let us have a great gathering of the working men, and lay our plans, and then let us carry them forward, till rumselling, with all its terrible results, is driven from our State. Among the speakers expected to be present and address the convention, are the Rev. Messrs. Whiting, Lamson and Hall, of Portsmouth; Prof. J. G. Hoyt, of Exeter; Rev. Mr. Holman of Great Falls; Rev. Mr. Hartwell, of Nashua; as well as many other active friends from different parts of the State.

T. T. ABBOTT, *President.*
J. W. RAY, *Secretary.*

WE HAVE no hesitation in saying, that Consumption can always be alleviated, and in a great many cases completely cured, simply by the use of Dr. Wistar's Wild Cherry Balsam. Its soothing and healing influence over the diseased organs is truly wonderful. ttt

MOSES & DOWNIE,

SOLE Agents for the above Goods, have on hand a large Stock of the same, suitable for shore and sea wear.

These fabrics, since their first introduction to the public, (almost three years since,) have been fully tested, and the result has proved them to possess all the qualities requisite to make a perfect article. They have on hand numerous testimonials from gentlemen in the navy and merchant service, which they would be pleased to show any one who would favor them with a call. They have been supplying some of the officers of the Falmouth, who have tested the Rubber goods, and found them unfit for sea service.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with them is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all numbers being on sale for the whole year, and to the place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Whole tickets, $5; half, $2 50; quarters, $1 25. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and we so arrange that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prices vary from $40 to $50, only one prize in each lottery, and results drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the Wheel with the name of the place it was drawn to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile Register, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York *Sunday Day Book*. Write your address plainly, and direct to S. SWAN & Co., Augusta, Georgia.

Prizes paid in full, no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18ly

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCIS & Co. are the managers, are chartered by the State of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special act in that state. A lottery is drawn every day of the week. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prize vary in amount from $20 to $100 00. All orders for tickets or packages will receive prompt attention, and the drawings mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published in the State Commissioner's in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

A BEAUTIFUL HEAD OF RICH GLOSSY HAIR,

Completely Preserved

TO THE GREATEST AGE.

AND who that is gray would not have it restored to former color? Who bald, but would have the growth restored; or troubled with dandruff and itching but would have it removed, or troubled with scrofula, scald head, or other eruptions, or with weak, brittle, or thin hair, but would be cured. It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following.

ANN ARBOR, November 6th, 1856.

PROF. O. J. WOOD Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dyes, &c., I did not intend to place your Restorative in the same category with the one thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months since. then you gave me assurances of the beneficial effect of your Restorative in my family—first, by my good wife, whose hair had become very thin, and entirely white; and before completing the one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and scalp. Dozens of my family and friends are using your Restorative, with the happiest effects; therefore my elegant and double improved second bottle (larger and more valuable by one third than the first bottle or gray, (by reason of its improvements or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.

Very truly and gratefully yours,

SOLOMON MANN.

FRIEND WOOD: It was a long time after I saw you at Hillsdale before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you assured me it would do; and others of my family and neighbors who witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.

Again, very respectfully and truly yours,

SOLOMON MANN.

CARLILE, ILL., June 28, 1852.

I have used Prof. O. J. Wood's Hair Restorative, and consider it its effect. My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and I have no doubt permanently

STOVES.

Frank Jones, No. 61 Market St.,

HAVING received his Winter Stock of Stoves, is now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:

IMPROVED EMPIRE STATE,

This celebrated Cooking Stove having been in the market many years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.

THE WHITE MOUNTAIN IMPROVED,

being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.

THE REPUBLIC.

This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.

All sizes on hand, and every Stove warranted.

Also on hand all the different kinds of the most approved patterns, among which are the

BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.

Repairing Pieces of all kinds on hand.

The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.

Our stock of

PARLOR STOVES

is complete, comprising the most desirable pattern in the market for either wood or coal—among which are the

ILION, VILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,

Over PARLORS in great variety for wood or coal. Sheet Iron Stoves of all sizes, with or without furniture. Also, Office, Hall, Shop and Store Stoves of different Patterns.

The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.

Remember the place to buy cheap is at

No. 61 Market Street.

FRANK JONES.

Magee's Patent Ventilating Stove.

FOR WARMING AND VENTILATING

PARLORS, OFFICES, HALLS, STORES,

SCHOOL HOUSES, &c.

WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give

Any amount of Heat required,

and unlike all other Anth acite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air at once moist, pure and agreeable, free from of the air which comes in contact with the fire pot is used for respiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.

These Stoves are beautiful in design, and finished in the most perfect manner. They are especially appropriate, and have given universal satisfaction to all who have adopted them.

For Offices and Stores as well as the Parlor.

The Inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and these having fire enough to rekindle without the use of charcoal. The coal is all used, and no clinkers made, consequently, nothing coal is dispensed with.—When this Stove is properly managed,

THE FIRE MAY BE CONTINUED THROUGH

THE ENTIRE SEASON,

without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 50 to 50 per cent, in fuel expense.

AMERICAN HOUSE,

BOSTON.

Re-establishment of the old Plan of management.

LEWIS RICE, Proprietor, respectfully announces that he has resumed the duties of management, as it existed before the recent alteration. Trial of the European system in *this Hotel*, proves that although the advantages are great, yet the plan is better adapted for the *gentlemen's* hotels.

The accommodations and conveniences of the House are unsurpassed, and the recent improvements and alterations, for the comfort of guests, leave nothing to be desired.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THIS combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance where the Pills proved successful. They are certain to overcome those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and sickly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and wherever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, fevers of spirits, hysterics, &c. For when they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during the pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to DR. C. L. CHEESEMAN, Box No. 4581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

S. D. & H. W. Smith,

—MANUFACTURERS OF—

Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,

No. 511 Washington St., Boston.

The first premium over all competitors, at the State of Mass Charitable Mechanic Association, the National Fair at Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1500 to 2000 persons.

THE ORGAN MELODEON

Is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an Instrument equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon:

Chickering, Mason & Hamlin, Hallet & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment if the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instrument before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

Remedy for Worms.

THE diseases of children are often so complicated that it is difficult to ascertain the true nature of their complaint. In a large majority of instances the cause may be traced to the existence of WORMS—the prominent symptoms of which are, paleness of the countenance, loss of or irregular appetite, starting up and crying out in their sleep, picking at the nose, great thirst, a wasting away of the flesh, &c. These symptoms should be early attended to, as by neglect it often terminates in disease of the brain.

PRESTON'S WORM SYRUP

is the most effectual remedy ever used. It is pleasant to the taste, perfectly harmless, and is warranted in every case to give satisfactory results.

INSTEAD of being a panacea for all maladies, it has contended but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUNDRIES INFLAMMATORY DISEASES—whatever be its form or locality—whether in the head, throat, chest, abdomen, joints or skin. Every form of *inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. It is *safe*, for it does not weaken, but by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it secures merely what adheres to the point of a pin dipped into a solution of it, to affect the entire system.

MERCANTILE LYCEUM.

The winter course, it will be seen, commences on next Tuesday evening, with such attractions as will make the opening performances worth a ticket for the course. Mr. Choate is expected to lecture, and the promise for the winter is of the best sort.—As there will be but one course of lectures, no one has any choice to make. The probability is, that as in some former years the demand for tickets will exceed the room. Those who wish to secure them should apply at once, as the sale will be limited to 800.

The following is the programme for next Tuesday evening:

1. Grande Concert variations on "America," Composed and performed by B. J. Lang.
2. Echo Song, (by request.) Sung by Mrs. Wentworth. — *Bishop.*
3. Poem, by Albert Laighton.
4. Song, "When the Swallows Homeward Fly," Sung by Mrs. Wentworth. — *Pierpont. Abt.*
5. Fantastic Burlesque, (Banjo Imitations) — *Gottschalk.*
6. Favorite Ballad, Sung By Mrs. Wentworth. — *Horne.*

THANKSGIVING AT THE ALMS HOUSE.—We looked in upon the tables spread for the inmates on Thursday, and found them well filled with excellent provisions. The present number of inmates is ninety. Of this number about fifty are able to be present at the tables. The tables for the females are in the western room, and those for the males in the eastern. On these tables we counted fourteen turkies and four geese, well prepared, with pies, puddings, and all the accompaniments to make as good a dinner as an alderman could desire. For these annual dinners they are indebted to the liberal provision made by Ex-Mayor Toppan, who gave his salary to establish a permanent fund for this purpose to all coming time.

The day previous, one of the inmates, Miss Alice Thompson, died at the advanced age of 94 years. She enjoyed pretty good health until eight or ten years ago, when in descending a flight of stairs, mistaking the lower step for the floor, she gave her body such a shock that she was entirely helpless ever after.

Among the inmates is an aged negro who has been in the house for many years. He is blind, but is very quick to hear. He readily recognizes Mr. Moses, the superintendent, by his step, and each of the Overseers he calls by name as they speak to him. His name is John Thomas, and is generally called "Uncle Tom." We asked his age. "One hundred years and six months," was his reply. He is a native of the Isle of France, has had four wives, and for many years had been employed in the Portsmouth merchant ships. He says he was 23 years old when the dark day occurred in 1780.

The house appears to be in excellent order.—General health prevails—no one being in the hospital. The stock in the barn gives evidence of good keeping.

THE DIFFERENCE.—Two cases, one of economy and the other of extravagance, are reported in the New York Sun. The first is that of a merchant who recently repaired to his wife to say that he lacked $1400 towards payment of a bankruptcy, whereupon his wife gave him $5000 in gold and bank notes, saved from her house money. The second incident is to the effect that a brother of this same merchant laid by $1000 in gold at home, being afraid to trust the banks, in order to meet a note. When the use was required he found it missing. His wife had bought a $1000 set of furs with it at Stewart's, and the merchant failed.

SALMON FALLS MILLS.—In the Journal a few weeks since, we stated that No. 2 mill at Salmon Falls was stopped, and that No. 1 would be as soon as the cotton on hand was used up. We are informed by the agent that three-fifths of No. 1 mill is running, and is expected to through the winter. In No. 2 mill an arrangement has just been made to commence starting again next week, and one-half the mill will be run through the winter

POPULAR SOVEREIGNTY.

NO. 1.

Shall this power prevail in Kansas, and through the Country? Or shall the Federal power, the sovereign general government, force Constitutions down the people's throats?

This is a question for New Hampshire and Maine. It is discussed in the papers, especially those of the Democratic party, and it must be settled in Congress by a vote. In the mean time, it is well to discuss it among the people, and the presses.

Before we make extracts, it may be well to go back and state briefly the origin of what we call the *bogus* Constitutional Convention of Kansas.

First came invasion by the Missourians, who seized upon the ballot-boxes and elected men who were not residents of the territory in some cases, to make the territorial laws. These Missourians put such restrictions upon freedom that the utterance of the language of the Bible or the Declaration of Independence was a crime more likely to be punished than murder; and they required such oaths as qualifications for voting, that the free State men were excluded. Then, when they were sustained in these usurpations, the negro traders and woman whippers, to the number of seventeen hundred—not one-fifth the voters—chose the delegates to the Constitutional Convention; and this body have just completed their work. About the time they were chosen, Mr. Buchanan assured the country that all parties should have a fair chance for action in Kansas; and among the first words of Gov. Walker was the pledge given the free State men, that if the constitution was not submitted to the people for approval, he would join them in urging its rejection by Congress. At such language the fire eaters of the South were indignant. South Carolina foamed as in the days of nullification; Georgia asked that Walker should be recalled at once—be martyred as Reeder and Geary had been before him; and even Mississippi, which Walker had counted as his own, repudiated her adopted son, and counted such sentiments treason to the South. Walker said no more than any honest democrat would have said—no more than Douglas had said—no more than was involved in the Squatter Sovereignty of Gen. Cass; and these words cannot be sustained, then democracy is a hissing and a bye-word in the world. Will they be? We shall have to wait the assembling of Congress to see.

In the meanwhile, this minority of one-fifth of the people have formed what they call a constitution, the general provisions of which—notwitstanding the promises of Mr. Buchanan and Mr. Walker—they refuse to submit to the people. They demand that it shall be taken without any popular approval, accepted by Congress, and be unalterable for years.

This is not all. The *bogus* convention does submit to the people one item, viz., the "Constitution with slavery, or the Constitution *without* slavery," but even here is a cheat, for in what is called the "Constitution without slavery," there is a clause providing that the slaves now there may still be *held!* And so if the free State men in Kansas vote for this "Constitution without slavery," we shall be told this winter by some doeface in New Hampshire, that all the free State men in Kansas voted to sustain slavery!

Yet in this deep there is another deep.—A letter-writer from Kansas, who was present at the convention, and who knows what is in the bogus constitution, says:

Vote as we will—repudiate the slavery clause as we may—trample it under foot as we can—the question which of all others is of vital importance to our interests remains altogether untouched. The Bill of Rights, which is not submitted to a vote, establishes slavery—and the second section of the adopted Report on Schedules provides that the Territorial laws now existing shall continue in force until amended or repealed by the State legislature; and, in the last section of that report, a provision is made which prohibits the legislature from approaching or handling the subject under any circumstances or at any time.

This is bad enough. So bad, that many papers of the democratic party at the North come out and condemn it more or less—as we may show by extracts in our next number.

☞ JAMES G. BENNEY, aged 65, died at Perth Amboy, Nov. 23d. He was once a planter in Alabama, but emancipated his own slaves, and those of his father. He was the Liberty party candidate for the Presidency in 1844. An excellent man, but for several years a sufferer by paralysis.

DEFALCATIONS.

The amount of the acceptances of the different companies, which Mr. Lawrence is said to have used, is as follows:

Bay State Mills	$225,000
Middlesex Mills	280,000
Pemberton	75,000
Total	$580,00

At Stocks sale in Boston on Wednesday, there were no sales of manufacturing shares; but only $35 per share was bid for the Bay State Mills; $40 for the Pacific mills, (Lawrence,) and $100 for the Middlesex Manufacturing Company.

The Worcester Transcript says: "There is no doubt that notes to the amount of $580,000 ae issued, bearing signatures of Manuf. Co's for which Samuel Lawrence was Treasurer, and endorsed by the firm of Lawrence, Stone & Co., of which he was a member. It is uncertain, at present, whether other members of the firm were cognizant of the transaction or not. Mr. Lawrence has attempted to buy up large amounts of the stocks of which he was Treasurer, which were selling at a very low rate. To effect this he has given these notes which have been considered undoubted, being factory acceptances with the endorsement of an eminent firm. Having been both selling agent and Treasurer of these mills, there was no check on his actions. The best managed corporations keep these two offices separated. Under the influence of this sudden *expose*, the stock of the Bay State has fallen from 400 to $35. An investigation into its worth is now going on."

HARD TIMES ON CAPE COD.—The financial pressure is materially affecting the interests of the dwellers on Cape Cod. The Barnstable Patriot states that not less than $450,000 worth of fish and oil is now stored at Provincetown, awaiting purchasers. The very low prices of fish, unparalleled for several years, and the difficulty of knowing whom to trust in these times of mercantile peril, almost entirely suspends business, and keeps back large dues from fishermen and their families. At such a time, the cod fishing bounty will be most acceptable to hundreds of fishermen.

☞ The important Railroad case, Manchester & Lawrence Railroad *vs.* Geo. H. Dogde, its President, has resulted in Mr. Dodge's favor. He also gets $7052 he claimed as due him. The suit involved $20,000, and was first decided in the same manner by Hons. Geo. Y. Sawyer, James Bell and I. Goodwin, as referees of the Directors and Mr. D.; afterwards the Court left it out to another court of reference, with the same result.

A MISTAKE.—The Journal of Commerce puts down New Hampshire among the "States whose constitutions are not known to have been submitted to the people for ratification." This is a mistake: the constitution of this State *was* submitted to the people for ratification, and was approved by more than two-thirds of the qualified voters; as will be seen by the certificate of the President and Secretary of the convention, published at the end of the constitution.

MARRIED.—At Gotha, Germany, on the 27th ult., in the Court Chapel, by the Rev. Dr. Carl Schwartz, Chaplain to the Grand Duke, Mr. Bayard Taylor of New York, and Miss Marie Hansen of Gotha.

From a clever "epithalamium" read at a meeting of a few of his friends in New York, on the same evening, and ascribed by Willis to George W. Curtis, we take the following stanzas:

"We pledge a maid we ne'er shall know—
A wife who one day we shall see,
The years that banyan like shall grow,
We pledge the children that shall be.

O friend beloved, and friend unknown,
Ye stand 'mid bridal songs and flowers,
And with the blossoms o'er you thrown,
We breathe a prayer, and mingle ours."

☞ The U. S. steam frigate Niagara, Capt. Hudson, from Plymouth, (Eng.,) arrived at New York on Friday.

The sloop-of-war Saratoga, Commander Chatard, has arrived in Hampton Roads, from Aspinwall.

☞ The U. S. steamer Saranac, Capt. Kelly, of the Pacific Squadron, having completed her repairs, left Norfolk Navy Yard Nov. 21st, for Rio.

☞ W. W. Pierce, Esq., of Charlestown, Mass., has received the appointment of Naval Storekeeper at that station, vice Henry J. Wildes, resigned.

☞ Ex-President Pierce is expected shortly to arrive in Portsmouth, Virginia, to take passage in the U. S. steamer Powhatan, and the inhabitants of that city and Norfolk have tendered him a public reception.

It is too often forgotten that 'better' does not necessarily imply good.

Highly Important from Washington—Antagonistic Positions of President Buchanan and Governor Walker on Kansas Affairs.

WASHINGTON, Nov. 26.—[N. Y. Herald Correspondence.]—The Kansas question has again suddenly assumed a gloomy and threatening aspect. President Buchanan had endorsed the entire action of the Kansas Constitutional Convention, and approved of the plan for submitting the Constitution to the people. Gov. Walker pronounces it an outrage upon the people of Kansas, and a shameless violation of all the principles of free government. He is absolutely opposed to the Constitution, and stands pledged to defend it. An effort, on the part of Congress, he says, to force that Constitution on the people of Kansas, without their voice being heard for or against it, will surely be followed by rebellion and civil war. He describes the opposition to it as almost universal, and says no party in the Territory favors it.

Thus are the President and Gov. Walker brought in direct opposition on this exciting and embarrassing subject. At one o'clock to-day, Gov. Walker had his first interview with Mr. Buchanan, and after five hours of the kindest and most friendly interchange of views, they parted to sleep upon the question, and will meet again to-morrow.

A split between these two distinguished officials will be productive, just now, of disaster to the country, and perfect annihilation to the Democratic party. Can they reconcile their difference of opinion? Mutual friends here hope so, but the parties themselves fear not. Mr. Buchanan thinks that a submission of the slavery clause to the people was so much gained, and so this was the first of the whole dispute. He deemed it his duty to approve of what was done, if he could not have the whole constitution submitted as he desired. Gov. Walker says slavery is not the issue among the people of Kansas. That has passed by, but all the issues affecting their government as a community, are involved in the constitution on which they are denied the privilege to vote, and they will resist, at all hazards, the attempt to force it upon them, and to this resistance he himself is absolutely and uncompromisingly committed.

Bids were opened yesterday at the Treasury Department for building the new Custom House at Perth Amboy, N. Y. It was awarded to Blaisdell & Emerson of Boston, they being the lowest bidders.

The St. Louis Democrat says, "the free-soil element in the South is mostly quiet and silent. It is a latent heat pervading the frontier States and the commercial cities, and awaiting but the favorable moment to break forth in light and glory."

☞ Coroner Connery of New York has ordered the Spanish Consul's house to be searched for the three men who committed the murder at the dance house in Water street, as the police believe they are secreted there.

☞ The Dalton Divorce case has been by mutual consent discontinued, and discharged from the docket of the Supreme Court.

☞ It is stated from repeated and long continued observation, that when husbands are imprisoned for crime, their wives "stick by them;" but when wives are disgraced thus, their husbands rarely do. Another evidence that love is the business of woman's life, but only an episode with man.

Somebody told Jerrold that George Robbins, the auctioneer, was dead; "and, of course," added the gentleman, "his business will go to the devil." "Oh, then he'll get it again," said the wit.

SPECIAL NOTICES.

CHRONIC DIARRHEA.
Colebrook, Aug. 19, 1853.
Rev. A. B. L. Myers: Dear Sir—I have used the bottle of Extract of Rock Rose you lent me for Chronic Diarrhea, and found great benefit from it. It is now all gone, and I dislike to be out of it at this sickly season of the year; therefore, I wish you would send me a bottle as soon as possible. Respectfully, yours,
n25 MRS. S. T. CARRINGTON.

The announcement that Mrs. Cunningham had committed suicide would cause a sensation.—But the fact that the Carminative has cured 1000 children of summer complaints produces no lasting impression. Mothers! Mothers!

☞ The only place in this city where an Ambrotype can be obtained, is at Davis' Ambrotype Gallery, No. 8 Daniel Street, as they have the Patent, and all infringements will be prosecuted. sept9

WE WISH TO SAY TO EVERY PERSON Who reads this that there is an article known as "Dr Sanford's Invigorator or Liver Remedy," which can be relied on as certain to cure liver complaint in any of its forms, such as Jaundice, Dyspepsia, and numerous other complaints, described in another column, besides which it is one of the greatest preparations or cures for consumption, taken in early stages, that is now known.

We take it for granted, as experiment has proven, that diseases of the lungs are not generally the first cause of consumption, but a debilitated system, caused by the improper action of the liver, reduces the power of the lungs to resist or throw off diseases caused by cold and irritation, leaving the lungs the easy prey of our diseases, because the liver has incapacitated them from performing their proper action of throwing off diseased matter caused by cold, thus to prevent consumption, cure the liver, and keep the system strong enough to throw off slight diseases of the lungs.

There is not in the world a better liver remedy or acure for debilitated system, than "Dr. Sanford's Invigorator," for it has been fully tried in a large and extended practice, till its results are fully known and now it is offered as a tried remedy, and one that can be relied on.

UNCLE TOBY RECEIVETH A COMPLIMENT. The courteous and amiable editor of the Ballot, in a dissertation on the Chronicle, thus discoureth :—

Uncle Toby's commentaries are insipid enough in all conscience.

To which Uncle Toby replieth, that tastes and consciences do not seem to be all trained alike. The man who indulges every day in high spiced viands, fiery liquors, and strong tobacco, might think a dish of plain bread and milk to be an insipid repast,—and would probably reject milk and water as a beverage. But it would not follow that his neighbor, who eschews the tobacco, avoids the brandy, and does not use the high spices, would also deem the the plain food and drink to be insipid. All this, however, is matter of taste, and Uncle Toby will not dispute about it just now. If anybody does not like his commentaries, it is easy to skip over and not read them. But there is an old story, told by one Laurence Sterne, so pat to the purpose that he will tell it over again,—and the reader may skip this also, if he pleases.

Tristram Shandy compared his body and mind to a "jerkin" (garment) of which the outside might be easily cut or torn, but the lining remained whole; he knew this to be his condition, but the Reviewers did not. He then assures them that if they assailed him again, he should answer them with good nature,—[very insipid] and says,—"Heartily and from my soul, to the protection of that Being who will injure none of us, do I recommend you and your affairs,—so God bless you; only next month if any of you should storm and rave at me—don't be exasperated if I pass by it again with good temper,—being determined as long as I live or write, (which in my case means the same thing) never to give the honest gentleman a worse word, or a worse wish than my Uncle Toby gave a fly which buzzed about his nose at dinner time,—"Go, go, poor devil (quoth he)—get thee gone,—why should I hurt thee? This world is surely wide enough to hold both thee and me."

☞ We wish to inform the Ishmaelite who edits the Ballot, that we haven't the slightest idea of giving another entertainment of the sort he mentions; and that so far from its being "necessary," we have plenty of good business without that—and always had. So the field is open for him, if he's got spunk and capital or credit enough to get one up—and he could do all the advertising himself, too, without crowding out anybody else. He might even engage Thompson's Club, too,—that is, if he will guarrantee that dog won't bite him.

Ishmael snapped at Prof. Kirbye, because he wanted to advertise in his paper; barked after Thompson, because he *didn't* want to; and now snarls at us, for fear we won't get up another concert to help "sustain the concern." He also yaps out at Uncle Toby, in passing the old gentleman, as mad dogs are apt to do. Why, that dog, in addition to a "sore head," must have had an application of red pepper in an opposite direction. Where's "Aunt Tabby?" or can't they keep such a "spitting" puss with so spiteful a cur. F.

☞ The Ballot says our "late speculation with Thompson's company evidently did not pay very well." The Ballot has done most of the "speculating" respecting that concert. What we did we are satisfied with; but we don't see where the editor of that paper gets "pay" for believing us or the concert. Porter's Spirit tells of a fellow who would rather lie on six months' credit, than tell the truth for cash—but the Ballot man can't even get any "credit" by such a course as this. There is an old proverb somewhere, about being made "mad" and "destroyed." Those who care enough about the matter to do it, can fill out the sentence. We don't. F.

CITY MISSION.—The anniversary of the City Mission will be held at the Stone Church on next Sabbath evening. The reports of the Missionary and of the Ladies' General Charitable Society, will be read, after which brief addresses are expected from several clergymen and laymen of the city. Services will commence at 7. It is hoped that the interest in the mission will secure a full house.

The Market at Newburyport was bare of all the "fixins" for Thanksgiving, Wednesday. At 3 o'clock, nothing was left in the Square, but one basket of turkies and a wagon load of ducks. Turkies went up to 20 cents a pound, chickens to 15 cents, and milk to 25 cents a gallon.—*Herald.*

Not quite so bad as that here. But turkies and chickens which went slow at 8 to 12 cents a pound on Tuesday, were scarce on Wednesday,—and we heard of one turkey being sold at 17 cents on Thursday morning.

FIRE.—The alarm about half-past 10 on Friday night, was caused by the partial burning of the little old wooden building on Bow street, next west of Gerrish's brass foundry—occupied by Mr. John Holland, as a boot and shoe shop, and residence.—The engines soon extinguished the flames, and the loss is small.

☞ The Christian Church and Society, Rev. Thomas Holmes, Pastor, who have occupied the Hanover Street Chapel for the past year, have made arrangements for the use of the Temple, as their place of regular worship. Services will be held there tomoorow, forenoon and afternoon, at the usual hours.

The Baptizing announced at Hanover Street Chapel on Friday evening, to take place at Noble's Island on Sunday morning at 9 o'clock, will be postponed till 12, noon.

☞ The dealers in dry goods, as well as other wares, who are selling the greatest quantities of goods, and selling them the cheapest—are those whose advertisements are found in the Chronicle. Read their notices.

☞ We have already mentioned the fact that an extensive revival of religion is going on in several of the churches in this city. We notice by the Portsmouth (Virginia) Transcript, that a similar revival is in progress there, and large numbers are being baptised.

PAYING FOR OTHER PEOPLE'S CRINOLINE. Dr. R. N. Ferguson and his wife were divorced at Louisville. The Doctor agreed to pay her $500 alimony per annum, and did so until the lady married Mr. George Welby. Dr. Ferguson then refused to pay the alimony, on the ground that he was released by the subsequent marriage of his divorced wife, and that Welby ought to take care of his own wife without drawing upon him for the $500 per year in alimony, which was agreed to be paid under the supposition that Mrs. Ferguson would remain single, she being a member of the Catholic church, whose laws forbade a second marriage. Our courts, however, were of the opinion that the second marriage did not release the Doctor from the payment of the alimony, and consequently he had to shell out. Day before yesterday he paid to the trustee of Mrs. Welby the April, July and October instalments, which had been suspended by the suit. He may, therefore, make up his mind to pay the $500 per year during the life of Mrs. Welby.—*Louisville Courier.*

☞ In the December number of the ATLANTIC MONTHLY the Table of Contents looks delicious; it will doubtless satisfy the tastes of the most fastidious literary epicures. The book trade generally, have "The Atlantic," which is published by Phillips, Sampson, & Co. Boston; and sold by J. H. Foster of this city. It is destined to achieve a great success, the reward of the variety, beauty and strength of its literature.

On Thursday last, the cars of the Fall River Railroad ran off the track at North Bridgewater. No person was injured.—Some twenty passengers were going to the State Alms House, at Titicut, and one of them gave birth to an infant during the detention.

High Testimonials

IN Favor of Professor Kelly's New Invention of WRITING.

The study of years reduced to a few hours, which is sustained by the most eminent and independent men in the Union, whose letters he holds in his possession, corresponding with the following statements, which is convincing proof of the extraordinary results produced by his new invention.

Rt. Rev. Bishop Clarke, of Rhode Island, says in his letter:—I would give more for six lessons from Professor Kelly, then for sixty from any other teacher I ever knew."

Rev. Dr. Blagden and Ex Mayor Seaver of Boston. Rev. Dr. Putnam of Roxbury, and Prof. Warren of Amherst College, have also given letters which Prof. Kelly holds, in testimony of the unquestionable results produced by this invention.

Rev. Mr. Ellis, of Charlestown, Mass., has certified by letter, to the very remarkable change produced by this invention, and says that the improvement in his son's hand-writing, resulting therefrom, had not only been very satisfactory, but wonderful; he therefore was pleased to admit of reference and application to him.

The above are only a few of the many testimonials which are in Prof. Kelly's possession, from some of the most eminent men in the Union.

Applications may be made to Prof. Kelley, through the Chronicle Office. n26 2w 28

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that a person has a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every other Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. Address orders plainly, and state what number must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of each number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to perplex the purchaser from Maryland, as in 100; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Mercury*, Nashville *Union and Banner*, Atlanta *Intelligencer*, and New York *Weekly Day Book*. Write your address plainly, and direct to

SAMUEL SWAN & CO., Savannah, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

A BEAUTIFUL HEAD OF RICH GLOSSY HAIR,

Completely Preserved

TO THE GREATEST AGE.

AND who that is gray would not have it restored to its former color; or bald, but would have the growth restored; or troubled with dandruff and itching but would have it removed, or a healthy scalp, free from all cutaneous eruptions, or with sick headache, (neuralgia) but would be cured. It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the testimonials.

ANN ARBOR, November 5th, 1856.

PROF. O. J. WOOD—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the same category with the one thousand and one loudly trumpeted quack remedies, until I met you in person in this county some months ago, when you gave me such assurance as induced the trial of your Restorative in my family—first, by my good wife, whose hair had become very thin, and entirely white; and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and soft to the touch, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon her person, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the highest effects; therefore my skepticism and doubts in reference to its character and value are entirely removed; and I can and do most cordially and confidentially recommend it to any who would have their hair restored from white or gray, (by reason of sickness or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.

Very truly and gratefully yours,

SOLOMON MANN.

FARMER WOOD: It was a long time after I saw you at Blissfield before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all you claim for it—one it would do; and others of my family and friends having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration for its claims for it.

Again, very respectfully and truly, yours,

SOLOMON MANN.

CARLILE, ILL., June 28, 1852.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its effects. My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative it has regained its original color, and I have no doubt permanently so.

HAVING received his Winter Stock of Stoves, is now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:

IMPROVED EMPIRE STATE,

This celebrated Cooking Stove has been in the market many years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.

THE WHITE MOUNTAIN IMPROVED,

being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.

THE REPUBLIC.

This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.

All sizes on hand, and every Stove warranted.

Also on hand all the different kinds of the most approved patterns; among which are the

BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.

Repairing Pieces of all kinds on hand.

The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.

Our stock of

PARLOR STOVES

is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the

ILION, VILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,

Over Patterns in great variety for wood or coal. Sheet Iron Stoves of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different Patterns.

The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.

Remember the place to buy cheap is at

No. 61 Market Street.

FRANK JONES.

Magee's Patent Ventilating Stove.

FOR WARMING AND VENTILATING

PARLORS, OFFICES, HALLS, STORES, SCHOOL HOUSES. &c.

WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give

Any amount of Heat required,

and unlike all other Anth acite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of air, at once moist, pure and agreeable, and as none of the air which comes in contact with the fire pot is used for respiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.

These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them.

For Offices and Stores as well as the Parlor.

The Inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to rekindle without the use of charcoal. The coal is all used, and no clinkers made, consequently, sifting coal is dispensed with.—When this Stove is properly managed,

THE FIRE MAY BE CONTINUED THROUGH THE ENTIRE SEASON,

without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 30 to 50 per cent, in fuel expense.

IMPORTANT DISCOVERY.

DR. CHRESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to produce the desired effect; they have in every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring on the proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and if from any obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately becomes a wreck, and unless the wand of such a remedy has been the cause of so many consumptions among young females headache, pain in the side, palpitation of the heart, loathing of food, and distorted shapes that must always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils, as also all cases of nervous prostration, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

Price Pills are put up in square flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHRESEMAN, Box No. 4,581, Post Office, New York city, can have them sent to their respective addresses by return of mail.

S. D. & H. W. Smith,

—MANUFACTURERS OF—

Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,

No. 511 Washington St., Boston,

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have overcome the moving the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an Instrument equal, if not superior, to any Manufactory, and guarantee an *entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon:

Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This method is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent directed to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

Remedy for Worms.

THE diseases of children are often so complicated that it is difficult to ascertain the true nature of their complaint. In a large majority of instances the cause may be traced to the existence of WORMS—the prominent symptoms of which are, paleness of the countenance, loss of or irregular appetite, starting up and crying out in their sleep, picking at the nose, great thirst, a wasting away of the flesh, &c. These symptoms should be early attended to, as by neglect it often terminates in disease of the brain.

PRESTON'S WORM SYRUP

is the most effectual remedy ever used. It is pleasant to the taste, perfectly harmless, and is warranted in every case to give satisfactory results.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has proved over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SURDUES INFLAMMATORY DISEASE—whatever be its form or name—whether it be in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is relieved, by it as easily as fire is extinguished by water. Is it asked, *how it does this?*—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires only the slightest touch to the point of an pill dipped into a solution of it, to affect the entire system.

☞ *Its intrinsic value, the enlightened community, and not the discoverer, must be its judge.*

PRIME COST, $1, 50 per drachm—PRICE $2 per drachm.

MONDAY, NOVEMBER 30, 1857.

CONDITION OF BOSTON.

At the second Universalist Church in Boston, on Thanksgiving Day, Rev. A. A. Miner, the pastor, preached a sermon on the moral condition of Boston, of which an abstract is given in the Boston Journal. The following thoughts are worthy of attention.

Look upon Boston. She has a fair exterior: is the pride of the whole earth in many regards, and eulogised by citizens and strangers, and in many respects is worthy of eulogy. We have in the city some one hundred places of public worship and institutions upon which large sums of money are annually expended; public and private schools—some two hundred and fifty educational institutions, dropped down all over the city; many charitable institutions, hospitals, &c., and we annually disburse large sums of money among the poor and needy. Would that we could stop here, and say that this was all that Boston is doing. But, said the speaker, when I reflect upon the way in which things are tending in this city, I feel there is something to be sorry for: if we but turn the next leaf, and look upon the other page, we find that while we have one hundred and fifty churches and two hundred and fifty schools—even more perhaps; we have, according to the testimony of the Chief of Police, scarcely less than two thousand dram shops, two hundred and thirty-five houses of ill-fame, and including private houses where liquor is furnished by the glass, the whole number is but little less than three thousand. We have four hundred churches and schools, God be praised. We have three thousand liquor shops, and who have we to thank for that? The dram shops are to the schools in the ratio of eight to one, or the whole number as twelve to one. Here are two classes directly arrayed against each other. The tendencies of the one class are towards Christianity and enlightenment; on the other hand, towards barbarism and crime. The two classes will not join hands, and cannot work together.

Had we a clear idea of this power of barbarism? Do would read from the printed report of the Chief of Police which was submitted to the City Council in the month of January, 1857. The whole number of arrests was 17,538, exclusive of some 6000 disturbances quelled without arrest, and some 700 drunken men of too much respectability to be arrested, and consequently helped home in the night time. Among the different kinds of assaults, we have 1358, and we know what relation they bear to the liquor shops; common drunkards 986; under the head of drunkards 6780; thus we have some 9834 arrests, directly traceable to the rum shops; then there were some 240 gamblers arrested, and 2776 persons for keeping disorderly houses. Adding the whole together, we have 12,299 arrests, clearly and directly associated with, and mostly resulting from, drunkenness. Such is the state of things in this city. Can we wonder at the amount of crime in our midst, when we have twelve grog shops to one school?

Do you see an onward movement in all this, said the speaker, or do you recognize the judgment of Almighty God upon us in tolerating these iniquities. If you do not, then you must wait until the judgments rise higher, and until the thunderbolts are aimed at your own heads.

We could easily have a change of things. When we want a quiet night before the 4th of July, we have it. With two hundred and fifty police we can close the grog shops, if our votes at the ballot box were only cast towards such a result.

There were two methods by which these evils could be done away with. The one was by Christian influence. Yet sometimes there were difficulties standing in the way of such a result. Sometimes it happens that a rich man who holds a prominent place in a church, will say to the minister, "Touch not upon certain topics, or my influence will be thrown against you." Said the speaker, I know where ministers have been compelled to abandon their pulpits for this reason. In how many pulpits in this city do you hear anything in relation to these evils? Christianity is fettered here and has shackles on its limbs and a gag in its mouth. Ministers may talk of Babylon and Nineveh, and sinners, but nothing about the real, living, active issues of the day.

The next method we could bring to bear with success in this matter, was Associated Effort. The speaker then glanced at the recommendation in the report of the Chief of Police, which intimated that if we only had a proper law we could prevent many of the great evils in our midst. We had just such a law as that suggested by the report, and the police had taken an oath to carry out such a law.

In concluding, the speaker said, remember the evils of this city are as completely in the hands of the police as are your taxes when they choose to call for them. They have a law, which, if they only desire it, will tend to the accomplishment of the work to be done.

☞ The case of that distinguished officer and seaman, Lieut. Maury, has at length come up before the Naval Courts of Inquiry. The government rests its plea upon Lieut. Maury's physical disability—as in this consists the only shadow of a reason why he should not be upon the active list. He has shown, however, by the immense amount of labor which he undergoes, that he is fitter for sea service than appearances indicate.

☞ The farmers in New Jersey have been busy for some weeks past, husking their corn. The crop is probably the largest ever raised in the country, and almost every farmer has been obliged to build new cribs—the old ones, which have been large enough heretofore, being altogether insufficient for the great crop of this year.

☞ Francis Moore was mulcted, in the Memphis court on Monday, in $5000 damages, for the seduction of a Miss Shepherd. On Wednesday, Moore fell upon the pavement in the street. He received a slight injury by the fall, but it was supposed that he had taken poison previously. He was taken home and a physician sent for,—though probably too late to save him.

☞ The mansion at that fine old seat on James River, known as "Wyanoke," was destroyed last Monday by fire. This was one of the most venerable residences on the lower James, and constituted one of the objects of interest to all travellers on the river as a relic of "old Virginia."

☞ Ragan, the shoemaker who was sent to the State Prison at Sing Sing, for killing his partner in their store under the Howard Hotel, New York, committed suicide in his cell last Sunday morning, by hanging himself with his cravat to one of the iron bars.

☞ During the gale of Wednesday night, a brakeman on the Chicago and Rock Island road was blown from his stand on the platform of the train, while running at full speed, near Morris Station. The wheels passed over him, killing him instantly.

SUICIDE.—Mr. B. F. Neally, a well-known grocer of Lowell, left his house about 5 o'clock on Thanksgiving afternoon, and next morning was found in the upper part of his store, hanging by the neck, dead. He formerly belonged in Lee, N. H., was 41 years of age, and leaves a wife and daughter to mourn his untimely end.

HEAVY FINE.—J. J. Dennis of Cincinnati has been fined $500 for contempt of the Probate Court, in procuring a writ of *habeas corpus* before another court, on the recent slave case in that city, while the slaves were still virtually within the custody of a court of competent jurisdiction; and thus setting that court at defiance.

A TENDER REPROOF.—A very little boy had done due done wrong, and was sent, after parental correction, to ask in secret the forgiveness of his heavenly Father. His offence had been passion. Anxious to hear what he would say, his mother followed to the door of the room. In lisping accents she heard him ask to be made better, never to be angry again; and then, with childlike simplicity, he added—"*Lord, make Ma's temper better too.*"

Alexander Hamilton's friend, Meade, writes in a friendly letter: Hamilton not being sufficiently acquainted with his son, reminds one of the reply of a boy to his mother, whose father was of the "keep-your-children-at-a-distance" class; and the boy, wanting a new suit, very naturally asked his mother to intercede for him.—"Why don't you ask your father, yourself, my son?" asked his mother. "I would ask him, but I don't feel well enough acquainted with him!"

SONS OF TEMPERANCE.

Let warriors boast their numbers slain,
The scores that fall by bravery's hand,
While wails of woe, and shrieks of pain,
Reverberate throughout the land.

Let statesmen boast their meed of power,
The honors clust'ring round a name;
Our office has a richer dower,
And ours a nobler, purer fame.

'Tis ours to wage a truceless war
'Gainst Bacchus, till his reign shall cease;
To hail our rising Temperance Star,
Precursor of the Prince of Peace.

'Tis ours to win our fellow-man
From drunkard's fate to better life,
And do what love and kindness can
To soothe a brother's dying strife.

A triple cord unites our hands,
And our hearts indelibly
Engraven, they our monitrands—
LOVE, PURITY, FIDELITY.

The shoe manufacturers of Marblehead are about re-commencing work, and their example will probably be followed in other places within a month or two. Shoes can now be manufactured cheaply—the stock is low and wages are lower. In the scarcity of shoes that must follow the suspension, we believe the future prospects of the trade to be good.—*Newburyport Herald.*

FIRE AT THETFORD, VT.—On Saturday evening, 21st inst, three barns and three sheds, filled with hay and grain, together with a lot of farming tools, the property of Buckley Holton, Jr., were destroyed by fire in that town. The loss will not probably fall much short of $1700; insured for about $500. The fire was the work of an incendiary.

COURT OF COMMON PLEAS.—Yesterday, Stephen Woods, of Groton, was convicted of being a common seller of liquor.—*Lowell News.*

☞ Why are a top, a cinnamon tree and a watch-dog alike? Because the bark of each is worth more than the body.

THE KANSAS QUESTION—DOUGLAS SUSTAINS WALKER.—*Washington, Nov. 27.*—Gov. Walker openly declares himself opposed to the action of the Lecompton Convention. He says that the only proper course is to submit the whole Constitution to the people. He had an interview with the President to-day upon the subject. Mr. Buchanan, as at present advised, is inclined to sustain the Convention. Reliable advices from Chicago state that Senator Douglas agrees with Gov. Walker, and will oppose the Lecompton Constitution in the Senate.

WASHINGTON, Nov. 27th.—(Special to New York Times.)—At the Cabinet meeting to-day, the President stated the position of Gov. Walker on Kansas affairs.—The Cabinet unanimously united with the President in favor of sustaining the action of the Constitutional Convention, in respect to the reference of the Constitution to the people, and so condemn Walker. The door to a reconciliation with Gov. Walker's position is now closed, and a bitter contest between the two wings of the Democracy is unavoidable.

Senator Douglas has been heard from. As the author of the Kansas-Nebraska act, he will take bold ground in support of Walker; this the President has not hitherto believed. Douglas holds that the refusal to submit the whole Constitution to the people, when they desire it, is the clearest repudiation of the doctrine of popular sovereignty.

Senator Gwin, though a decided pro-slavery man, is understood to be determined to support Walker. This is the universal sentiment from the free State Democracy as received here.

The news from Washington is of importance. If Mr. Buchanan has taken the ground alleged, he will hear "shrieks for freedom" and groans, not from "bleeding Kansas" alone, but from the whole land, such as in the seventy-five years of his life were never heard before.—*Newburyport Herald.*

A POOR HOUSE BURNT DOWN—TWO LIVES LOST.—A despatch, dated Winthrop, Me., Nov. 26th, states that the town poor house at Leeds was burned down the night previous, about nine o'clock. Two girls were burned to death. The rest of the inmates escaped in their night clothes.—Nothing was saved excepting some grain in the barns, and some cattle. Supposed to have been the work of an incendiary.

COLUMBIA, S. C., Nov. 27.—On the first ballot to-day for U. S. Senator, in the Legislature, John S. Preston received 18 votes, James S. Clemente 23, Mr. Pickens 39, and Mr. Hammond 61. An adjournment took place without an election being made.

MARRIAGE BELLS.

O, merry marriage bells!
Ring out your loudest, wildest notes of glee,
Kiss the wide welkin with your gayest swells
Of freest, cherriest, gladdest melody;
For bright eyes glisten, and young hearts beat high
With the rich bliss of love's reality.

O, happy marriage bells!
Chime forth your tenderest measures to the breeze;
Wake the dim echoes of the distant dells,
And thrill with joy the far-off forest trees—
For souls this bridal morn are running o'er
With depths of happiness unknown before.

O, holy marriage bells!
Soften your loud tones, chasten your proud joy—
For hearts are turning from the haunts where dwells
Pleasure that wearieth like any toy—
From the world's strife and utter emptiness,
To seek a higher joy—a surer peace.

O, solemn marriage bells!
Far through the roar of your tempestuous glee,
I hear a solemn undertone which tells
Of deep—of dread responsibility!
Of cares that crush the tender—whelm the weak—
And woes that stoutest human hearts do break!

Religious marriage bells!
Roll the full volume of your mighty breath
High o'er the world—until it reach where dwells
He, who o'er rules for good all pain and death!
Even at his throne your lofty burden lay,
For those who ask His strength this bridal day.—[Poughkeepsie Examiner.

STATE TEMPERANCE CONVENTION.

The next annual New Hampshire State Temperance Convention will be held at Smyth's Hall, in Manchester, on Tuesday, Dec. 15, at ten o'clock, for the choice of officers, and for the transaction of other important business connected with the interests of the cause in the State. Will not the friends of Temperance gather in large numbers, to consider the best means of carrying forward this enterprise at the present time? Much has been done, but still the work is not accomplished. We wish to see delegations from as many towns as possible. Let us have a great gathering of the working men, and lay our plans, and then let us carry them forward, till rumselling, with all its terrible results, is driven from our State. Among the speakers expected to be present and address the convention, are the Rev. Messrs. Whiting, Lamson and Hall, of Portsmouth; Prof. J. G. Hoyt, of Exeter; Rev. Mr. Holman of Great Falls; Rev. Mr. Hartwell, of Nashua; as well as many other active friends from different parts of the State.

T. T. ABBOTT, *President.*
J. W. RAY, *Secretary.*

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,
(*Late Agent of U. S. Patent Office, Washington, under the Act of 1837.*)
No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made into Patents and Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the scope of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by any other agency, or by any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL and offer the PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has every reason to believe, when he says, prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

Ancer 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

CHRONIC DIARRHEA.
Colebrook, Aug. 10, 1853.
Rev. A. B. L. Myers: Dear Sir—I have used the bottle of Extract of Rock Rose you left me for Chronic Diarrhea, and found great benefit from it. It is now all gone, and I dislike to be out of it at this sickly season of the year; therefore, I wish you would send me a bottle as soon as possible. Respectfully, yours,
n25 MRS. S. T. CARRINGTON.

The announcement that Mrs. Cunningham had committed suicide would cause a sensation.—But the fact that the Carminative has cured 1000 children of summer complaints produces no lasting impression. Mothers! Mothers!

☞ The only place in this city where an Ambrotype can be obtained, is at Davis' Ambrotype Gallery, No. 8 Daniel Street, as they have the Patent, and all infringements will be prosecuted. sept9

WE WISH TO SAY TO EVERY PERSON Who reads this that there is an article known as "Dr Sanford's Invigorator or Liver Remedy," which can be relied on as certain to cure liver complaint in any of its forms, such as Jaundice, Dyspepsia, and numerous other complaints, described in another column, besides which it is one of the greatest preparations for cures for consumption, taken in early stages, that is now known.

We take it for granted, as experiment has proven, that diseases of the lungs are not generally the first cause of consumption, but a debilitated system, caused by the improper action of the liver, reduces the power of the lungs to resist or throw off diseases caused by cold and irritation, leaving the lungs at the mercy of one disease, because the liver has incapacitated them from performing their proper action of throwing off diseased matter himself by cold; thus to prevent consumption, cure the liver, and keep the system strong enough to throw off slight diseases of the lungs.

There is not in the world a better liver remedy or acure for debilitated system, than "Dr Sanford's Invigorator," for it has been fully tried in a large and extended practice, till its results are fully known and now it is offered as a tried remedy, and one that can be relied on.

POLICE COURT.

On Saturday, Nov. 28, Edward and Andrew Goodrich, (well known in the police court,) were brought up on a charge of setting fire to the house occupied by John Holland, on Friday night.—Edward was discharged,—and Andrew's case was continued to Monday.

The parties had moved out of the house only the day previous, by order of the landlord—who did not relish such disorderly tenants.

INQUEST.—On Saturday, in this city, Daniel P. Drown, Esq., acting as Coroner, held an inquest on the body of a man found drowned, doubtless the body of Capt. William Walsh, of Rockland, Me., master of schooner Juno, who has been missing since the night of Oct. 26, and who it was suptally fell overboard from Jones & Chesley's Wharf, where his vessel then lay. Verdict, in accordance with these facts.

The money which he was supposed to have about him at the time of his death (upwards of $100) was not recovered. The body was found floating near where he probably fell over; and has doubtless been kept below the surface by being caught in some object.

COURT OF COMMON PLEAS.

The Court came in on Friday morning, and were engaged throughout the day in listening to the argument of Messrs. Wells and Marston in the case of Little v. Little. Judge Perley charged the jury on Friday evening. They retired to their rooms about nine o'clock. They were unable to agree during the night. They came into Court early on Saturday morning,—received further instructions and again retired to their room, and soon after returned a verdict for the plaintiff.

The Court having occupied a portion of the day, on Saturday, in the disposal of certain actions on the docket, in the afternoon it finally adjourned.

☞ The last train from Boston to Portsmouth, on the Eastern Railroad, on Saturday evening, when coming through Hayes's Ledge, a couple of miles from this city, struck three heifer calves,—which threw the two passenger-cars and one end of the baggage-car off the track. Mr. William Broughton, a brakeman, was thrown from the train by the shock, and severely cut and bruised. The engine first struck the calves, and threw them against the rocky sides of the cut, whence they rebounded on the track again, and under the wheels of the train.

After some de ay, the baggage-car was got on the track, and the passengers came in in that—and men went out to bring in the passenger-cars. The animals belonged to Mr. Charles Hayes, and were mangled in a shocking manner.

CONTRADICTION.

N. H. Gazette.—Leave off smoking and drinking.

Chronicle.—Pretty "advice," that, for the Gazette to give. Where are those (pot) valiant knights who were going to have a Daily Gazette to kill out the temperance fanatical Chronicle?

Gazette, Nov. 28.—Yes, indeed, it is.—And such advice as the Gazette has *always* given to its readers for twenty years at *least*.

Gazette, April 18, 1857.—It (alcohol) is among the most useful and beneficent gifts of a good Providence, which the *wise will continue to use*, cautiously and temperately.

Gazette, Nov. 28.—Such advice as ours has performed all the good that has been accomplished since the commencement of the Washingtonian movement.

Uncle T.—Which advice?—that which says leave off drinking? or that which says keep on, for *wise* men drink, and only *fools* abstain? The *balance* of these contradictory advices is exactly equal to the aid given to temperance efforts by the Gazette.—And the aid and comfort which it gave to the Washingtonian effort may be expressed thus——00.

☞ We understand that our talented young townsman, Mr. William G. Nowell, during the winter vacation at Bowdoin College, will take charge of the public school at Ryo, so satisfactorily taught last winter by Mr. Edward A. Rand. Mr. N. enters upon his duties this (Monday) morning.

Mr. Rand, who graduated with high honor at Bowdoin, last summer, is now Principal of the High School at Gardiner, Me.,—with a good salary, and having two assistants.

☞ The rite of baptism was administered at Noble's Island on Sunday noon, to twenty converts,—by Rev. Mr. Holmes, of the Christian Church.

Rev. S. W. Perkins, Free Will Baptist, also baptized four converts, at the same time and place.

NAVY YARD.—There are at present employed at the Navy Yard, 561 men. The highest number of men employed was in the month of September, when the Roll-book contained the names of 661 men.

☞ The Vandalia dropped down the harbor, on Friday afternoon. She has received sailing orders, and will proceed to sea with the first fair wind.

YANKEEISM.—We are told that we do not meet with any Yorkshire dialect or Yankeeisms, except on the boards of a theatre. Occasionally, however, we hear of sharp practice which would come under the head of "Yankee fixins." A never-failing example of this may be seen on market days at the Kittery side of Portsmouth Bridge. The toll-keeper can inform any one who wishes to know, how much those Maine farmers save by leaving their horses at their end of the bridge, and coming into town on foot with their produce.

Messrs. Editors:—I have lately read with some interest the productions of an erratic writer (in body, not in mind) which have appeared in your columns, signed "Cyphax." Now I have always supposed that a signature meant something, and consequently am quite anxious to discover what Cyphax can mean, as I have never heard of the word before. Has it any connection with cypher (0.) I should guess *naught*.

The writer of the above is correct in his guess-work. The signature "Cyphax" is probably for "Syphax," as it is sometimes spelt, a character in Addison's tragedy of Cato. It is in this play that the celebrated line occurs:

"Syphax, I joy to meet thee thus alone."

Funeral this afternoon at 2 o'clock, from the residence of his father.

In New Hampton, N. H., Nov. 21, Mrs. Miriam Gordon, aged 76 years—widow of Mr. Stephen L. Gordon, and grandmother of Hon. Judge Nash of Boston.

In Epsom, Nov. 26th, Joseph Lawrence, Esq., aged 68.

In Raymond, Miss Mary Tilton, aged 58.

In Newburyport, Mrs. Dilly Colby, aged 60.

In Epping, Nov. 23, Mrs. Mary Blake, aged 68 years, widow of Joseph Norris, and afterwards of Aj. Blake.

Death to the real christian, is not a calamity, but a great blessing; a friendly messenger that brings the stranger home, and puts the weary soul to rest. It cures all diseases, removes all infirmities, relieves all pains of the body and brings to every repose in the narrow house, where God will watch over it, and preserve every particle of its precious dust, till the morning of the resurrection. Death ends the christian warfare, and gives to the complete victory over all its spiritual foes: banishes forever all imperfection, fear, sorrow, and trouble; and introduces it into the ineffable light, spotless purity, blessed society, the holy and delightful services, and the eternal inheritance of heaven.

It is no common loss we deplore. An aged, discreet, prudent, industrious, and pious female, sustaining the relations of wife and mother, is a valuable member of the community. When the grave covers such a character, it may the people mourn. Her piety was of so modest a character, so retiring, that her real worth was but little known. She has fallen asleep in death, and will awake in the likeness of the Son of God, and be satisfied.—Com. Epping, Nov. 25, 1857.

LOTTERIES.

THE Letteries of Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all lotteries are legalized in that State, and parties to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Prizes range from $2 to $2,000. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize is drawn in the scheme, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—*New Orleans Delta, Mobile Register, Charleston Standard, Nashville Gazette, Louisville Journal, and New York Weekly Dog Book.* Write your address plainly, and direct to S. SWAN & Co., Augusta, Georgia

Prizes paid in full; no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18ly

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRENCH & Co are the managers, are chartered by the State of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day in the year. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and the ordinary combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer of the Union, of Washington, D.C.

A BEAUTIFUL HEAD OF RICH GLOSSY HAIR,

Completely Preserved

TO THE GREATEST AGE.

AND who that is gray would not have it restored to former color; or who that is bald would the growth restored; or troubled with dandruff and itching but would have it removed, or troubled with scrofula, scald head, or other eruptions, or with sick headache, (nervous) but would be cured. It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following:

ANN ARBOR, November 5th, 1856.

PROF. O. J. WOOD—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the same category with the one thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county one some months since, when you gave me your assurance as induced the trial of your Restorative in my family—first, by my good wife, whose hair had become very thin, and nearly white, but in a few weeks became one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened, and become beautiful and glossy, so, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore my skepticism and doubts in reference to its character and value are entirely removed; and I can and do most cordially and confidentially recommend its use by all who would have their hair restored from white or gray, (by reason of sickness or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.

Very truly and gratefully yours,
SOLOMON MANN.

FRIEND WOOD: It was a long time after I saw you at Blissfield before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you assured me it would, and more than many of my family and friends having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.

Again, very respectfully and truly, yours,
SOLOMON MANN.

CAMILLE, ILL., June 28, 1852.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its effects. My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so.

STOVES.

Frank Jones, No. 61 Market St.,

HAVING received his Winter Stock of Stoves, is now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:

IMPROVED EMPIRE STATE,

This celebrated Cooking Stove having been in the market many years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.

THE WHITE MOUNTAIN IMPROVED,

being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.

THE REPUBLIC.

This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.

All sizes on hand, and every Stove warranted. Also on hand all the different kinds of the most approved patterns; among which are the

BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.

Repairing Pieces of all kinds on hand.

The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.

Our stock of

PARLOR STOVES

is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the

ILION, VILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.

OVEN FURNISHES in great variety for wood or coal. SHEET IRON STOVES of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different Patterns.

The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.

Remember the place to buy cheap is at

No. 61 Market Street.

FRANK JONES.

Magee's Patent Ventilating Stove.

FOR WARMING AND VENTILATING

PARLORS, OFFICES, HALLS, STORES, SCHOOL HOUSES, &c.

WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give

Any amount of Heat required,

and unlike all other Anthracite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of air, at once moist, pure and agreeable, and as none of the air which comes in contact with the fire pot is used for respiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.

These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them.

For Offices and Stores as well as the Parlor.

The Inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to rekindle without the use of charcoal. The coal is all used, and no clinkers made, consequently, sifting coal is dispensed with. When this Stove is properly managed,

THE FIRE MAY BE CONTINUED THROUGH

THE ENTIRE SEASON,

without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 30 to 50 per cent, in fuel expense.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper course; in every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and to restore nature to its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever any obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the most dreadful ills have been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disordered sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in neat square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. D. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

S. D. & H. W. Smith,
—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,
No. 511 Washington St., Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to them, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tone full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one side two different instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Building

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an instrument equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to call at our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon:

Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. H. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This is a feature worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory references, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

Remedy for Worms.

THE diseases of children are often so complicated that it is difficult to ascertain the true nature of their complaint. In a large majority of instances the symptoms may be traced to the existence of WORMS—the prominent symptoms of which are, paleness of the countenance, loss of or irregular appetite, starting up and crying out in their sleep, picking at the nose, great thirst, a wasting away of the flesh, &c. These symptoms should be early attended to, as by neglect it often terminates in disease of the brain.

PRESTON'S WORM SYRUP

is the most effectual remedy ever used. It is pleasant to the taste, especially to children, and is warranted in every case to give satisfactory results.

MARRIAGE GUIDE,
BY DR. WM. YOUNG.

YOUNG'S GREAT PHYSIOLOGICAL WORK, THE POCKET ESCULAPIUS, or *Every One His Own Doctor*, by WM. YOUNG, M. D. It is written in plain language for the general reader, and is illustrated with upwards of one hundred Engravings. All young married people, or those contemplating marriage, and having the least impediment to married life, should read this book. It discloses secrets that every one should be acquainted with. Still it is a book that must be kept locked up, and not lie about the house. It will be sent to any one on the receipt of twenty-five cents. Address Dr. WM. YOUNG, No. 152 SPRUCE street, above Fourth, Philadelphia.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SMOOTH INFLAMMATORY DISEASE—whatever it be, whether local or locally—whether on the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how it does this?*—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of an pill dipped into a solution of it, to affect the entire system.

☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

THE BOGUS CONSTITUTION.—It is a singular fact that the Constitution which was framed by the pro-slavery convention in Kansas, has not yet been published. It seems by the following from the Washington Union of the 22d, that it has not been seen at Washington:

We have not seen the constitution which the convention has adopted, but we take it for granted that in its general form and provisions it is not widely dissimilar from the Constitutions of other States, with such variations as the local condition of Kansas and the ordinary differences of opinion among men may very naturally have occasioned. The schedule, however, which contains, as we have said, the more interesting features of the new instrument, has been generally published, both at the North and South; and we do not see, we repeat, why patriotic men of all parts of the country cannot cordially sustain it.

STEAMBOAT DISASTERS.—The New Orleans Picayune of the 18th has a partial account of the persons who were on board the Opelousas. Among the saved we notice the names of G. W. Bowers of New York, and Capt. Hill of the U. S. Army. Among the lost, A. J. Voorhis, of Princeton, New Jersey. The collision between the Opelousas and the Galveston occurred at midnight, when all the passengers were in their berths. The Opelousas was struck midships, and sunk in twenty minutes.

Thirty-nine persons were scalded by the explosion on board the steamer Catamet, on the Missouri River, twenty-one of them badly. Five of them died. L. B. Loring and James Mugridge, of Portland, Me., bound for Leavenworth, K. T., were badly but not dangerously scalded, and were left at Glasgow for medical treatment. The explosion took place just as the boat was starting from Shippingsport at night. The boat was filled with scalding steam, above and below, and the passengers, becoming alarmed at the explosion, rushed into the cabin in their night clothes, and suffered from scalding and inhaling the hot steam.

THE COLD UPON THE LAKES—TERRIBLE SUFFERING.—The suffering upon the lakes during the recent storm and cold weather, has been unprecedentedly severe. We have before announced the freezing to death of five of the crew of the steamer Antelope, wrecked on the passage from Chicago to Buffalo. In addition we learn by a private despatch received from Painesville, Ohio, of Nov. 27th, that John Flanders was frozen to death on board schooner Flying Cloud, on Lake Michigan. The deceased was a boy of eighteen years of age, having relatives at Newburyport, in Massachusetts.

A DUTCHMAN'S REASON FOR MARRYING.—A stout Hollander applied at the Probate Clerk's office in Cincinnati on Saturday for a "check" to get married with. A person who happened to be present asked his reason for wishing to take a wife in such hard times, when he replied, "I plenty time now—nothing to do. Soon I have work, work,—can't 'tend to mine wife. Plenty time now—so I gets married." And paying his dollar, drawn from a well-tied shot bag, he departed with his license to occupy his leisure hours in getting married and attending to his wife.

RESUMING WORK.—Two of the shoe manufactories in South Deerfield, N. H., which have been idle for some time, started on the 16th. These establishments will give employment for this winter to three hundred persons, male and female.

The shoemakers of Lynn and Marblehead are also moderately resuming work, and it is thought that all the hands will be employed again by the 1st of January.

☞ At several places in Southern New Jersey an enormous amount of white cedar timber is found buried below the marshy ground, in the salt water, sound and fit for use; and a considerable business is carried on in mining this timber, and splitting it into shingles for the market.

☞ An English paper says that Macaulay was made a peer, not because he has written history, but because he knows history—in other words, the Ministry wish for aid in the Indian discussions that are soon to take place. He resided several years in India, and though not much distinguished as a ruler of the country, is well acquainted with its people and their annals.

LIBEL SUIT WITHDRAWN. — Gardner Furniss has withdrawn his suit against the New York Times for publishing Mrs. Woodman's affidavit.

4 DAYS LATER FROM EUROPE.

ARRIVAL OF STEAMER FULTON.

$220,000 in *Specie.—Financial Matters.—Breadstuffs Declining.—Cotton Market flat.*

ST. JOHNS, N. F., Nov. 28.

The Havre and Southampton Steamship Company's steamer Fulton, Captain Wotton, arrived off Cape Race about sunset last evening, and we are indebted to Capt. Wotton for a brief summary of four days later intelligence from Europe.

The Fulton left Havre on Tuesday the 17th, and Southampton on Wednesday the 18th inst., at 3 o'clock P. M. She has eighty-one passengers and two hundred and twenty thousand dollars in specie.

The financial advices are of great interest. The good effects of the suspension by order of the government, of the Bank Charter Act are showing themselves everywhere throughout Great Britain.

The money market at London and at the other central points was firmer than at the sailing of the steamers Vanderbilt and Africa on the 14th inst., and the demand for discount at the Bank of England was less pressing. Several prominent houses had been compelled to suspend payments, but in the list of failures we do not recognize any engaged in the American trade.

Consols, under the improved feeling in financial circles, had considerably advanced, and closed on the afternoon of Tuesday, the 17th inst., at 89 a 89 5-8 for money.

BREADSTUFFS.—The Breadstuffs Market at Liverpool, London, and throughout England, continued exceedingly dull, and quite a panic prevailed. The prices were merely nominal, even for choice qualities, whilst inferior was totally unsaleable.

The Bank of France was about to extend its circulation at the time of the departure of the Fulton.

The rate of discount at Hamburg had receded to 9 1-4 per cent.

The Wolverhampton and Straffordshire Bank has stopped payment, occasioning great excitement in Wolverhampton. The liabilities of the Bank are estimated at from £400,000 to £500,000.

There is nothing new from India.

FROM CALIFORNIA.

TWO WEEKS LATER.

The Mail Steamship Northern Light, from Aspinwall on the 21st inst., with 603 passengers, the usual California and Pacific mails, and $2,118,572, including $366,000 for New Orleans, and $7000 for Havana, arrived at this port this evening.

The most important item of news by this steamer is the display before the public of a large amount of evidence, going to show that the party of 118 emigrants, massacred in the southern part of Utah, while on their way to California—news of which occurrance was sent by the last mail—were murdered by Mormons. Mr. George Powers arrived a few days previous to the steamer's departure at Los Angelos, from Salt Lake, and reports having heard many Mormons threaten to kill Gentiles passing through their country. He met a party of Mormons and Indians going towards a Mormon settlement, from the scene of the massacre, and they had in their possession bundles of clothing, and other articles, apparently the spoils of the murdered; and the whole party appeared to be on very friendly terms with one another, and all in high spirits.

Mr Powers also states that in San Bernardino, he heard Capt. Hunt, a man of authority among the Mormons, say he was "glad of the massacre, and believed the hand of the Lord was in it, whether done by red skins or whites."

P. M. Warren, of Genesee county, New York, who came through about the same time with Mr. Powers, believes also, from numerous facts observed by him, that the Mormons are guilty of the bloody crime.

Messrs. Abbott and Fine, two gentlemen who have lately been at San Andres from the Humboldt river, report great hostility on the part of the Mormons towards emigrants coming to California by the Southern Pass, and great friendship with the Indians, who had made attacks on emigrants.

Mr. Abbott says 500 emigrants have been killed this year on the road between Salt Lake City and California, by the Indians and Mormons—but this estimate is much exaggerated.

On Wednesday, Enoch Remick, Esq., Sheriff of Carroll County, deposited in the State Prison, young Joshua Eaton, jr., of Sandwich a youth of 14 years, sentenced at the Court in Ossipee, the present week, to six years at hard labor in the State Prison, for the shooting of young George Elisha Sweatt, aged 15 years, son of Dr. Sweatt of Sandwich. The killing was in July last.—Young Eaton was indicted by the Grand Jury for wilful murder, but was allowed to plead guilty of manslaughter, and was sentenced accordingly.

On his way through Dover, Sheriff R., deposited in the jail of that city, Mr. Joseph Neil Moulton, of Moultonborough, one of the manufacturers of criminals, as well as parents of most of the other evils that inflict all communities, *a rumseller*, convicted of three offences against the law for the suppression of intemperance.—*Man. Amer.*

☞ There were five alarms of fire in Cambridge, Mass., on Thursday, the 26th ult.; one occasioned by the burning of the Methodist church, which was insured for $5000.

On the same day, a Mrs. Catherine Dillan, in attempting to put coals into a stove, set fire to her apron and was so burned that she died in a few hours.

A person asked Chapman if the tolling of a bell did not put him in mind of his latter end. He replied, "No, sir, but the rope puts me in mind of yours."
